To the Honourable Speaker in Provincial Congress:

SIR: I, the subscriber, have something to observe to the honourable House if I could be admitted. It is nothing concerning my own affair, but entirely on another subject. From yours to serve,

ISAAC KETCHAM.

To the Honourable the President and Members of the Provincial Congress.

The Petition of ISAAC KETCHAM, a Prisoner now under confinement in the old City-Hall, humbly sheweth:

That your unfortunate Petitioner, deeply impressed with shame and confusion for his past misconduct, most humbly begs to lay his unhappy case before this honourable House, which is briefly as follows:

Your Petitioner is extremely sorry that upon his first being taken into custody, and after an examination made by Alderman *Waddell* in the Congress Chamber, concerning the procuring the paper for the purpose of printing certain Bills of Credit, and sincerely wish I could recall the time when he first persisted in this unhappy scheme, as your Petitioner was informed that he was to be admitted as evidence, on which account your Petitioner gave all the information in his power, to the best of his knowledge.

Your Petitioner further implores the consideration of this House in behalf of six poor children, who are now lamenting the loss of a tender mother and the imprisonment of a father. As several of them are at present dangerously ill by sore sickness, without any person to attend or comfort them—as the children are afraid to stay in the house without some grown person in to protect and take care of them, your Petitioner humbly hopes that if he could be permitted to go to them for a few days, in order to provide some proper persons to attend on them, and that your Petitioner will immediately return to *New-York* or forfeit his small estate.

Your Petitioner humbly submits his case to this honourable House, and begs that they would please to take it into their wise consideration, which will ever lay an obligation on your distressed humble servant,

June 9, 1776.

ISAAC KETCHAM.

JUNE 8, 1776.

MR. JAY: SIR—I have (last night) received intelligence from *Israel Founs* that he hath discovered a plan from whence we did not expect it. It is time it was guarded against. He is not willing to explain it to any other person but your Honour. Sir, as to my own liberty, I think I have clearly earned it, and well deserve it; though should wait with more patience if I could be of any use to the publick. But, at present, I am not used according to my expectation, but I hope that the first order that comes from this honourable House I shall be discharged.

From yours to serve,

ISAAC KETCHAM.

Sir, I must beg a word or two from Congress for my relief.

To John Jay, Esq.

Thereupon, *Ordered*, That Mr. Jay, Mr. Morris, Mr. Philip Livingston, and Mr. Hobart, be a Committee for that purpose.

Colonel Marsh delivered to Congress a copy of the Minutes of the Committee appointed by the respective Committees of Cumberland and Gloucester Counties, recommending a Brigadier-General and Brigade Major for the Militia of Cumberland, Charlotte, and Gloucester Counties, dated May 22, which was read. The persons recommended were Jacob Bailey for Brigadier-General, and Simon Stevens for Brigade Major.

And whereas the Militia of Charlotte County is a part of that Brigade, and directed to be under the same Brigadier-General, and it appears by the said Minutes that no person from that County attended that meeting:

Therefore, *Resolved*, That a copy of the said Minutes of the said Committee be forwarded the first opportunity to the Chairman of the Committee of Charlotte County, and that the said Committee be requested to send some answer in the premises, and that for the present the said recommendation remain for further consideration.

Isaac Ketcham being admitted, informed Congress that he had further conversation with the two soldiers, Lynch and Hickey; that they both said the person who was to go on board the man-of-war for cutlasses was one Gilbert Forbes, an Irishman, as he believed, by trade a Blacksmith; that on Sunday last divers of their party were admitted to them; that one of their party was with them this day, and brought them some dinner; that examinant asked his name; they said his name was John Dyall, though examinant is not altogether certain as to the exact pronunciation of the surname; that he is a middle-sized, well-set Irishman, sandy complexion, hair, and eyebrows. They further informed him that one Forbes, an Irishman, who had been a regular in the last war, and kept a publick house about thirty rods from their camp, is to be their Captain, and an artful fellow; that said Forbes has received money from the Asia to treat the corps, and that whoever brings to him such a piece of paper as they showed and gave the examinant, and is by him delivered to the Committee, pays nothing for the reckoning, and may call for what he pleases; that William Green, of the Governour's Life-Guards, an Englishman, and a kind of Camp Major, is of the corps, and acts as clerk for them; that as a certain person passed by the window yesterday they pointed at him—said his name was Taylor—that he was a constable—had been in the service the last war—an inhabitant of this town—and that he was at the head; that from their conversation, this examinant is of opinion they have not as yet fixed any plan of operation; that sometimes they talk, when the fleet arrives, of cutting down King's Bridge; that as many of them as could would go over to the regulars, and that such as should be obliged to stay will do more execution than five times the number out of the army; that a man whom they call Colonel Webb, an Old Countryman, who came from on board the ships, is now travelling about in New-England as a private gentleman; that he has money, and is bribing the men of note, who can lead others; that they say the enemy are to land at three places in this Province—on Long-Island, Staten-Island, and either on the Island of New-York or about it; that they deferred appointing all their officers lest it should breed a wrangle among them, and the disappointed ones should discover them; that Hickey says a number of Riflemen on Staten-Island and the Cape-Cod men are concerned; Lynch says only five of the Artillery are to his knowledge engaged—Hickey says more; that they had sounded the Hairy-Caps, but had not divulged the matter to them in full, but believe the quarter part of them might be brought over; that there was a proclamation of the King on board the ships, offering free pardon to all who would come over before the time of action, and also considerable encouragement as to land and houses.

The charge of secrecy was given from the Chair to the Members relative to the information given by said Ketcham.

New-York, Monday afternoon, June 17, 1776.

The Congress met pursuant to adjournment.

Present: Brigadier-General Woodhull, President.

FOR NEW-YORK.—Mr. Livingston, Mr. Jay, Mr. Sands, Mr. Randall, Mr. Stoutenburgh, Mr. Denning, Mr. Remsen.

FOR ALBANY.—Mr. Gansevoort, Colonel Rensselaer.

FOR SUFFOLK.—General Woodhull, Mr. Hobart Mr. Tredwell, Mr. Strong.

FOR WESTCHESTER.—Colonel Drake, Mr. Morris, Mr. Tompkins, Mr. Haviland.

FOR ORANGE.—Mr. Van Houten.

FOR DUTCHESS.—Mr. Schenck, Mr. J. Livingston, Mr. De Lavergne, Colonel M. Graham.

FOR ULSTER.—Colonel Hasbrouck, Major Parks.

FOR TRYON.—Mr. Moore, Mr. Harper.

FOR KING'S.—Mr. John Polhemus.

FOR CUMBERLAND.—Mr. Marsh.

FOR CHARLOTTE.—Mr. Webster, Colonel Malcom.

Colonel Morris Graham took the general oath of secrecy.

Mr. Clinton having communicated the substance of a conference he had with his Excellency General Washington,

*Ordered*, That Mr. Philip Livingston, Mr. Morris, and Mr. Jay, be a Secret Committee to confer with General Washington relative to certain secret intelligence communicated to this Congress, and take such examinations relative thereto as they shall think proper.

The Congress then examined Henry Dawkins, on the charge against him and Philip Youngs, Israel Youngs, and Isaac Youngs, for counterfeiting Bills of Credit; from which examination it would seem that Philip Youngs was not concerned with his brothers, or had any knowledge or agency in counterfeiting the Bills of Credit in question.

Whereupon, it was *Ordered*, That Philip Youngs be discharged for the present, and he is hereby discharged accordingly.

Colonel Remsen stated to Congress that it would be proper to lessen the quota of Militia to be raised in New-York—because,

1st. Their quota is too large, and will take two men out of every five, which is a much larger proportion than in any other County.

2d. Because many of them are to be placed under Officers not of their own election. And

3d. By a draft the poor man, who has no real estate, and very little personal property, is placed on a footing with a man of opulence.

Colonel Remsen further mentioned that three Pounds per man, bounty, is given in New-Jersey, and drafting thereby dispensed with, and that they compute all men who have resided there but fifteen days.

The above statement was also confirmed by Colonel Lott and Major Abeel, who suggested further difficulties.

Colonel Remsen thereupon moved that the quota of Militia to be raised by New-York be lessened.

And after some time spent in the consideration thereof, the said motion was withdrawn; and the Congress determined and resolved that Captain Hamilton's Company of Artillery be considered so many and a part of the quota of Militia to be raised or furnished by the City and County of New-York.

A Letter from the Honourable John Hancock, Esquire, enclosing a Resolution of the Continental Congress of the 14th instant, prohibiting the exportation of salted Beef and Pork, and a Resolution of the same date recommending it to the Convention of New-York to make effectual provision for detecting, restraining, and punishing disaffected and dangerous persons, were respectively read.

"By order of Congress:

"JOHN HANCOCK, *President.*"

"IN CONGRESS, June 14, 1776.—Resolved, That it be recommended to the Convention of the Colony of *New-York* to make effectual provision for detecting, restraining, and punishing disaffected and dangerous persons in that Colony, and to prevent all persons from having any intercourse or correspond with the enemy, and that General *Washington* afford his aid therein when necessary.

"By order of Congress:

A Letter from Lieutenant-Colonel *Livingston*, dated at *Fort Constitution*, June 14th, informing Congress that Captain *Childs* has enlisted a Company, though not exactly within the time limited by the Resolution of this House of the 8th May last; that he has, during his short stay at the Fort, recommended himself by an industrious application to his duty.\*

A Memorial or Petition of *Alexander Robinson*, *George Lindsay*, *Peter Sim*, and *Marinus Willet*, requesting some encouragement in the manufacturing of Salt, was read and filed.\*

\* To the Honourable Provincial Congress of New-York.

The subscribers, actuated by a real concern for the welfare of their country, are willing to erect and carry on proper works in some convenient and safe place or places, on the Sound, for the purpose of manufacturing the best blown Salt. They can deliver from one pan, if not interrupted, one hundred and twenty-six bushels per week, and if they shall be enabled to set up a sufficient number of pans, they will engage to make as much of said Salt as shall be wanted in this and the neighbouring Provinces. At present they intend to erect only one furnace, unless it shall be judged necessary that they erect more. As the expenses necessary for such an undertaking will be too great to be entirely risked by individuals at this critical time, they beg leave to make the following proposals to the honourable Congress, viz:

That as the erecting of the works will cost upwards of £1,000, and a considerable expense will be required to carry on the same, and notwithstanding all the care of the proprietors, as well in providing a place of safety and otherwise, it may so happen that the works may be destroyed by the enemy: the subscribers, therefore, humbly propose that the sum of £500 be advanced by the Congress to them, without interest, for one year and a half, towards enabling them to erect one furnace, and that the Congress accept their conjunct bond for said sum, payable only on this condition, that the design of the undertaking shall not be defeated, within the above-mentioned time, by accident arising from the precarious and unsettled state of publick affairs, as the subscribers would be still such great sufferers, should such an accident happen, that they could not carry on the said Salt works for the space of eighteen months, although they were freed from the burden of paying back the money they had received from the honourable Congress.

As this undertaking is more for the benefit of this Province than any private advantage to themselves, they therefore hope that the honourable Congress will give them such encouragement as to enable them to set the

\* To the Honourable the Provincial Congress in the City of NEW-YORK. The Memorial of GARRET ROORBACK, of the said City, humbly sheweth:

That, on the 18th day of January last, your Memorialist was appointed, by the Committee of Safety, Barrackmaster for the City and County of New-York. That he has acted in that capacity ever since, in consequence of the said appointment.

That Colonel *Moylan*, who has been lately appointed to the office of Quartermaster-General, has forbid your Memorialist to execute the duty of Barrackmaster as aforesaid.

That your Memorialist is informed that the appointment of a person to the office he now enjoys properly belongs to his Excellency General *Washington*.

That your Memorialist, being not well known to his said Excellency, and as the Committee of Safety were pleased to appoint your Memorialist to the office of Barrackmaster, he makes no doubt that he would be continued in his said office could he obtain a recommendation from this honourable House to his said Excellency.

Your Memorialist, therefore, humbly prays that this honourable House would be pleased to signify to his Excellency General *Washington* that your Memorialist is a person fit and capable (should this honourable House judge him so to be) to execute the office of Barrackmaster for the City and County of New-York.

And your Memorialist, as in duty bound, shall ever pray, &c.

GARRET ROORBACK.

† To the Honourable the Provincial Congress for the Colony of NEW-YORK.

The humble Petition of Dr. AZOR BETTS, now confined in the new Jail of the City of NEW-YORK, most respectfully sheweth:

That your Petitioner has, for some time past, been confined for having, contrary to a Resolve of the honourable the Provincial Congress, inoculated some Officers in the Continental service.

That he is in great distress, owing to the great expenses he for a long time past hath been to, to lay in confinement—his being out of his business and having a large family.

That he is sorry for his imprudent conduct, and sincerely wishes that the Colonies may enjoy the present glorious struggle, and enjoy their rights and liberties unviolated, and their present contests be crowned with success.

That the Petitioner is willing and desirous to be removed out of the Jail, and to be permitted to live in the country. He would, therefore, humbly pray to be removed to the North-Castle, in Westchester County, and have the liberty of riding ten or fifteen miles about the country to visit his patients. He will give security not to exceed the limits assigned him, and in all things to observe the orders of the honourable House.

And your Petitioner, as in duty bound, will ever pray.

NEW JAIL, June 19, 1776.

Your Committee do report: That whereas there are sundry disaffected and dangerous persons in the Counties of *Dutchess* and *Westchester*, who do now greatly disturb the peace of the said Counties, and will most probably take up arms whenever the enemy shall make a descent upon the Colony, to the great annoyance of the said Counties in particular, and of other the good people of this Colony: And whereas by reason of the several drafts which have been made in the said Counties, according to the late recommendation of the Continental Congress, the Militia thereof are rendered incapable of keeping peace and order in the said Counties without great inconvenience to themselves and much injury to, and neglect of, their private property; and inasmuch as the interest of this Colony may be materially affected by any dissensions which may prevail in the said Counties while the Continental Troops are engaged in the defence of those Counties more immediately exposed to the inroads of the enemy: Your Committee are, therefore, of opinion that it will be prudent to take into the service of this Congress one hundred men in *Dutchess* County, officers included, and fifty men, officers included, in *Westchester* County; the said men to be raised in the said Counties respectively, and confined to the service of those Counties, and to continue in pay until the 1st day of November next, unless sooner discharged by this or a future Congress.

Mr. *Jay*, from the Committee appointed to prepare a Resolution for removing doubts which have arisen respecting the true construction of a certain Association ordered by the late Committee of Safety of this Colony to be presented for subscription to the inhabitants thereof, reported the follow-

ing Resolutions; which, being read, were unanimously approved of, and are in the words following, to wit:

In Provincial Congress, New-York, June 20, 1776.

Whereas the Continental Congress, on the 14th day of *March* last, did recommend to the several Assemblies, Conventions, and Councils or Committees of Safety of the United Colonies, immediately to cause all persons to be disarmed within their respective Colonies who were notoriously disaffected to the cause of *America*, or had not associated and refused to associate to defend by arms these United Colonies against the hostile attempts of the *British* fleets and armies: And whereas the late Committee of Safety of this Colony did thereupon, on the 27th of *March* aforesaid, recommend it to the Committees of the several Cities, Counties, Manors, Townships, Precincts, and Districts, in this Colony, forthwith to cause to be disarmed all persons within their respective districts who are known to be disaffected to the cause of *America*, and also all such persons as should refuse to sign the following Association, viz:

"We, the subscribers, inhabitants of . . . . ., in the County of . . . . ., and Colony of *New-York*, do voluntarily and solemnly engage, under all the ties held sacred among mankind, at the risk of our lives and fortunes, to defend by arms the United *American* Colonies against the hostile attempts of the *British* fleets and armies, until the present unhappy controversy between the two countries shall be settled."

And whereas it hath been objected to the said form of an Association, that, by obliging the subscribers or Associates in such general and express terms to defend the United Colonies by arms against the hostile attempts of the *British* fleets and armies, it deprived them of the rights reserved by the Militia Regulations, and imposed on them the necessity of marching to the most distant of the Colonies whenever called upon; which construction of the said Association, however new and casuistical, is inconsistent and fallacious, it being manifest that the Militia Regulations could, by no rule of construction, be supposed to be repealed and abrogated by any subtle implications drawn from the said Association; but as some of the friends to the *American* cause have been influenced by this objection to refuse signing the said Association, and, in consequence thereof, been disarmed, it hath become expedient that the said Association should be so explained as to render it free from specious as well as solid objections; and therefore,

*Resolved, unanimously*, That nothing in the said Association contained shall extend, or be construed to extend, to deprive those who have subscribed it of any rights reserved to them in and by the said Militia Regulations.

And to the end that all the freemen of this Colony may associate for the preservation of *American* liberty in a form entirely unexceptionable,

*Resolved, unanimously*, That the following form of an Association be, and it is hereby, recommended to them, viz:

"We, the subscribers, inhabitants of . . . . ., in the County of . . . . ., and Colony of *New-York*, do most solemnly declare that the claims of the *British* Parliament to bind at their discretion the people of the United Colonies in *America* in all cases whatsoever, are, in our opinion, absurd, unjust, and tyrannical, and that the hostile attempts of their fleets and armies to enforce submission to those wicked and ridiculous claims ought to be resisted by arms. And therefore we do engage and associate, under all the ties which we respectively hold sacred, to defend by arms these United Colonies against the said hostile attempts, agreeable to such laws or regulations as our Representatives in the Congresses or future General Assemblies of this Colony have or shall for that purpose make and establish."

And that all persons who have been disarmed for refusing to associate with their countrymen for the defence of the United Colonies, in the form prescribed by the late Committee of Safety as aforesaid may have no pretence to complain of injustice, and that they may have a fair opportunity of convincing the publick that their refusal to sign the said Association did not arise from a disinclination to defend the rights of *America*, but merely from objections to sign to the form of the said Association, and thereby be restored to the privilege of bearing arms in support of a cause so important and so glorious:

*Resolved, unanimously*, That all persons (other than those

whom the Committees of the several Counties shall adjudge to be notoriously disaffected to the *American* cause) who have not associated in the form prescribed by the late Committee of Safety as aforesaid, be called upon (by persons to be appointed by the said Committees of the several Counties) and requested to subscribe the Association contained and recommended in and by these Resolutions.

And *Resolved, further*, That all such of the said persons as shall subscribe the same (other than notoriously disaffected persons as aforesaid) ought to be considered and treated as friends to their country; and that all arms taken from them, and not disposed of to the Continental Troops, be restored to them; and that care be taken that they respectively be paid the full price allowed for such of their arms as may have been delivered to the Continental Troops as aforesaid. And further, that all such of the said persons as shall refuse to subscribe the same (together with all notorious disaffected persons) be forthwith (if not already done) disarmed, and required on oath to declare and discover whether the arms so to be taken from them be all the arms they respectively have or had; and if not, where the residue thereof, to the best of their knowledge and belief, are deposited and may be found; and that such of them as shall refuse to take such oath, be committed to safe custody till they will consent to take it.

*Resolved, unanimously*, That it be, and it is hereby, recommended to the Committees of the several Counties in this Colony to carry the aforesaid Resolutions into execution with diligence and punctuality.

*Ordered*, That the foregoing Resolutions be forthwith printed in all the Gazettes or Newspapers published in this City, and in one thousand handbills for the use of the Counties.

*Ordered*, That the said Resolutions be read to every person to whom the Association thereby recommended shall be offered for subscription.

*Isaac Ketcham*, who was examined by this Congress on the 17th instant, being this day further examined, says, that in his last examination he mentioned a certain Colonel *Webb* as being now in the character of a private gentleman in *New-England*, bribing leading people there. This examinant says that he was mistaken in the name of that person, and that he is a Major *Brown*, who was a Major in the regular service last war.

\* NEW-YORK, June 20, 1776.

SIR: The bearer of this having brought a certain *Samuel Wooten* to Head-Quarters for having declared and avowed, as it is said, sentiments inimical to the *American* cause, and his Excellency not being here, I have thought proper to refer him to the examination of your honourable body,

*Ordered*, That the said Letters be referred to the Secret Committee.

A Letter from the Honourable *John Hancock*, dated at *Philadelphia*, June 18, 1776, was read. He therein recommends to the Convention of *New-York* to empower the General at *New-York* to call such parts of the Militia to his assistance as may be necessary to repel the enemy.

A Resolution of Continental Congress, of the 17th inst., recommending the measure recommended in the Letter of *John Hancock*, Esq., and further recommendation to empower the said Commander-in-Chief to impress Carriages and Water-craft, when necessary, for the publick service, and also to remove Ships and other Vessels in the *Hudson* and the *East Rivers*, for the purpose of securing them from the enemy, was also read and filed.

IN PROVINCIAL CONGRESS, NEW-YORK, June 21, 1776.—A Letter from General *Washington's* Secretary, enclosing a Letter from another person, relative to a suspected and dangerous man, was read.

*Ordered*, That the said Letters be referred to the Committee appointed to carry into execution the Resolves of this House against persons whose characters are equivocal and dangerous to the liberties of the Colonies.

Extract from the Minutes: ROBERT BENSON, Secretary.

\* To the Honourable Members of the Congress at this time convened for the Province of NEW-YORK.

The humble Petition of JOHN CARPENTER, Sen., and MATTHEW GLEAVES, Victuallers, and WILLBUR WOOD, Drover, sheweth:

That the said *Willbur Wood* has been employed by the said *John Carpenter* and *Matthew Gleaves* as a drover, to purchase cattle for them in the country; that he had purchased eleven head of neat cattle for them on the 16th of June instant, set out with them from his place of abode in *Dutchess* County, in this Province; that yesterday evening, about four o'clock, after said *Willbur Wood* had delivered the cattle at *Richard Verian's*, the *Bull's-Head*, in the *Bowery Lane*, for said *Carpenter* and *Gleaves*, he went over to acquaint them of having brought such cattle, and where he had left them; that on his return to *New-York*, near the *Fly Market* he met with one *Mr. Daniel Inslow* and two other persons, who invited said *Willbur Wood* to go with them and drink some beer, which he did, as having been before acquainted with said *Inslow*, when in discourse, said *Wood* was asked if he did not bring down cattle for said *Carpenter* and *Gleaves*, which he answered in the affirmative. They then replied that *Carpenter* should have none of them, for if he had, said *Wood* would meet with trouble, and directed him to come to said *Bergen's*, this day, at two o'clock in the afternoon, and he should be paid for them by the said *Mr. Inslow*. That said *Carpenter* and *Gleaves* have frequently supplied the Continental troops with provision, and said *Carpenter* at this time supplied two of the hospitals; and if these cattle are wanted for the troops, they are very willing they should part with the cattle for that purpose; but if that is not so, your Petitioners most humbly pray that this honourable Board will be pleased to take the premises into consideration, and make such order as shall appear necessary for the said cattle to be restored to your Petitioners, *John Carpenter*, Sen., and *Matthew Gleaves*, who wait on this honourable Board with this their humble Petition, to give such further account and satisfaction in the premises as this honourable Board may require.

JOHN CARPENTER, WILLBUR WOOD.  
MATTHEW GLEAVES,

NEW-YORK, Friday morning, June 21, 1776.

Livingston*, Esq., as Treasurer of this Congress, pay unto Mr. *Nicholas Low* the sum of £450 18s., in full for one thousand five hundred and three pounds Gunpowder, purchased of him by order of this Congress, for this Colony, on the 16th *April* last, and take his receipt for the same.

*Daniel Inslow* attending, was called in, as also the complainants; who were respectively heard.

Thereupon, Resolved and Ordered, That *Daniel Inslow* do immediately redeliver to *Wilber Wood* the Cattle which he took from him, and that he see them safely driven to the yard from which they were driven.

The said *Daniel Inslow* being called in again, and the Order read to him, he was reprimanded from the Chair for his imprudent conduct, and discharged.

Brigadier-General *Scott* represented to the House that the service rendered it necessary that a Major of Brigade be immediately appointed to the detachment of Militia under his command, and requested the Congress to appoint a person to that office.

Thereupon, Resolved, That General *Scott* be authorized and requested to nominate and appoint such person to said office as he shall think proper.

Whereupon, General *Scott* nominated and appointed Mr. *Nicholas Fish* to be his Brigade Major, and requested that he be commissioned for that purpose; which was unanimously agreed to.

General *Scott* informed the Congress that the Majority in Colonel *Lasher's* Regiment is vacant, and that a Major is a very necessary and useful Officer in forming a new Regiment. The same being immediately taken into consideration, it was unanimously agreed to.

And Ordered, That Colonel *Lasher*, with his Officers, be requested to nominate a proper person for Major to his Regiment, and return his name to this Congress to be commissioned.

*Egbert Benson*, Chairman of the Committee of *Dutchess* County, delivered into Congress a written statement of a charge of bribery and corruption in an election for Officers of a Militia Company in *Rhinebeck* Precinct, and of the proceedings of the said Precinct Committee thereon.

Ordered to be read, and that the same be taken into consideration when the present hurry of business is over.

On motion, Resolved, That it be recommended to the General Committee of *King's* County immediately to take

effectual measures that all the Boats and Craft in the Bay, on the south and southwest sides of the said County, be drawn up on the upland to such a distance from the water as to prevent as much as possible the disaffected persons in that County from keeping up a communication with the enemy, and that the Oars and Sails belonging to the said Boats and Craft be secured in the most effectual manner.

Mr. *Bancker*, one of the Members of the Committee for auditing the Accounts of this Congress, informed the Congress "that Captain *Ezekiel Hyatt*, of Colonel *McDougall's* Regiment, had delivered into the said Committee the Billeting-Roll of his Company;" that the said Billeting-Roll has been examined by Mr. *Gerard Bancker*, and found to be true and right; that the men of Captain *Hyatt's* Company are very mutinous for want of their money; and as there is but one Member of the said Committee in town, the said Billeting-Roll cannot be paid off otherwise than by an order from Congress.

Thereupon, Ordered, That *P. V. B. Livingston*, Esq., as Treasurer of this Congress, pay to Captain *Ezekiel Hyatt*, of Colonel *McDougall's* Regiment, the sum of £141 1s. 11d., in full for the billeting of the said Company.

FOR QUEEN'S.—Colonel *Blackwell*.

The Resolutions for raising two Companies of fifty men each, Officers included, in *Dutchess* County, and one Company of fifty men, Officers included, in *Westchester*, were read; and being again read, were unanimously approved of, and are as follows:

Whereas there are sundry disaffected and dangerous persons in the Counties of *Dutchess* and *Westchester*, who do now greatly disturb the peace of the said Counties, and will most probably take up arms whensoever the enemy shall make a descent upon this Colony, to the great annoyance of the said Counties in particular, and of other the good people of this Colony: And whereas by reason of the several drafts which have been made in the said Counties, according to the late recommendation of the Continental Congress, the Militia thereof are rendered incapable of keeping peace and order in the said Counties without great inconvenience to themselves and much injury to, and neglect of, their private property: And inasmuch as the interest of this Colony may be materially affected by any dissensions which may prevail in the said Counties while the Continental Troops are en-

gaged in the defence of those Counties more immediately exposed to the inroads of the enemy: Therefore,

*Resolved*, That one hundred men, Officers included, be raised in *Dutchess* County, and that fifty men, Officers included, be raised in *Westchester* County, and taken into the pay and service of this Congress, and confined to the service of those Counties, and to continue in pay until the 1st day of *November* next, unless sooner discharged by this or a future Congress of this Colony.

That the one hundred men to be raised in *Dutchess* County be divided into two Companies, each Company to consist of one Captain, one Lieutenant, three Sergeants, three Corporals, one Fifer, one Drummer, and forty Privates; and that the fifty men to be raised in *Westchester* County consist of one Captain, one Lieutenant, three Sergeants, three Corporals, one Fifer, one Drummer, and forty Privates.

That the pay of those three Companies be the same as the pay of the Continental Troops.

That the Captains be allowed 18s. each per week, the Lieutenants 12s. each per week, and the Sergeants, Corporals, Fifers, Drummers, and Privates, 8s. each, per week, in lieu of all Rations and Subsistence.

That *Melancthon Smith* be appointed Captain of one of the said Companies to be raised in *Dutchess* County, and that *John Durbin* be appointed Captain of the other, and that *Micha Townsend* be appointed Captain of the said Company to be raised in *Westchester* County.

That the General Committees of the said Counties be authorized to nominate and appoint the Subaltern Officers to the said Companies in their Counties respectively.

That the said three Companies be deemed one Corps; and that *Melancthon Smith* be Captain Commandant, that *Micha Townsend* be the second Captain in rank, and that *John Durbin* be the third Captain in rank, in said Corps.

That the General Committees of the said Counties be authorized and requested to appoint a Mustermaster in their respective Counties, to muster the said Companies, and that they transmit the names of such Mustermasters to the Committee appointed to audit the Accounts of this Congress, without delay.

That the said three Companies be subject to the order and direction of the General Committee of their respective Counties, or such other person or persons as this or a future Congress of this Colony shall direct.

*Ordered*, That a certified copy of the foregoing Resolutions be transmitted to the General Committees of *Dutchess* and *Westchester* Counties.

And *Ordered*, That Commissions be immediately issued to the Captains, and that blank Commissions be sent to the said Committees, to be by them issued to the Lieutenants.

*Resolved, unanimously*, That the President of this Congress for the time being be enabled to call to his assistance during the daily adjournments of this Congress any five or more of the Members, and to take such measures as they shall judge necessary for the safety and preservation of this Colony, and that this power be continued until *Tuesday*, the 25th instant, and no longer.

Lord *Stirling* attending, was requested to come in. He informed the Congress that he thought the Guard over the Prisoners at the City-Hall was insufficient, and desired to know whether the Congress chose to have the said Guard reinforced.

The President, by order, informed his Lordship that the Congress requested of him to order such reinforcement as he shall think necessary.

Whereas there is reason to apprehend a speedy invasion of this Colony by a powerful Fleet and Army under the authority of the King of *Great Britain*: And whereas this Congress are informed that the Commissary-General of the Continental Troops has orders, in the purchasing of live Cattle for the use of the Troops, to give the preference to such Cattle as are fit for use at or near the sea-coast of the United Colonies:

*Resolved, therefore*, That it be recommended to the inhabitants of this Colony at or near the sea-coasts to sell at a reasonable price to the said Commissary-General or his Deputy all such Cattle as he shall judge are fit for the purpose aforesaid.

And whereas disputes may arise about the price, it is

*Resolved, unanimously*, That the said Commander-in-Chief be, and he is hereby, authorized and empowered to impress Carriages and Water-craft within this Colony, when necessary, for the publick service, and also to remove Ships and other Vessels in *Hudson* and the *East Rivers*, for the purpose of saving them from the enemy.

I would be glad you would send me the arrangement of the officers in my Regiment if you have it.

Therefore, *Resolved*, That it be recommended to the Brigadier-General and the General Committee of the said County to pursue the most speedy measures to complete their quotas of the three thousand Militia to be raised in this Colony, agreeable to the Resolves of this Congress of the 7th instant, and to forward their march with all possible speed, and make return to this Congress of the names of all such persons as neglect or refuse to comply with the aforesaid Resolve.

Ordered, That a Warrant be issued to Mr. *Holmes* on the conditions as above-mentioned.

A motion was made by Mr. *Morris*, in the words following, viz: I move that *Augustus Van Horn*, *Vincent Pierce Ashfield*, *Thomas W. Moore*, and *John L. C. Roome*, be sent for; and, upon their signing the Association and giving security to appear and answer to the charges brought against them, that they be discharged.

Debates arose on the said motion; and the question being put, it was carried in the affirmative, in the manner following, that is to say:

The said *John L. C. Roome*, on the said Association being tendered to him, declared that it was against his conscience to sign the same; and that if he did, it would be only for the sake of being discharged from his present confinement, that he might, as he is indisposed, have an opportunity of going into the country for the benefit of the fresh air.

Thereupon, Ordered, That he be remanded to Jail until the further order of this Congress.

*Mr. Jay*, from the Secret Committee, brought into Congress the Examinations and Depositions of sundry persons taken by the said Committee; which he offered to report to the House, with their proceedings.

*Mr. Jay* informed Congress that the said Committee have not gone through the whole of the business to which they were appointed, and requested leave to sit again; which leave was accordingly given. And as the House is very much engaged in other necessary business:

Ordered, That the reading of the said Examinations and Depositions, as well as the receiving of the said Report, be postponed for the present.

And Ordered, That *Mr. Jay* and *Mr. Livingston* remain in Congress this afternoon.

General *Washington's* Letter, together with the opinion of several General Officers at a Council held on the subject of disaffected and dangerous persons, as also on the subject of removing or securing the stock of Cattle and Horses on *Nassau* and *Staten-Island*, were respectively read and filed. The former is in the words following, that is to say:

"Head-Quarters, New-York, June 27, 1776.

"SIR: The necessity of the most vigorous and decisive measures, in our present circumstances, will, I doubt not, justify, to your honourable body, the removal of the stock of cattle and horses from those parts of the coast most exposed to the enemy. After a long and fatiguing voyage they will need refreshments of this nature, and there is no doubt they will have them, if possible, on any terms. Common prudence, therefore, and a regard to our own safety, strongly evince the necessity of depriving them of such supplies as will enable them to act with more vigour and spirit against us. Though painful and disagreeable, it seems to be a measure which the great law of self-preservation now requires.

"Enclosed, I transmit the unanimous Resolution of a Council of General Officers, advising such removal without delay, in which it is proposed to pay a suitable regard to the necessities of the people. I flatter myself that, in a matter of such importance and difficulty, the honourable body over which you preside will approve of the proposal, and carry it into execution, or co-operate with me in the most effectual steps for this purpose.

"I have the honour to be, with the greatest respect and regard, sir, your obedient, humble servant,

"GEORGE WASHINGTON.

"To the Honourable the President of the Provincial Congress of New-York."

*Resolution of the Council enclosed.*

"In considering the several matters which your Excellency has been pleased to refer to us, we do, with regard to *Long-Island* and *Staten-Island*, think it absolutely necessary, for the safety and defence of this Colony, that all the stock of cattle and sheep (except such as may be requisite for the present subsistence of the inhabitants) be removed to a distance from the sea-coast, and that this be done immediately, as, on the arrival of the enemy, it will be impossible to give attention to this matter; and also that all the horses be either removed, or put under such regulations as that they may be removed on the first approach of the enemy. And with regard to the disaffected inhabitants who have lately been apprehended, we think that the method at present adopted by the County Committees, of discharging them on their giving bonds as a security for their good behaviour, is very improper and ineffectual, and therefore recommend it to your Excellency to apply to the Congress of this Province to take some more effectual method of securing the good behaviour of those people, and in the mean time that your Excellency will order the officer in whose custody they are, to discharge no more of them until the sense of Congress be had thereon.

"WILLIAM HEATH,

"JOSEPH SPENCER,

"NATHANAEL GREEN,

"STIRLING.

"June 27, 1776."

Thereupon, Ordered, That *Mr. Wickham*, *Mr. Conner*, *Mr. Tredwell*, *Colonel Blackwell*, and *Mr. Leffertse*, be a Committee, to confer with his Excellency General *Washington* on the subject of removing or securing the Cattle and Stock from such parts of *Nassau* and *Staten-Island* as are most exposed to invasion; and that they have power to co-operate with his Excellency in carrying into execution all such measures as they may, in conjunction with him, concert and adopt for that purpose.

And Ordered, That the same Committee confer with the General on the subject of his application contained in *Colonel Reed's* Letter relative to disaffected persons, who are now or may be in the custody of any of his Officers.

A Letter from *Colonel Reed*, with the Letter from Lieutenant *Davison* on board the *Schuyler*, armed sloop, at *Fire-Island Inlet*, giving information of General *Howe's* sailing with the fleet from *Halifax* for New-York, was read.

*Ordered*, That the said Letters be referred to General Scott.

*Resolved and Ordered*, That Colonel Broome, Colonel Rensselaer, and Colonel Brasher, or any two of them, be a Committee to superintend the Prisoners of the Continental Congress in this Colony, and of the Congress of this Colony, and that they be authorized to employ proper persons to furnish the said Prisoners with Rations, agreeable to certain Resolves of the Continental Congress of the 21st of May last, and generally to take care that the said Prisoners be properly secured and disposed of, and treated with justice and humanity.

*Ordered*, That Colonel Allison and Mr. Pye be a Committee to inquire into the conduct of Captain Blauvelt's Company of Militia on the south side of the Mountains in Orange County, who have not drafted their quota of men to reinforce the Continental Army at New-York.

*Resolved*, That Colonel Allison be, and he is hereby, authorized and requested to cause all the Saltpetre which he hath or shall purchase on account of the Colony, pursuant to a Resolve of the Congress of this Colony, to be manufactured into or exchanged for good Gunpowder, and that he deliver any quantity thereof, not exceeding five hundred weight, to the General Committee of Ulster County, to be disposed of by the said Committee in such manner as they shall think proper, for the defence of the said County.

A draft of a Letter to the Committees of *Huntington* and *Southold*, relative to deserters from on board the Provincial armed sloop *Montgomery*, now lying at *Fire Inlet*, on the south side of *Long-Island*, was read and approved of, and is in the words following, to wit:

In Provincial Congress, New-York, June 28, 1776.

GENTLEMEN: We have received information that six men, viz: *Thomas Butler* of New-York, *Richard Guildersleeve*, *Ebenezer Conklin*, and *Solomon Ketcham*, Jun., of *Huntington*, and *Jonathan Armstrong* and *Elisha Reeves*, of *Southold*, belonging to the sloop *Montgomery*, Captain *William Rogers*, did, on the night of the 19th instant, desert from *Fire Inlet*. We think it necessary that every measure should be taken to discourage such desertions, and therefore request you to use your endeavours to secure said deserters, especially such of them as belong to your District, and cause them to be returned to the said Captain *Rogers* as soon as possible, who has offered a reward of two dollars, besides reasonable charges, for each man thus secured and returned to him.

We are, gentlemen, your very humble servants.

By order:

To the Committees of *Huntington* and *Southold*.

*Ordered*, That copies thereof be engrossed, and signed by the President *pro tem.*, and transmitted.

"Philadelphia, June 26, 1776.

"GENTLEMEN: You will perceive from the enclosed Resolves, which I do myself the honour of transmitting, in obedience to the commands of Congress, that they have appointed not only the Field Officers in the Regiment to be raised in your Colony, but likewise a number of subalterns.

"The reasons that induced Congress to take this step, as it is a deviation from rule, should be particularly mentioned. I am therefore directed to inform you that, in consequence of their being furnished with a list of the officers who had served in *Canada*, they have been enabled to appoint, and in fact have only appointed, such as were originally recommended and appointed by the Provincial Congress of your Colony, and have served faithfully both the last summer campaign and through the winter. It is apprehended, therefore, the Congress have only prevented you in their appointments, and that the same gentlemen would have met with your approbation for their services to their country; added to this, the last intelligence from *Canada*, showing our affairs to be in the most imminent danger, rendered the utmost despatch necessary, that not a moment of time might be lost. The other officers of the battalion, I am to request you will be pleased to appoint, and exert every nerve to equip the battalion as soon as possible. We are, very respectfully, gentlemen, your most obedient servants.

To the Committee of *Elizabethtown*.

Ordered, That a copy thereof be engrossed, and signed by the President, and transmitted.

Whereas it has been represented to this Congress that Lead will speedily be wanted for the use of the Army in the defence of this City and Colony:

Therefore, Resolved, That Messrs. *Daniel Dunscomb* and *Samuel Prince* be requested and authorized, and they are, and each of them is, respectively, hereby authorized and empowered and requested to take to their assistance such persons as they may think proper, and forthwith to cause all the Lead of the windows in this City, and also all the leaden weights, (except such small weights as are in use in the course of trade,) to be collected and delivered to *Peter T. In Provincial Congress, New-York, June 30, 1776. 2  
Sunday afternoon. 5

Whereas this Congress has been credibly informed that a majority of the men who compose the Company of Militia in *Haverstraw* Precinct, in *Orange* County, now or lately commanded by Captain *Avery Blauvelt*, are notoriously disaffected, and have refused to suffer drafts to be made from said Company for reinforcing the Army at *New-York*:

*Resolved*, That Colonel *A. H. Hay* be, and he hereby is, empowered, authorized, and directed, immediately to apprehend seven of the most refractory men of the said Company, and also to seize and take all the arms belonging to the disaffected persons in said Company, and that he, without loss of time, send the said seven men and arms, to be taken as aforesaid, under a proper guard, to this City, and cause them to be delivered to Brigadier-General *Scott*.

And in order that the said Colonel may be enabled with ease to execute the business aforesaid,

*Resolved*, That he be at liberty to apply to Captain *Johnson* and Lieutenant *Martin*, or either of them, with their recruits, to aid and assist him and the Militia under his command in the execution of this order.

*Resolved*, That the Commander-in-Chief of the Continental forces be, and is hereby, authorized and empowered, whenever he shall judge it necessary for the defence of this Colony, to apply to the Brigadier-Generals thereof for any proportion of the Militia under their respective commands; and that on receipt of such application they be, and they are hereby, directed to call out such part of the Militia and march to any place or places within this Colony as the said Commander-in-Chief shall order for its defence, and that this order shall continue until revoked by this or some future Congress or Legislature of this Colony; and that the said Commander-in-Chief be, and he is hereby, authorized to take such measures for apprehending and securing dangerous and disaffected persons as he shall think necessary for the security of this Colony and the liberties of *America*.

*Ordered*, That the General have a copy of this Resolution.

Whereas this Congress has received intimations that divers disaffected and dangerous persons in this Colony have lately left their usual places of residence, and secreted themselves in woods and swamps and other places, in all probability with a design to join the enemy when an opportunity shall offer, which, if not prevented, will greatly endanger the peace, quiet, and safety of the inhabitants:

*Resolved, therefore,* That it be, and it is hereby, recommended to the Committees of the several Towns, Cities, Manors, Precincts, and Districts, in this Colony, to cause to be apprehended and brought before them all such persons as are above described, and that they cause them to be sent, under safe guard, to some Jail or other place of security in this Colony; and the said Committees are hereby empowered to order the Officers of the Militia, in their respective Districts, to carry this Resolution into effectual execution.

Whereas there is great reason to apprehend that an attack will soon be made upon this City; and whereas, during the tumult and confusion incident upon such attack, it may be difficult to assemble a sufficient number of Members to form a Congress; and whereas the Minutes and other necessary publick Papers and Records of this Colony ought to be removed from this City; and whereas the present or future Congress of this Colony, as well by reason of the removal of the Papers aforesaid, as for other causes and considerations, will be unable to deliberate and determine in this City on the several important matters submitted to their consideration:

*Resolved, therefore,* That the Treasurer and Secretaries of this Congress be, and they hereby are, directed forthwith to repair, with all and singular the publick Papers and Money now in their custody or possession, unto the *White-Plains*, in the County of *Westchester*; and that this Congress be, and it hereby is, adjourned unto the Court-House in the *White-Plains* aforesaid, there to meet on *Tuesday*, the 2d day of *July* next, and proceed upon business; and that the next

Congress of this Colony do meet at the same place on *Monday*, the 8th day of *July* aforesaid, unless otherwise ordered by this Congress.

Debates arose, and the question being put, it was carried in the affirmative, in manner following, that is to say:

*For the Question.*

4 *Westchester*,  
5 *Dutchess*,  
4 *Ulster*,  
3 *Tryon*,  
2 *Charlotte*,  
2 *Cumberland*.

*Against the Question.*

*Ordered,* That all the Lead, Powder, and other Military Stores belonging to this State, and now in the custody of *Richard Norwood* and Colonel *Peter T. Curtenius*, at the City of *New-York*, be forthwith removed from hence to the *White-Plains*, and placed there in such safe place and secured in such manner as *Mr. Zebediah Mills* shall order and direct; and the Committee of the County of *Westchester* are requested to afford him all necessary aid in executing this business, and (if he should think it expedient) to order detachments from Captain *Townshend's* Company to guard the said stores.

*Ordered,* That *Mr. Mills* be, and he hereby is, empowered to impress Teams, Carriages, and Boats, for the purpose aforesaid.

*Ordered,* That the Treasurer pay *Mr. Mills* fifty dollars, to defray the expenses which may attend executing the order aforesaid, he accounting therefor to this Convention.

#### BALTIMORE COUNTY COMMITTEE.

At a special meeting of the Committee, May 7, 1776:

Present: Andrew Buchanan, Chairman *pro tem.*, T. Harrison, J. Merryman, J. E. Howard, W. Aisquith, J. Cradock, J. Calhoun, J. Cockey, J. Boyd, Secretary *pro tem.*

*Alexander McGee* was brought before the Committee, and several allegations being read to him of a dangerous nature to the peace and union of the people in their present opposition to *British* tyranny, which allegations are supported by the testimony of Messrs. *William Buchanan*, *William Lyon*, *Robert Lyon*, and *James Calhoun*, and said *McGee* acknowledging the truth of some, and equivocating as to others of them, appears to this Committee to be a dangerous man, and highly inimical to *American* liberty; wherefore they are of opinion that the said *McGee* ought to be kept in safe custody till further orders from the Convention and Council of Safety, and that the following account of the matter be transmitted to them for that purpose:

"In Committee, Baltimore, May 7, 1776.

"GENTLEMEN: The enclosed contains opinions and sentiments of a certain *Alexander McGee*, an inhabitant of this County, which appear to this Committee to be dangerous and inimical to the cause in which *America* is embarked. On examining the man, he avowed some of them, and equivocated as to others, and as he appears to have some influence among the common people, the Committee thought it their duty to order him into custody, and to be kept safe till your further directions can be obtained. If you choose that he should be sent down to you, please to direct in what manner, and by whom he is to be guarded, and at whose expense, as the commanding officer here apprehends he has no authority to act in the matter, further than to guard him till your answer can be received.

"We are, &c."

(Signed by all present.)

Attest: GEORGE LUX, Secretary.

Attest: GEORGE LUX, Secretary.

Messrs. *Wheeler Murray* and *James Boring* having alleged that Mr. *Thomas Stansbury*, Jun., has declared an intention of joining the Ministerial forces in case they should come here:

The same gentlemen are also appointed to appraise the Guns and some Powder brought in to-day by Captain *William Cromwell*.

Seven and a half pounds of Powder, taken from *Harry Dorsey Gough*, Esq., (a non-Associator and non-Enroller,) by Captain *William Cromwell*, were left with the Committee, to be disposed of by them as shall to them seem expedient.

Mr. *John Merryman*, Jun., is appointed Treasurer and Receiver of the Assessments to be collected from the non-Enrollers by the different Collectors of this County.

Mr. *George Woolsey* is appointed Collector of the Assessments from the non-Enrollers of *Westminster*, *Baltimore Town*, *West*, *Baltimore Town*, *East*, and *Deptford* Hundreds.

Mr. *Charles Rogers* for *Middlesex* and *Patapsco*, Lower, and Mr. *William Cromwell* (of *William*) for *Soldiers' Delight* and *Patapsco*, Upper Hundreds.

"In Committee, &c.

"Mr. A . . . . B . . . . :

"SIR: You are hereby appointed and empowered to collect and receive all sums of money by the Committee of *Baltimore* County assessed, and to be assessed, on the non-Enrollers of . . . . . Hundred, and in default of payment, (after giving one month's notice of such assessment,) to distrain the goods and effects of said defaulters, and sell and dispose of the same in the same manner that goods may be distrained and sold by law for County levies. In so doing this shall be your Warrant.

"Signed per order: ——— Chairman."

Messrs. *James Boring* and *Wheeler Murray* having, in a written paper, exculpated *Thomas Stansbury*, Jun., from the charge alleged against him at the last meeting of the Committee:

Upon motion, *Resolved*, *unanimously*, That the charge exhibited against Mr. *Thomas Stansbury*, Jun., is groundless, and that the said *Thomas Stansbury*, Jun., is entitled to the thanks of every friend to the cause of *American* liberty in general, and this Committee in particular, for his uniform, warm, and forward zeal in the cause of liberty since the commencement of the present unhappy disturbances.

Upon motion by Doctor *Robert Lemmon*, Captain *Stephen Gill* is hereby requested to attend on *Monday*, the 10th of *June*, to answer to the allegations of the aforesaid Dr. *Robert Lemmon* and others, contained in a paper just now handed in to the Committee.

Attest: GEORGE LUX, *Secretary*.

At a meeting of the Committee, *May 28*, 1776:

Present: *William Lux*, Chairman, *A. Buchanan*, *B. Nicholson*, *T. Harrison*, *W. Aisquith*, *J. Calhoun*, *J. Griest*, *J. Smith*, *J. Boyd*.

Whereas many of the Troops in the Provincial service, as well as the Militia, have never had the Small-Pox, and it is necessary and expedient in this time of danger to endeavour as much as possible to prevent that contagious disorder from spreading; this Committee, taking the same into consideration,

Do *Resolve*, That it be recommended to the Physicians and Surgeons in this County to desist from inoculating any person or persons whatever within the said County until the further determination of the Committee.

Signed per order: WILLIAM LUX, *Chair'n*.

In consequence of the above request from the Committee, several Doctors waited on them, and signed the following Paper:

We, the subscribers, practising Physicians in the Town of *Baltimore*, sensible of the propriety and necessity of the Resolve of the Committee that inoculation for the small-pox should, for the present, be suspended, do cheerfully engage that we will not, for the future, inoculate any persons whatever in this County, till the further directions from this Committee.

JOHN BOYD, CH'S FRED. WIESENTHALL,  
PATRICK KENNEDY, HENRY STEVENSON.  
WILLIAM BEARD,

Attest: GEORGE LUX, *Secretary*.

At a special meeting of the Committee, *May 30*, 1776:

Present: *Samuel Purviance*, Jun., Chairman, *W. Lux*, Vice-Chairman, *J. Smith*, *J. Calhoun*, *J. Boyd*, *W. Aisquith*, *Z. McCubbin*.

Doctor *William Lyon* made application to the Committee, informing them that Mr. *Charles Grahame* had intended to bring up four of his children to his house to be inoculated by him, previous to the Resolve of the 28th instant, and requested the sense of the Committee thereon, whether or not he might have permission to proceed in the said inoculation, as he apprehended that, although he intended to perform the operation himself, yet he did not consider himself as a practising Physician, and that, from the distance of his situation from town, he was of opinion there could not be the least danger of the infection's spreading. The Committee, considering duly his request:

*Resolved*, That however willing they may be to oblige Mr. *Grahame*, they cannot deviate from their general line of conduct, and therefore refuse the requested permission.

Attest: GEORGE LUX, *Secretary*.

The Committee met on *Monday*, *June 3*, 1776:

Present: *Samuel Purviance*, Jun., Chairman, *J. Smith*, *T. Gist*, *J. Boyd*, *J. Griest*, *W. Wilkinson*, *J. Merryman*, *J. Calhoun*, *B. Griffith*, *T. Sollers*, *A. Britain*, *J. Gillis*, *J. Sterrett*, *T. Rutter*.

Mr. *William Holmes*, who lives on *Todd's Island*, near *North-Point*, proposed to this Committee that, for £6, he would give intelligence up the Bay and to this Town, when the enemy were coming up the Bay, for one year; that he will keep a Boat in constant readiness for the purpose, to run up the Bay, and will despatch the intelligence for the Town by Mr. *Roles*, who lives near him on the main, who shall be paid for his trouble in riding up to Town by the Committee.

The Committee, on considering Mr. *Holmes's* proposals, agreed to lay the same before the Council of Safety.

Mr. *Hugh Westbay* presented a Petition to this Committee, setting forth his poverty, and praying an exemption from his fine as being a non-Enroller.

Whereupon it was *Resolved*, *n. c. d.*, That his fine ought not to be remitted.

Miss *Goddard* informed this Committee, by Letter, that on *Wednesday* last Mr. *George Somerville* came to her office and abused her with threats and indecent language on account of a late publication in her paper. The Committee, conceiving it to be their duty to inquire into everything that has a tendency to restrain the liberty of the Press,

*Ordered*, That a Summons be issued for the said *George Somerville*, returnable at three o'clock P. M.

Complaint being made to the Committee by Mr. *Benjamin Levy*, Clerk to the Mercantile Company, that *Conrad Appleman*, a Member of said Company, refuses to pay the fines assessed on him for non-attendance of the Company:

*Ordered*, That a Warrant be issued to distrain the effects of the said *Appleman*, and to dispose of as much of the same as may discharge the fines incurred, agreeable to the Resolve of the Convention.

Which Warrant is worded as follows:

"Whereas it is certified to this Committee that a certain *Conrad Appleman* (who has enrolled in the Mercantile Company of Militia) has been fined by the Officers of the said Company in the sum of 15s. for his non-attendance at three several times at the mustering of said Company, which fines he refuses to pay: These are therefore to require and command you to seize and distress the goods and effects of the said *Conrad Appleman*, sufficient to pay the said fines, and sell the same agreeable to the Resolve of the Convention in such case made and provided; and for your so doing, this shall be your sufficient Warrant.

"Signed per order:

"SAMUEL PURVIANCE, Jun., *Ch'n*.

"To *C. Frolick*."

Mr. *Joshua Gist* is appointed Collector of the Assessments in *Pipe Creek* and *Delaware* Hundreds.

Upon motion, *Ordered*, That blank Enrollment and Association Papers be sent to Mr. *John Murray*, in *Pipe Creek* Hundred, to get the same signed by such persons in said Hundred, between the *Conawaga* Road and the *Black Rock*

Run, as have not yet signed the same; and that the following Letter be written to him:

"In Committee, Baltimore, June 3, 1776.

"SIR: This Committee being informed that a number of persons in *Pipe Creek* Hundred, particularly those situated between the *Conawaga* Road and the *Black Rock* Run, have not had an opportunity of signing the Association and Enrollment Papers, enjoined by Convention, for want of persons being appointed to carry round the same in said District, it is therefore agreed upon to transmit copies of the same to you, as a person well affected to the cause of liberty, requesting that you will endeavour to get the same subscribed, and that you will make a proper return to this Committee as soon as possible of the same, with an exact list of all such persons in said District as refuse to enroll or associate.

"Per order of the Committee:

"SAMUEL PURVIANCE, Jun., Ch'n."

Mr. *George Somerville* not having appeared agreeable to Summons, and also behaving in an insolent manner to the Messenger from this Committee, Captain *Sterrett* is directed to get a detachment of his Company and bring him to the Committee-Room, even by force, if necessary.

The following Certificate was, at the request of Mr. *Dugan*, and agreeable to the Order of the Committee, signed by the Chairman:

"It is hereby certified that Mr. *Cumberland Dugan*, Merchant of this place, has been extensively concerned in the trade for *New-England* for several years past, and that we have no doubts concerning the facts set forth in his Petition. The Schooner belonging to Captain *Adams*, in which he intended shipping his flour, &c., is one of the vessels which was sunk at *Whetstone* in *March* last.

"Signed per order of the Committee:

"SAMUEL PURVIANCE, Jun., Ch'n."

Mr. *George Somerville* (guarded by a detachment of the Independent Company) came before the Committee, and it appearing to this Committee, by the evidence of Miss *Godard*, that his conduct had a direct tendency to influence the freedom of the Press, which in every free country should be inviolably maintained, and on account of his contemptuous treatment of this Committee:

It was *Resolved, unanimously*, That Mr. *Somerville* be censured by the Chairman; and, as he now refuses to sign the Enrollment or Association Papers when tendered to him, it was determined that he give bond, with security, for his future good behaviour, agreeable to directions of the Convention.

GEORGE LUX, Secretary.

The Committee met on *Monday, June 10, 1776*:

Present: Samuel Purviance, Jun., Chairman, W. Lux, Vice-Chairman, B. Nicholson, A. Buchanan, W. Buchanan, C. Ridgely, (of William,) J. Merryman, W. Wilkinson, T. Harrison, J. E. Howard, W. Tolley, Jun., J. Gittings, B. Griffith, J. Calhoun, W. Aisquith, J. Cradock, T. Sollers, A. Brittain, J. Cockey, D. Lux, J. Boyd.

Whereas Doctor *Robert Lemmon* did, at the last meeting of the Committee, in the behalf of himself and others, complain of an undue election of the Officers in a Company of Militia commanded by Captain *Stephen Gill*; and the parties appearing and adducing their evidences, the Committee, on considering the same,

Do *Resolve*, That the election of Officers in said Company be set aside, and a new one be ordered to be held on *Saturday*, the 22d instant, at two o'clock in the afternoon, at *Phillis Zane Cross's*, and that each Officer be voted for separately, and a list of the voters' names be taken by the Clerk at the time the tickets are delivered; and the Committee recommend to all the Enrollers in said Hundred, as well as others who have not yet enrolled but shall on or before the said day enroll themselves, to attend on the said day, and endeavour to compose two Companies, to consist of at least forty Privates each, which they conceive can easily be effected, and will be the best proof they can give of their attachment to, and preservation of, the liberties of their country.

Upon motion, *Resolved, unanimously*, That when any non-Enroller appears to this Committee to have been assessed more than what his circumstances will allow, that the

Committee have power of remitting such part of the fine as to them shall seem expedient.

Upon motion, Mr. *Leonard Harbaugh's* fine of £10, for not enrolling, was reduced to £6.

Upon application by Captain *William Stone*, a Letter (under the sanction of this Committee) from Mr. *Isaiah Robinson* (First Lieutenant to Captain *Stone*, on board the *Hornet* sloop-of-war, from this Port) to a Member of this Committee, was ordered to be published, in order to remove any prejudices that may by many have been too hastily conceived against Captain *Stone*.

On motion, *Resolved*, That Messrs. *James Calhoun*, *William Aisquith*, and *John Eager Howard*, be a Committee for the Town, and Messrs. *Gist*, *Vaughan*, and *John Cockey*, for the County, to inquire the quantities of Salt in this Town and County, and report the same to the Committee at their meeting on *Monday* next. And that venders of Salt do not sell or dispose of more than \_\_\_\_\_ bushels to any one purchaser at one time, without having the license of some Member of this Committee, until the Committee take further order therein.

The Enrollment of Captain *William Wilkinson's* Company, containing fifty-two, (Officers included,) was delivered in, and received.

Attest:

GEORGE LUX, Secretary.

The Committee met on *Monday, June 17, 1776*:

Present: Samuel Purviance, Chairman, W. Lux, Vice-Chairman, A. Buchanan, W. Buchanan, B. Nicholson, J. Merryman, Z. McCubbin, T. Harrison, J. E. Howard, W. Tolley, Jun., B. Griffith, W. Aisquith, J. Calhoun, G. Vaughan, J. Cradock, G. Risteau, A. Brittain, T. Sollers, J. Sterrett, T. Rutter, J. Gittings, D. Lux, J. Moale, J. Griest, T. Gist, J. Boyd, George Lux, Secretary.

The following persons were appointed Collectors of Fines and Assessments, in the different Hundreds, from the non-Enrollers:

Captain *James Bosley*, for *Gunpowder*, Upper, and *Mine Run*.

Captain *John Hall*, (of *Joshua*), for *North*.

Captain *John Cockey Owings*, for *Back River*, Upper.

Mr. *Joseph Britain*, for *Back River*, Lower, and *Middle River*, Lower.

Mr. *Abraham Cole*, for *Middle River*, Upper.

*Mary All* exhibited a complaint against *John Marshall* for distraining a Colt for rent, she having first offered him Wheat in discharge thereof. The parties are directed to attend the Committee on *Monday* next, with their evidences.

Messrs. *Edward Talbot*, Sen., *Daniel Shaw*, and *John Standiford*, were elected Members of this Committee, in the stead of Messrs. *Charles Ridgely*, *John Stevenson*, and *Samuel Worthington*, who, being duly elected Committee-men, refused to act.

The Committee appointed to inquire into the quantities of Salt in this Town, made their Report. (Vide Report.)

Whereupon, it was determined that the following Advertisement be published in the Papers:

"It appearing that some persons in this County have demanded and obtained exorbitant prices for Salt, this Committee think it their duty to regulate the price of it, so as to prevent unreasonable exactions on one hand, and on the other hand have a due and proper regard to the difficulty and risk of importation, agreeable to the recommendation of Congress:

"Therefore, *Resolved*, That the price of foreign Salt be fixed at the rate of 12s. per bushel.

"If any persons shall by any art or evasion elude the above Resolution, by refusing to sell the above article at the said limited price, they may depend upon being held up as enemies to their country, without respect to persons; and they may be assured that the Committee will take such further steps (if necessary) as will effectually carry into execution the above Resolution of Congress. All virtuous people are requested to use their utmost endeavours to detect and bring to justice all such persons as presume to offend against the above regulation."

A Letter from *Robert Alexander*, Esq., relative to a barrel of Powder sent from *Philadelphia* for Doctor *John Stevenson*, was laid before the Committee; and information

being made by Mr. *William Lux* that the Council of Safety had communicated a Letter to him from Doctor *Stevenson* that this Committee had taken two barrels or casks of Powder from him, for which they had never paid him, or delivered the Powder, the Chairman is requested to write a Letter to the Council of Safety requesting a copy of the Letter.

The Committee took Mr. *Alexander's* Letter into consideration, and are of opinion, that as Doctor *Stevenson* has neither signed the Association or Enrollment, he stands in the light of an enemy to *America*, and therefore it would be dangerous to trust so much Powder in his hands. They therefore will write to the Council of Safety for their orders therein.

Complaint having been made to this Committee that a certain *John Burns* keeps a Billiard-Table, and that Shuffle-Boards are kept at *John Smith's* and at *Abraham Gorman's*, at all of which houses encouragement was given to gaming, and great disorders committed, to the injury of the Militia and the Sailors and Mariners employed in the publick service, as well as others; and the same being contrary to the Regulations and Resolves of the honourable the Continental Congress:

*Resolved*, That the Chairman issue his Summons for the said persons to attend the Committee to-morrow, to answer the complaints alleged against them.

GEORGE LUX, Secretary.

The Committee met on *Monday, June 25, 1776*:

Present: Samuel Purviance, Jun., Chairman, W. Buchanan, A. Buchanan, Z. McCubbin, W. Wilkinson, B. Griffith, W. Aisquith, J. Calhoun, A. Brittain, T. Sollers, J. Boyd, D. Shaw, E. Talbot.

*Moses Galloway* having applied to this Committee in behalf of *Sater Stevenson* and *Nathan Perigo*, two persons assessed by the Committee as non-Associators and non-Enrollers, alleging that they, being *Methodist* Preachers, do come under the denomination of Clergymen, and therefore, by the Resolves of the Convention, are not finable.

The Committee considered the allegations of Mr. *Galloway*, and a Certificate signed by *Thomas Rankin* on behalf of the Yearly Conference of the Society called *Methodists*, setting forth the said *Nathan Perigo* is a Local Preacher among them, and are of opinion that the allegations of the said *Moses Galloway*, in behalf of the said *Sater Stevenson* and *Nathan Perigo*, should be stated and transmitted to the Council of Safety now sitting, in order to obtain their sense how far the exemption of Clergymen ought to be extended towards persons professing themselves Preachers among the Society called *Methodists*, *Quakers*, or other denominations, where the rules of ordination, or modes of constituting Clergymen, are not generally and explicitly known.

Captain *Job Garritson* applied for four Guns seized by him from non-Associators and non-Enrollers in *Back River*, Lower Hundred, for the use of such persons in his Company as have not Arms; which was granted, on condition of his giving a certificate and receipt for the same at the price they were appraised at.

Captain *Zachariah McCubbin* having complained to this Committee that the Certificate lately produced by Mr. *Thomas Lloyd* of his having enrolled in Captain *Ellicott's* Company, was done merely with a design to screen himself from the fine assessed on him by the Committee; and also that the said *Lloyd* hath been guilty of giving evil advice to an Enroller in his Company, tending to counteract the orders of the Officers of said Company, and promote discord among the Members thereof:

*Ordered*, That the said *Thomas Lloyd* be summoned to attend this Committee, next in order, to answer to the charge of Captain *McCubbin*.

A Certificate from Captain *Gist Vaughan* was produced, wherein it appears that Mr. *Stephen Gill* was elected Captain, Mr. *Thomas Bond* First Lieutenant, Mr. *James Trapnall* Second Lieutenant, and Mr. *Nicholas Gill* Ensign, of a Company of Militia in *North Hundred*.

Attest: GEORGE LUX, Secretary.

At a meeting of the Committee, *June 25, 1776*:

Present: Samuel Purviance, Jun., Chairman, Andrew Buchanan, Z. McCubbin, William Aisquith, Benjamin Griffith, James Calhoun, Abraham Brittain, E. Talbot, Darby Lux.

Complaint being made by *Cumberland Dugan* that Dr. *Henry Stevenson* had reflected upon all Congresses, Conventions, Councils of Safety, and Committees, and also that he had been guilty of sundry other practices inimical to *American* liberty, and tending to disunite the people, the Committee summoned the said Dr. *Stevenson* to appear before them, which he accordingly did; but Mr. *Dugan* having gone abroad before his Summons was written, they postponed the determination of the first charge until *Monday* next, at which time it is expected Mr. *Dugan* will be present, and proceeded to examine sundry witnesses respecting the latter part of the charges; and it appears that Dr. *Stevenson* had advised a certain *Alexander McGee* (who had been put under guard by this Committee for inimical practices and dangerous doctrines by him propagated among the people) to persevere in his principles, for that he should soon be relieved; for which conduct, and that of his being a non-Associator, they adjudge him to give security for his good behaviour, agreeable to order of the Convention, and that he attend the Committee on *Monday* next, at ten o'clock, to answer the other charge exhibited against him by Mr. *Dugan*.

Attest:

GEORGE LUX, Secretary.

At a meeting of the Committee, *July 1, 1776*:

Present: Samuel Purviance, Jun., Chairman, A. Buchanan, W. Buchanan, J. Merryman, Z. McCubbin, John E. Howard, W. Aisquith, J. Calhoun, B. Griffith, A. Brittain, T. Sollers, T. Gist, D. Lux, J. Griest, J. Gillis, T. Rutter, E. Talbot, J. Cockey, F. Decker, George Lux, Secretary.

Mr. *Benkid Willson* (who, with his two sons, were some time ago fined by this Committee as non-Enrollers) formerly alleged that his eldest son resided in *Harford* County, and consequently is liable to be fined there, and his youngest son is under sixteen years of age. But as Captain *James Bosley* has informed this Committee that he was told by the elder son of the younger's being above sixteen years old, and also by others that the elder son was not assessed in *Harford* County, on a presumption of his being a resident in *Baltimore*, the fines were continued.

Mr. *Jacob Wright* (son of *William*) is certified to be subject to fits, and is thereby exempted from the fine imposed upon him as a non-Enroller.

Mr. *Thomas Lloyd* attended, agreeable to Summons, to answer to the complaint exhibited against him by Captain *Zach. McCubbin*, of his having given evil advice to an Enroller in said Captain *McCubbin's* Company; and Mr. *Peter Hush* being sworn, deposed that he was at *John Ellicott's* Mill one day with *Thomas Lloyd*, who told him that Captain *McCubbin* ought to be broke for sending a file of men for him, and that he was a d——d fool if he did not complain to the Committee.

*Samuel Kinsey* deposed and said: That he heard *Thomas Lloyd* one day say that he was sure if *Peter Hush* would complain to the Committee of Captain *McCubbin's* sending a file of men to seize him, and bring him before the Committee, he might be broke, as he exceeded the bounds allotted him by the Convention, and therefore was guilty of an infringement upon the liberties of the people.

Upon motion, *Resolved, unanimously*, That it appears to this Committee that it was a rule entered into and agreed upon by a large majority of Captain *McCubbin's* Company, if any member of said Company neglected to muster at three successive meetings, the Captain should be empowered to send a file of men to bring such defaulter to the mustering-ground, and there know his reasons why he refused or neglected to attend the meetings, in order to fine him or not, as might be judged expedient, whereby this rule has every force and sanction of a law in said Company; therefore this Committee think that Mr. *Thomas Lloyd*, in his advice to Mr. *Henry Hush*, has been guilty of creating dissensions, a conduct highly inimical to *American* liberty, when unanimity is essentially requisite to maintain our dearest rights: Therefore this Committee do determine that the Chairman do censure Mr. *Lloyd* for such conduct, as highly reprehensible and dangerous, and admonish him to be more cautious in his behaviour for the future; which censure was accordingly passed upon Mr. *Lloyd* by the Chairman, and a copy of it furnished to him.

Attest:

GEORGE LUX, Secretary.

The following Memorial was presented to the Convention by the Council of Safety:

"To the Honourable MATTHEW TILGHMAN, Esq., President, and the other Members of the Honourable Convention.

"The Memorial of the Council of Safety, sheweth:

"That at last *December* session it was resolved that the sum of £5,900 be appropriated to fortify the City of *Annapolis*, and place obstructions in the channel of the river, and that the same should be laid out for the purposes aforesaid by the Council of Safety thereafter to be appointed, if it should appear practicable to them to erect such fortifications and lay such obstructions for that sum, exclusive of the cost of cannon, powder, and the like, as would prevent men-of-war approaching the said City.

"The Council of Safety have not raised any fortifications in consequence of said resolve, because it was not practicable, in their opinion, to fortify the City and place obstructions in the channel of the river, for the sum to which they were limited by the resolve. They conceive it could not be done effectually without a much more considerable sum. The river *Severn*, between the two points at the mouth thereof, is near fifteen hundred yards over, the channel upwards of eight hundred yards, in some places the water twenty feet deep and more, as will appear by a chart thereof, to which your Memorialists beg leave to refer. No obstructions have been thought of by them proper to be placed in the channel of the river but chevaux-de-frise, or piles. Both these are liable to be soon destroyed by the worm. If large piles could be driven down, headed with iron, they would be eaten so much with the worm in the course of one season, that they would be easily borne down by men-of-war, coming up under full sail with a brisk wind. All obstructions of wood are liable to this objection, and therefore, in their opinion, not to be depended on.

"The Council of Safety endeavoured, soon after their appointment, to procure cannon from *Philadelphia* or *New-York*, but were disappointed.

"Mr. *Hughes* hath not yet complied with his contract. The want of heavy cannon was a further reason why they could not proceed: when they can be procured, your Memorialists are of opinion that batteries may be erected on *Greenbury's Point*, the *Windmill Point*, *Horn Point*, and places adjacent between that and the City on the south side of the river, which may be of service to prevent landing, although they might not fully answer the purpose of preventing men-of-war approaching the place.

"Your Memorialists further observe, that, at the late Convention, it was thought expedient to appropriate part of the money for building three row-galleys, or gondolas; so that there will not remain more than £3,000, currency, or thereabouts, to be applied to the erecting fortifications.

"Under these circumstances, your Memorialists submit to the honourable Convention whether they will direct the Council of Safety to endeavour to procure cannon, and also to buy up materials for erecting batteries, giving them a discretionary power to draw on the Treasury for such expenses as may be necessary, not exceeding a certain sum; or whether your Honours will direct the residue of £5,900 to be laid out in throwing up breastworks, and making other

defences within the City, to prevent the enemy landing and taking possession thereof.

"By order and on behalf of the Council of Safety:

"DANIEL OF ST. THOMAS JENIFER, Pres't."

That all elections of the said Representatives be free, and that the same be made *viva voce* in the manner heretofore used in this Colony, without any regard to any act of Parliament or other qualifications than before mentioned. And to prevent any violence or force being used at the said elections, no person shall come armed to any of them, and that no muster of the Militia be made on the day on which any of the said elections shall be held, nor shall any Battalion or Company of the Militia, or any ten men thereof, give in their votes immediately succeeding each other, if any other voter who offers to vote objects thereto; nor shall any soldiers in the pay of this Province be suffered to collect at the time and place of holding any of the said elections, so as in any manner to impede the freely and convenient carrying on such elections.

are desirous of being under the Government and protection of *Maryland*; Therefore

*Resolved*, That all the land on the south and west sides of the said lines be henceforth taken and accepted as within the jurisdiction of *Maryland*, and as part of the Counties thereof adjoining thereto; and that the said inhabitants share equally in all burdens, privileges, and benefits, with others the people of this Colony.

Thursday, July 4, 1776.

Convention met. All Members present as on yesterday, except Mr. *Goldsborough*, Mr. *W. Ennals*, Mr. *Potter*, Mr. *Dickinson*, Mr. *G. Dashiell*, Mr. *Waters*, and Mr. *Edmondson*. The Proceedings of yesterday were read.

On reading and considering the Remonstrances and Petitions of the Fifth and Twentieth Battalions of Militia in *Queen Anne's* County, praying a removal of the Field Officers of said Battalions,

*Resolved*, That the same be rejected.

The Convention proceeded to ballot for Deputies to represent this Province in the Continental Congress, and the Honourable *Matthew Tilghman*, Esq., and *Thomas Johnson*, Jun., *William Paca*, *Samuel Chase*, *Thomas Stone*, *Charles Carroll* of *Carrollton*, and *Robert Alexander*, Esquires, were duly elected for that purpose.

*Resolved*, That the Hon. *Matthew Tilghman*, Esq., and *Thomas Johnson*, Jun., *William Paca*, *Samuel Chase*, *Thomas Stone*, *Charles Carroll* of *Carrollton*, and *Robert Alexander*, Esquires, or a majority of them, or any three or more of them, be Deputies to represent this Colony in Congress, in as full and ample manner as the Deputies of this Colony might have done under any appointment heretofore made, until the next Convention shall make further order therein.

Thereupon, the Convention, considering that the said *Thomas Johnson*, Esq., cannot discharge the duty of Brigadier of the forces to be raised in this Province, in consequence of the Resolves of Congress of the 3d day of *June* last, to which command the Convention, from a confidence in his capacity and abilities to fill the same with advantage to the publick cause and honour to himself, had appointed him, and also execute the trust reposed in him as a Deputy in Congress for this Province; and being of opinion that it is of very great importance to the welfare of this Province that it should not be deprived of the advice and assistance of the said *Thomas Johnson* in the publick Councils of the United Colonies, and that his place can be supplied with less inconvenience in the military than in the civil department: Therefore,

*Resolved*, That a Brigadier-General be elected by ballot in the room of the said *Thomas Johnson*, Esq.

The Convention then proceeded to elect a Brigadier-General in the room of *Thomas Johnson*, Esq., and *John Dent*, Esq., was elected by ballot to that office.

Captain *Thomas Ewing* was then elected Colonel of the lower Battalion of Militia to be raised on the *Western-Shore* for the Flying-Camp, in the room of *John Dent*, Esq.

On motion, the question was put, That the sum of 10s. currency, per day, and reasonable itinerant charges, be allowed to each Member that shall hereafter attend any Convention, and that the Resolution of the 20th of *December* last, allowing them 14s. per day, be repealed? Carried in the negative.

Whereas the United Colonies have been reduced to the fatal necessity of taking up arms in defence of their indubitable and inestimable rights and liberties; and whereas several of the inhabitants of this Colony, lost to every generous sentiment of liberty, and of love to their country and posterity, have kept up a traitorous correspondence with and supplied the *British* Troops and Navy with provisions, and some of them have joined in arms, and others have acted as pilots on board the enemy's ships and vessels, whereby the safety and liberties of this and our sister Colonies may be endangered: Therefore,

*Resolved*, That if any inhabitant of this Colony shall, after the 5th day of *August* next, within or without this Colony, or any person whatever, being an inhabitant of any other of the United Colonies, shall, within this Colony, after the said 5th day of *August* next, levy war against the United Colonies, or any of them, or shall adhere to any person or persons bearing arms or employed in the service of *Great Britain* against the United Colonies, or any of them; or shall afford such persons, or any of them, any aid or comfort, or shall give them or any of them, or any subject of *Great Britain*, any intelligence of the warlike preparations or designs of the United Colonies, or any of them; such person, on conviction thereof by a Petit Jury, after a presentment by a Grand Jury, in a Court to be erected in this Colony by the next Convention for the trial of such offenders, shall suffer death without benefit of clergy, and forfeit all the estate which he had at the time of the commission of the crime, to be applied to the use of this Colony, unless such convicted person shall be pardoned by the person or persons invested with the power of granting pardons for such offences.

*Resolved*, That the several offences aforesaid shall receive the same constructions that have been given by the Judges in *England* to such of the said offences as are enumerated in the Statute of *Edward III.*, commonly called the Statute of Treasons.

*Resolved*, That if any inhabitant of this Colony shall, after the 5th day of *August* next, within or without this Colony, or any person whatsoever shall, within this Colony, after the said 5th day of *August* next, forge or counterfeit any of the Bills of Credit issued by the Congress, by the Assembly, or Convention of any of the United Colonies, or by any of the Conventions of this Colony, or alter the sum expressed in any of the said Bills of Credit, or shall offer or cause to be offered in payment any such counterfeit, forged, or altered Bills of Credit, knowing the same to be counterfeit, forged, or altered, and shall be thereof convicted by a Petit Jury, after a presentment by a Grand Jury, in a Court to be erected in this Colony by the next Convention, or shall stand mute, or peremptorily challenge above the number of twenty of the panel, shall suffer death as a felon, without benefit of clergy.

*Ordered*, That the above Resolutions be immediately published in the *Maryland Gazette*.

Whereas some doubts have arisen on the constructions of the Resolutions of Convention for ascertaining the rank of the Regular officers in the pay of this Province: It is therefore declared and resolved, that no precedence or rank shall take place between the Companies, as such, of the corps of Regular forces. That precedence between officers of the same rank take place according to the priority of the date of their respective commissions; but where two or more of such commissions bear date on the same day, precedence take place according as the Company to which such officer

belongs stands numbered on the proceedings of Convention in *December*.

On reading the Petition of *Turbutt Betton*, Jun., of *Queen Anne's County*,

On motion of *Mr. Samuel Chase*, (in obedience as he conceived to the Instructions of *Anne Arundel County*;) the question was put, That all publick and private interest of Moneys cease and determine during this time of general distress, such Moneys only to be excepted as have been actually lent within the three last months, which shall be proved by the lender to have been lent within the time above-mentioned, to the satisfaction of such persons as shall be appointed to determine the same, and that country produce be a lawful tender for the interest of the same, at the market price, to be regulated by two unexceptionable freeholders, upon oath, one to be appointed by each party? Whereas many Farmers and Planters are indebted in sums of Money bearing interest, and from there being no market for the Tobacco, Wheat, and other usual produce of their Farms and Plantations since the 10th day of *September* last, they have not been enabled to pay the interest accrued since that time, and from a continuance of the cause may probably continue disabled to pay the interest which may accrue on their debts for some time to come:

accounts to be raised, entered, and made up, of the expenditure, loan, or other disposition of all publick moneys, by or under the authority of Convention, examine, audit, and adjust all accounts and sums of money due from or to this Colony, in the recess of Convention, and the same transmit, with the respective balances struck, to the Council of Safety for the time being, subject to their examination and control, and in order to be by them paid and discharged.

*Resolved*, That Mr. *Thomas Contee* be added to the above Board, and that they, or any two of them, be empowered and authorized to act.

On reading a Memorial from Dr. *Charles Alexander Warfield*, of *Anne Arundel* County, for a sum of Money to be advanced him for the purpose of carrying on a Crude Nitre Manufactory,

*Resolved*, That the same be referred to the consideration of the Council of Safety, and that they contract with him and advance the Money if they think proper.

This Convention, taking into consideration the Resolves of the Convention of *Virginia* of the 31st day of *May* last, relative to the Proceedings of this Convention in *May* respecting the case of Governour *Eden*, came to the following Resolutions:

*Resolved*, That this Convention cannot but be of opinion that the said Resolution of the Convention of *Virginia* were not only hasty, and made without due and proper reflection, but betray a disposition to interfere in the affairs of this Colony, and that that Resolution might have proved highly injurious to the general interest of *America*, by infusing groundless jealousies and effecting fatal divisions.

That this Convention never intermeddled, nor was disposed to interfere with the affairs of *Virginia*, but hath at all times shown a due and proper respect to the Convention of that Colony, and on all occasions must have evinced their sincere and tender regard for the people thereof; and this Convention cannot be of opinion that the Convention of *Virginia* could believe that this Convention promoted Governour *Eden's* passage "to assist in their destruction under a pretence of his retiring to *England*."

That this Convention, and the Council of Safety for the time being, were the only proper and adequate judges of the propriety and expediency of suffering Governour *Eden* to depart out of this Province, and have proceeded in that matter upon evidence which was satisfactory to themselves, and to which the Convention of *Virginia* were strangers.

That had the Convention of *Virginia* been in possession of the evidence upon which the Council of Safety and this Convention proceeded, they could not have been at a loss to account for the Council of Safety their declining to seize Governour *Eden*, or for the Convention having promoted his passage (not, as is unjustly insinuated in the Resolution of the *Virginia* Convention, to assist in their destruction, but really) to *England*, whither this Convention hath the best grounds to believe he would go by the first opportunity. Nor can the address alluded to in the said Resolution of the Convention of *Virginia*, in the opinion of this Convention, be considered as enabling, nor was it meant to enable, Governour *Eden* to assume the character of a publick agent, nor can this Convention discover how the said Governour would thereby be enabled to promote divisions and disunion amongst the Colonies; but the same was presented as a testimony due to the Governour of the sense this Convention entertained of his fair and impartial representations of the principles, motives, and views of the people of this Colony, so far as the same had come to their knowledge.

That although this Convention was sensible that in the absence of the Governour the Government in its old form would devolve to the President of the Council of State, and although such President should be under equal obligations with the Governour to perform the Ministerial mandates, yet was the Convention fully satisfied that it would not be equally, if at all, in the power of the President to perform such mandates; and therefore this Convention cannot but consider the imputing their proceedings "to some undue influence of Governour *Eden* under the mask of friendship to *America*, and of the Proprietary interest in *Maryland*," as groundless and unjust; nor is this Convention able to discover how their vote for the departure of Governour *Eden* from this Province could have any evil tendency to the common cause, or to *Virginia* in particular.

FOURTH SERIES.—VOL. VI.

That as the Convention of *Virginia* hath by their said Resolution appealed to the good people of this Province against their Convention, and by their publication of the said Resolve, have endeavoured to injure this Convention in the good opinion of the United Colonies at large, it became the indispensable duty of this—though they are anxiously desirous to cultivate union and harmony with their sister Colonies—thus to vindicate their proceedings, and those of the Council of Safety, which this Convention did approve of, against the groundless and unjust imputations contained in the said Resolution of the Convention of *Virginia*; and conscious of the uprightness of their own intentions, and the rectitude of the measures they adopted, do wholly deny, and can cheerfully join in the appeal to their constituents, and to all men acquainted with the affairs of *Maryland*, against the charge of Proprietary influence.

On reading the Resolutions relative to the Resolve of the Convention of *Virginia*, the question was put, That the words, "and do," in the last Resolve, between the word "did" and the word "approve," be struck out of the said Resolve?

*Resolved* in the affirmative.

*Resolved*, That the following Declaration be entered on the Journal of this Convention:

#### A DECLARATION of the Delegates of MARYLAND.

To be exempted from Parliamentary taxation, and to regulate their internal government and polity, the people of this Colony have ever considered as their inherent and unalienable right. Without the former, they can have no property; without the latter, no security for their lives or liberties.

The Parliament of *Great Britain* has of late claimed an uncontrollable right of binding these Colonies in all cases whatsoever. To enforce an unconditional submission to this claim, the Legislative and Executive powers of that state have invariably pursued for these ten years past a studied system of oppression, by passing many impolitick, severe, and cruel acts for raising a revenue from the Colonists; by depriving them in many cases of the trial by Jury; by altering the chartered Constitution of one Colony, and the entire stoppage of the trade of its Capital; by cutting off all intercourse between the Colonies; by restraining them from fishing on their own coasts; by extending the limits of, and erecting an arbitrary Government in the Province of *Quebeck*; by confiscating the property of the Colonists taken on the seas, and compelling the crews of their vessels, under the pain of death, to act against their native country and dearest friends; by declaring all seizures, detention, or destruction, of the persons or property of the Colonists, to be legal and just.

A war unjustly commenced hath been prosecuted against the United Colonies with cruelty, outrageous violence, and perfidy; slaves, savages, and foreign mercenaries, have been meanly hired to rob a people of their property, liberties, and lives,—a people guilty of no other crime than deeming the last of no estimation without the secure enjoyment of the former. Their humble and dutiful petitions for peace, liberty, and safety, have been rejected with scorn; secure of and relying on foreign aid, not on his national forces, the unrelenting Monarch of *Britain* hath at length avowed, by his answer to the City of *London*, his determined and inexorable resolution of reducing these Colonies to abject slavery.

Compelled by dire necessity either to surrender our properties, liberties, and lives, into the hands of a *British King* and Parliament, or to use such means as will most probably secure to us and our posterity those invaluable blessings,

We, the Delegates of *Maryland* in Convention assembled, do declare, that the King of *Great Britain* has violated his compact with this people, and that they owe no allegiance to him; we have therefore thought it just and necessary to empower our Deputies in Congress to join with a majority of the United Colonies in declaring them free and independent States, in framing such further Confederation between them, in making foreign alliances, and in adopting such other measures as shall be judged necessary for the preservation of their liberties: provided, the sole and exclusive right of regulating the internal polity and government of this Colony be reserved to the people thereof. We have also thought proper to call a new Convention, for the purpose of establishing a Government in this Colony. No ambitious views, no desire of independence, induced the people of *Maryland* to form an union with the other Colonies. To procure an exemption from Parliamentary taxation, and to continue to the Legislatures of these Colonies the sole and exclusive right of regulating their internal polity, was our original and only motive. To maintain inviolate our liberties, and to transmit them unimpaired to posterity, was our duty and first wish; our next, to continue connected with, and dependant on, *Great Britain*. For the truth of these assertions, we appeal to that Almighty Being who is emphatically styled the Searcher of hearts, and from whose omniscience nothing is concealed. Relying on His divine protection and affiance, and trusting to the justice of our cause, we exhort and conjure every virtuous citizen to join cordially in defence of our common rights, and in maintenance of the freedom of this and her sister Colonies.

Adjourned till three o'clock.

*Post Meridiem.* Convention met.

The President laid before the Convention several Letters from the Honourable the President of the Congress, of the 25th and 29th of *June*, and of the 4th of this instant, and sundry Resolutions of that respectable body, which were taken into consideration,

And thereupon, *Ordered*, That Colonel *Smallwood* immediately proceed with his Battalion to the City of *Philadelphia*, and put himself under the Continental Officer commanding there, and be subject to the further orders of the Congress.

*Ordered*, That the Independent Companies stationed in *Talbot*, *Kent*, *Queen Anne's*, and *St. Mary's* Counties, immediately proceed to *Philadelphia*, and put themselves under the command of Colonel *Smallwood*, subject to the further orders of the Congress.

*Ordered*, That Vessels be immediately procured to transport such of the said Troops as are on the *Western-Shore* to the head of *Elk*.

*Resolved*, That the Council of Safety take such measures as they may think best, to supply the said Troops with Carriages and Provisions on their march to *Philadelphia*.

*Resolved*, That the said Battalion and Independent Companies be deducted from the number of Militia required by Congress of this Colony to compose the Flying-Camp.

*Ordered*, That copies of the Letter from Congress, of the 4th instant, and of the above Resolutions, be transmitted, by express, to the several Committees in each County, and that they be earnestly requested to give every assistance in their power to the immediate enrolling of the Militia Companies, and enabling them to march.

*Resolved*, That the Council of Safety direct such and so many of the said Militia Companies to march to the City of *Annapolis*, *Baltimore Town*, *Talbot*, *Kent*, *Queen Anne's*, and *St. Mary's* Counties, as will supply the number and places of the said Battalion and Independent Companies; and that till the places of the Regular Troops ordered from *Annapolis* and *Baltimore Town* can be supplied by the Militia to be raised as aforesaid, the Council of Safety direct three Companies of the neighbouring Militia to march into *Annapolis*, and two Companies of the neighbouring Militia to march into *Baltimore Town*.

*Resolved*, That the Continental Officer who may command the Flying-Camp is requested, if the service will permit, to separate the Corps of Regulars from the Corps of Militia to be supplied by this Province, to prevent any ground of discontent about rank.

*Resolved*, That this Province will raise two Companies of Riflemen and four Companies of *Germans*, according to the requisitions of Congress in their Resolutions of the 27th day of *June* last.

That one of the said Companies of Riflemen be raised in *Harford County*, two of the said Companies of *Germans* be raised in *Baltimore County*, and one of the Companies of Riflemen and two of the Companies of *Germans* be raised in *Frederick County*.

That to expedite the raising and levying the said Troops, the Committee of Observation for *Harford County* recommend the Officers of the Company to be raised in that County; the Committee of Observation for *Baltimore County*, the Officers of the Companies to be raised in that County; and that two of the Committee of Observation from each of the Districts of *Frederick County*, who are to meet at *Fredericktown* on *Friday*, the 12th day of this instant, *July*, or the major part of them so met, recommend the Officers of the Companies of *Germans* to be raised in that County, and also the Officers of the Rifle Company to be raised there, except the Captain.

That *Lemuel Barrett* be Captain of the Rifle Company to be raised in *Frederick County*, if he will act as such.

That each of the Companies of *Germans* consist of one Captain, two Lieutenants, one Ensign, four Sergeants, four Corporals, one Drummer, one Fifer, and seventy-six Privates; and each of the Rifle Companies of one Captain, three Lieutenants, four Sergeants, four Corporals, one Drummer, one Fifer, and seventy-six Privates; and that the Officers being approved, be appointed and certified to the Congress by the Council of Safety.

That each of the Officers, being nominated by the Committees, have Warrants for inlisting, and that each of the Officers inlist the following numbers, to wit: a Captain thirty, First and Second Lieutenant twenty, Third Lieutenant, or Ensign, sixteen; and that, by order of the Council of Safety, the said Officers draw out of the publick Treasury moneys sufficient to discharge the bounties.

The Committee for that purpose appointed, bring in and deliver to Mr. President the following Report:

"Your Committee, appointed to examine and price the Linen brought in by *Edward Parker*, do report, that he has brought in six hundred and eleven yards, valued at 3s. 6d. per yard, and four hundred and twenty-seven and a quarter yards, at 2s. 3d. per yard, common currency. All which is submitted to the consideration of the honourable House.

"*THOMAS CONTEE, Chairman Committee.*"

Which was read and agreed to.

Whereas this Convention hath resolved, "that the several Companies of Militia intended to be raised for the purpose of forming a Flying-Camp for the protection of the Middle Colonies, shall be mustered and passed by some one of the Field-Officers of the Counties where such Companies shall be raised, and the Captains shall return two copies of his Muster-Roll, certified by the Field-Officer who musters the men, to the Council of Safety:" And whereas no Field-Officers are appointed in *Kent County*: It is, therefore,

*Resolved*, That the Committee of Observation for *Kent County* are hereby authorized to appoint a Militia commissioned Officer in said County, who is empowered to muster and pass such Companies in as full and ample manner as if the same was done by a Field-Officer.

On motion, *Resolved*, That the Commissioners appointed by a Resolve of the Convention of this Province, in *December* last, for the purpose of establishing a Gun-lock Manufactory in *Fredericktown*, in *Frederick County*, or in the neighbourhood thereof, for which purpose £1,200 was appropriated, do lay before the next Convention, on the third day of their sitting, a full and clear account of their proceedings in the premises, together with state of the said Manufactory.

On reading and considering the Report from the Committee appointed to report on the Petition of *John Brewer*, of the City of *Annapolis*,

*Resolved*, That the Fine imposed on the said *John Brewer* by the Committee of Observation for *Anne Arundel County* be remitted, and his Fire-Arms returned to him.

On motion, *Resolved*, That all Petitions, Applications, and Reports to Convention this present session, and all Peti-

tions, Applications, and Reports to Convention in all former sessions, whereon no final order hath been or shall be made, be referred to the next session of Convention.

On motion, *Resolved*, That a bounty of one shilling, common money, be paid by the Council of Safety for every bushel of Salt imported into this Colony, and delivered above *Point-Look-out*, before the first day of *March* next, and that the importer be allowed to sell the same at any price not exceeding 7s. 6d., common money, per bushel.

On motion, *Resolved*, That the Council of Safety advertise the Proposals given in to this Convention by Mr. *Charles Wallace*, and request any person who will contract for a large quantity of Salt, to deliver in their Proposals by the 20th day of *July* next; and the Council of Safety are empowered to enter into a contract agreeable to any such Proposals that may be given in, if they adjudge such Proposals more for the advantage of the publick; but if no better terms

should be offered by the said day, then the Council of Safety are empowered to close with the said Proposals of *Charles Wallace*.

*Ordered*, That the Declaration of this Convention of this day, and the Resolutions in answer to the Resolution of the *Virginia* Convention, be published in the *Maryland Gazette*.

The Journal of Accounts was read and assented to.

*Ordered*, That the Treasurer of the *Western-Shore* pay the several claims allowed in the same.

The Convention adjourns till *Thursday*, the 1st day of *August* next, to sit at this place, but the Council of Safety may convene the Convention at any other time or place they shall judge necessary.

Signed by order of the Convention:

GABRIEL DUVAL, Clerk.

On a motion made,

*Ordered*, That Mr. *John Tazewell* be appointed Clerk to this Convention.

*Richard Bland*, Esquire, a Delegate for the County of *Prince George*, reminded the Convention of the necessity of proceeding to the choice of a President, and recommended *Edmund Pendleton*, Esq., who had already executed that important trust, and had given undeniable proofs of his abili-

ties and integrity. He was seconded by *Archibald Cary*, Esq., a Delegate for the County of *Chesterfield*. *Thomas Johnson*, Esq., a Delegate for the County of *Louisa*, then recommended *Thomas Ludwell Lee*, Esq., as a proper person to fill that office, and was seconded by *Bartholomew Dandridge*, Esq., a Delegate for the County of *New-Kent*. And on the question being put by the Clerk, the said *Edmund Pendleton* was elected President, and conducted to the Chair, from whence he addressed himself to the Convention in the following manner:

"GENTLEMEN: Be pleased to accept my sincere thanks for the honour done me in your election to this high and important office, which I esteem the more, as it affords a publick testimony that my former endeavours for the proper discharge of that trust have not been unacceptable to my country. I beg leave to assure you of my unremitting attention to the arduous duties of my appointment, which I will endeavour to execute with the utmost impartiality; and, conscious of my want of abilities, I shall rely with confidence on your candour to make the most favourable interpretation of all my actions.

"We are now met in General Convention according to the ordinance for our election, at a time truly critical, when subjects of the most important and interesting nature require our serious attention.

"The administration of justice, and almost all the powers of Government, have now been suspended for near two years. It will become us to reflect whether we can longer sustain the great struggle we are making in this situation; and the case of criminals confined and not tried, and others who may be apprehended pursuant to our laws, deserves particular notice.

"Our Military and Naval arrangements, as well as the funds for supporting them, will call for our revision; and the ordinance prescribing a mode of punishment for the enemies of *America* in this Colony, being very defective, will require amendment.

"There are some articles more immediately necessary for our people, particularly salt, which it may be wise to encourage the production and manufacture, either by increased bounties, or erecting publick works, as shall be judged most effectual to that end.

"Several resolutions of Congress, and letters from our Delegates on these and other subjects, I am directed by the Committee of Safety to lay before you, together with several petitions they have received, on which it was not within their powers to determine.

"In the discussion of these, and all other subjects which may come under our consideration, permit me to recommend calmness, unanimity, and diligence, as the most likely means of bringing them to a happy and prosperous issue."

*Ordered*, That a Committee of Privileges and Elections be appointed of the following persons: *Mr. Digges*, *Mr. Treasurer*, *Mr. Bland*, *Mr. Archibald Cary*, *Mr. Whiting*, *Mr. Jones*, *Mr. Fitzhugh*, *Mr. Carrington*, *Mr. Dandridge*, *Mr. Henry Lee*, *Mr. Richard Lee*, *Mr. Henry*, *Mr. Fleming*, *Mr. Richard S. Taylor*, *Mr. Selden*, *Mr. Clayton*, *Mr. Blair*, *Mr. Thornton*, *Mr. Thomas Lewis*, *Mr. Nelson*, and *Mr. Thomas Ludwell Lee*.

And they are to meet and adjourn from day to day, and examine, in the first place, the certificates of the election of Delegates to serve in this present Convention, and to take into consideration all such matters as shall or may come in question touching returns, elections, and privileges; and to report their proceedings, with their opinions thereupon, from time to time, to the Convention; and the said Committee are to have power to send for persons, papers, and records, for their information.

*Resolved*, That seven of the said Committee be a sufficient number to proceed to business.

*Resolved*, That in all cases of controverted elections, to be heard at the bar of this House, or before the Committee of Privileges and Elections, the petitioners do, by themselves, or by their agents, within a convenient time, to be appointed either by the Convention or the Committee of Privileges and Elections, as the matter to be heard shall be before the Convention or the said Committee, deliver to the sitting Members, or their agents, lists of the persons intended to be objected to who voted for the sitting Members, giving in the said lists the several heads of objection, and distinguishing

the same against the names of the voters excepted to; and that the sitting Members do, by themselves or their agents, within the same time, deliver the like list, on their parts, to the petitioners, or their agents.

*Ordered*, That *Mr. Edmund Pendleton*, Jun., be appointed Clerk to the Committee of Privileges and Elections.

A Petition of the Committee of the County of *Norfolk*, in behalf of themselves and their constituents, was presented to the Convention, and read; setting forth that, by the Ordinances of a former Convention, Courts-Martial and elections of Delegates are directed to be held at the respective County Court-Houses; that, by the burning of the Borough of *Norfolk*, the Court-House of the said County hath been destroyed, and the place where it stood at present in the power of the enemies of *America*, by means whereof neither Courts-Martial or elections of Delegates for the said County can now be regularly held; and praying for such relief in the premises as should seem meet.

*Ordered*, That the said Petition do lie on the table.

Whereas by the late destruction of the Court-House of the County and Borough of *Norfolk* the proper officers have not been able to hold elections of Delegates for the said County and Borough to serve in Convention, so that the said County and Borough remain unrepresented therein,

*Resolved*, therefore, That the Sheriff, or Mayor, or Clerk of the Committees of the said County or Borough, respectively, be, and they are hereby, authorized to appoint some convenient place and time, not exceeding twenty, nor under ten days, after the receipt of this Resolution, for the election of Delegates to serve in the General Convention for the said County and Borough of *Norfolk*, and shall publish notice thereof, and proceed to the election of such Delegates in the same manner as is by law directed in the election of a Burgess to be made during the sitting of any General Assembly, and shall deliver to each of the Delegates elected a certificate, under his hand and seal, that such Delegate was duly elected for the said County or Borough; and that the said Delegates, so to be elected, shall have full authority to sit and vote in any General Convention for one full year, to be computed from the days respectively appointed by law for holding the Courts for the said County and Borough in the month of *April* last, in the same manner as if such Delegates had been elected according to an Ordinance of the last Convention.

*Ordered*, That the Rev. *Mr. Thomas Price* be appointed Chaplain to the Convention, and that he read prayers every morning, at nine o'clock.

*Ordered*, That *Mr. Francis Eppes* be appointed Messenger to this Convention.

*Ordered*, That *Robert Hyland*, *William Hicks*, *John Creagh*, and *William Drinkard*, be appointed Doorkeepers to the Convention.

*Resolved*, That this Convention will observe, in their debates, the same Rules and Orders as are established in the House of Burgesses.

*Mr. Thomas Lewis*, a Delegate for the County of *Augusta*, informed the Convention that *Daniel Smith*, late Sheriff of the said County, had delivered up to him £120, due for Quit-Rents, to be paid to the Receiver-General, but that he refused to be concerned therewith, unless the said *Smith* would agree that he should take the sense of the Convention respecting the disposition thereof, to which he consented.

*Resolved*, That the said sum of £120 be paid into the hands of the Treasurer, to be by him safely kept until the further order of the Convention.

*Resolved*, That the President be desired to issue his Warrant for the election of Delegates for the County of *King and Queen*, the same having been prevented by bad weather.

*Ordered*, That the Committee of Safety do state and report the case of *John Goodrich*, Jun., who hath been apprehended as a suspected person, and that he be confined to his room in the City of *Williamsburgh*, under a proper guard; and that *William Harwood*, Gent., surety for the appearance of the said *John Goodrich*, be discharged from his recognizance on delivering said *Goodrich* to the commanding officer.

*Ordered*, That the several Resolutions of the General Congress, Letters from the Delegates therein, and other

papers mentioned by the President, and by him laid before the Convention, do lie on the table.

Adjourned till to-morrow, ten o'clock.

Tuesday, May 7, 1776.

*Resolved*, That the Committee of Privileges and Elections be empowered to examine into the conduct of such persons as are or may be taken up or committed for being inimical to the rights and liberties of *America*; that they state their several cases, and report the same, together with their opinion thereupon, to this Convention.

A Petition of *William Criddle* was presented to the Convention, and read; setting forth, that he enlisted as a common soldier in Captain *John Markham's* Company of Regulars; and when on duty in the Town of *Norfolk*, in the month of *January* last, his right arm was unfortunately taken off by a cannon-ball, whereby he is rendered totally incapable of serving longer, or acquiring a support in future; and praying such relief as shall be thought just and reasonable.

*Ordered*, That the said Petition be referred to Mr. *Carrrington*, Mr. *Read*, Mr. *Archibald Cary*, Mr. *Richard Lee*, Mr. *Digges*, and Mr. *Nelson*; and they are to report the same, together with their opinion thereupon, to the Convention.

*Resolved*, That this Convention will, on *Friday* next, resolve itself into a Committee, to take into their consideration the state of the Colony.

A Petition from the Freeholders and other Inhabitants of the County of *Chesterfield*, was presented to the Convention, and read; setting forth, that a small part of the Ordinance for the better regulation of the Militia, whereby they are required to attend muster once a fortnight, proves a little burdensome, especially on the poorer sort, who have not a slave to labour for them; that they acknowledge the wisdom of the Convention, in the regulation aforesaid, at the time the same was made; but that, having now learned the most essential parts of the military exercise, and having an Army regularly trained, which will be able, under *God*, to withstand any invasion that may be made till they could join them, they conceive the necessity of calling them so frequently from their homes doth not exist; that they promise cheerfully to join in defence of their just rights whenever the same may be necessary.

*Ordered*, That the said Petition do lie on the table.

*Ordered*, That the several Sheriffs do pay into the hands of the Treasurer all the Money due from them for Quit-Rents, to be by him safely kept till the further order of the Convention.

*Ordered*, That leave be given to bring in an Ordinance to encourage the making of Salt, Saltpetre, and Gunpowder; and that Mr. *Treasurer*, Mr. *Archibald Cary*, Mr. *Henry*, Mr. *Henry Lee*, Mr. *Mercer*, Mr. *Travis*, Mr. *Nelson*, Mr. *Thomas Lewis*, Mr. *McDowell*, Mr. *Terry*, Mr. *Campbell*, Mr. *Lockhart*, Mr. *Gilmer*, Mr. *Charles Lewis*, Mr. *Read*, and Mr. *Watkins*, do prepare and bring in the same.

A Petition of *Ralph Wormeley*, Junior, Esquire, was presented to the Convention, and read; setting forth that, having received a message from Lord *Dunmore* to attend him, he wrote a letter on the subject of it to excuse his going, but unfortunately expressive of his sentiments on the present face of things, which, with the deepest sorrow, he finds has raised the indignation and drawn the odium of his country

upon him, as a person inimical to her rights and liberties; that for the prosperity and welfare of this his native country no one can be more anxious, nor has any *American* more, from principle, from the origin of the unhappy contest, disclaimed the right of taxation in the *British* Parliament over this Continent; but that it has been his greatest misfortune to differ in sentiments from the mode adopted to obtain a renunciation of that unconstitutional claim; that with respect to the letter, he begs to observe that it was not written with an intention to be published to the world, make proselytes, or influence the opinion of others; and, as he never hath opposed the publick measures, violated the Association, or transgressed the Ordinances of the Convention, he hopes, through the lenity and indulgence of it, to be released from his wretched state of confinement, and permitted to enjoy his liberty, the most desirable thing in life, but where and when, he entirely submits to the mercy of his country, promising, on the word of a gentleman, in future to conduct himself conformably to the measures and Ordinances of the Convention.

*Ordered*, That the said Petition be referred to the Committee of Privileges and Elections; and that they report the same, together with their opinion thereupon, to the Convention.

A Petition of the Freeholders of the County of *Henrico* was presented to the Convention, and read; setting forth, that in their private transactions they had experienced great inconveniences from the unequal circulation of our Paper-money, the only currency the necessary suppression of our trade hath left us; that they beg leave to express their apprehensions of the ill-consequences that may attend an immediate demand of their taxes, under their present incapacity to pay them; that the Army supply, though rendered as diffusive as possible, has hitherto been inadequate to the purpose of circulating generally our paper emissions, so small a proportion its consumption must bear to the gross produce of this country, that, cut off from those supplies hitherto rendered them by commerce in return for their produce, they now avail themselves of their numerous internal resources, and fabricate and manufacture not only what is necessary for their immediate wants, but everything which may be required for the subsistence of an army and the operations of war; and therefore humbly soliciting a present

exemption from the payment of pecuniary taxes, and to suggest the great alleviation of the publick burdens that would result from some wise regulation enabling the people at large to supply, specifically, in lieu of so much of their taxes, their quota of whatever may be requisite for the Army, whether of arms, ammunition, clothing, or field-equipage.

*Ordered*, That the said Petition be referred to the Committee of Propositions and Grievances; and that they report the same, together with their opinion thereupon, to the Convention.

Mr. *Archibald Cary*, from the Committee appointed to prepare an Ordinance to encourage the making of Salt, Saltpetre, and Gunpowder, reported, that the Committee had considered several proposals for the making Salt, and were of opinion that large quantities might be made by the operation of the sun, and that it is necessary proper persons should be immediately appointed to fix on convenient places and provide necessary materials for that work, in the Counties of *York, Gloucester, Elizabeth-City, Accomack, Northampton, Northumberland, Lancaster, Nansemond, and Isle-of-Wight*, and make report thereof to the Convention as soon as possible.

*Resolved*, That *Edward Champion Travis, Wm. It appears to the Committee, that, upon application having been made by the Chairman of the Committee of *Orange* County, in the Province of *North-Carolina*, to the Commanding Officer of *Halifax* County, in this Colony, for assistance to suppress the Insurgents in that Province, the Petitioners, with two Companies of Militia, were ordered to march to their assistance, but before the Petitioners could get to the place of rendezvous, they were informed, by a letter from the Commanding Officer at *Hillsborough*, that such assistance would be unnecessary, and they returned home.

Mr. *Cary*, from the Committee of Privileges and Elections, reported that the Committee had, according to order, had under their consideration the Petition of *Ralph Wormeley*, Jun., and had come to the following Resolution thereupon; which he read in his place, and afterwards delivered in at the Clerk's table, where the same was again twice read, and agreed to:

And the Committee are induced to agree to this

The Convention then, according to the Order of the Day, resolved itself into a Committee on the state of the Colony, and after some time spent therein, Mr. President resumed the chair, and Mr. *Cary* reported, that the Committee had, according to order, had under their consideration the state of the Colony, and had come to the following Resolutions thereupon; which he read in his place, and afterwards delivered in at the Clerk's table, where the same were again twice read, and unanimously agreed to, one hundred and twelve Members being present:

Forasmuch as all the endeavours of the United Colonies, by the most decent representations and petitions to the King and Parliament of *Great Britain*, to restore peace and security to *America* under the *British* Government, and a reunion with that people upon just and liberal terms, instead of a redress of grievances, have produced, from an imperious and vindictive Administration, increased insult, oppression, and a vigorous attempt to effect our total destruction:—By a late act all these Colonies are declared to be in rebellion, and out of the protection of the *British* Crown, our properties subjected to confiscation, our people, when captivated, compelled to join in the murder and plunder of their relations and countrymen, and all former rapine and oppression of *Americans* declared legal and just; fleets and armies are raised, and the aid of foreign troops engaged to assist these destructive purposes; the King's representative in this Colony hath not only withheld all the powers of Government from operating for our safety, but, having retired on board an armed ship, is carrying on a piratical and savage war against us, tempting our slaves by every artifice to resort to him, and training and employing them against their masters. In this state of extreme danger, we have no alternative left but an abject submission to the will of those overbearing tyrants, or a total separation from the Crown and Government of *Great Britain*, uniting and exerting the strength of all *America* for defence, and forming alliances with foreign Powers for commerce and aid in war:—Wherefore, appealing to the Searcher of hearts for the sincerity of former declarations expressing our desire to preserve the connection with that nation, and that we are driven from that inclination by their wicked councils, and the eternal law of self-preservation:

*Resolved, unanimously*, That the Delegates appointed to represent this Colony in General Congress be instructed to propose to that respectable body to declare the United Colonies free and independent States, absolved from all allegiance to, or dependance upon, the Crown or Parliament of *Great Britain*; and that they give the assent of this Colony to such declaration, and to whatever measures may be thought proper and necessary by the Congress for forming foreign alliances, and a Confederation of the Colonies, at such time and in the manner as to them shall seem best: *Provided*, That the power of forming Government for, and the regulations of the internal concerns of each Colony, be left to the respective Colonial Legislatures.

*Resolved, unanimously*, That a Committee be appointed to prepare a Declaration of Rights, and such a plan of Government as will be most likely to maintain peace and order in this Colony, and secure substantial and equal liberty to the people.

And a Committee was appointed of the following gentlemen: Mr. *Archibald Cary*, Mr. *Meriwether Smith*, Mr. *Mercer*, Mr. *Henry Lee*, Mr. Treasurer, Mr. *Henry*, Mr. *Dandridge*, Mr. *Edmund Randolph*, Mr. *Gilmer*, Mr. *Bland*, Mr. *Digges*, Mr. *Carrington*, Mr. *Thomas Ludwell Lee*, Mr. *Cabell*, Mr. *Jones*, Mr. *Blair*, Mr. *Fleming*, Mr. *Tazewell*, Mr. *Richard Cary*, Mr. *Bullitt*, Mr. *Watts*, Mr. *Banister*, Mr. *Page*, Mr. *Starke*, Mr. *David Mason*, Mr. *Adams*, Mr. *Read*, and Mr. *Thomas Lewis*.

*Resolved*, That this Convention will to-morrow again resolve itself into a Committee to take into their further consideration the state of the Colony.

*Ordered*, That Mr. *Williams* and Mr. *Goode* have leave to be absent from the service of this Convention for the remainder of the session.

Adjourned till to-morrow, ten o'clock.

Thursday May 16, 1776.

A Petition of *George Wray*, *John Jones*, *Alexander* and *George Graham*, and *Henry Sinclair*, was presented to the Convention, and read; setting forth, that some time in the month of *October* last, the Committee of the County of *Elizabeth-City*, for better securing the Town of *Hampton* from the attacks of the enemy, thought proper to stop up the navigation of *Hampton River*, by sinking some vessels in its channel, which measure was first communicated to the Committee of Safety, and by them approved; that their vessels were taken by order of the Committee for the said County of *Elizabeth-City*, and praying to be allowed for the same what-ever should appear reasonable.

*Ordered*, That the said Petition be referred to the Committee of Publick Claims; and they are to report the same, together with their opinion thereupon, to the Convention.

A Petition of *Benjamin Bucktrout* was presented to the Convention, and read; setting forth that, at the instance and persuasion of several principal gentlemen of the country, he hath erected a Powder-Mill in the City of *Williamsburgh*, and prepared every necessary utensil for the same, with much cost and labour; that he entered upon the business from a regard for the publick good, and always determined to make an offer of it to the country should it succeed, and sustain the loss of his time and labour should it fail; that he hath brought the said Mill to perfection, and fitted it in all respects for use, and now begs leave to offer it to the publick on such terms as shall be thought reasonable.

*Ordered*, That the said Petition be referred to the Committee of Propositions and Grievances; and that they report the same, together with their opinion thereupon, to the Convention.

*Ordered*, That Mr. *David Mason*, Mr. *Riddick*, Mr. *Robinson*, and Mr. *Thoroughgood*, be added to the Committee of Privileges and Elections.

*Ordered*, That Mr. *Mercer*, Mr. *McDowell*, and Mr. *Bullitt*, be added to the Committee of Propositions and Grievances.

*Ordered*, That Mr. *McDowell* and Mr. *Bowyer* be added to the Committee of Publick Claims.

Mr. *Henry*, from the Committee of Propositions and Grievances, reported that the Committee had, according to order, had under their consideration the Petition of *John Ballendine*, to them referred, and had come to the following Resolution thereupon; which he read in his place, and afterwards delivered in at the Clerk's table, where the same was again twice read, and agreed to:

*Resolved*, That the Petition of the said *John Ballendine* be rejected.

A Petition of *John Ballendine* and *John Reveley* was presented to the Convention, and read; setting forth, that they have jointly contracted for a very valuable Iron Mine, below the *Seven-Islands*, and within a mile of *James River*, convenient to a constant stream of water, sufficient for a blast furnace, near the said Mine, and have also discovered and engaged some valuable Coal Mines, near the said river, conveniently situated for extensive works of that nature; and, being themselves well acquainted with various branches of the Iron business, and knowing the great necessity for promoting such works at this juncture, they hope the Convention will contribute such assistance as will enable them to prosecute the said undertaking to advantage.

*Ordered*, That the said Petition be referred to the Committee of Propositions and Grievances; who are to report the same, together with their opinion thereupon, to the Convention.

*Ordered*, That Mr. *Madison*, Mr. *Rutherford*, and Mr. *Watkins*, be added to the Committee appointed to prepare a Declaration of Rights, and such a plan of Government as will be most likely to maintain peace and order in this Colony, and secure substantial and equal liberty to the people.

*Ordered*, That Mr. *Washington* be added to the Committee appointed to prepare an Ordinance to encourage the making of Salt, Saltpetre, and Gunpowder.

The Order of the Day, for the Convention to resolve itself into a Committee on the state of the Colony, being read,

*Ordered*, That the same be put off till *Saturday* next.

*Resolved*, That the Committee of Safety be desired to lay before the Convention a list of the armed Vessels now fitting out for the defence of this Colony, with a state of the condition they are in, and an account of the Cannon, Arms, and Ammunition, provided for them.

Mr. *Cary*, from the Committee of Privileges and Elections, reported, that the Committee had, according to order, examined into the cases of *Josias Rogers*, *William Bliss*, and *David Ramsay*, prisoners, confined in the publick Jail, and had agreed upon a Report, and come to the following Resolutions thereupon; which he read in his place, and afterwards delivered in at the Clerk's table, where the same were again twice read, and agreed to:

It appears that *Josias Rogers* was a mate in the *Roebuck* ship of war, which had taken a vessel bound from *Cape François* to *Philadelphia*, into which he was put as prize-master; that the sailors rose against him, and the vessel running on shore, he was taken prisoner. That *William Bliss* was a soldier in Captain *Pickett's* company of Provincials; and that he had deserted to Lord *Dunmore*, and returned again. That *David Ramsay* was a sailor in a vessel belonging to *Joseph Scott*, in the County of *Nansemond*, which was taken by the enemy; that the said *David Ramsay* was afterwards employed by the Provincial prisoners, who were put on board that vessel, to provide them with fresh provisions, and that the said *Ramsay* was active in procuring such provisions, and, having a pass from *Anthony Lawson* to come on shore in quest of some vegetables, he was taken and sent to Jail.

*Resolved*, That the said *Josias Rogers* is a prisoner-of-war, and that this Resolution be communicated to the Commanding Officer.

*Resolved*, That the said *William Bliss* appears to be guilty of desertion, and that he ought to be delivered over to the Commanding Officer, to whom the Resolution should also be communicated.

*Resolved*, That the said *David Ramsay* be discharged.

Adjourned till *Saturday*, ten o'clock.

Saturday, May 18, 1776.

The President laid before the Convention a Letter from Colonel *Woodford*, advising him that some of our friends who had been taken prisoners by Lord *Dunmore*, and had been admitted to go on shore on their parole, had declined returning agreeably thereto; which was read, and ordered to be referred to the Committee on the state of the Colony.

Mr. *Mercer*, from the Committee of Safety, laid before the Convention a Representation from Mr. *Charles Lynch*, setting forth, that he had discovered rocks greatly impregnated with Saltpetre in the upper parts of the country, from which, with some assistance from the publick, he could collect very considerable quantities of Saltpetre; which being read,

*Resolved*, That the Slaves, now prisoners in the publick Jail, be delivered to the said *Charles Lynch*, to enable him to carry on the making of Saltpetre at the rocks mentioned in his representation to the Committee of Safety, and the sum of £50 be advanced to him; and that he be at liberty to draw on the Treasurer for any further sum, not exceeding £500, which he may find necessary for carrying on this business with alacrity; provided he give bond, with sufficient security, for the repayment of what he shall so receive and draw for, together with the reasonable hire of the Negroes and Powder, at the price of six shillings per pound, out of the first he shall make, to be delivered at *New-London*, if required.

And it is further *Resolved*, That if the said *Charles Lynch* shall find it convenient to spare any of the said Slaves, now, or in future, that he be at liberty to forward them to the Manager of the Lead Mines, there to be employed for the publick use; and that the Commanding Officer of the troops in the City of *Williamsburgh* be desired to furnish a proper guard to convey the said Slaves to the Commanding Officer of the Militia in the County of *Charles-City*, and that the

Commanding Officers of the Militia of the several Counties through which the said Slaves are to be conducted, do also furnish such guard in their respective Counties.

Mr. *Digges*, from the Committee of Privileges and Elections, reported, that the Committee had, according to order, inquired into the information touching the election of Delegates for the County of *King William*, to them referred, and that it appeared to them, from the poll taken at the said election, by *Owen Gwathney*, Gent., Sheriff of the said County, that at the close thereof the number of votes stood as follows: For *William Aylett* 78, *Richard Squire Taylor* 73, *Carter Braxton* 39; and it also appeared, from the testimony of the said *Owen Gwathney*, that some time before the poll was closed Mr. *Aylett* declined standing a candidate, and made a publick declaration to that purpose, desiring Mr. *Braxton* might be elected; that, after Mr. *Aylett's* resignation, he made proclamation several times for the freeholders to come in and vote before he closed the poll; that it further appeared, from the testimony of *Benjamin Temple*, that he, with many others who had voted at the election, applied to Mr. *Aylett* during the poll, and desired he would decline in favour of Mr. *Braxton*, which he accordingly did, and the people seemed generally well pleased that Mr. *Braxton* should be returned a Delegate, but that there was not a sufficient number who had not voted to have elected Mr. *Braxton*; and in case the poll had been continued, most of them would have voted for Mr. *Taylor*; that Mr. *Dandridge Claiborne* had been proposed as a sub-Delegate, but on hearing Mr. *Taylor* was a candidate, declined; that the poll was kept open as long as any person would come in and vote, and that the Sheriff, before he closed it, made publication several times for the freeholders to come and vote; and that, in any event, Mr. *Taylor* would have been elected; that it further appeared, from the testimony of *Drury Ragsdale*, that after Mr. *Aylett* declined there was a sufficient number, in his opinion, to set Mr. *Braxton* before Mr. *Aylett*; that many who did not vote after Mr. *Aylett's* resignation looked on it to be unnecessary, considering Mr. *Braxton* as elected of course; that the poll was kept open a considerable time after the people declined going in to vote; that the deponent informed many, while the poll was taking, of the consequences of leaving Mr. *Braxton* out; that, for some time after the poll was began, Mr. *Braxton's* friends were backward in giving their votes, but afterwards they exerted themselves to promote his interest; that the deponent, with Mr. *Fox*, the day after the election, was making a calculation how many persons were at the election who did not vote, and they made the number about forty-two, which would mostly have voted for Mr. *Braxton* and Mr. *Aylett*; but that, in any event, Mr. *Taylor* would have been elected; that it also appeared, from the testimony of *James Quarles*, that he did not vote at the election, on account of Mr. *Aylett's* resignation; that he thought, until the day of the election, that Mr. *Taylor* offered only as a sub-Delegate, and many people in the Lower Parish thought as he did; that it further appeared, from the testimony of *Archibald Govan*, that he did not vote at the election, thinking Mr. *Braxton* could not get a sufficient number of votes to elect him; but in case he had voted, it would have been for Mr. *Braxton*; that on Mr. *Aylett's* resignation in favour of Mr. *Braxton*, the people, in general, seemed to be well pleased; that before Mr. *Aylett* resigned, Mr. *Braxton* had not friends enough to set him before Mr. *Aylett* or Mr. *Taylor*; but some were of a different opinion; but that, in any event, Mr. *Taylor* would have been elected; and that the Committee had come to the following Resolution thereupon, which he read in his place, and afterwards delivered in at the Clerk's table, where the same was again twice read, and agreed to:

*Resolved*, That the said *William Aylett* and *Richard Squire Taylor* are duly elected Delegates for the said County of *King William*.

*Ordered*, That the Sheriff do amend the Certificate of the election of Delegates for the said County of *King William*, agreeably to the foregoing Resolution.

The Convention then, according to the Order of the Day, resolved itself into a Committee on the state of the Colony; and after some time spent therein, Mr. President resumed the chair, and Mr. *Blair* reported, that the Committee had, according to order, had under their consideration the state of the Colony, and had come to the following Resolutions

thereupon; which he read in his place, and afterwards delivered in at the Clerk's table, where the same were again twice read, and agreed to:

*Resolved*, That the Ninth Regiment of Regular forces, raised for the defence and protection of this Colony, and stationed in the Counties of *Northampton* and *Accomack*, be augmented, agreeably to the recommendation of Major-General *Lee*, by the addition of three Companies, to be raised in the said Counties; and that the Committee for the County of *Northampton* do proceed to appoint a Captain and the Subaltern Officers to one Company, and the Committee for the County of *Accomack* two Captains and the Subaltern Officers for two of the said Companies.

*Resolved*, That such of our friends as, having been made prisoners of war by Lord *Dunmore*, have been permitted by him to go on shore upon their parole, agreeably to the usage of nations, and decline now to return according to their engagement, ought to be compelled so to do; and the Commanding Officer is required to demand the same of Lord *Dunmore*, on his part.

On a motion made, *Resolved*, That this Convention will, on *Monday* next, again resolve itself into a Committee, to take into their further consideration the state of the Colony.

A Petition of the Inhabitants of that part of *America* called *Transylvania*, was presented to the Convention, and read; setting forth, that they became settlers in that country in consequence of the advantageous report of their friends who explored it; and others have been allured, by the specious show of the easy terms on which the lands were to be granted, by those who styled themselves the Proprietors, have, at great expense, and many hardships, made settlements there, under an expectation of an undoubted title, which those gentlemen assured them they could make. That they are greatly alarmed at their late conduct, in advancing the terms of granting the lands from twenty to fifty shillings, sterling, and the exorbitant and increased fees of entry and surveying; and by the short period prefixed for taking up the lands even on those terms, they plainly evince an intention of rising in their demands; and that they are the more alarmed at such unjust and arbitrary proceedings, as they are lately informed, by a copy of a deed made by the *Six Nations* to Sir *William Johnson* and the Commissioners from this Colony, at *Fort Stanwix*, in the year 1768, for all the lands which lie on the south side of the *Ohio*, beginning at the mouth of *Cherokee* or *Hogohege River*, and extending up the said River to *Kittanning*; and as, in the said deed, the said confederate *Indians* declare the *Cherokee River* to be their true boundary with the southward *Indians*, they do, with great reason, doubt the validity of the purchase those Proprietors have made of the *Cherokees*, the only title they set up to the lands for which they demand such exorbitant sums of money. That they cannot help thinking the claim of Mr. *Henderson* and his Company as highly unjust; and as they are anxious to concur, in every respect, with their brethren of the United Colonies, in every measure for the recovery of their rights and liberties, as far as their infant settlement and remote situation will admit, they humbly expect and implore to be taken under the protection of the Convention of *Virginia*, of which they cannot but consider themselves a part, and either adopt such means for their relief as shall be judged most expedient, or, if it be apprehended that their case comes more properly before the Congress, that the Convention would be pleased to recommend it to their Delegates to espouse the same as the cause of this Colony.\*

\*To the Honourable the Convention of VIRGINIA.

The Petition of the Inhabitants, and some of the intended Settlers, of that part of NORTH-AMERICA now denominated TRANSYLVANIA, humbly sheweth:

Whereas some of your Petitioners became adventurers in that country from the advantageous reports of their friends who first explored it, and others since, allured by the specious show of the easy terms on which the land was to be purchased from those who style themselves Proprietors, have, at a great expense, and many hardships, settled there, under the faith of holding the lands by an indefeasible title, which those gentlemen assured them they were capable of making. But your Petitioners have been greatly alarmed at the late conduct of those gentlemen, in advancing the price of the purchase-money from twenty shillings to fifty shillings, sterling, per hundred acres, and at the same time have increased the fees of entry and surveying to a most exorbitant rate; and, by the short period prefixed for taking up the lands, even on those extravagant terms, they plainly evince their intentions of rising in their demands as the settlers increase, or their insatiable avarice shall dictate. And your Petitioners have been more justly alarmed at such unaccountable and arbitrary proceedings, as they have lately learned, from a copy of the

*Ordered*, That the said Petition, together with the several papers relating thereto, be referred to the Committee on the state of the Colony.

*Ordered*, That Mr. *George Mason* be added to the Committee of Privileges and Elections, and to the Committee of Propositions and Grievances, and to the Committee appointed to prepare a Declaration of Rights, and such a form of Government as will be most likely to maintain peace and order in this Colony, and secure substantial and equal liberty to the people.

A Petition of *Robert Adam* was presented to the Convention, and read; setting forth that, notwithstanding the soil and climate of this country are peculiarly adapted to producing flax and hemp, there is a great scarcity of linen of all kinds, to the great distress of the people, which will be increased by the great demand and consumption of coarse linens and sail-cloth in the *American* armies and fleets, hitherto supplied in a precarious manner, and at an exorbitant price; that these evils are like to continue during our present contest and stagnation of trade, unless removed by the encouragement and patronage of the publick; that there

deed made by the *Six Nations*, with Sir *William Johnson* and the Commissioners from this Colony, at *Fort Stanwix*, in the year 1768, that the said lands were included in the cession or grant of all that tract which lies on the south side of the River *Ohio*, beginning at the mouth of *Cherokee* or *Hoghege* River, and extending up the said River to *Kittanning*. And as in the preamble of the said deed the said confederate *Indians* declare the *Cherokee River* to be their true boundary with the southward *Indians*, your Petitioners may, with great reason, doubt the validity of the purchase that those Proprietors have made of the *Cherokees*,—the only title they set up to the lands for which they demand such extravagant sums from your Petitioners, without any other assurance for holding them than their own deed and warranty—a poor security, as your Petitioners humbly apprehend, for the money that, among other new and unreasonable regulations, these Proprietors insist should be paid down on the delivery of the deed. And as we have the greatest reason to presume that his Majesty, to whom the lands were deeded by the *Six Nations*, for a valuable consideration, will vindicate his title, and think himself at liberty to grant them to such persons and on such terms as he pleases, your Petitioners would in consequence thereof be turned out of possession, or obliged to purchase their lands and improvements on such terms as the new grantee or proprietor might think fit to impose, so that we cannot help regarding the demand of Mr. *Henderson* and his Company as highly unjust and impolitic, in the infant state of the settlement, as well as greatly injurious to your Petitioners, who would cheerfully have paid the consideration at first stipulated by the Company, whenever their grant had been confirmed by the Crown, or otherwise authenticated by the Supreme Legislature.

And as we are anxious to concur in every respect with our brethren of the United Colonies for our just rights and privileges, as far as our infant settlement and remote situation will admit of, we humbly expect and implore to be taken under the protection of the honourable Convention of the Colony of *Virginia*, of which we cannot help thinking ourselves still a part, and request your kind interposition in our behalf, that we may not suffer under the rigorous demands and impositions of the gentlemen styling themselves Proprietors, who, the better to effect their oppressive designs, have given them the colour of a law, enacted by a score of men, artfully picked from the few adventurers who went to see the country last summer, overawed by the presence of Mr. *Henderson*. And that you would take such measures as your Honours in your wisdom shall judge most expedient for restoring peace and harmony to our divided settlement; or, if your Honours apprehend that our case comes more properly before the honourable the General Congress, that you would in your goodness recommend the same to your worthy Delegates to espouse it as the cause of the Colony. And your Petitioners, &c.

Herman Consoley,		

are many families who, though capable of raising flax and hemp, are unacquainted with the different branches of dressing, spinning, and weaving, but would be induced to go largely into it, if, by the establishment of linen manufactories, they were certain of a market for their commodities, in their different states of perfection; that if the Church-Wardens were empowered to bind poor orphan children apprentices to such manufactories, it would not only be a means of spreading the knowledge of so useful a business, but employ numbers of poor people who now are, or may soon become, a charge to their respective Parishes; that he has formerly been accustomed to the linen manufactory, and is acquainted with the method of carrying it on in some parts of *Great Britain*, and will undertake to set up and carry on a linen manufactory with twenty looms, and a sufficient number of spinning-wheels, and other necessary implements and hands, to keep the said looms constantly at work, upon the country's advancing him, on sufficient security for six years, without interest, a capital sum sufficient to carry on the said manufactory for one year, the money to be repaid in six equal annual payments, in coarse linen or sail-cloth by him manufactured, at such reasonable rates or prices as shall be stated by the Convention, or Commissioners appointed for that purpose, unless the said manufactory should happen to be destroyed by the enemy, in which case he should expect to be indemnified his actual loss; that he conceives the sum necessary to carry on the said manufactory for one year would amount to about £1,700, as may appear from the estimate thereof, to which he refers.

*Ordered*, That the said Petition be referred to the Committee appointed to prepare and bring in an Ordinance to encourage Woollen, Linen, and other Manufactories.

*Ordered*, That Mr. *George Mason* be added to the said Committee, and to the Committee appointed to prepare and bring in an Ordinance to encourage the making of Salt, Saltpetre, and Gunpowder.

Adjourned till *Monday*, ten o'clock.

Monday, May 20, 1776.

A Petition of *William Finnie* was presented to the Convention, and read; setting forth, that some time in *June* last he was appointed Keeper of the Magazine by the General Assembly of this Colony, in which office he acted until the 28th day of *October*, when the Committee of Safety were pleased to appoint him Deputy Quartermaster; that during his continuance in office he diligently attended at the Magazine, and delivered out several hundred muskets and other arms to the different Counties; that he was shortly after deputed by the Committee of Safety to collect all the publick arms throughout the Colony, and that in consequence thereof, and through his diligence, he collected upwards of three hundred complete stand belonging to the country, exclusive of those he delivered out; and that the sum of £25 was allowed by the Committee of Safety in part for his services in collecting the arms, but they referred him, for a further allowance for his trouble, both in the collection of the arms and as Keepr of the Magazine, to this Convention, and praying such additional allowance as may be judged reasonable.

*Ordered*, That the said Petition be referred to the Committee of Publick Claims; that they inquire into the truth thereof, and report the same, together with their opinion thereupon, to the Convention.

The President laid before the Convention a Letter from Dr. *Skinner* to Brigadier-General *Lewis*, recommending a further provision to be made for the Surgeons and Surgeons' Mates.

*Ordered*, That the said Letter be referred to the Committee on the state of the Colony.

*Ordered*, That *John Goodrich, Jun.*, be discharged from custody, on entering into bond, with security, in the penalty of £1,000, to the Committee of Safety, immediately to repair to the Plantation of *William Harwood*, Gentleman, in the County of *Warwick*, and confine himself within three miles thereof until the 3d day of *June* next, and then appear before the Committee of Safety, in the City of *Williamsburgh*, in order to be examined touching his conduct, and abide by such determination as shall be made thereon by the Convention.

An Advertisement, signed by a certain *George Morgan*, for setting up a Land Office, to issue Warrants for Survey-

ing, and containing proposals for granting lands within the limits and territory of *Virginia*, was presented to the Convention, and read.

*Ordered*, That the said Advertisement be referred to the Committee on the state of the Colony.

The Convention being informed that *William Aylett*, Esq., a Delegate for the County of *King William*, had accepted a military post of profit in the Continental Army, by which his seat in this Convention is become vacated,

*Ordered*, That the said information be referred to the Committee of Privileges and Elections, and that they inquire into the truth thereof, and report the same, together with their opinion thereupon, to the Convention.

A Petition of the Freeholders and other inhabitants of the County of *Mecklenburgh* was presented to the Convention, and read; setting forth, that the exemption allowed to Overseers from attending musters, and being drafted as Militia, by an Ordinance of the last Convention, tended greatly to weaken the Militia, many persons having become Overseers in order to screen themselves from the service of their country, and praying that the said Ordinance, so far as it relates to the said exemption, may be repealed.

*Ordered*, That the said Petition be referred to the Committee of Propositions and Grievances, and they are to report the same, together with their opinion thereupon, to the Convention.

*Ordered*, That Mr. *Kenner* be added to the Committees of Propositions and Grievances and Privileges and Elections.

The Convention then, according to the Order of the Day, resolved itself into a Committee on the state of the Colony, and after some time spent therein, Mr. President resumed the chair, and Mr. *Cary* reported, that the Committee had, according to order, had under their consideration the state of the Colony, and had come to the following Resolutions thereupon; which he read in his place, and afterwards delivered in at the Clerk's table, where the same were again twice read, and agreed to:

It appearing to the Committee that proper Surgeons and Mates cannot be engaged for the Continental Troops in this Colony at the pay allowed by the General Congress, and that two Mates are necessary for each Regiment,

*Resolved, therefore*, That the expense of one Mate to each Regiment, and the additional pay of the Surgeon and Mate, so as to bring the Congress allowance to that established by this Convention, ought at present to be defrayed by this Colony.

*Resolved*, That four Troops of Horse be raised, for the better security and defence of this Colony; that the Officers and Troopers, at their own expense, provide their Horses, Arms, and Accoutrements, and be allowed a reasonable pay and proper subsistence, and be paid for such Horses as are killed or taken by the enemy.

A Petition of *William Chapman* and *George Slaughter* was presented to the Convention, and read; setting forth, that in the year 1774 they were appointed to the command of two Companies of Militia which were drafted and ordered out on the *Indian* expedition, which Companies were at the draft complete, but were greatly reduced afterwards by desertion and otherwise before they arrived at the place of general rendezvous; that the Commissioners appointed to settle the several accounts relating to that expedition thought it reasonable when they met to allow them and their subaltern officers their full pay, according to the rank they held in the Army, notwithstanding the deficiency of their Companies; but when they came to receive their pay, they were surprised to find the first determination of the Commissioners had been altered, and the pay of the several officers reduced, and praying such relief as should appear to be just and reasonable.

*Ordered*, That the said Petition be referred to the Committee of Publick Claims, and that they report the same, together with their opinion thereupon, to the Convention.

*Ordered*, That Mr. *David Mason* and Mr. *Scott* be added to the Committee of Publick Claims.

*Resolved*, That this Convention will to-morrow again resolve itself into a Committee, to take into their further consideration the state of the Colony.

Adjourned till to-morrow, ten o'clock.

Tuesday, May 21, 1776.

The Convention being informed that *Gabriel Penn*, Esq., who is returned a Delegate for the County of *Amherst*, at present holds the office of Deputy Sheriff of the said County, and is thereby rendered incapable of sitting and voting in this Convention:

*Ordered*, That the said information be referred to the Committee of Privileges and Elections, and that they inquire into the truth thereof, and report the same, together with their opinion thereupon, to the Convention.

A Petition of *William Preston* was presented to the Convention, and read; setting forth, that having the command of the Militia in the County of *Fincastle*, he received orders from Lord *Dunmore*, the 24th of *May*, 1774, to embody the Militia of said County, and take every possible measure for the defence of the inhabitants, as a war with the *Indians* at that time seemed unavoidable; that, during the course of the summer, he not only received orders to send out the Militia on the frontiers, but to raise a number of men to send on an expedition against the *Shawanese*, which orders he executed with the greatest punctuality, and in the execution thereof employed his whole time and attention, from the 24th *May* to the 7th of *November* following, when he discharged the men upon duty on the frontiers; and praying such reasonable compensation for his trouble and services as they shall be found to deserve.

*Ordered*, That the said Petition be referred to the Committee of Publick Claims, and that they report the same, together with their opinion thereupon, to the Convention.

The Convention then, according to the Order of the Day, resolved itself into a Committee on the state of the Colony, and after some time spent therein, Mr. President resumed the chair, and Mr. *Cary* reported, that the Committee had, according to order, had under their consideration the state of the Colony, and had come to the following Resolutions thereupon; which he read in his place, and afterwards delivered in at the Clerk's table, where the same were again twice read, and agreed to:

*Resolved*, That such *Indian* Warriors of the neighbouring tribes as are willing be engaged in the service of this country, provided the number so to be engaged doth not exceed two hundred, to be marched down to the assistance of the Regular forces on the Eastern quarter.

*Resolved*, That *John Gibson*, Esq., be desired to negotiate with the *Ohio* or *Western Indians*, and inform them of the friendly sentiments of this country towards them, and of the purport of the foregoing Resolution for calling in their assistance, and that the same is warranted and directed by the Resolution of the General Congress of the 1st day of *July* last.

*Resolved*, That the neighbouring friendly *Indians* on the *Ohio* be assured that if any encroachments have been made by the people of this country upon their lands, beyond the boundary established by the Treaty held at *Fort Stanwix*, they have been without our concurrence, and shall be removed.

*Resolved*, That one hundred men, under the command of proper officers, be forthwith raised in the County of *Fincastle*, and so disposed or stationed, by the Committee of said County, as may best secure the inhabitants from the hostile attempts of the *Indians*.

*Resolved*, That one hundred and fifty men, under the command of proper officers, be forthwith raised in *Augusta* and *Botetourt* Counties, and that one hundred of such men be stationed at the mouth of the *Great Kanawha*, to augment the garrison already there, and fifty at the mouth of *Wheeling*, the whole of which to be under the command of a Major.

*Resolved*, That the Militias of all the frontier Counties ought to be got in readiness for action, without loss of time, and, for this purpose, the several Militia Officers ought to use their utmost exertions in their several departments, as there is too much reason to apprehend the wicked attempts of our enemies to excite an *Indian* war may involve us in calamities inseparable therefrom.

*Resolved*, That the foregoing Resolutions be transmitted to our Delegates in Congress, and to the Commanding Officers of the Militia of the Counties of *Fincastle*, *Botetourt*, *Augusta*, *West-Augusta*, *Dunmore*, *Hampshire*, *Frederick*, *Berkeley*, *Pittsylvania*, and *Loudoun*.

On a motion made, *Ordered*, That Mr. *Starke*, Mr. *Johnson*, Mr. *Henry*, Mr. *Blair*, Mr. *Gilmer*, Mr. *Randolph*, and Mr. *Travis*, be a Committee to inquire for a proper Hospital for the reception and accommodation of the sick and wounded Soldiers.

*Ordered*, That all Petitions and Propositions, referred from the last to the present Convention, be referred to the Committee of Propositions and Grievances, and that they are to report the same, together with their opinion thereupon, to the Convention.

Mr. *Richard Lee*, from the Committee of Publick Claims, reported that the Committee had, according to order, had under their consideration several Petitions to them referred, and had come to the following Resolutions thereupon; which he read in his place, and afterwards delivered in at the Clerk's table, where the same were again twice read, and agreed to.

*Resolved*, That the Petition of *George Wray*, *John Jones*, *Alexander* and *George Graham*, and *Henry Sinclair*, praying to be allowed for several Vessels furnished by them to stop the Channel of *Hampton River*, in order to prevent the attacks of the enemy, is reasonable, and that the value of the said Vessels ought to be paid the Petitioners by the publick.

*Resolved*, That the said *George Wray*, one of the said Petitioners, ought to be allowed the sum of £240 5s., the value of the Vessel furnished by him.

*Resolved*, That the Petition of *William Chapman* and *George Slaughter*, who, as Captains, commanded two Companies of Militia which were drafted and ordered out upon the *Indian* expedition, praying to be allowed further pay, other than was allowed them by the Commissioners appointed to settle the accounts relative to that expedition, be rejected.

*Resolved*, That the Petition of *Matthew Wilson*, an Ensign of Militia in the late *Indian* expedition, praying a further allowance of pay, be rejected.

A Petition of *Edward Hansford*, in behalf of his daughter *Elizabeth Hansford*, was presented to the Convention, and read; setting forth, that the said *Elizabeth*, at the time of burning the remains of *Norfolk Town*, was seized in fee simple of a good dwelling-house and about four lots of land, in *Duke Street*, in the said Town of *Norfolk*, which house was valued at £150; that she had also the misfortune to have sundry goods, to the amount of £32 5s., destroyed therewith, and hath only received the sum of £10 in part of the said valuation, paid by order of the Committee of Safety; that he also was assisted by two wagons employed in the service of this Colony, three days and a half, at 15s. per day, and one wagon two days and a half, at the same rate, which, together with three days' provision for nine in family, amounts, in the whole, including the £10 aforesaid, to £17 19s. 4½d., leaving a balance of £132 0s. 7½d. due to the said *Elizabeth*; that being about to remove to the interior parts of the country, she prays the said balance may, by direction of this Convention, be paid to her.

*Ordered*, That the said Petition be referred to the Committee of Propositions and Grievances, and they are to report the same, together with their opinion thereupon, to the Convention.

Two Petitions of the Inhabitants of *Pendleton District*, situate to the westward of *Fincastle County*, together with the Proceedings of the Committee of the said County thereupon, were presented to the Convention, and read; setting forth that, being deeply impressed with a sense of the tyrannical and oppressive measures carried on by the *British Ministry*, and also of the necessity of a noble and spirited resistance, they think it unnatural that they, though few, should remain inactive while their brethren are bleeding in the field; that their local situation hath hitherto deprived them of the blessing of being under the immediate direction of any regular judicature, by means whereof they could contribute their mite in support of the glorious cause; that they have now formed themselves into a Society, and chosen a Committee to superintend their publick affairs; that *John Carter* and *Robert Lucas*, two gentlemen of the neighbouring settlement, called *Washington District*, taking advantage of the present disorders, pretend they have purchased the lands of the Petitioners, and have exercised many unwarrantable oppressions, in seizing their improved possessions without allow-

ing them any reward, or giving them the least notice, and publicly declaring that all others who will not accede to their terms, and receive titles of them, at such exorbitant prices as they shall think proper to exact, shall be turned out of possession; that, though settled in a remote part of the country, they beg they may not be considered as alienated from their *American* brethren, but be incorporated into, and deemed part of the Colony of *Virginia*, whose protection they claim, and whose direction and jurisdiction they acknowledge in the fullest extent.

*Ordered*, That the said Petition be referred to the Committee on the state of the Colony.

*Resolved*, That this Convention will to-morrow again resolve itself into a Committee, to take into their further consideration the state of the Colony.

*Ordered*, That Mr. *Lockhart*, Mr. *Campbell*, Mr. *Field*, Mr. *Gee*, and Mr. *Fulgham*, be added to the Committee of Publick Claims; Mr. *William Digges* and Mr. *Campbell* to the Committee of Propositions and Grievances; and Mr. *Bowyer* to the Committee appointed to prepare a Declaration of Rights, and such a plan of Government as will be most likely to maintain peace and order in this Colony, and secure substantial and equal liberty to the people.

Adjourned till to-morrow, ten o'clock.

— Wednesday, May 22, 1776.

*Ordered*, That the Letter from the Delegates appointed to represent this Colony in General Congress to the Committee of Safety, and formerly laid before the Convention, advising them that the *Indians* had complained to the Agent for *Indian Affairs* that their lands had been encroached upon, and that Mr. *John Harvie* and Mr. *Charles Sims* had made surveys, and taken possession of *Montour's Island*, in the *Ohio*, a few miles below *Pittsburgh*, together with sundry Depositions and Papers relative thereto, now laid before the Convention, be referred to Mr. *Mercer*, Mr. *Wood*, Mr. *Richard Lee*, Mr. *Clapham*, Mr. *Peyton*, Mr. *Henry Lee*, Mr. *George Mason*, Mr. *Thomas Lewis*, Mr. *Hite*, Mr. *Rutherford*, Mr. *Drew*, Mr. *Bird*, Mr. *Tipton*, Mr. *McDowell*, Mr. *Bowyer*, Mr. *Lockhart*, Mr. *Campbell*, and Mr. *Henry*, and they are to inquire into the truth of the said complaint, and report the same, together with their opinion thereupon, to the Convention.

Mr. *Henry*, from the Committee of Propositions and Grievances, reported that the Committee had, according to order, had under their consideration the Petition of *John Ballendine* and *John Reveley*, to them referred, and that it appeared the casting of proper cannon is only to be effected by a Foundry, for which pit coal is absolutely necessary; but as the security of this Colony greatly depends on an immediate supply of cannon, they are of opinion that a Foundry should be erected and carried on upon the publick account; that the erecting a blast furnace on *Phelps's Creek*, near *James River*, will not only furnish the Foundry with pig iron, but at a much cheaper rate than can be furnished from any other blast furnace in this Colony, the Petitioners having offered to supply this Colony with any quantity they can make, delivered at the Foundry, at £7 10s., currency, per ton, and have engaged to set about such work immediately, upon receiving the sum of £5,000 in advance, to be lodged in the hands of trustees, and paid to them at such times as the said trustees shall judge necessary for carrying on such works, for the repayment of which, in five equal payments, they propose to give security on the lands they shall purchase and the works thereon; and that the Committee had come to the following Resolutions thereupon; which he read in his place, and afterwards delivered in at the Clerk's table, where the same were again twice read, and agreed to:

*Resolved*, That so much of the said Petition as prays the assistance of the publick in advancing money to enable the Petitioners to erect a Blast Furnace, is reasonable; and that a sum of money, not exceeding £5,000, be advanced by the publick for that purpose, in the manner and on the terms mentioned in the foregoing Report.

*Resolved*, That such other part of the said Petition as relates to the Foundry, be rejected; for that the same ought to be erected on the publick account.

Mr. *Cary*, from the Committee of Privileges and Elections, reported that the Committee had inquired into the

information to them referred, that *William Aylett*, Esq., a Delegate for the County of *King William*, had accepted a military post of profit in the Continental Army, by which his seat in this Convention is become vacated; and that it appeared to them that the said *William Aylett*, since his election, had accepted a commission appointing him Deputy Commissary-General to the Continental forces in *Virginia*; and that they had come to the following Resolution thereupon, which he read in his place, and afterwards delivered in at the Clerk's table, where the same was again twice read, and agreed to:

*Resolved*, That the said *William Aylett*, by accepting the Commission aforesaid, hath vacated his seat in this Convention.

*Ordered*, That the President be desired to issue his Warrant for the election of a Delegate for the County of *King William*, in the room of the said *William Aylett*.

*Resolved*, That in order to facilitate the enlistment and bringing down *Indian* auxiliaries to the assistance of this country, and for securing the persons and properties of such *Indians* from injury and insult, the Committee of Safety be desired to furnish the requisite sum or sums of money to *John Gibson*, Esq., and to give him such credentials and furtherance in the said business, as is necessary to give speedy success.

*Resolved*, That *Richard Morris* be appointed Paymaster and Commissary of Provisions to the two Battalions ordered by this Convention to the assistance of *North-Carolina*; and that he be allowed 12s. 6d. per day for his service in those offices, exclusive of his necessary expenses, and wages paid to Assistants.

*Mr. Cary*, from the Committee of Privileges and Elections, reported that the Committee had, according to order, had under their consideration the information to them referred: That *Gabriel Penn*, Esq., who is returned a Delegate for the County of *Amherst*, is at present Under-Sheriff in the said County, and is rendered incapable of sitting or voting in this Convention; whereupon it appeared to them that at a Court continued and held for the said County of *Amherst*, on the 6th day of *February* last, the said *Gabriel Penn*, on the motion of *Hugh Rose*, Gentleman, was admitted and sworn his Under-Sheriff, agreeably to the Ordinance of the Convention; that it further appeared that the said *Hugh Rose*, on the application of the said *Gabriel Penn*, did, on the 8th day of *March* last, near a month before the election, discharge him from the office of Under-Sheriff; and that they had come to the following Resolution thereupon; which he read in his place, and afterwards delivered in at the Clerk's table, where the same was again twice read, and agreed to:

*Resolved*, That the said *Gabriel Penn* is duly elected a Delegate for the County of *Amherst*.

The Order of the Day, for the Convention to resolve itself into a Committee on the state of the Colony, being read,

*Ordered*, That the same be put off till to-morrow.

Adjourned till to-morrow, ten o'clock.

—  
Thursday, May 23, 1776.

*Ordered*, That *Mr. Fleming* be added to the Committee of Publick Claims.

It being represented to the Convention that many of the Minute-men and Militia who are to be employed for the assistance of *North-Carolina*, are without Tents, Blankets, &c.,

*Resolved*, That it be an instruction to the Committee of Safety to give such orders, in that respect, as to them shall seem proper.

A Representation from the Inhabitants of some late purchases on the Rivers *Wattaugah* and *Holstein*, setting forth that they are deeply impressed with a sense of the distresses of their *American* brethren, and will, when called upon, with their lives and fortunes, lend them every assistance in their power; that they beg to be considered as a part of this Colony, and will readily embrace every opportunity of obeying any instructions or commands they may receive from the Convention.

*Ordered*, That the said Representation be referred to the Committee on the state of the Colony.

The Order of the Day, for the Convention to resolve itself into a Committee on the state of the Colony, being read,

*Ordered*, That the same be put off till *Saturday* next.

*Ordered*, That an Ordinance be brought in pursuant to the Resolutions for augmenting the Ninth Regiment of Regular forces raised for the defence and protection of this Colony, for raising four Troops of Horse, and for raising men for the defence of the frontier Counties in this Colony; and that *Mr. Henry*, the Members for *Augusta*, *Botetourt*, *Fincastle*, *West-Augusta*, *Hampshire*, *Frederick*, *Berkeley*, *Dunmore*, *Accomack*, and *Northampton*, be a Committee to prepare and bring in the same.

*Ordered*, That *Mr. Henry Lee* be added to the Committee of Propositions and Grievances.

Adjourned till to-morrow, ten o'clock.

—  
Friday, May 24, 1776.

*Ordered*, That *Mr. Harvie* and *Mr. Wood* be added to the Committee of Propositions and Grievances, *Mr. Simms* to the Committee of Publick Claims, *Mr. Simpson* to the Committee of Privileges and Elections, and *Mr. Harvie* to the Committee appointed to prepare a Declaration of Rights and such a form of Government as will be most likely to maintain peace and order in this Colony, and secure substantial and equal liberty to the people.

Adjourned till to-morrow, ten o'clock.

—  
Saturday, May 25, 1776.

*Resolved*, That the Committee of Safety be desired to forward the Salt Works intended to be erected, in such manner as to them shall seem most likely to produce an adequate supply of that necessary article.

The President laid before the Convention two Letters received from a Committee of the General Congress, and *Mr. Harvie* a Letter received by him from the same persons, on the subject of *Indian* affairs; which were read, and ordered to lie on the table.

*Resolved*, That *Richard Adams*, *Nathaniel Wilkinson*, and *Turner Southall*, Esquires, be, and they are hereby, constituted and appointed Commissioners for erecting a Foundry for the casting of Ordnance, pursuant to a Resolution of this Convention of the 22d instant; and that the said Commissioners, or any two of them, be empowered to engage proper workmen, and all things necessary to perfect and work the same in the most expeditious manner, and to draw on the Treasurer of this Colony, from time to time, for such sums of money as they shall judge necessary.

A Petition of the Inhabitants of the County of *Hanover* was presented to the Convention, and read; setting forth that, determined to oppose the tyrannical measures of the *British* Ministry, they did, agreeably to the directions of the General Congress and Convention, proceed to the choice of a Committee for their said County; but that the Tellers of the ballots, after the election was over, took upon themselves to exclude some who were chosen by the voice of the people, and admit others who were not, greatly to the injury of that harmony and concord which has ever prevailed among them; and praying that the said Committee may be dissolved and a new one chosen, and that an Ordinance may pass incapacitating any person from holding any place of trust in the Government, after a breach of publick faith, or a manifest abuse of power.

*Ordered*, That the said Petition be referred to the Committee of Propositions and Grievances; and they are to report the same, together with their opinion thereupon, to the Convention.

*Mr. Bowyer*, from the Committee appointed, presented to the Convention, according to order, an Ordinance for augmenting the Ninth Regiment of Regular forces, providing for the better defence of the frontiers of this Colony, and for raising four Troops of Horse; which was read the first time, and ordered to be read a second time.

The Order of the Day, for the Convention to resolve itself into a Committee on the state of the Colony, being read,

*Ordered*, That the same be put off till *Monday* next.

An Ordinance for augmenting the Ninth Regiment of Regular forces, providing for the better defence of the frontiers of this Colony, and for raising four Troops of Horse, was read a second time, and ordered to be committed to a Committee of the whole Convention.

*Resolved*, That this Convention will, on *Monday* next, resolve itself into a Committee on the said Ordinance.

Mr. Harvie, to whom it was referred, at the last Convention, to settle and state such of the Claims against the publick, on account of the late expedition against the Indians, as then remained unsettled, and to revise those already settled, in *West-Augusta*, made a Report of his proceedings therein; which was ordered to be referred to Mr. Archibald Cary, Mr. Thomas Lewis, Mr. Fleming, Mr. Winn, Mr. Rutherford, Mr. Wood, Mr. Drew, Mr. Bird, Mr. Tipton, Mr. Mercer, Mr. Hite, Mr. Simms, Mr. McDowell, Mr. Madison, Mr. Moore, and Mr. Strother; and they are to report the same, together with their opinion thereupon, to the Convention.

Adjourned till Monday, ten o'clock.

Monday, May 27, 1776.

The President laid before the Convention a Letter from the Delegates appointed to represent this Colony in General Congress; also, a Letter from Colonel Stephen, of the Fourth Regiment, and a Letter from Colonel Preston; which were read, and ordered to be referred to the Committee on the state of the Colony.

A Petition of the Inhabitants of *Hanover* County was presented to the Convention, and read; setting forth, that in the present state of the country, they are apprehensive it will not be in their power to pay the taxes so necessarily assessed for the defence of their rights and liberties; and praying that the Convention will take into consideration the expediency of each County's furnishing its proportion of provision for the Army, having regard to what kind of provisions each County should furnish; that such a scheme would afford the country in general the greatest relief, and be a means of preventing a few from engrossing the very profitable business of supplying the Army with provisions.

Ordered, That the said Petition be referred to the Committee of Propositions and Grievances; and that they are to report the same, with their opinion thereupon, to the Convention.

A Petition of *Bennett Tompkins* was presented to the Convention, and read; setting forth, that sometime in November last, four of his best Negroes endeavoured to make their escape to Lord Dunmore, but were apprehended and delivered to justice, two of whom were found guilty of theft, and ordered by the Convention to remain in prison till they could be tried according to law; that one of the said Negroes soon after died in prison; and praying such compensation for his loss as should be thought just and reasonable.

Ordered, That the said Petition be referred to the Committee of Publick Claims; and they are to report the same, together with their opinion thereupon, to the Convention.

Mr. Cary, from the Committee appointed to prepare a Declaration of Rights, and such a plan of Government as will be most likely to maintain peace and order in this Colony, and secure substantial and equal liberty to the people, reported, that the Committee had accordingly prepared a Declaration of Rights; which he read in his place, and afterwards delivered in at the Clerk's table, where the same was again read, and ordered to be committed to a Committee of the whole Convention.\*

\* WILLIAMSBURG, VIRGINIA, May 27, 1776.

The following Declaration was reported to the Convention by the Committee appointed to prepare the same, and referred to the consideration of a Committee of the whole Convention; and, in the mean time, is ordered to be printed for the perusal of the Members:

*A Declaration of Rights, made by the Representatives of the good people of VIRGINIA, assembled in full and free Convention, which rights do pertain to us and our posterity, as the basis and foundation of Government.*

1. That all men are born equally free and independent, and have certain inherent natural rights, of which they cannot, by any compact, deprive or divest their posterity; among which are the enjoyment of life and liberty, with the means of acquiring and possessing property, and pursuing and obtaining happiness and safety.

2. That all power is vested in, and consequently derived from, the People; that magistrates are their trustees and servants, and at all times amenable to them.

3. That Government is, or ought to be, instituted for the common benefit, protection, and security of the people, nation, or community. Of all the various modes and forms of Government, that is best which is capable of producing the greatest degree of happiness and safety, and is most effectually secured against the danger of mal-administration; and that whenever any Government shall be found inadequate or contrary to these purposes, a majority of the community hath an indubitable, unalienable, and indefeasible right to reform, alter, or abolish it, in such manner as shall be judged most conducive to the publick weal.

4. That no man, or set of men, are entitled to exclusive or separate emoluments or privileges from the community, but in consideration of

Resolved, That this Convention will, on *Wednesday* next, resolve itself into a Committee on the said Declaration; and that, in the mean time, the same be printed for the perusal of the Members.

Ordered, That it be an instruction to the Committee to whom the Report of *John Harvie*, Gentleman, was referred on *Saturday* last, that they also receive the Report of *Joseph Neaville*, Gentleman, who was appointed to revise and adjust the Accounts against the publick for the late *Indian* expedition, in the Counties of *Berkeley*, *Frederick*, *Dunmore*, and *Hampshire*, and that they report the same, with their opinion thereupon, to the Convention.

Ordered, That Mr. Simpson, Mr. Richard Cary, Mr. Lockhart, Mr. Bowyer, Mr. Johnson, and Mr. Bullitt, be added to the Committee to whom the said Report is referred; and that any seven of the said Committee be a sufficient number to proceed to business.

Ordered, That Mr. Curle and Mr. Holt be added to the Committees of Privileges and Elections, Propositions and Grievances, and to the Committee appointed to prepare such a plan of Government as will be most likely to maintain peace and order in this Colony, and secure substantial and equal liberty to the people.

Ordered, That Mr. Newton and Mr. Russell be added to the Committee of Propositions and Grievances, and to the Committee appointed to prepare an Ordinance to encourage the making of Salt, Saltpetre, and Gunpowder.

A Petition of *John Smelly* and *Joseph Cutchin* was presented to the Convention, and read; setting forth, that they have been Inspectors at *Smithfield* and *Fulham's* Warehouses

publick services; which, not being descendible or hereditary, the idea of a man being born a Magistrate, a Legislator, or a Judge, is unnatural and absurd.

5. That the Legislative and Executive powers of the State should be separate and distinct from the Judicative; and that the members of the two first may be restrained from oppression, by feeling and participating the burdens of the people, they should, at fixed periods, be reduced to a private station, return into that body from which they were originally taken, and the vacancies be supplied by frequent, certain, and regular elections.

6. That elections of members to serve as Representatives of the people in Assembly, ought to be free; and that all men, having sufficient evidence of permanent common interest with, and attachment to the community, have the right of suffrage.

7. That no part of a man's property can be taken from him, or applied to publick uses, without his own consent, or that of his legal representatives; nor are the people bound by any laws but such as they have in like manner assented to for their common good.

8. That all power of suspending laws, or the execution of laws, by any authority, without the consent of the Representatives of the people, is injurious to their rights, and ought not to be exercised.

9. That laws having retrospect to crimes, and punishing offences committed before the existence of such laws, are generally oppressive, and ought to be avoided.

10. That in all capital or criminal prosecutions a man hath a right to demand the cause and nature of his accusation, to be confronted with the accusers or witnesses, to call for evidence in his favour, and a speedy trial by an impartial jury of his vicinage, without whose unanimous consent he cannot be found guilty, nor can he be compelled to give evidence against himself; that no man be deprived of his liberty except by the law of the land, or the judgment of his peers.

11. That excessive bail ought not to be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted.

12. That warrants unsupported by evidence, whereby any officer or messenger may be commanded or required to search suspected places, or to seize any person or persons, his or their property, not particularly described, are grievous and oppressive, and ought not to be granted.

13. That in controversies respecting property, and in suits between man and man, the ancient trial by Jury is preferable to any other, and ought to be held sacred.

14. That the freedom of the Press is one of the great bulwarks of liberty, and can never be restrained but by despotick Governments.

15. That a well-regulated Militia, composed of the body of the people, trained to arms, is the proper, natural, and safe defence of a free State; that Standing Armies, in time of peace, should be avoided, as dangerous to liberty; and that, in all cases, the military should be under strict subordination to and governed by the civil power.

16. That the people have a right to uniform Government, and therefore, that no Government separate from, or independent of, the Government of *Virginia*, ought, of right, to be erected or established within the limits thereof.

17. That no free Government, or the blessings of liberty, can be preserved to any people but by a firm adherence to justice, moderation, temperance, frugality, and virtue, and by frequent recurrence to fundamental principles.

18. That Religion, or the duty we owe to our Creator, and the manner of discharging it, can be directed only by reason and conviction, not by force or violence; and therefore that all men should enjoy the fuller toleration in the exercise of religion, according to the dictates of conscience, unpunished and unrestrained by the magistrate, unless, under colour of religion, any man disturb the peace, the happiness, or safety of the community. And that it is the mutual duty of all to practise Christian forbearance and charity towards each other.

for many years, during which they used their utmost diligence in discharging their duty; that, on delivering the tobacco out of the said warehouses, they discovered that six hogsheads, containing six thousand two hundred and twelve pounds, for which they have been obliged to pay twenty shillings per hundred; and praying, as the same was not lost through any fault or neglect of theirs, to be indemnified by the publick.

Also a Petition of *Michael Coulter*; setting forth, that he went on the late *Indian* expedition in Captain *McDowell's* Company, stipulating at the time that if carpenters were employed, he should be one; that, on going to the levels of *Greenbrier*, he was employed by Colonel *Charles Lewis* in the carpenter's business till the first of *November*, for which he was allowed only some few shillings more than soldier's pay; and praying a further allowance.

Also a Petition of *John Lyle*; setting forth, that he was employed by *Sampson Matthews* as a master drover on the late *Indian* expedition, and purchased a number of cattle for the said expedition, and was assured that he should receive the same wages as others employed in the same business; that, on receiving his pay, he finds it to be less than several others received for the said purposes; and praying a further allowance.

Ordered, That the said several Petitions be referred to the Committee of Publick Claims; and they are to inquire into the truth thereof, and report the same, with their opinion thereupon, to the Convention.

The Convention then, according to the Order of the Day, resolved itself into a Committee on the Ordinance for augmenting the Ninth Regiment of Regular forces, providing for the better defence of the frontiers of this Colony, and for raising four Troops of Horse; and after some time spent therein, Mr. President resumed the chair, and Mr. *Cary* reported that the Committee had, according to order, had under their consideration the said Ordinance, and had made some progress therein, but not having time to go through the same, had directed him to move for leave to sit again.

Resolved, That this Convention will, to-morrow, again resolve itself into a Committee on the said Ordinance.

The Order of the Day, for the Convention to resolve itself into a Committee on the state of the Colony, being read,

Ordered, That the same be put off till to-morrow.

Resolved, That all persons inimical or disaffected to the liberties or *America* ought to be disarmed, and deprived of their Ammunition.

And for more speedily and effectually carrying into execution this necessary work:

Resolved, That the Committees of all the Counties, Towns, and Corporations in *Virginia*, without loss of time, make diligent search and inquiry in their respective limits for discovering and detecting such enemies or disaffected persons; and in all cases where there is ground to suspect the fidelity and attachment of any person or persons to the *American* interest, the said Committees be empowered and directed to tender to such suspected person or persons, and to them only, the following Oath, or if such person, from religious principles, scruples taking an oath, an affirmation to the like effect:

"I, A, B, in the presence of *Almighty God*, do solemnly swear that I will, to the utmost of my power, support, maintain, and defend, the Government and territory of *Virginia*, in the present just and necessary war, against all persons whatsoever who do or may levy or carry on any hostility or war against the same; and that I will not, in any manner, aid, assist, comfort, countenance, correspond with, or abet, any person whatsoever whom I shall know, or have any cause to suspect, have designs to further, aid, or assist, the tyrannical and cruel war which the *British King* and Parliament have levied against *America*; and that I will, from time to time, disclose and make known all traitorous conspiracies and attempts against the peace and safety of *Virginia* which shall come to my knowledge. So help me *God*."

And that the Arms and Ammunition of the inimical and disaffected persons aforesaid, and of such as refuse to take and subscribe the aforesaid oath, be appraised and used, and applied, in the manner and for the purposes directed by the General Congress in their Resolution of *March 14th*, ultimo.

A Petition of the Inspectors at *Cabin Point* was presented

to the Convention, and read; setting forth, that, agreeably to a Resolution of a former Convention, they sold the tobacco which had remained in their warehouses for one year and upwards, but there still remains a considerable quantity of tobacco, for which they have given receipts; that the warehouses are not in proper order for the safe-keeping thereof; and that, as they have complied with the law as far as lay in their power, they do not look upon themselves as answerable for any accidents that may happen to the said tobacco; and praying the Convention will give such directions concerning the same as they shall think proper.

Ordered, That the said Petition be referred to the Committee of Propositions and Grievances; and they are to report the same, with their opinion thereupon, to the Convention.

The President, from the Committee of Safety, laid before the Convention, according to order, a list of the armed Vessels now fitting out for the defence of this Colony.

Ordered, That the same be referred to the Committee on the state of the Colony.

Ordered, That *Charles*, a Negro man slave, belonging to *Robert Brent*, and *Kitt*, a Negro man slave, the property of *George Brent*, and condemned by the judgment of *Stafford County Court* for felony, and also four Negro slaves belonging to *Thomas Paramore* and *John Bowdoin*, condemned by the judgment of the County Court of *Northampton* for felony, be reprieved, and sent to the Lead-Mines in the County of *Fincastle*, to be employed in working the same on account of the publick.

A Petition of the Freeholders and Inhabitants of the County of *Norfolk* was presented to the Convention, and read; setting forth, that they have been informed a Resolution hath been passed by this Convention for the removal of the inhabitants of the said County, which Resolution, if carried into execution, will involve them in the greatest distress, as many of them have large families, and no places to retreat to; nor can they transport their provisions necessary to support them; nor have they money to buy them elsewhere; and that most of them had pitched their crops for the present year. That, by the burning of the Borough of *Norfolk*, the Court-House of the said County was destroyed, and the place where it stood in the power of the enemies of *America*, by which they were prevented from choosing Delegates to represent them in this Convention; that they humbly presume their situation and circumstances could not be properly represented by means of that unfortunate event; and praying that their case may again be taken into consideration and the Resolution aforesaid rescinded.

Ordered, That the said Petition be referred to the Committee on the state of the Colony.

The Convention then, according to the Order of the Day, resolved itself into a Committee on the state of the Colony, and, after some time spent therein, Mr. President resumed the chair, and Mr. *Cary* reported that the Committee had, according to order, had under their consideration the Petition of the Freeholders and Inhabitants of the County of *Norfolk*, and that it appearing to them in full proof that Lord *Dunmore* and his whole fleet had removed from *Norfolk*, they had come to the following Resolution thereupon; which he read in his place, and afterwards delivered in at the Clerk's table, where the same was again twice read, and agreed to:

Resolved, That the former Resolution of Convention for the removal of the Inhabitants of *Norfolk* and *Princess Anne* Counties, with their stocks and other effects, excepting as to such persons as are inimical to the cause of *America*, be rescinded.

On a motion made, Resolved, That this Convention will to-morrow again resolve itself into a Committee to take into their further consideration the state of the Colony.

A Petition of *John Smith* was presented to the Convention, and read; setting forth, that he has been an inhabitant of the Borough of *Norfolk* from his birth, and for many years possessed lands and houses in the said Borough; but that, on the 6th of *February* last, when the town was set on fire the second time, he had the misfortune to lose his dwelling-house and out-houses thereto belonging, with some household furniture, and hath also lost two valuable slaves, who ran away from him, and entered into the service of Lord *Dunmore*; that he conceives his whole loss amounts to

£1,500 at least, and that he is thereby reduced to a state of indigence and great distress, and praying that his case may be taken into consideration, and such compensation made him as shall be thought just and reasonable.

*Ordered*, That the said Petition be referred to the Committee of Propositions and Grievances; and they are to report the same, with their opinion thereupon, to the Convention.

Mr. *Cary*, from the Committee of Privileges and Elections, reported that the Committee had proceeded to the examination of *Joshua Hopkins*, *Peter Butt*, and *Henry Hambleton*, who were apprehended on suspicion of their being inimical to the rights of *America*, and that it appeared to them, from the testimony of Captain *William Davis*, that about six or eight weeks before the said *Joshua Hopkins* was apprehended, the Commanding Officer at *Kemp's Landing* was informed that the said *Hopkins* was then gone with provisions to Lord *Dunmore*, but that it was too late to detect him in the fact; that the officer desired his informer to watch for his going again; that the said *Hopkins*, in the mean time, made two applications to the witness for leave to go on board, under pretence of settling an account with *Neil Jamieson*, which was refused; that a short time after, information was given that the said *Hopkins* had gone down with provisions to Lord *Dunmore*, upon which a party was sent to lay in wait for him two nights and a day, and about two o'clock in the morning they detected him coming from the fleet with *Simon Whitehurst* and a negro; that the said *Hopkins* then confessed that he had been down to the fleet with his son, whom he had left there, in order to go into Lord *Dunmore's* service. That it also appeared, from the testimony of *Elizabeth Burnett*, that her brother, the said *Peter Butt*, was bound, and is still an apprentice, to *Roger Stewart*, who is now on board the fleet which lately left *Norfolk*, and was taken coming on a visit to see his mother. That the said *Henry Hambleton* appears to have been an indented servant belonging to Captain *Wilson*, who is now with Lord *Dunmore*; and that the said *Hambleton* was taken in company with the said *Peter Butt*. And that they had come to the following Resolutions thereupon; which he read in his place, and afterwards delivered in at the Clerk's table, where the same were again twice read, and agreed to:

*Resolved*, That the said *Joshua Hopkins* be sent to the County of *Princess Anne*, there to be tried by the Court of Commissioners.

*Resolved*, That the said *Peter Butt* be discharged, as well from confinement as his apprenticeship.

*Resolved*, That the said *Henry Hambleton* be discharged from confinement, and released from his indenture and servitude.

Mr. *Richard Lee*, from the Committee of Publick Claims, reported that the Committee had, according to order, had under their consideration several Petitions to them referred, and had come to the following Resolutions thereupon; which he read in his place, and afterwards delivered in at the Clerk's table, where the same were again twice read, and agreed to:

*Resolved*, That the Petition of *Walter Crockett*, *William Herbert*, *William Russell*, *James Harwood*, *Anthony Bledsoe*, and *William Campbell*, Captains in the late expedition against the *Indians*, praying a further allowance of pay for themselves and their subalterns, be rejected, they having been already allowed by the Commissioners what this Committee think reasonable.

*Resolved*, That the Petition of *Evan Shelby*, a Captain in the late expedition against the *Indians*, praying a further allowance of pay for himself and his officers, be rejected, they having been already allowed by the Commissioners what this Committee think reasonable.

*Resolved*, That the Petition of *Henry Waterson*, praying to be reimbursed for a horse which he purchased of the country, and died of worms a few days after, be rejected.

*Resolved*, That the Petition of *John Stephens*, a Lieutenant in the late expedition against the *Indians*, praying to be allowed pay for the time he was sick after he returned home from the expedition, be rejected, he having been already allowed full pay for the time he was in the country's service.

Mr. *Richard Lee*, from the Committee of Publick Claims, reported that the Committee had had under their considera-

tion the Petition of *Robert Lucas*, praying to be allowed for a horse which died in the service of the country, and that it appeared to them that the Petitioner was applied to by the Captains *Crockett* and *Knox* for two wagons and teams to assist in marching their two companies of Regulars from *Fincastle County* to *Williamsburgh*, but that he refused to furnish them unless they were first appraised, which they promised to have done, but failed to do; that the said wagons and teams were employed for the purposes aforesaid, and one of the horses died in that service at *Bedford Court-House* in their way down; that the said horse has since been valued by two persons, upon oath, who well knew him, to £32, and that the Petitioner hath received satisfaction for the use of the said horse from the time he was entered into that service till he died; and that they had come to the following Resolution thereupon; which he read in his place, and afterwards delivered in at the Clerk's table, where the same was again twice read, and ordered to lie on the table:

*Resolved*, That the said Petition is reasonable; that £2, the sum which the Petitioner has received for the use of the said horse, be deducted out of the valuation, and that he be allowed the balance, being £30, for the same.

A Petition of *George Moffett* was presented to the Convention, and read; setting forth, that he had the command of a Company in the late expedition against the *Indians*, and that, on applying for the money due upon that account, it appeared he was charged in the Commissioners' books with the sum of £9 for a horse belonging to *William Champ*, which was deducted from his pay; that he knows nothing of the horse he is thus charged with, but supposes it must be for some horse which was employed for the wounded soldiers, and which was delivered to Mr. *Sampson Matthews*, who acted for the country; that *Andrew Irwin*, a soldier in his company, was allowed for thirty days only, when he had served forty-one, occasioned by a mistake in the Petitioner, in giving in the roll; that he employed some of his soldiers as pack-horse drivers, who have received no satisfaction for their services from the publick, and that he has paid *Edward Day*, one of the persons so employed; and praying the Convention will take those several matters into consideration, and do what shall appear just and reasonable.

*Ordered*, That the said Petition be referred to the Committee of Publick Claims, and they are to report the same, with their opinion thereupon, to the Convention.

A Petition of *Christopher Calvert* was presented to the Convention, and read; setting forth, that he was lately an inhabitant of the Borough of *Norfolk*, and was possessed of several houses and other estate therein, which he lost when that town was destroyed, and that considerable quantities of plank and timber belonging to him were taken for the use of the Army; that, by these misfortunes, he is reduced to a very low estate, and praying such relief as shall be thought just and reasonable.

*Ordered*, That the said Petition be referred to the Committee of Propositions and Grievances, and they are to report the same, with their opinion thereupon, to the Convention.

Mr. *Randolph* laid before the Convention an essay on the culture and management of Hemp, which was ordered to be referred to the Committee appointed to prepare and bring in an Ordinance to encourage Woollen, Linen, and other manufactures, and they are to report the same, with their opinion thereupon, to the Convention.

The Order of the Day, for the Convention to resolve itself into a Committee on the state of the Colony being read,

— Wednesday, May 29, 1776.

*Ordered*, That the march of the Minute-Men and Militia ordered to the assistance of *North-Carolina* be for the present countermanded, and that the Committee of Safety do give such directions respecting them as they shall judge most beneficial for the publick service.

*Ordered*, That no person be admitted into the lobby or gallery of the House, without the permission of some Member of the Convention.

*Resolved*, That the Committee of Safety do continue to exercise the powers with which they were vested by the several Ordinances of Convention, in the same manner as they were authorized to do during the recess of Convention.

*Ordered*, That Mrs. *Goodrich*, the wife of *John Goodrich*, who is now confined in the publick Jail, be admitted, with her small children, to have access to her said husband; but that she be not afterwards permitted to leave the City of *Williamsburgh*, without the further order of this Convention.

The Convention then, according to the Order of the Day, resolved itself into a Committee on the Declaration of Rights, and after some time spent therein, Mr. President resumed the chair, and Mr. *Cary* reported, that the Committee had, according to order, had under their consideration the said Declaration, but not having time to go through the same, had directed him to move for leave to sit again.

*Resolved*, That this Convention will, to-morrow, again resolve itself into a Committee on the said Declaration.

A Petition of *Christopher Calvert* was presented to the Convention, and read; setting forth, that he was possessed of a likely Negro man slave named *Davy*, who, being suspected of a design to make his escape to Lord *Dunmore*, was taken up and sent to *Williamsburgh* for trial; that he was afterwards sent up the country, where he has been, and still is, employed in some publick work; that, not being able to bear such a loss at this time, he prays the Convention will either pay him the value of the said slave, to be estimated by impartial judges, or return him, as shall be thought best.

*Ordered*, That the said Petition be referred to the Committee of Publick Claims; and they are to report the same, with their opinion thereupon, to the Convention.

*Ordered*, That the same be put off till to-morrow.

Adjourned till to-morrow, ten o'clock.

Thursday, May 30, 1776.

A Petition of *John Craig* was presented to the Convention, and read; setting forth, that he went out last fall from the County of *Augusta*, with some stock, in order to settle the new country called *Transylvania*; and finding it to be the custom of the inhabitants to enter their lands with those who styled themselves the Proprietors, he also repaired to them for that purpose, but when he came he found a number of people assembled, who were signing a paper drawn up by the said proprietors, the substance of which was, that an Assembly should be chosen by the freeholders, who should make laws for the benefit of the country, as nearly similar to the laws of *England* as the circumstances of the country would admit, and that a Governour should be chosen from time to time from among the proprietors, being then eight in number, who should have a negative on all laws, also to elect a Member to the General Congress; that there should be only one religion, and that conformable to the Church of *England*, in exclusion of all others; that the said plan was offered to the Petitioner to sign, but, being a stranger, he begged to be excused till he could be better informed; upon which one of them declared they would enter no land for those who did not sign; that one *Dougherty*, and others, who signed immediately, entered for the best of his lands; and praying the Convention will take his case into consideration, and grant him such relief as may be judged reasonable.

*Ordered*, That the said Petition be referred to the Committee on the state of the Colony.

*Resolved*, That the execution of the former Resolutions of this Convention, for engaging such *Indian* Warriors of the neighbouring tribes as are willing to march to the assistance of this Colony, be postponed till the 20th of *July* next; and that they be not then carried into execution, unless the same shall be judged expedient by *Thomas Walker* and *John Harvie*, Esquires.

The Orders of the Day, for the Convention to resolve itself into a Committee on the state of the Colony, on the Ordinance for augmenting the Ninth Regiment of Regulars, providing for the better defence of the frontiers of this Colony, and for raising four Troops of Horse, and on the Declaration of Rights, being read,

*Ordered*, That the same be put off till to-morrow.

An Ordinance to amend an Ordinance entitled An Ordinance for establishing a mode of making Tobacco Payments during the discontinuance of the Inspection Law, was read a second time, and ordered to be committed to Mr. *Gray*, Mr. *Dandridge*, Mr. *Mercer*, and Mr. *Garland*.

The President laid before the Convention a Letter from Major-General *Lee*, and also a Letter from Brigadier-General *Howe*; which were read, and ordered to lie on the table.

The President laid before the Convention sundry Proceedings of the Convention of the Province of *Maryland*, respecting their permission to Governour *Eden* to depart the said Province unmolested, with his effects, and a Passport for that purpose; together with a copy of an Address to the said Governour, and a Letter from the President of the said Convention to the President of the Committee of Safety here, desiring a like Passport from *Virginia*; which being read,

*Resolved*, That this Convention will immediately resolve itself into a Committee on the said Letter, Proceedings, Resolutions, and Address.

The Convention accordingly resolved itself into the said Committee; and after some time spent therein, Mr. President resumed the chair, and Mr. *Cary* reported that the Committee had, according to order, had under their consideration the said Letter, Proceedings, Resolutions, and Address, and had come to the following Resolutions thereupon; which he read in his place, and afterwards delivered in at the Clerk's table, where the same were again twice read, and agreed to:

*Resolved, unanimously*, That the Committee of Safety be directed to write a Letter to the President of the Convention of *Maryland*, in answer to his Letter of the 25th inst., expressing the deepest concern at the proceedings of that Convention respecting Governour *Eden*, and our reasons for not becoming accessory thereto, by giving him a passport through this Colony, or the Bay adjoining; that we would with reluctance, in any case, intermeddle in the affairs of a sister Colony, but in this matter we are much interested, and the Convention of *Maryland*, by sending their proceedings to the Committee of Safety here, have made it the duty of the Convention to declare their sentiments thereon.

That, considering the intercepted Letter from Lord *George Germaine* to Governour *Eden*, in which his whole conduct and confidential letters are approved, and he is directed to give facility and assistance to the operations of Lord *Dunmore* against *Virginia*, we are at a loss to account for the Council of Safety of *Maryland* their having neglected to seize him,

according to the recommendation of the General Congress, and more so for the Convention's having promoted his passage to assist in our destruction, under a pretence of his retiring to *England*, which, we conceive, from the above letter, he is not at liberty to do; that, supposing he should go to *Britain*, it appears to us that such voyage, with the address presented to him, will enable him to assume the character of a publick agent, and, by promoting divisions and disunion among the Colonies, produce consequences the most fatal to the *American* cause; that as the reasons assigned for his departure, "that he must obey the Ministerial mandates while remaining in his Government," are very unsatisfactory, when the Convention declare that in his absence the Government, in its old form, "will devolve on the President of the Council of State," who will be under equal obligations to perform such mandates, we cannot avoid imputing those proceedings to some undue influence of Governour *Eden*, under the mask of friendship to *America*, and of the Proprietary interest in *Maryland*, whereby the Members of that Convention were betrayed into a vote of fatal tendency to the common cause, and we fear to this country in particular, and feel it an indispensable duty to warn the good people of that Province to guard against the Proprietary influence.

*Resolved*, That the foregoing Resolution be forthwith published in the *Virginia Gazette*.

Adjourned till to-morrow, ten o'clock.

Saturday, June 1, 1776.

A Petition of the Inhabitants westward of the *Laurel Hill* was presented to the Convention, and read; setting forth, that the contested boundary between *Virginia* and *Pennsylvania* hath subjected them to the greatest inconveniences and oppressions, and created the most dangerous animosities, tending to make divisions among the people; and that, while both Governments claim a jurisdiction in the same place, the laws of neither can be enforced; and praying a boundary may be established, that they may know what laws they are to pay obedience to.

*Ordered*, That the said Petition be referred to the Committee on the state of the Colony.

It being represented to the Convention, that the District Committee for the Counties of *Northampton* and *Accomack*, being informed that the last Convention had directed five Companies of Regular forces to be raised in the said Counties, proceeded to appoint the proper Officers for the same, and that in consequence thereof many men were enlisted in each of the said Companies, and employed in the publick service till the Ordinance directing the forces to be raised for the defence and protection of this Colony came to hand, when, finding that only four Companies were to be raised in those Counties, they immediately disbanded the fifth:

*Ordered*, That the Officers and men so appointed and enlisted be paid for the time they were employed in the publick service.

A Petition from the Committee for the County of *Chesterfield* was presented to the Convention, and read; setting forth, that, agreeably to the directions of a former Convention, they had subscribed and paid to the Treasurer of their County one shilling per poll for the purchase of Gunpowder for the use of the said County, the greatest part of which had been actually laid out for that purpose, and the Powder now in the possession of the Militia Officers; and praying that the same may be taken on the publick account, and the money repaid to the contributors.

*Resolved*, That the Ammunition purchased by the several County Committees, out of the levy imposed by them on the people, or by private subscribers, be taken and paid for by the publick, at the price the same cost, if such Committees, or subscribers, are willing to part with the same; and the persons who paid for it be reimbursed their several advances on that account; and that the Committee of Safety, or the Executive power of *Virginia*, may allow so much of such Ammunition to remain in the respective Counties as they may judge proper for the security of such County, having regard to the internal as well as external situation thereof; and where any such Ammunition shall have been expended for the publick use, that the original cost thereof be also reimbursed by the publick.

A Petition of the Inhabitants of *Port Royal*, the Counties of *King George*, *Caroline*, and *Westmoreland*, was presented

to the Convention, and read; setting forth, that in the year 1748 a Ferry was established from *Roy's Landing*, in *Caroline*, to *Gibson's*, in *King George* County, and that in the year 1752, a free Ferry was established, to be kept by the inhabitants of *Port Royal*, for the mutual advantage of themselves and the people trading thereto; that after the ferry had been maintained by the town for about eight years, the proprietor of *Roy's* entered into an agreement with the inhabitants to set over all foot passengers gratis, on condition the free boat should be put down; that after that time, for a term of about sixteen years, the proprietors of *Roy's* kept their boat at the publick landing of the said town, instead of the warehouse landing, not through stipulation, but through choice, the town land being much more convenient to the publick, in general, and also to the proprietors; that notwithstanding, regardless of the publick convenience, Mr. *James Miller*, the present proprietor of *Roy's*, hath, through caprice or selfish motives, removed the ferry to *Roy's*, greatly to the injury, and in direct opposition to the remonstrance of the people of *Caroline*, and others interested therein; that they have been driven by necessity to apply to Mr. *Francis Conway*, the present proprietor of *Gibson's*, to set up a boat to convey them and their commodities to the town landing, as formerly, which he has done, and farmed the same to Mr. *James Bowie*, who owns the wharf so convenient to the Petitioners; but that as Mr. *Bowie* entertains some doubts of the propriety of the measure, they humbly submit their grievance to the consideration of the Convention, and pray that a ferry from the town landing to *Gibson's*, in *King George* County, may be established.

*Ordered*, That the said Petition be referred to the Committee of Propositions and Grievances; that they inquire into the allegations thereof, and report the same, with their opinion thereupon, to the Convention.

Mr. *Cary*, from the Committee of Privileges and Elections, reported, that the Committee had proceeded to the examination of *Thomas Mitchell*, who was apprehended on suspicion of being inimical to the rights of *America*, and that it appeared that the offence with which he was charged comes under the cognizance of a Court of Commissioners; and that they had come to the following Resolution thereupon; which he read in his place, and afterwards delivered in at the Clerk's table, where the same was again twice read, and agreed to:

*Resolved*, That the said *Thomas Mitchell* be sent to the Court of Commissioners for the County of *York*, there to be tried.

A Petition of sundry assistants to Merchants, and other natives of *Great Britain*, was presented to the Convention, and read; setting forth, that finding themselves incapable of proceeding in the business to which they have been bred and employed, they obtained permission from the Committee of Safety to depart this Colony for their native country, in consequence of which they procured a passage, and had actually embarked on board a vessel, when an order came for the detention of the vessel for the use of the country, by which they were deprived of the only means which offered of availing themselves of the passport which had been granted them; that, previous to their embarkation, they had cancelled, by mutual consent, their contracts with their employers, and had made sale of their clothes and other necessaries, in order to procure proper accommodations on their voyage, which they are unable, in the present situation of the country, to procure again; that thus deprived of the means of procuring employment and subsistence by an honest pursuit of those labours in which they have been heretofore employed, and far removed from their friends and connexions, they pray permission may be granted them to embark for their native country.

*Ordered*, That the said Petition be referred to the Committee of Propositions and Grievances; that they inquire into the allegations thereof, and report the same, with their opinion thereupon, to the Convention.

The Orders of the Day, for the Convention to resolve itself into a Committee on the state of the Colony, on the Declaration of Rights, and on the Ordinance for augmenting the Ninth Regiment of Regular forces, providing for the better defence of the frontiers of this Colony, and for raising four Troops of Horse, being read,

*Ordered*, That the same be put off till to-morrow.

The Convention then proceeded to the consideration of the Report from the Committee of Publick Claims, made on *Tuesday* last, on the Petition of *Robert Lucas*; and the same was again read, and disagreed to.

*Ordered*, That the said Petition be rejected.

*Ordered*, That there be a call of the Convention on *Tuesday* next.

Adjourned till *Monday*, ten o'clock.

Monday, June 3, 1776.

A Petition of *Andrew Lush* was presented to the Convention, and read; setting forth, that in the month of *November* last he removed from the Town of *Portsmouth*, on *Lord Dunmore's* threatening to burn the same, and settled his family on a creek a few miles distant; that in the night of the 21st of *December* last, a boat with armed men came up the creek and landed some of her crew, whilst others got in a canoe and advanced towards his house, and upon hailing them he was answered with insulting language and a fire of small-arms, on which he ordered his party to fire, which they did, and killed one, and wounded another; that his wife and son hearing the firing, ran to the door, and the enemy firing at that time, wounded her in the thigh, and him in the arm; that the expense of attending and curing them will reduce him to great distress, unless aided by the publick; and praying his case might be taken into consideration, and such relief granted him as should be thought just and reasonable.

*Ordered*, That the said Petition be referred to *Mr. Holt*, *Mr. Robinson*, *Mr. Thoroughgood*, *Mr. Wills*, *Mr. Fulgham*, *Mr. Riddick*, and *Mr. Couper*; that they inquire into the allegations thereof, and report the same, with their opinion thereupon, to the Convention.

A Petition of the Inhabitants of *Halifax* County was presented to the Convention, and read; setting forth, that the Court-House of their County is situate within ten miles of the north line, while many of them on the south side are twenty miles distant, besides having the Rivers *Hico*, *Dan*, and *Banister*, to cross, which are frequently impassable; that they have, at the expense of £30, caused a survey of the said County to be made, by which it appears that the centre is on the south side of *Banister*; that, in consequence thereof, they made application to the Governour and Council for a writ of adjournment to some place near the centre, which was refused them; that about two years ago, a new and elegant Court-House was directed to be built, which was undertaken for the sum of £300, £200 of which have been already levied; but that no part of the plank or framing is yet in place, and they might, with small expense, be removed to or near the centre; and praying such relief as should be thought reasonable.

*Ordered*, That the said Petition be referred to the Committee of Propositions and Grievances; that they inquire into the allegations thereof, and report the same, with their opinion thereupon, to the Convention.

*Ordered*, That *Mr. Edmund Randolph*, *Mr. Treasurer*, *Mr. Norvell*, *Mr. Dudley Digges*, *Mr. William Digges*, *Mr. Travis*, and *Mr. Holt*, be a Committee to inquire into the services of the persons appointed to fill up the Treasury Notes; and they are to report what, in their opinion, will be a proper reward for the same.

*Ordered*, That *Mr. Terry* and *Mr. Watkins* be added to the Committee of Propositions and Grievances.

The President laid before the Convention a Letter from *Major-General Lee*, and also a Letter from *Brigadier-General Howe*; which were read, and ordered to be referred to the Committee on the state of the Colony.

The Convention then, according to the Order of the Day, resolved itself into a Committee on the Declaration of Rights; and after some time spent therein, *Mr. President* resumed the chair, and *Mr. Cary* reported, that the Committee had, according to order, had under their consideration the Declaration of Rights, and had made some progress therein, but not having time to go through the same, had directed him to move for leave to sit again.

*Resolved*, That this Convention will to-morrow again resolve itself into the said Committee.

The Orders of the Day, for the Convention to resolve itself into a Committee on the state of the Colony, and on

the Ordinance for augmenting the Ninth Regiment of Regular forces, providing for the better defence of the frontiers of this Colony, and for raising four Troops of Horse, being read,

*Ordered*, That the same be put off till to-morrow.

*Ordered*, That *Mr. Richard Lee*, *Mr. Henry Lee*, *Mr. Clapham*, *Mr. Peyton*, *Mr. Richard Cary*, and *Mr. Curle*, be a Committee to examine the Accounts and Vouchers for the money paid by *John Harvie* and *Joseph Neaville, Esqs.*, agreeably to the Resolution of the last Convention; and that they also consider of, and report, what will be a proper allowance to them for their respective services.

*Mr. Richard Lee*, from the Committee of Publick Claims, reported, that the Committee had, according to order, had under their consideration two claims to them referred, and had agreed upon a Report, and come to several Resolutions thereupon; which he read in his place, and afterwards delivered in at the Clerk's table, where the same were again read, and are as follows:

On consideration of the claim of *Joseph Cabell*, it appears to the Committee that he was, by a Resolution of the last Convention, appointed a Commissioner to receive for, and pay to, the several claimants of the Counties of *Pittsylvania*, *Augusta*, *Botetourt*, *Fincastle*, and *Bedford*, whatever was due to them from the publick on account of the late expedition against the *Indians*; that upon consulting the Committee of Safety, they thought that as the money he was to receive from the Treasury for that purpose amounted to so considerable a sum as £33,600, it would be necessary that he should be attended with a proper guard during the time it should remain in his possession; and that, for the more speedy expediting the business, and that the money might not long remain in his hands, he employed a clerk to assist in paying it away, and taking receipts, and three guards to attend him, whose charge for those services, with their expenses, amount to the sum of £93 8s. 6d., which he has paid.

*Resolved*, That it is the opinion of this Committee, that the sum of £150, allowed to the said *Joseph Cabell* by the last Convention for the services aforesaid, is sufficient, and therefore that he ought not to be reimbursed the said sum of £93 8s. 6d.

It likewise appears to your Committee, that the said *Joseph Cabell* has collected from sundry persons indebted to this country several sums of money, amounting in the whole to £217 15s., which he has paid into the publick Treasury.

*Resolved*, That it is the opinion of this Committee, that the said *Joseph Cabell* ought to be allowed the sum of £21 15s. 6d. for his trouble in collecting and paying into the Treasury the sum of £217 15s.

*Resolved*, That it is the opinion of this Committee, that the claim of *Thomas Bachelor*, for the loss of his Houses, and other property burnt and destroyed by the country's Troops in *Norfolk*, is a matter of Continental concern, and therefore ought not to be paid by this Colony.

*Ordered*, That the said Report and Resolutions do lie on the table.

Adjourned till to-morrow, ten o'clock.

Tuesday, June 4, 1776.

*Ordered*, That the said Petition be referred to the Committee of Publick Claims; that they inquire into the matter thereof, and report the same, with their opinion thereupon, to the Convention.

Many Cadets having joined the several Regiments raised for the defence of this Colony, under the faith of an Ordinance of General Convention, upon the allowances thereby established, which, by the said Regiments being taken upon Continental pay, is so much lessened that the said Cadets are unable to support themselves, whereby they may be compelled to quit the service, and the publick injured by the want of experienced young gentlemen to fill vacant posts in the Army:

*Resolved*, That the allowance of the said Cadets be made equal to what they received under the Ordinance of this Convention, and the difference paid by this Colony.

A Petition of *Joseph Jones, Joshua Campbell, James Ferebee, and William Burgess*, Merchants and Partners, of *North-Carolina*, was presented to the Convention, and read; setting forth, that in the month of *April* last they loaded their sloop, the *Two Brothers*, with a suitable cargo for the Island of *Martinico*, in the *West-Indies*, as will appear by the bill of lading; that, on the 14th of the said month, as she lay in *Ocracock Inlet*, in *North-Carolina*, ready to sail, a certain *John Goodrich*, of *Virginia*, in an armed sloop called the *Lilly*, with force of arms violently seized and took possession of their said vessel and cargo, with her crew, and, having taken out their Captain, put on board a prize-master and some mariners, and ordered her to sea, under convoy of a certain Lieutenant *Wright*, who commanded another armed vessel; that their vessel, on the 20th of the same month, as will appear by several affidavits, was stranded on the north of *Cape Look-out*, in *Carolina*, where she was taken under the care of the Committee of the County of *Carteret*; that the said vessel and cargo, at a very accurate estimate, were worth £1149 16s. 10d., *North-Carolina* currency; that as the loss they have sustained was occasioned by the hostilities of the said *Goodrich*, they beg leave to lay their case before the Convention, and submit it whether it is not agreeable to justice that satisfaction be made them out of the estate of the said *Goodrich*.

*Ordered*, That the said Petition, together with the several exhibits, be referred to the Committee of Propositions and Grievances; that they inquire into the allegations thereof, and report the same, with their opinion thereupon, to the Convention.

*ing* and the *Great Bridge*, against this Colony; that he thought it his duty to fight for his King and country, and that he did not consider this to be his country; and it appears to your Committee that the said *George Blair* was taken in arms.

It appears to your Committee, from the deposition of *George Purdie*, that the said *George Blair* came into this Colony from *Glasgow*, in the year 1762, an apprentice to the deponent, for the term of three years; that in the month of *January*, 1768, the said *George Blair* went to *Glasgow*, and returned to this country in the month of *October* following, where he resided until the time of his joining Lord *Dunmore*; that the deponent is unacquainted with the circumstances of the said *Blair*, or what property he has in this Colony.

*Ordered*, That the said Report and Resolution do lie on the table.

That the said *Alexander Thompson* was a resident in *Portsmouth*, and taken from thence and sent to the publick Jail, but that no testimony was offered them respecting his conduct. That it appeared the said *George Oldner* hath been unfriendly to the *American* cause, but committed no act which brings him within the Ordinance for imprisoning the enemies of *America*. That the said *William Ancock* was taken near *Norfolk*, and is a sailor belonging to the *Otter* man-of-war. That the said *Stephen Sampson* was taken in company with the said *William Ancock*, and is an apprentice to *Thoroughgood Smith & Co.*, of the *Eastern-Shore*. And that they had come to the following Resolutions thereupon; which he read in his place, and afterwards delivered in at the Clerk's table, where the same were again twice read, and agreed to.

Mr. *Cary*, from the Committee of Privileges and Elections, reported, that the Committee had, according to order, examined the cases of five Negro slaves now in the publick Jail; and that it appeared to them, that the said slaves came from the *Eastern-Shore* to *Norfolk* in a vessel belonging to *Edmund Bailey*, of the County of *Accomack*, which they took from him in the night, with design to join Lord *Dunmore*; that they were taken by a party of soldiers in the pay of this Colony, and sent to Jail by order of Colonel *Woodford*; that three of the said slaves, named *Joe Acum*, *Joe*, and *Gabriel*,

*Ordered*, That the Committee of Safety be desired to carry into execution the foregoing Resolutions.

Mr. *Starke*, from the Committee appointed to inquire into and report the state of the Prisoners confined in the publick Jail, reported, that they had, according to order, examined into the same; and that it appeared to them that the said Jail being badly planned and situated for the purpose of admitting a free air, all the prisoners are more or less distressed on that account; that this inconvenience is greatly increased, as well by a large number of persons being under confinement in the same small apartment as the heat of the weather; that although most of the rooms seem to have been properly attended to and kept in tolerable decency, an offensive smell, which they think would be injurious to the most robust health, prevails in them all, but which they think might, in a great measure, be removed by burning tar in and frequently purifying the rooms with vinegar; that the rooms in which the negroes are confined abound with filth, a circumstance, as they are informed, owing to the want of necessary hands to assist in providing for so large and unusual a number of prisoners; that several windows may, with safety, be cut in the walls of the Jail; that ventilators, if properly fixed, would be of infinite service; that some complaints were made by the prisoners against the unwholesomeness of their diet, which, upon inquiry, were found to be groundless; that *John Goodrich*, the elder, is at present, and hath been for three days past, indisposed with a slight fever, proceeding, as they imagine, from a restlessness and peevishness under his chains; that two gentlemen of the faculty have advised his removal to some other place, lest that disorder, which at present is but slight, might in a short time, for want of fresh air, terminate in a putrid fever.

*Resolved*, That the Convention doth agree with the Committee in the said Report, and that the said Committee do immediately provide for the several matters mentioned in the said Report; that the chains be taken off the said *John Goodrich*, and that he be conveyed to a proper place, under a strong guard, for the recovery of his health.

*Ordered*, That *Josias Rogers*, a prisoner of war, be conveyed to *Charlottesville*, and there admitted to his parole not to depart without the limits of the said town.

A Memorial of *William Aylett* was presented to the Convention, and read; setting forth, that he is informed it hath been suggested to the Convention that the soldiery have been charged more for goods in the publick store than they could have purchased them of the merchants; particularly that osnaburgs, which might be had for two shillings, was sold at the publick store for four shillings per yard; that he declares it as his opinion it is highly meritorious in the Convention to pay a strict attention to publick officers, by frequent examinations into their conduct; and as nothing could be more agreeable to him than to receive from the Representatives of his country an approbation of his conduct, it gave him great pleasure to hear that the Convention had appointed gentlemen to inquire into the truth of the above suggestion, which he begs leave to assure them is entirely void of foundation; that osnaburgs have never been sold higher in the publick store than one shilling and six-pence per yard till about a month ago, when a quantity was imported on the Colony account, which has been issued at two shillings per yard, and which, to have done strict justice to the country, ought, in part, to have been sold at two shillings and four-pence, as all kinds of goods imported from the

*West-Indies* are sold at one hundred per centum at least in the wholesale way; that the Committee of Safety gave Mr. *John Dixon* that advance for a parcel of goods brought in the same vessel, and he gave the same for all goods he purchased in *Philadelphia*; that he can venture to affirm that since the commencement of the publick store the soldiery have been furnished at from twenty-five to fifty per centum cheaper than they could have got them elsewhere; that he hath hitherto considered himself as an agent appointed to do strict justice between the country and the soldiery, and therefore hath exerted himself to procure goods upon such terms as not only to furnish the troops lower than they could supply themselves elsewhere, but, at the same time, to secure the country from loss, by a moderate profit; that it hath been a standing rule, in all contracts for articles furnished from the northward, to allow them the difference in the currency, which he charges, except in some articles which will not bear it, although he has sold goods purchased on his private account from fifteen to thirty per centum upon the cost in *Philadelphia*, which, considering the risk by water, was not unreasonable, and this risk the publick goods were obliged to encounter, there being a great quantity of low-priced bulky articles; that by this method of importing them five per centum will pay every expense, and consequently will, in this instance, gain a profit by the risk; that the Colony lost the cargo sent out by Mr. *Dixon*, and that it is reasonable it should have the common profit on the goods imported; that he has made it his endeavour, on all occasions, to give content to the soldiers, and has never heard a complaint from any of them; that if the Convention are of a different opinion respecting the profits, he hopes no fault will be imputed to him, as they have it in their power to dispose of the goods as they shall think proper; that he cannot, at this time, say what the profits will be, as there are many goods on hand; but he will, if the Convention direct him, immediately proceed to take an inventory, and let them know the state of his accounts.

*Ordered*, That the said Memorial be referred to the Committee appointed to inquire into, and report, the cause and means of depreciating the value of the Paper money of this country, and at what rates the goods are sold in the publick store; that they inquire into the allegations thereof, and report the same, with their opinion thereupon, to the Convention.

The Convention then, according to the Order of the Day, resolved itself into a Committee on the Ordinance for augmenting the Ninth Regiment of Regular forces, providing for the better defence of the frontiers of this Colony, and for raising four Troops of Horse; and after some time spent therein, Mr. President resumed the chair, and Mr. *Blair* reported that the Committee had, according to order, had the said Ordinance under their consideration, and had gone through the same, and made several amendments thereto; which he read in his place, and afterwards delivered in at the Clerk's table, where the same were again twice read, and agreed to.

*Ordered*, That the said Ordinance, together with the Amendments, be fairly transcribed, and read the third time.

The Orders of the Day, for the Convention to resolve itself into a Committee on the Declaration of Rights and on the state of the Colony, being read,

*Ordered*, That the same be put off till to-morrow.

An attested copy of a Letter from *Henry Stuart*, Deputy Superintendent of *Indian Affairs*, directed to the inhabitants on the frontiers, informing them that five hundred *Indian Warriors* from each Nation were to fall on the said frontiers, while other forces were to make a diversion on the sea-coast, was presented to the Convention, read, and ordered to be referred to the Committee on the state of the Colony.

Adjourned till to-morrow, ten o'clock.

Saturday, June 8, 1776.

The President laid before the Convention a Letter from the Delegates appointed to represent this Colony in the General Congress, and also a Letter from Major-General *Lee*; which were read, and ordered to lie on the table.

A Petition of sundry Inhabitants of the County of *Loudoun* was presented to the Convention, and read; setting forth, that there is a great number of tenants in their County

on cash rents, many of whose contracts are of a late date, and upon high rents, particularly those who have a number of slaves with their lands; that when these contracts were made they had a very flourishing growing trade for grain and flour at *Alexandria* and other ports, which have been chiefly relied on, both by the landlords and tenants, to discharge their rents; that those articles are now useless on their hands, in consequence of which they labour under great difficulties; that in most of the late contracts the landlords have bound the tenants to pay all land taxes that might accrue, as these unhappy times were then unforeseen; and praying that the Convention may take their case into consideration, and grant them such relief as shall be judged proper.

*Ordered*, That the said Petition be referred to the Committee of Propositions and Grievances; that they inquire into the allegations thereof, and report the same, with their opinion thereupon, to the Convention.

A Petition of the Inspectors of *Warrasqueake Bay* Warehouses was presented to the Convention, and read; setting forth, that on the night of the 19th of *March*, 1775, the said warehouses were broken open, and two hogsheds of tobacco stolen therefrom, weighing two thousand one hundred and fifty-seven pounds, which they supposed was done by some people belonging to a brig then lying off the said warehouses; that on the 13th of *July* following two other hogsheds of tobacco were stolen from thence in like manner, weighing one thousand six hundred and fifty-two pounds; that they lost no time in pursuit of the persons they supposed had taken the same, but were not able to recover it; and praying the Convention will take their case into con-

*\*An Ordinance for augmenting the Ninth Regiment of Regular Forces, providing for the better defence of the frontiers of this Colony, and for raising six Troops of Horse.*

Whereas it hath become necessary, for the better defence of this country, to augment the Ninth Regiment of Regular forces, so as to make the same equal with the other Regiments: *Be it therefore ordained, by the Delegates and Representatives of the several Counties and Corporations of VIRGINIA, now assembled in General Convention, and it is hereby ordained by the authority of the same*, That the Ninth Regiment of the Regular forces raised for the defence and protection of this country, and stationed in the Counties of *Northampton* and *Accomack*, be augmented by the addition of two hundred and four men, to be divided into Companies of sixty-eight each, rank and file, under the command of one Captain, two Lieutenants, one Ensign, and four Sergeants, and each Company to be allowed a Drummer and Fifer.

*And be it further ordained*, That the Captains and Subaltern Officers of one of the said Companies shall be appointed by the Committee for the said County of *Northampton*, and the Captains and Subaltern Officers to the other two Companies by the Committee of the said County of *Accomack*; which officers and men so to be appointed and raised shall be considered as a part of the said Ninth Regiment, and receive the same bounty, pay, and allowance, and be subject to the same regulations and authority, as the other part of the said Regiment.

And whereas there is too much reason to apprehend the enemies of *America* are endeavouring to kindle an *Indian* war on our frontiers, which ought timely to be provided against: *Be it therefore further ordained by the authority aforesaid*, That four hundred men be employed for the defence of the North and Northwestern frontiers, and stationed at the following places, that is to say: two hundred at *Point Pleasant*, fifty at the mouth of *Little Kanawha*, fifty at the mouth of *Wheeling*, and one hundred at *Fort Pitt*, for so long time as the Committee of Safety, or others having the executive powers of Government during the recess of the Legislature, shall judge them necessary.

*And be it further ordained*, That the Captain of the Company of Regulars now stationed at *Fort Pitt* shall be, and he is hereby, empowered and required to advance and allow to each private man of his Company a bounty of twenty shillings, provided he shall be willing to continue in the service for the time above required, and to engage others in the room of such as may refuse to serve, so as to complete his Company to one hundred men, to remain at that station; that the Captain of the Company now stationed at *Point Pleasant* do in like manner retain so many of his men as shall be willing to continue in service, or enlist others in the room of such as may refuse, so as to complete his Company to one hundred men, to remain at their said station. And that the Committee of the County of *Botetourt* shall appoint one Captain, three Lieutenants, and one Ensign, to command another Company of one hundred men to be raised for the said Garrison at *Point Pleasant*, which Company shall also be allowed four Sergeants, a Drummer and Fifer; and the officers so appointed shall proceed to enlist their men, in the following proportions, that is to say: the Captain forty, the First Lieutenant twenty, the Second Lieutenant eighteen, the Third Lieutenant sixteen, and the Ensign twelve, to be reviewed by three of the Committee of the said County of *Botetourt*, to be by the Committee appointed for that purpose. And that the Committee of the County of *Augusta* shall appoint one Captain, one Lieutenant, and one Ensign, to command a Company of fifty men, to be stationed at the mouth of *Little Kanawha*, which Company shall also be allowed three Sergeants, a Drummer and Fifer; and the officers so to be appointed shall proceed to enlist the men for the said Company, in the following proportions, that is to say: the Captain twenty-five, the Lieutenant eighteen, and the Ensign twelve, to be reviewed by three of the Committee of the said County of *Augusta* appointed by the Committee for that purpose. And that the Committee of the County of *Hampshire* shall appoint one Captain, one Lieutenant, and one En-

sideration, and grant them such relief as shall be thought just and reasonable.

*Ordered*, That the said Petition be referred to the Committee of Publick Claims; that they inquire into the matter thereof, and report the same, with their opinion thereupon, to the Convention.

An Ordinance for augmenting the Ninth Regiment of Regular forces, providing for the better defence of the frontiers of this Colony, and for raising four Troops of Horse, having been fairly transcribed, was read a third time, and the blanks therein filled up.

*Resolved*, That the said Ordinance do pass, and the title be, An Ordinance for augmenting the Ninth Regiment of Regular forces, providing for the better defence of the frontiers of this Colony, and for raising six Troops of Horse.\*

A claim of Captain *William Darke* and Captain *Isaac Beale*, for the expenses incurred in supporting their two Companies of Riflemen from the time of their being imbodyed till the passing of the Ordinance directing the same to be raised, was presented to the Convention, and read.

*Ordered*, That the said claim be referred to the Committee of Publick Claims; that they inquire into the matter thereof, and report the same, with their opinion thereupon, to the Convention.

*Resolved*, That this Convention will on *Thursday* next proceed, by ballot, to the appointment of a Major to the forces directed to be raised for the better defence of the frontiers, and of the Officers to command the Troops of Horse.

*Ordered*, That the Committee of Safety be empowered to discharge Mr. *Richard Morris*, Paymaster and Commis-

sion, to command a Company of fifty men, to be stationed at the mouth of *Wheeling*, which Company shall also be allowed three Sergeants, a Drummer and Fifer; and the officers are to proceed to enlist the men for the said Company, by retaining so many of the men now at the station as may be willing to engage on the terms of others, and enlisting so many as may be wanting in the proportions mentioned for the Company for the *Little Kanawha*; the new recruits to be reviewed by three of the Committee of the County of *Hampshire* to be appointed by the Committee for that purpose.

*And be it further ordained*, That the several men to be raised and employed by virtue of this ordinance shall be entitled to the same bounty, and the officers and men to the same pay and allowance, and subject to the like regulations and restrictions as by ordinance of Convention is provided for other Regulars, except that they shall not be marched out of the Colony without the mutual consent of themselves and the executive power, and shall not be compelled to serve longer than two years from the 10th of *October* next; and that the whole four hundred men, with their officers, to be under the command of a Major, to be chosen by the General Convention.

*And be it further ordained*, That the several persons appointed to review the men shall respectively certify the time each Company is complete, which shall entitle the officers of such Companies to commissions of that date from those having the executive powers of Government, and all vacancies which may happen among the officers shall be filled up by succession, according to seniority of rank among those of the station where the vacancy happens.

*And be it further ordained*, That the Committee of Safety, or those having the executive powers of Government, shall appoint a Paymaster, and one or more Commissaries or contractors for provisions, for the several forces to be raised and employed on the frontiers, each of which Paymaster and Commissary shall have such pay and allowance for his services as shall be judged reasonable by those having the executive powers of Government, exclusive of his necessary expenses.

And whereas it is judged necessary, for the better and more effectual defence and protection of this Colony, that certain Troops of Horse should be raised: *Be it therefore ordained by the authority aforesaid*, That six Troops of Horse, consisting of thirty each, rank and file, be immediately raised, under proper officers, and taken into the service of this Colony; and that each of the said Companies be under the command of a Captain, a Lieutenant, a Cornet, to be chosen by the Convention, and three Corporals, to be chosen by the Captain, and be allowed a Trumpeter, to be also appointed by the Captain. And that the several officers and troopers shall, at their own expense, be furnished with horses, proper arms and accoutrements, and shall be allowed the following pay per day, besides rations and forage, to wit: The Captain 7s. 6d., the Lieutenant 6s., the Cornet 5s., the Corporals 3s. each, a Trumpeter 3s., and a Trooper 2s. 6d.; which pay of the officers shall commence from the time of receiving their commissions, and of the troopers from the time of their being provided with a sufficient horse, and properly armed, in the opinion of any Field-Officer of the Militia of the County wherein they are enlisted. And that the officers and troopers so to be raised shall continue in the service for such time as shall be judged necessary by the Committee of Safety, or others having the executive powers of Government, but shall not be compelled to continue in the service longer than one year; and that they shall be subject to the Articles of War established for the Regular forces, and to such orders as they shall from time to time receive from the Commanding Officer of the Continental Troops in this Colony.

*And be it further ordained*, That so much money as shall be necessary for the purposes of this act shall from time to time be paid by *Robert C. Nicholas*, Esq., Treasurer, or the Treasurer for the time being, out of the publick money in his hands, by warrant from the Committee of Safety, or others having the executive powers of Government, and an account thereof rendered to the General Convention.

sary of Provisions to the two Battalions ordered by this Convention to the assistance of *North-Carolina*, from the said offices when they shall find it necessary so to do.

The Orders of the Day, for the Convention to resolve itself into a Committee on the state of the Colony, and on the Declaration of Rights, being read,

*Ordered*, That the same be put off till *Monday* next.

Adjourned till *Monday*, ten o'clock.

Monday, June 10, 1776.

*Resolved*, That six Companies of Militia, with their Officers, be immediately called into duty from such Counties as the Committee of Safety shall judge most convenient, and employed as Ranging Companies in the County of *Fincastle*, for the protection of the inhabitants thereof, for such time as the Committee of Safety, or those having the executive powers, shall judge them necessary, and that the whole Companies be under the direction of a Field-Officer, to be chosen by the Convention; and also that a Paymaster and Commissary be appointed to the said Militia, whose business it shall be to pay and provide for the said Troops, and also for such others as may be called into duty in that quarter.

*Resolved*, That the Convention will, on *Thursday* next, proceed, by ballot, to the appointment of a Field-Officer to command the Militia to be called into duty pursuant to the foregoing Resolution; also of a Paymaster and Commissary.

*Ordered*, That *John Goodrich* be remanded to the publick Jail.

The Convention then, according to the Order of the Day, resolved itself into a Committee on the Declaration of Rights; and after some time spent therein, Mr. President resumed the chair, and Mr. *Blair* reported that the Committee had, according to order, had under their consideration the Declaration of Rights, and had gone through the same, and made several amendments thereto, which he read in his place, and afterwards delivered in at the Clerk's table.

*Ordered*, That the consideration of the said Amendments be put off till to-morrow.

A Petition of *Thomas Potter* was presented to the Convention, and read; setting forth that, having been for a considerable time confined in the publick Jail on the supposition of horse stealing, he now awaits his trial, and praying that his case may be taken into consideration, and some mode of trial adopted, that he, with many others, may be released from a loathsome Jail, or suffer such punishment as their country shall direct.

Also, a Petition of *Manasses McGahey*, setting forth that, in the month of *February* last, among many others, voluntarily assisting a distressed neighbour to repair a broken mill-dam, he became heated with liquor, unfortunately quarrelled with a poor *German* about the honour of their respective countries, upon which a bustle ensued, and the consequence was that the man died the next day, and, in the opinion of the Jury, from the hurt he received in the fight; and that the Petitioner was sent down for trial, which, in the usual course, would have come on in the month of *April*, but no Court was then held; that he is a poor labouring man, with a large family, and has had an opportunity of escaping several times during his confinement in the publick Jail, but, conscious of his innocence, he has waited in expectation of being delivered by a speedy publick trial; and praying that an inquiry be made into his unhappy case, and such determination come to thereon as shall appear just.

*Ordered*, That the said Petitions do lie on the table; and that Mr. *Randolph*, Mr. *Blair*, Mr. *Dandridge*, Mr. *Richard Cary*, Mr. *Wills*, and Mr. *Clapham*, be a Committee to inquire into the offences of the several criminals confined in the publick Jail, and report what, in their opinion, would be the most eligible mode of delivering them therefrom.

Mr. *Henry*, from the Committee of Privileges and Elections, reported, that the Committee had, according to order, proceeded to the examination of *Robert Shedden*, who was apprehended on suspicion of his being inimical to the rights and liberties of *America*; and that it appeared to them that, at a Court of Commissioners, held in the County of *Norfolk*, the 3d day of *April* last, for the trial of the said *Robert Shedden*, as being an enemy to *America*, a Jury was thereupon sworn, who returned a verdict in the following words: "We of the Jury find Mr. *Robert Shedden* not guilty;" that

it appeared to them, from the testimony of Mr. *Wilson*, that he was with the party who apprehended the said *Shedden*, and carried him to the *Great Bridge* for his trial; that, at the time he was taken, the said *Shedden* made an attempt to get to the fleet, with intention, as he said, to carry there one *Walker*, who it was supposed was inimical; that the said *Shedden* informed the deponent his motive for endeavouring to carry off the said *Walker* proceeded from his having employed him as his clerk, and that he had no other person to take care of his goods on board the fleet; and that the deponent and his party fired on the vessel several times before the said *Shedden* and the persons with him submitted to be taken; that it appeared, from the testimony of Major *Frank Eppes*, that he was ordered by Major-General *Lee* to apprehend and send the said *Shedden*, with others, to the publick Jail; that he does not know whether the said *Shedden* hath done anything inimical to the *American* cause, but hath been informed that he hath been on board the fleet under the protection of Lord *Dunmore* since his trial before the Court of Commissioners; that it also appeared, from the testimony of Mr. *Cowper*, that he received a letter from the said *Robert Shedden*, informing him he heard Lord *Dunmore* intended to apprehend him, and some other persons, and advised them to keep out of the way; that it further appeared, from the testimony of Captain *Johnson*, that the said *Shedden* was generally thought about *Norfolk* to be inimical to the rights of *America*; and that they had come to the following Resolution thereupon; which he read in his place, and afterwards delivered in at the Clerk's table, where the same was again twice read, and agreed to:

*Resolved*, That the said *Robert Shedden* be confined to such parts of the County of *Dinwiddie* as shall be ten miles distant from *Appamattox River*; that he be allowed fifteen days from this time to remove himself to such place, and that, previous to his removal, he give his parole to the Commanding Officer not to give intelligence to, or in any manner aid or assist, the enemies of *America*.

A Petition of sundry Inhabitants in the Western part of *Fincastle* County, was presented to the Convention, and read; setting forth, that the great extent of their County and the difficulty of attending Courts, induced them some time ago to solicit the General Assembly for a division thereof, but that the unhappy situation of affairs prevented any determination thereon; that many of them attend Court, and the publick business of the County, near one hundred and fifty miles distant from their homes; and praying that a division of their said County may take place.

Also a Petition from the Inhabitants of the said County, setting forth that, at great expense, fatigue, and danger, they have formed an extensive settlement on the Western Waters of this Government, hoping to obtain the same titles to their lands and contribute proportionally with their fellow colonists to the discharge of all publick exigencies; but that they are much alarmed at the demand of persons pretending to claim the said lands under ancient grants or orders of Council, and demanding large sums of money from them for the same; that they will cheerfully comply with any determination of this Convention, to whose judgment they submit their case.

*Ordered*, That the said Petitions be referred to the Committee of Propositions and Grievances; that they inquire into the allegations thereof, and report the same, with their opinion thereupon, to the Convention.

A Petition of sundry Inhabitants of the Parish of *Newport*, in the County of *Isle-of-Wight*, was presented to the Convention, and read; setting forth, that the Vestry of the said Parish was chosen in the year 1756, since which time so many of the gentlemen who were then chosen are dead, and have resigned, that there is only one remaining of that choice; and praying that the said Vestry may be dissolved, and a new one chosen.

*Ordered*, That the said Petition be referred to the Committee of Propositions and Grievances; that they inquire into the allegations thereof, and report the same, with their opinion thereupon, to the Convention.

The Order of the Day, for the Convention to resolve itself into a Committee on the state of the Colony, being read,

*Ordered*, That the same be put off till to-morrow.

Mr. *Randolph*, from the Committee to whom was referred to inquire into the services of the persons appointed to fill

up the Treasury Notes, reported, that the Committee had accordingly inquired into the same; and that it appeared to them that the number of books filled up amounts in the whole to three hundred and ninety-seven, two hundred and one of which were *James River Bank*, and one hundred and ninety-six of *London* paper; that much attention and care were necessary in writing upon either sort; that it required constant labour for twelve hours to fill up each book of *James River Bank* paper, containing one hundred sheets, or two hundred bills, but that a book of *London* paper might be despatched in about a quarter of the time; that, according to this calculation and proportion, out of the sum of £150 allowed by the Ordinance for their services, the fillers would be entitled for each book of *James River Bank* paper to twelve shillings, and for each book of *London* paper three shillings, which they are of opinion is not adequate to their services; and that they had come to several Resolutions thereupon; which he read in his place, and afterwards delivered in at the Clerk's table, where the same were read, as follows:

*Resolved*, That it is the opinion of this Committee that the fillers up ought to receive for each book of *James River Bank* paper twenty shillings, and for each book of *London* paper five shillings.

*Resolved*, That it is the opinion of this Committee that, as the sum of £150 given by the Ordinance to the fillers up is not adequate for the purpose of allowing twenty shillings for each book of *James River Bank* and five shillings for each book of *London* paper, the additional sum of £100 be granted to make up the deficiency.

*Resolved*, That it is the opinion of this Committee that the Treasurer be directed to proportion the aforesaid sums of £150 and £100 in such manner as that the fillers up may receive for each book of *James River Bank* paper twenty shillings, and for each book of *London* paper five shillings.

The said Resolutions being severally read a second time, and the question being put, that the Convention doth agree with the Committee in the said Resolutions,

It passed in the negative.

Adjourned till to-morrow, ten o'clock.

Tuesday, June 11, 1776.

Mr. *Henry*, from the Committee of Privileges and Elections, reported that the Committee had, according to order, proceeded to the examination of *John Goodrich*, who was apprehended on suspicion of his being inimical to the rights and liberties of *America*; and that it appeared, from the confession of the said *John Goodrich*, that he went on board the *Otter* sloop-of-war at *Norfolk* to pilot her up to *Baltimore*, in order to destroy some vessels which were building there. It also appeared, from the deposition of *James Buchanan*, that the deponent, being on board his vessel, the schooner *Polly*, then on ground on the *Swatch*, saw a vessel which he took to be a pilot-boat, but was afterwards informed by one of the pilots that it was Captain *Goodrich's* boat, and that they were prisoners, for she was a King's tender; that when Captain *Goodrich* came up he ordered the deponent to deliver up his papers, which he did to the said *Goodrich*, who told him his schooner was a lawful prize, and that his master, Captain *Wright*, was below, and would be in that night, on board whom the said *Buchanan* must go; that on the same night the schooner was boarded by an armed boat belonging to the said Captain *Wright*, who put a prize-master and some hands on board the said schooner, and plundered her of all her live stock, and took a gun and couteau from the deponent; that a sloop, supposed to belong to one *Lott-strange*, ran up the Sound that night, which sloop the said *Goodrich* saw, and the men on board were desirous of taking, which the said *Goodrich* opposed, on account of her being an empty vessel, and harassed by the Committees, as the pilots told him the said sloop was not allowed to load, on account of violating the Association; that Captain *Wright*, the next day, blamed him much for not making a prize of her, supposing there was cash on board; that, when the said schooner was on ground on the *Swatch*, *Goodrich* desired Captain *Wright* to discharge the deponent and his schooner, as she was old, and could not be got off without much delay, and her cargo was of little value to them, which *Wright* positively refused, and swore he should proceed round to *Norfolk*; that the said *Goodrich* afterwards hailed a vessel belonging to Captain *Adderly*, and ordered him to bring his papers on board, which the said *Adderly* did, and delivered

them to the said *Goodrich*, who told him he should deliver them to Captain *Wright*, who would determine the matter in the morning; and that the said Captain *Wright* carried the said *Adderly* over the bar with him the *Tuesday* following. That it further appeared, from the deposition of *James Anderson*, that the deponent, with Captain *Harney*, and three other boats, boarded Captain *Goodrich*, who was in the *Lilly* tender; that, as the said *Harney* was boarding the said *Goodrich*, he (the said *Harney*) flashed his gun at him; and that he heard the said *Harney* tell the said *Goodrich* he should not have flashed his gun at him if he had not ordered his crew to fire on the boats; and that the said *Goodrich* did not deny his having given such orders; that, after he had been on board a short time, he heard the said *Goodrich* say he was a prisoner, and that he had been so harassed on both sides that he did not value his life; and that it further appeared, from the confession of the said *Goodrich*, that he was sent by Lord *Dunmore* as a pilot to Captain *Wright* to bring him into *Ocracock* to get provisions; and that the orders given by Lord *Dunmore* were to seize all vessels loaded with provisions, and carry them to his fleet; and that he (the said *Goodrich*) had three boats in the service of Lord *Dunmore*. And that they had come to the following Resolution thereupon, which he read in his place, and afterwards delivered in at the Clerk's table, where the same was again twice read, and agreed to:

*Resolved*, That the said *John Goodrich* is guilty of bearing arms against this Colony, and is also guilty of aiding and assisting the enemy, by giving them intelligence, contrary to and in contempt of an Ordinance of the last Convention for establishing a mode of punishment for the enemies of *America* in this Colony, whereby the said *John Goodrich* hath incurred the pains and penalties in and by the said Ordinance declared and inflicted.

*Ordered*, That the Committee of Safety do take such order respecting the Estate of the said *John Goodrich* as is directed by the Ordinance prescribing a mode of punishment for the enemies of *America* in this Colony; that the debt due from the said *Goodrich* to the country be in the first place discharged, and that they make a reasonable provision for the support and maintenance of the wife and young children of the said *John Goodrich* out of his Estate; that he be conveyed, under a strong guard, to *Charlottesville*, in the County of *Albemarle*, there to be confined till the further order of the Convention, or Executive power; but that this Resolution respecting his removal be not carried into execution until the health of the said *John Goodrich* will permit it to be done without endangering his life; and that in the mean time he be permitted the use of a room in the dwelling-house of the keeper of the publick Jail, under a guard.

*Ordered*, That Mr. *Charles Neilson* be sent, under a proper guard, to *Staunton*, in the County of *Augusta*, there to be confined until he shall enter into bond, with security, agreeably to the determination of the Committee of Safety.

A Petition of *John Ballendine* was presented to the Convention, and read; setting forth that he did, at his own risk and charge, import a quantity of Gunpowder for the purpose of removing the obstructions to the navigation of *Potomack* and *James Rivers*, but the distressed situation of the country brought many applications to him for that article for the use of the publick, which he readily supplied for the price of 2s. 6d. per pound, and on the promise of several County Committees to replace the like quantity, at the same rate, when his business required it; that he is now in immediate want of Powder, and praying the Convention will either replace the Powder, at the price he charged for it, or make him such further allowance, in cash, as will enable him to procure it elsewhere.

*Ordered*, That the said Petition be referred to the Committee of Propositions and Grievances; that they inquire into the allegations thereof, and report the same, with their opinion thereupon, to the Convention.

The Order of the Day, for the Convention to resolve itself into a Committee on the state of the Colony, being read,

*Ordered*, That the same be put off till to-morrow.

The Convention then proceeded to the consideration of the Amendments reported to the Declaration of Rights; and having gone through the same, and agreed thereto,

*Ordered*, That the said Declaration of Rights, with the Amendments, be fairly transcribed, and read a third time.

Mr. *Randolph*, from the Committee appointed to inquire into the several offences of the Prisoners confined in the publick Jail, and report what, in their opinion, would be the most eligible mode of delivering them therefrom, reported, that the Committee had accordingly examined into the same, and that it appeared to them, by a certificate from the keeper of the said Jail, that he hath now in his custody *Thomas McCluskey* and *Elizabeth* his wife, charged with burglary; *Manasses McGahey*, charged with murder; *Benjamin Higgins*, charged with robbery; *Thomas Potter*, charged with horse-stealing; *Habakkuk Pride*, charged with murder; *Samuel Flanagan*, charged with horse-stealing; that the said *Thomas McCluskey* and *Elizabeth* his wife, so charged as aforesaid with burglary, and *Benjamin Higgins*, so as aforesaid charged with robbery, having been ready for trial at the Oyer and Terminer Court which ought to have been held in *December* last, and at the General Court which ought to have been held in *April* last, and no prosecution having been carried on against them, have a right, according to ancient practice, to demand a discharge from their confinement; and that the said *Elizabeth McCluskey*, acting in the presence of and under the coercion of her said husband, is by law absolved from all guilt and criminality in that respect. That the proceedings of the County Court of *Loudoun*, in the examination of the said *Manasses McGahey*, so as aforesaid charged with murder, make no mention of any evidence deposed against him. That against *Benjamin Higgins*, charged with robbery, *Habakkuk Pride*, with murder, and *Samuel Flanagan*, with horse-stealing, no proceedings have been transmitted from the Courts of the Counties where they were respectively examined. That *Thomas Potter*, charged with horse-stealing, appears, by the depositions of several witnesses who were sworn upon his examination, to be innocent thereof. That it further appeared, from the deposition of *Elizabeth Hultz*, that *Mary Howell*, who is charged with murder, and now in her way from the County of *Berkeley*, is guilty thereof. And that they had come to several Resolutions thereupon, which he read in his place, and afterwards delivered in at the Clerk's table, where the same were again read, as follows:

*Resolved*, That the said *Thomas McCluskey* and *Elizabeth* his wife, *Thomas Potter*, and *Benjamin Higgins*, be forthwith discharged out of custody.

*Resolved*, That some mode of trial be adopted for the delivering of *Samuel Flanagan*, *Manasses McGahey*, *Habakkuk Pride*, and *Mary Howell*.

The first Resolution of the Committee being read a second time, was, upon the question put thereupon, agreed to by the Convention.

The subsequent Resolution of the Committee being read a second time, was, on the question put thereupon, ordered to lie on the table.

Adjourned till to-morrow, ten o'clock.

The Declaration of Rights having been fairly transcribed, was read a third time, and passed, as follows, *nem. con.*:

*A DECLARATION of RIGHTS made by the Representatives of the good people of VIRGINIA, assembled in full and free Convention; which rights do pertain to them and their posterity, as the basis and foundation of Government.*

1. That all men are by nature equally free and independent, and have certain inherent rights, of which, when they enter into a state of society, they cannot, by any compact, deprive or divest their posterity; namely, the enjoyment of life and liberty, with the means of acquiring and possessing property, and pursuing and obtaining happiness and safety.

2. That all power is vested in, and consequently derived from, the People; that magistrates are their trustees and servants, and at all times amenable to them.

3. That Government is, or ought to be, instituted for the common benefit, protection, and security of the people, nation, or community;—of all the various modes and forms of Government that is best which is capable of producing the greatest degree of happiness and safety, and is most effectually secured against the danger of mal-administration;—and that, whenever any Government shall be found inadequate or contrary to these purposes, a majority of the com-

munity hath an indubitable, unalienable, and indefeasible right, to reform, alter, or abolish it, in such manner as shall be judged most conducive to the publick weal.

4. That no man, or set of men, are entitled to exclusive or separate emoluments and privileges from the community, but in consideration of publick services; which, not being descendible, neither ought the offices of Magistrate, Legislator, or Judge, to be hereditary.

5. That the Legislative and Executive powers of the State should be separate and distinct from the Judicative; and, that the members of the two first may be restrained from oppression, by feeling and participating the burdens of the people, they should, at fixed periods, be reduced to a private station, return into that body from which they were originally taken, and the vacancies be supplied by frequent, certain, and regular elections, in which all, or any part of the former members, to be again eligible, or ineligible, as the law shall direct.

6. That elections of members to serve as Representatives of the people, in Assembly, ought to be free; and that all men, having sufficient evidence of permanent common interest with, and attachment to, the community, have the right of suffrage, and cannot be taxed or deprived of their property for publick uses without their own consent or that of their Representative so elected, nor bound by any law to which they have not, in like manner, assented, for the publick good.

7. That all power of suspending laws, or the execution of laws, by any authority, without consent of the Representatives of the people, is injurious to their rights, and ought not to be exercised.

8. That in all capital or criminal prosecutions a man hath a right to demand the cause and nature of his accusation, to be confronted with the accusers and witnesses, to call for evidence in his favour, and to a speedy trial by an impartial jury of his vicinage, without whose unanimous consent he cannot be found guilty, nor can he be compelled to give evidence against himself; that no man be deprived of his liberty except by the law of the land, or the judgment of his peers.

9. That excessive bail ought not to be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted.

10. That general warrants, whereby any officer or messenger may be commanded to search suspected places without evidence of a fact committed, or to seize any person or persons not named, or whose offence is not particularly described and supported by evidence, are grievous and oppressive, and ought not to be granted.

11. That in controversies respecting property, and in suits between man and man, the ancient trial by Jury is preferable to any other, and ought to be held sacred.

12. That the freedom of the Press is one of the greatest bulwarks of liberty, and can never be restrained but by despotick Governments.

13. That a well-regulated Militia, composed of the body of the people, trained to arms, is the proper, natural, and safe defence of a free State; that Standing Armies, in time of peace, should be avoided as dangerous to liberty; and that, in all cases, the military should be under strict subordination to, and governed by, the civil power.

14. That the people have a right to uniform Government; and, therefore, that no Government separate from, or independent of, the Government of *Virginia*, ought to be erected or established within the limits thereof.

15. That no free Government, or the blessing of liberty, can be preserved to any people but by a firm adherence to justice, moderation, temperance, frugality, and virtue, and by frequent recurrence to fundamental principles.

16. That Religion, or the duty which we owe to our Creator, and the manner of discharging it, can be directed only by reason and conviction, not by force or violence; and, therefore, all men are equally entitled to the free exercise of religion, according to the dictates of conscience; and that it is the mutual duty of all to practise Christian forbearance, love, and charity, towards each other.

*Richard Adams*, Esq., a Delegate for the County of *Henrico*, laid before the Convention a Letter from *Richard Randolph*, Esq., bearing date the 15th of *April*, 1776, informing him that he should lay a complaint before the ensuing Assembly against him, respecting a report which had prevailed, of his (the said *Adams*) being instrumental to a forgery's

having been committed in the last book of publick claims, to the advantage of his brother, of £3; and informed the Convention he had waited till now in expectation the said *Richard Randolph* would have promoted the said inquiry, but as he had done nothing therein, he considered it as his duty to have the charge fully and publickly inquired into, as well in justice to the publick as to his own character.

*Ordered*, That the said Letter and information be referred to the Committee of Privileges and Elections; that they inquire into the matter thereof, and report the same, with their opinion thereupon, to the Convention.

A Petition of *William Talbot* was presented to the Convention, and read; setting forth, that being called upon, with others of the Militia, the 18th of *April* last, to go to the assistance of the Minute-men stationed at *Sandy Point*, in an engagement with two of the enemy's tenders, he was in the engagement unfortunately shot through the arm and in his shoulder; that the commanding officer soon after sent him to Doctor *William Rickman*, who attended him to the 17th of *May*, whose account against your Petitioner amounts to £16 13s. 3d.; and praying that, as he received the wounds aforesaid in the service of the country, the said account may be discharged by the publick.

*Ordered*, That the said Petition be referred to the Committee of Publick Claims; that they inquire into the matter thereof, and report the same, with their opinion thereupon, to the Convention.

A Petition of the Inhabitants of the Western Waters, in the County of *Botetourt*, was presented to the Convention, and read; setting forth, that by a former Ordinance of Convention they have been excluded from a tax on their lands, and have not the privilege of voting for Representatives or Committee-men for their County; and declaring their readiness to contribute in the common cause with the rest of their countrymen; they pray that they may be put upon the same footing with the inhabitants of the Western Waters of other Counties, and that a new election of Delegates and Committee-men may be appointed for their said County; that being more subject than other Counties to depredations from the *Indians*, they request that some measures may be taken towards putting them in a proper state of defence.

*Ordered*, That the said Petition be referred to the Committee of Propositions and Grievances; that they inquire into the allegations thereof, and report the same, with their opinion thereupon, to the Convention.

A Petition of the Inhabitants of *Chincoteague Island*, in the County of *Accomack*, was presented to the Convention, and read; setting forth that, by a Resolve of the 21st of last month, they, among others, are directed to remove the live stock to some place of safety; that they assure this Convention they have the most fervent desire to do everything in their power to defeat the arbitrary designs of the enemies of *American* liberty, yet they presume it can answer no good purpose to make needless destruction of the property of any friends to the *American* cause; and if the stock belonging to them can be secured from the ravages of the enemy they hope the order relative to them will be relaxed; that there is a guard of thirty or forty men now stationed thereabouts, and with the Militia of their Island, and of one adjacent thereto, who are incorporated into a Company, they are humbly of opinion they shall be able to defend their stock against any small cruising vessels of the enemy, and to such alone are they accessible; that, however, they ask for no indulgence inconsistent with the publick good, and if it shall appear, in the course of the summer, that their stocks are insecure, they have not the most distant wish to keep them there; that if the Convention should be pleased to grant their request, they wish for the indulgence no longer than the Committee of their County shall think it prudent to continue it; that, if otherwise, they will cheerfully submit to whatever hardship or loss the publick safety may require.

*Resolved*, That the former Resolution of the Convention, directing the removal of all such live stock as are on the Islands on the *Eastern-Shore*, except as to *Watts's Island*, be now rescinded.

Sundry Petitions of the Freeholders and other Inhabitants of the County of *Spottsylvania*, were presented to the Convention, and read; setting forth, that they labour under very great hardships in being obliged to travel some twenty odd,

and others thirty miles, to attend general musters, which are constantly appointed at the Court-House in *Fredericksburgh*, situate on one side of the County, and therefore praying that an Ordinance may pass directing general musters for the future to be appointed at or near the centre of the County.

*Ordered*, That the said Petition be referred to the Committee of Propositions and Grievances; that they inquire into the allegations thereof, and report the same, with their opinion thereupon, to the Convention.

A Petition of sundry Inhabitants of the County of *Caroline*, was presented to the Convention, and read; setting forth that, by a late Ordinance respecting the Militia, Overseers are exempted from mustering, by which means the country is deprived of the assistance of many able-bodied young men, and praying that the said exemption may be recalled.

*Ordered*, That the said Petition be referred to the Committee of Propositions and Grievances; that they inquire into the allegations thereof, and report the same, with their opinion thereupon, to the Convention.

Whereas *Samuel Flanagin* and *Manasses McGahey* have been severally committed to the publick Jail in the City of *Williamsburgh*, charged with capital offences, for which they ought, in the regular course, to have been brought to trial, at a Court of Oyer and Terminer and Jail Delivery, on the second *Tuesday* in this month, which could not be held by reason of the present convulsions, and for want of a commission from the late Executive power; and whereas no method is yet adopted for the trial of criminals, and it might be thought inconsistent with the liberty which we are endeavouring to secure in the most permanent manner, to keep men charged with criminal offences in long confinement without bringing them to their trials, the Convention think it best to grant a pardon to the said criminals respectively, hoping that this lenity, together with the imprisonment they have undergone, will produce a sincere contrition and reformation of their manners, and that they may hereafter prove useful members to society.

*Resolved, therefore*, That a Pardon be prepared for the said *Samuel Flanagin* and *Manasses McGahey*, of all offences heretofore by them committed, and particularly of the crime with which they are respectively charged, setting forth the reasons for granting the same, as alleged in the premises, and declaring that this act of grace shall not hereafter be drawn into consequence or example; which pardon shall be signed by the President.

*Ordered*, That the Committee appointed to inquire into the offences of the several criminals confined in the publick Jail, do prepare a pardon for the said *Samuel Flanagin* and *Manasses McGahey*, agreeably to the foregoing Resolution.

The Convention then, according to the Order of the Day, resolved itself into a Committee on the state of the Colony; and after some time spent therein, Mr. President resumed the chair, and Mr. *Cary* reported that the Committee had, according to order, had under their consideration the state of the Colony, and had come to the following Resolutions thereupon; which he read in his place, and afterwards delivered in at the Clerk's table, where the same were again twice read, and agreed to:

*Resolved*, That the sum of £100,000, for the purpose of supporting the Regular forces and Militia to be employed on the frontiers, and others which may remain on the pay of the Colony, for building vessels, and pay and provisions for the seamen and marines in the Navy, and all other publick claims, ought to be raised by an additional tax of 1s. 3d. on tithables, and of 1s. per hundred acres on land, payable in the year 1777, and each of the six following years.

*Resolved*, That Treasury Notes, to the amount of the said sum of £100,000, ought to be issued upon the credit of the said taxes, redeemable on the 1st day of *January*, 1784; and that £70,000 of such Notes be issued in dollars or parts of dollars.

*Ordered*, That Mr. *Archibald Cary*, Mr. Treasurer, Mr. *George Mason*, Mr. *Starke*, Mr. *Henry Lee*, Mr. *Adams*, Mr. *Whiting*, Mr. *Dandridge*, Mr. *Bullitt*, Mr. *Johnson*, Mr. *Holt*, and Mr. *Williams*, be a Committee to prepare and bring in an Ordinance pursuant to the said Resolutions.

*Resolved*, That this Convention will to-morrow again resolve itself into a Committee on the state of the Colony.

The Convention took into consideration the Resolution

directing some mode of trial for the delivery of *Samuel Flanagan*, *Manasses McGahey*, *Habakkuk Pride*, and *Mary Howell*, and ordered to lie on the table; which was again read and agreed to, with an amendment, as follows:  
*Resolved*, That some mode of trial be adopted for the delivery of *Habakkuk Pride* and *Mary Howell*.

*Resolved*, That the following allowances be made, to wit: To the said *John Jones*, the sum of £160; to the said *Henry Sinclair*, the sum of £40; and to the said *Alexander* and *George Graham*, inhabitants of *Great Britain*, the sum of £125, for the said vessels.

On a motion made, *Ordered*, That the last-mentioned sum of £125 be not paid to the said *Alexander* and *George Graham* till the further order of the Convention.

Mr. *Richard Lee*, from the Committee of Publick Claims, reported, that the Committee had, according to order, had under their consideration several Petitions to them referred, and had come to the following Resolutions thereupon; which he read in his place, and afterwards delivered in at the Clerk's table, where the same were again twice read, and agreed to.

*Resolved*, That the Petition of *Augustine Packer* to be paid for his services as a butcher in the late expedition against the *Indians*, exclusive of his pay as a soldier, which has been allowed him by the Commissioners, is reasonable, and that he ought to be allowed the sum of £3 for the same.

That on consideration of the Petition of *William Johnson*, praying to be allowed the value of his Negro slave *Gloster*, it appears that the said slave, at a Court of Oyer and Terminer held for the County of *Caroline*, the 3d of *July*, 1775, was by judgment of the said Court convicted of burglary, sentenced to be hanged, and valued at £75; but before the day appointed for his execution he broke Jail, made his escape, and has not been since heard of.

*Resolved*, That the said Petition is reasonable, and that the Petitioner ought to be allowed the sum of £75 for the said Slave.

*Resolved*, That the Petition of *William Finnie*, to be allowed for his extraordinary services in collecting the publick Arms, which were taken and delivered out of the Magazine, is reasonable, and that the Petitioner be allowed the sum of £10 for the same, exclusive of the sum of £25, already paid him by the Committee of Safety, as keeper of the publick Magazine.

On a motion made, *Ordered*, That the sum of £10 be paid to each of the three captives lately returned from the *Shawanese* Nation, and also to the person who conducted them down; and that Mr. *Henry*, Mr. *Wood*, Mr. *Hite*, Mr. *Harvie*, Mr. *Campbell*, Mr. *Russell*, and Mr. *Simms*, be a Committee to prepare an Address to be sent by the said captives to the *Shawanese* Nation.

The Order of the Day, for the Convention to resolve itself into a Committee on the state of the Colony, being read,

*Ordered*, That the same be put off till to-morrow.

Adjourned till to-morrow, ten o'clock.

Saturday, June 15, 1776.

Mr. *Cary*, from the Committee of Privileges and Elections, reported that the Committee had, according to order, examined several Certificates of the election of Delegates to serve in this present Convention, and compared the same with the form prescribed by the Ordinance, and come to the following Resolutions thereupon; which he read in his place, and afterwards delivered in at the Clerk's table, where the same were again twice read, and agreed to.

*Resolved*, That the Certificates of the election of Delegates to serve in this present Convention for the Counties of

*Amelia*, *King* and *Queen*, *Norfolk*, and the Borough of *Norfolk*, are made in the form prescribed by the Ordinance.

*Resolved*, That the Certificates of the election of Delegates to serve in this present Convention for the Counties of *Fredrick*, *Princess Anne*, and *West-Augusta*, are not made in the form prescribed by the Ordinance.

A Memorial of *Wilson Miles Cary* was presented to the Convention, and read; setting forth, that he received a letter from Lord *Dunmore*, then Governour of this Colony, dated Ship *William*, off *Norfolk*, the 14th of *October* last, requiring him, as Naval Officer of the Lower District of *James River*, to repair to *Norfolk* or *Portsmouth*, and promising him protection; that, on his stating an objection to the said requisition, on account of Captain *Squire's* very ungentle and rancorous behaviour, his Lordship sent another letter, dated ten days after the former, renewing the requisition, and promising protection either to the Memorialist or his Deputy, Colonel *Selden*, if it should be more agreeable to send him; that, though his own opinion was rather against complying with his Lordship's commands, yet on the advice of such of his friends as the time limited gave him an opportunity of consulting, and among them some of the officers of the Army and Members of the County Committee, he did send his Deputy aforesaid, with the books of entry and clearance, and for that purpose hired a boat and two slaves of Mr. *John Jones*, who, suspicious of the event, insisted on an indemnification from him, which he readily agreed to, under faith in the assurances contained in the aforesaid letters; notwithstanding which, as soon as Colonel *Selden* had arrived at *Norfolk*, the said boat and hands were perfidiously seized and detained by his Lordship, and have never since been returned; and praying that out of such effects of the said Lord *Dunmore* as are within this Colony he may be allowed to receive an indemnity, in such manner as the Convention shall judge reasonable.

*Ordered*, That the said Memorial, together with the exhibits, be referred to the Committee of Propositions and Grievances; that they inquire into the allegations thereof, and report the same, with their opinion thereupon, to the Convention.

A Petition of *John Crookshanks* was presented to the Convention, and read; setting forth, that he boarded many men in Captains *Campbell* and *Clark's* Companies, for which Mr. *Sniggers* would pay him only six-pence per day for each man, by means whereof he is greatly loser, having found them three meals a day; and praying such further allowance as shall be thought just and reasonable.

Also, a Petition of *Lucretia Pritchett*, Executrix, and *William Churchill*, Executor of *Joseph Pritchett*, deceased, setting forth, that in a late attack on a piratical tender in *Rappahannock River*, *Minny*, a Negro man slave belonging to the estate of the said *Joseph Pritchett*, voluntarily entered himself on board a vessel commanded by Mr. *Hugh Walker*, and being used to the water, and a good pilot, bravely and successfully exerted himself against the enemy, until he was unfortunately killed, whereby the estate of the said *Joseph Pritchett* was deprived of a valuable slave; and praying that the Convention will take the matter into consideration, and, as the said slave was lost by means of a meritorious act, in defence of the country, that she may be allowed the value thereof.

Also, a Petition of *Thomas Barnes*, setting forth, that he was an Assistant Commissary to Colonel *William Inglis* on the late expedition against the *Indians*, and that he received satisfaction for all his services on that account, but that he also assisted the said *Inglis* in settling the accounts and collecting the country's horses from the different parts of *Fincastle* County, and was employed in this service from the 27th of *December*, 1774, to the 6th of *February* following, for which he has received no satisfaction; and praying to be allowed what shall be thought just and reasonable.

*Ordered*, That the said several Petitions be referred to the Committee of Publick Claims; that they inquire into the matter thereof, and report the same, with their opinion thereupon, to the Convention.

A Petition of *James Johnson* was presented to the Convention, and read; setting forth, that he was appointed a Captain to recruit a Company of Minute-men in the County of *Lunenburg*, and, being greatly desirous to expedite the same, he spared neither labour nor activity, but found it

necessary to be at some little expenses in treating the men, which he hopes the Convention will allow.

The question being put, that the said Petition be referred to a Committee, it passed in the negative.

*Ordered*, That the said Petition be rejected.

A Petition of sundry Inhabitants of the Parish of *Stratton Major*, in the County of *King and Queen*, was presented to the Convention, and read, praying that the Vestry of the said Parish may be dissolved, and a new one chosen.

*Ordered*, That the said Petition be referred to the Committee of Propositions and Grievances; that they inquire into the allegations thereof, and report the same, with their opinion thereupon, to the Convention.

*Ordered*, That leave be given to bring in an Ordinance to amend an Ordinance entitled An Ordinance for augmenting the Ninth Regiment of Regular forces, providing for the better defence of the frontiers of this Colony, and for raising six Troops of Horse; and that Mr. *Archibald Cary*, Mr. *Bouyer*, and Mr. *Dandridge*, do prepare and bring in the same.

*Ordered*, That leave be given to bring in an Ordinance to amend an Ordinance entitled An Ordinance for prescribing a mode of punishment for the enemies of *America* in this Colony; and that Mr. *Henry*, Mr. *Edmund Randolph*, and Mr. *Henry Lee*, do prepare and bring in the same.

A Petition of *Joseph Boot* was presented to the Convention, and read; setting forth, that being a soldier and artificer in the late war, he received several wounds in the service of his country, which render it difficult for him, in the decline of life, to gain a support; and praying his case may be inquired into, and such relief granted him as shall be thought just.

Also, a Petition of *George Becket*, setting forth that he was a soldier in Captain *Lee's* Company, and by an overstrain in lifting some pieces of wood for the use of the said Company, he received a hurt, which renders him incapable of walking; and, being advanced to the age of fifty-three years, he has little hopes of recovering his strength so as to be able to go through the fatigues of a campaign; and praying that some provision may be made for him.

Also, a Petition of *Peter Wilson*, setting forth that he served in the Militia in the County of *Augusta*, from 19th of *June* to the 31st of *August*, 1774, under the command of Captain *John Lewis*; that he then enlisted himself under the said Captain to serve in the expedition against the *Shawanese*, and was not discharged before the 15th *November* following, for which time he hath not been paid, owing to an oversight in Captain *Lewis*, in not returning him on his pay-roll; and praying that justice may be done him on the said account.

Also, a Petition of *Champion Travis*, setting forth that his dwelling-house, and offices thereunto belonging, in the Town of *Jamestown*, for many months past have been, and now are, occupied and appropriated by a detachment from the *Virginia Army*, as Guard-Houses; that, though they were taken for this purpose without his knowledge or privity, no satisfaction was expected for the use of them, nor would any now have been expected, had not the soldiery stationed there spoiled or destroyed a great part of his said property; and praying such relief as shall be thought just and reasonable.

*Ordered*, That the said several Petitions be referred to the Committee of Publick Claims; that they inquire into the matter thereof, and report the same, with their opinion thereupon, to the Convention.

Mr. *Henry*, from the Committee of Propositions and Grievances, reported, that the Committee had, according to order, had under their consideration the Petitions of sundry Inhabitants of the Counties of *Amelia*, *Caroline*, *Chesterfield*, *Lunenburg*, and *Mecklenburgh*, praying that so much of the Ordinance as exempts Overseers from serving in the Militia may be repealed; and had come to the following Resolution thereupon; which he read in his place, and afterwards delivered in at the Clerk's table, where the same was again twice read, and agreed to:

*Resolved*, That the said Petitions are reasonable.

Mr. *Henry*, from the Committee of Propositions and Grievances, reported, that the Committee had, according to order, had under their consideration the Petition of sundry Inhabi-

tants of the County of *Chesterfield*, to them referred, praying that they may not be obliged to attend musters so often as once a fortnight; and that they had come to the following Resolution thereupon; which he read in his place, and afterwards delivered in at the Clerk's table, where the same was again twice read, and agreed to:

*Resolved*, That the said Petition is reasonable.

*Ordered*, That the Committee of Propositions and Grievances do prepare and bring in an Ordinance to amend an Ordinance intituled An Ordinance for raising and embodying a sufficient force for the defence and protection of this Colony, pursuant to the said Resolutions; and that they receive a clause, or clauses, to repeal so much of the said Ordinance as gives a jurisdiction to the Court of Hustings in the City of *Williamsburgh* to adjudge all penalties to be inflicted under the same on the Officers and Soldiers in the said City, either for neglect of duty, or misbehaviour in any respect whatever, and for permitting Courts-Martial to be held in the said City, in the same manner, and by the same Officers, as they are held in Counties; and also for returning into the body of Militia the remainder of the Minute Company in the said City; and that they also receive a clause, or clauses, to compel Millers on the *Eastern-Shore* to attend musters.

Mr. *Henry*, from the Committee of Propositions and Grievances, reported, that the Committee had, according to order, had under their consideration the Petition of *John Ballentine*, to them referred, praying that he might be allowed the difference between 2s. 6d. per pound for a quantity of Gunpowder he sold to the Committees of several Counties and the price he is now obliged to give to replace the like quantity; and had come to the following Resolution thereupon, which he read in his place, and afterwards delivered in at the Clerk's table, where the same was again twice read, and agreed to:

*Resolved*, That the said Petition be rejected.

Mr. *Starke*, from the Committee appointed to inquire for a proper Hospital for the reception and accommodation of the sick and wounded soldiers, reported, that the Committee had accordingly made the said inquiry, and that at the instance of the Committee, Dr. *William Rickman*, lately appointed by the General Congress to be Physician and Director-General to the Continental Hospital, accompanied them to the College, Palace, and other places, and he advised that, though the College has room enough for the purpose of an Hospital, yet, by reason of the many partitions therein, it will not admit of that thorough passage of air so absolutely necessary for invalids; that the College has, at a very considerable expense, been lately repaired, white-washed, and thoroughly cleaned, for the reception of scholars, who are expected to return to their studies on *Monday* next, at which time the vacation ceases; that there are a large and valuable library and apparatus in it, which might probably be damaged in the removal, perhaps totally ruined; that several young gentlemen in the country have been accustomed to receive maintenance and education there as scholars on certain foundations established by different benefactors. That it also appeared, from examination of the Palace, and the opinion of Dr. *Rickman*, that it is adapted in all respects, without any alterations of consequence, for an Hospital, whether considered as to size, situation, plan, or necessary offices; that, added to this, there stands a publick building in the centre of the park, which may be taken as an appendage to the Hospital, whither persons labouring under epidemical or infectious disorders may be removed, and the diseases thereby prevented from spreading. That the following private houses within the City of *Williamsburgh* may be purchased, to wit: Dr. *James Carter's*, which is but small, yet has many convenient buildings, which might be applied also to the purpose of Hospitals, and the whole may be procured for the sum £1,000; Mr. *James Hubard's*, which does not contain many rooms, but they are commodious and airy, and may be had for the sum of about £1,200, which, with the repairs lately made, it cost him, with the privilege reserved him of repurchasing on the same terms, and in the same condition, if at the end of the present troubles the publick should be inclined to sell it; also Mr. *John Hatley Norton's*, which is airy and pleasant, but the outhouses are few in number, and not in good repair; this may be had for £1,300, and that it appears to them that no one of the three private houses above-mentioned would singly be suffi-

cient for the said purpose, though all of them together might; but adopting that method would necessarily enhance the expense, as an additional number of Surgeons, Surgeons' Mates, Nurses, Matrons, and other assistants, would be unavoidable. And that they had come to the following Resolution thereupon; which he read in his place, and afterwards delivered in at the Clerk's table, where the same was again twice read, and agreed to:

*Resolved*, That the Palace, and as many of the out-buildings as may be necessary for the purpose, be appropriated for a publick Hospital, and that the Physician and Director-General be informed thereof.

*Ordered*, That *Thomas Everard, Robert Prentis, Edmund Randolph, John Blair, and James Cocke*, Gentlemen, be, and they are hereby, appointed Commissioners to rent out the Lands, and to sell at publick auction the Slaves and personal Estate of Lord *Dunmore*, at or in the neighbourhood of the City of *Williamsburgh*, on twelve months' credit, taking bond, with sufficient security; that *Robert Rutherford, William Drew, Samuel Washington, James Wood, and William Booth*, Gentlemen, or any two of them, be appointed Commissioners, in like manner, to sell and rent respectively his Estate in the County of *Berkeley*; that *Abraham Hite, John Neaville, and James Innes*, Gentlemen, or any two of them, be appointed Commissioners, in like manner, to sell and rent respectively his Estate in the County of *Hampshire*; and that the Commissioners aforesaid do pay the money thence arising into the publick Treasury, there to remain till the further order of the Convention.

A Memorial of *Richard Henderson, Thomas Hart, Nathaniel Hart, John Williams, William Johnson, John Luttrell, James Hogg, David Hart, and Leonard Hendly Bullock*, was presented to the Convention, and read; setting forth, that they, in fair and open treaty held with the *Cherokee Nation*, at *Wattaugh*, on the 17th day of *March*, 1775, for a large and valuable consideration, obtained a grant for part of their lands lying on the *River Ohio*, and the branches thereof to the westward of the line lately run by Colonel *Donelson* as a boundary between the inhabitants of the Colony of *Virginia* and the said *Cherokees*, with permission to form immediate settlements thereon, and forever afterwards to enjoy the same, promising and protesting that such their settlement should in no wise interrupt the peace and harmony then subsisting between the white people and their Nation; that, ever apprehending the right of disposal to be incident to property, and no particular law then in existence prohibiting such sale or purchase, they considered themselves sole owners and proprietors of the soil so bought at their own disposal as private property, without incurring any penalty or forfeiture whatsoever; that as it was the original design of your Memorialists to open that part of the country for the immediate settlement of every well-disposed person minded to remove thereto, and become benefited thereby, at a very great peril, and a considerable expense, with the blood and loss of several of their friends and followers, they proceeded to take possession of the same, and, under many hardships, difficulties, and dangers, have continued the actual possessors, and, as they conceive, rightful claimants thereof, not doubting the equity or legality of their title, or in any manner apprehending such their private property subject to the absolute will or disposal of any other person or persons whomsoever.

That, for encouragement of those inclined to become immediate settlers, and, as it were, open a way to a country so fraught with advantages to the poorer sort in particular, they gave notice, in writing, that all such as would then go and make or raise corn thereon, and assist in the defence and support of such settlement, and continue therein until the 1st day of *September*, in the same year, should, as a reward for such service, be entitled to five hundred acres of land, to be chosen by themselves, anywhere within the bounds of their said purchase or grant, except low down on the *Cumberland River*, for the moderate sum of £5 sterling, or £6 5s., current money of *Virginia*, clear of the expense of surveying, and every other incidental charge necessary to the completion and security of a good title.

That, in consequence of the said purchase, and easy terms of obtaining lands, sundry persons became adventurers, and assisted them in commencing a settlement on the *Kentucky*, or *Louisa River*, within the said purchase or country now

called *Transylvania*, and have continued thereon perfectly satisfied with the terms and title, until some interested, artful, and designing persons, by cunning, specious, and false suggestions, with intent to injure and oppress them, have raised doubts in the minds of some few with respect to the justice and validity of the title, and consequently of the propriety of making payment, according to their original contract and agreement, until such objections shall be removed, or themselves better satisfied.

That they observe with concern that by a Petition exhibited to this Convention, entitled the Petition of the Inhabitants and some of the intended settlers of that part of *North America* now denominated *Transylvania*, and also by another Petition from a certain *John Craig*, the most uncandid and false representation of their conduct is held forth, and an attempt therein made, under colour of publick injuries, to bring on a disquisition on the subject of their private property.

That, relying on the justice of their title, and conscious of the rectitude of their conduct, they are willing at all times to subject them both to proper jurisdictions. Their conduct, so far as relates to the peace, happiness, and safety of the United Colonies in general, or any of the Colonies in particular, is surely within the cognizance, and subject to the restraint or censure of the General Congress, or such particular Colony; but, with great deference, they humbly conceive that matters or disputes relative to private property do not properly come within the consideration or determination of this Convention, or any other Convention or Congress on the Continent, according to the true spirit and plain meaning of their power by delegation, except where, for want of particular existing laws against certain crimes which affect the State, such property becomes the object of their attention, as a punishment which never can be inflicted with justice but on the guilty. But should this Convention think differently on that subject, and that they are possessed of further and other powers with respect to private property, yet the Memorialists apprehend that the good people of *Virginia*, either by themselves or their Delegates, cannot, with their wonted candour and justice, undertake to determine a question in which they are so manifestly interested, and in an assembly where the Memorialists have no vote or right of representation.

That they have ever been, and still continue, the true friends of *America*, active and vigilant in every duty and office within their power for the good of the United Colonies, and hope that their constant and unremitted endeavours justly entitle them to the approbation of all good men, and that their estates cannot be adjudged forfeit, or sequestered to the use of any person or persons, without a manifest violation of the principles of right so conspicuously set forth in the first article of that compendious and glorious system of liberty adopted by the present Convention in the declaration of the natural and inherent rights of mankind.

That, notwithstanding they consider their lands so purchased by them of the *Cherokee Indians*, the aborigines, sole owners and occupants of that part of *America*, to pertain to them as private property, yet, as it was their original design, as before declared, to form an immediate settlement thereon, and dispose of the lands to such as chose to become adventurers, on moderate, low, and easy terms, so they have in all things relating to such settlement and sale observed the strictest justice and impartiality, without respect to persons, or the different sects or persuasions of religion, giving timely notice, in the publick newspapers in the adjacent Colonies, of the certain terms on which lands might be had there, and are much at a loss, as those terms have never been altered but for the benefit of adventurers, for the reasons of the heavy charges against them, in the petitions before mentioned, of injustice, exorbitance, and arbitrary measures; that, well aware of the impropriety and danger of erecting or suffering a separate Government within the limits or verge of another, they do declare they never entertained thoughts of such an absurdity, and that their doings, together with the Delegates chosen by the inhabitants of *Transylvania* for the purpose of legislation, were intended as mere temporary by-laws for the good of their little community, and which the necessity of the case, too obvious to need explanation, they hope will sufficiently justify; and that, from the beginning, their constant attention and tenour of conduct has been to make the benefit of their lands as

diffusive as possible, and that they now are, and at all times have been, ready to submit to such Government as should be placed by authority over them, wishing and desiring their case may be thought of sufficient importance to call the attention of such power.

That this being a true and candid state of the affair, they hope that no insinuations or unjust assertions to the contrary, either from the Petitions aforesaid, or others, will be so far credited as in any manner to prejudice the minds of this Convention, or the rest of the good people of *Virginia*, against the Memorialists, they having, in their opinion, acted in a fair, open, and impartial manner. That notwithstanding they consider the allegations of their Memorial, with respect to the right of the Convention in matters of private property to be just, they are far from wishing to avoid a proper inquiry into the legality of their title, but, at the same time, cannot help expressing their surprise and utter astonishment that any right or claim to the said country or land is set up or opposed to theirs on account of the treaty held at *Fort Stanwix* in the year 1768, by Sir *William Johnson*, with the six United Nations of *Indians*, inasmuch as it is a matter well known to every person conversant in *Indian* affairs that those Nations never were possessed of, or could justly claim title to, any part of the lands or country now in dispute; and that the right confessedly was in the *Cherokee* Nation, or tribe of *Indians*, appears not only from their own constant and perpetual claim and occupancy, but by the several treaties and purchases heretofore made between the good people of *Virginia* and the *Cherokee* Nation, at sundry times and places, for lands lying northward of those now in question, particularly the last purchase made at *Lochabar*, in the year 1770, in consequence of which a boundary line between the *Virginians*' and *Cherokees*' land was ordered and directed by authority to be run, crossing in a northward direction from the *Holstein River* six miles above, or eastward, of the *Long-Island* therein, and from thence a direct course to the *Ohio River*, at the mouth or confluence of the *Great Kanawha*, or *New River*, to be and remain a perpetual boundary between the lands then belonging to the Crown of *England* in the Colony of *Virginia* and those of the *Cherokee* Nation, or tribe of *Indians*; by which, and many other arguments too numerous to be inserted in this Memorial, no claim was or could be made to the land on the west and southwest of the said line in consequence of the aforesaid treaty, or for any other cause or reason whatsoever, nor any title derived thereby to the King or Crown of *England*, nor to the good people of *Virginia*.

They beg leave to suggest that the treaty between them and the said *Cherokees*, for the land now in dispute or contemplation, was begun in the fall of the year 1774, and finished on the 17th day of *March*, in the year following. That at that time the contest between *Great Britain* and *America* was but in commencement, and it seemed to be the wish and hope of every person that a reconciliation might take place, and of course the regal powers and laws exercised as usual in *America*; and that they then were, and still remained, freemen, as capable of purchase, or inheriting an estate which might come to them by descent or otherwise, as any other person or persons in *England*, or any of the Colonies in *America*; and having made such their purchase under certain known laws, by which every person was secured in the possession of their property, whilst the Government of *England* was acknowledged throughout the *American* Colonies; and that a Confederacy of the United Colonies and a Declaration of Independence by some or all of them, cannot alter the tenure of estates. That as the means of acquiring and possessing property is an unalienable right, so such Confederacy, Declaration of Independence, or non-allegiance to the King of *England*, or any other Power or State whatever, and declaring ourselves to be a free people, does by no means interfere with the right of individuals; and that every attempt to destroy such idea of property, as well with respect to them as others, is injurious, and they hope will be considered as infringements on the rights of humanity, and treated accordingly.

Ordered, That the said Memorial be referred to the Committee on the state of the Colony.

The Convention then, according to the Order of the Day, resolved itself into a Committee on the state of the Colony; and after some time spent therein, Mr. President resumed the chair, and Mr. *Cary* reported, that the Committee had,

according to order, had under their consideration the state of the Colony, and had come to the following Resolution thereupon; which he read in his place, and afterwards delivered in at the Clerk's table, where the same was again twice read, and agreed to:

Whereas disputes have for some time subsisted between the people settled under the Government of this Colony and others settled under the Proprietor of *Pennsylvania*, which cannot be determined for want of having the boundary between the two countries settled and ascertained; and as the people are uncertain which Government they ought to submit to, consequences of the most alarming nature are justly to be apprehended from a contention and clashing of jurisdictions between the magistrates and officers of the respective countries: For prevention whereof, and in order to restore peace and harmony to all those people,

Resolved, That it be proposed to the General Assembly or Representatives of the people of the Province of *Pennsylvania*, to agree to the following temporary boundary between the two countries, that is to say: From that part of the meridian of the head fountain of *Potomack*, where it is intersected by *Braddock's Road*, along the said road to the Great Crossing of *Youghaney*; thence down the meanders of that river to the *Chestnut Ridge*, thence along that ridge to the easterly branch of *Jacob's Creek*, otherwise called *Green-Lick Run*; thence down the said run to *Braddock's Old Road*; thence along the same, and the new road leading to *Pittsburgh*, to a place called the *Bullock-Pens*, now in the tenure of *William Elliot*, and from thence a direct course to the mouth of *Plum Run*, on the *Alleghany River*, above Colonel *Croghan's*; which lines this Convention are of opinion will give most general satisfaction to the inhabitants, as it will nearly leave them in the respective country under which they settled; that the present inhabitants on either side of the line ought quietly to enjoy their possessions, and be subject to the regulations of the Government they will remain in, without considering under which they derive their title, until a final and ultimate boundary can be settled, when nothing which may be done in consequence of this agreement shall tend to prejudice the just titles of individuals, or the claim of either country to a fair and equal boundary.

Ordered, That the Committee of Safety be desired immediately to transmit the foregoing Resolution to the Delegates appointed to represent this Colony in General Congress, requesting them to negotiate the same on the part of this Colony.

Mr. *Richard Lee*, from the Committee of Publick Claims, reported that they had, according to order, had under their consideration the Accounts and Vouchers for the money paid by *John Harvie* and *Joseph Neaville*, Esqs., agreeably to a Resolution of the last Convention, and also for the said *John Harvie's* and *Joseph Neaville's* services in stating and settling all the Accounts of the expedition against the *Indians* which remained unsettled, and for revising those already settled in *West-Augusta*; and that it appeared to them that the said *John Harvie* has received from the Treasury the sum of £7,044 16s. 3½d., out of which he paid the said several claimants their proportions, amounting in the whole to the sum of £6,979 1s. 3½d.; previous to which, in order that he might perform the same with certainty, he was under the necessity of transcribing the Commissioners' books, and sorting and placing in alphabetical order all the vouchers which had been produced to the Commissioners; that, upon revising the said claims, he was necessarily obliged to examine a great number of witnesses relative thereto, the substance of whose testimony is finally entered in a book for that purpose, which he hath produced to this Convention; that he has likewise examined sundry witnesses relating to certain claims of the same nature now remaining in his possession, which are not mentioned in his book; that it further appeared, that when the said *Harvie* was at *Fredericksburgh*, on his way to *Pittsburgh* with the money aforesaid, upon looking it over he discovered a deficiency of £56, which mistake he is not able to account for, unless it happened in counting the money at the Treasury; that he immediately applied there, in order to discover the error, but proved unsuccessful; that it also appeared that he employed two guards, which he thought absolutely requisite to attend him from *Winchester* to *Pittsburgh*, whose expenses, together with his own, amount to £57, or thereabouts; that, for the

more speedy expediting the business, he employed a clerk to assist, who, together with himself, were employed from the 23d of *February* to the 16th of *May* in settling the same; that it further appeared that sundry persons at *Pittsburgh* advertised that they were willing to undertake to receive the said money at the Treasury, and carry it to *Pittsburgh*, and pay it to the several claimants for two and a half per centum; that it also appeared that the said *Harvie* has repaid to the Treasurer the balance which remained in his hands, being £65 14s. 11½d.; and that they had come to the following Resolutions thereupon; which he read in his place, and afterwards delivered in at the Clerk's table, where the same were again twice read, and agreed to:

*Resolved*, That the said *John Harvie* be allowed the sum of £200 for his services, the loss he sustained, and all his expenses.

*Resolved*, That the said *Joseph Neaville* be allowed for his services the sum of £20.

*Resolved*, That Mr. *Charles Simms*, who was necessarily employed as a Clerk by the said *John Harvie* and *Joseph Neaville*, be allowed for his services the sum of £50.

On a motion made, *Resolved*, That this Convention will on *Monday* next again resolve itself into a Committee on the state of the Colony.

Adjourned till *Monday*, ten o'clock.

Monday, June 17, 1776.

*Ordered*, That the several persons appointed to fix on convenient places and provide the necessary materials for making Salt by the operation of the sun, and to make report, do immediately proceed to erect proper Works for carrying the said necessary business into execution; that *John Burton* be added to the Commissioners appointed for the County of *Accomack*, and that any three of the respective Commissioners be a sufficient number to proceed in the said business.

*Resolved*, That this Convention will on *Thursday* next proceed, by ballot, to the appointment of Delegates to represent this Colony in General Congress for one year, from the 11th day of *August* next.

Mr. *Cary*, from the Committee of Privileges and Elections, reported that the Committee had, according to order, proceeded to the examination of *Charles Henley*, who was apprehended on suspicion of his being inimical to the rights and liberties of *America*; and that it appeared, from the deposition of *Fenwick Lyell*, that the said *Charles Henley*, about the 26th of *March* last, came on board the ship *Dunmore*, lying off *Norfolk*, on purpose, as he said, to inform Lord *Dunmore*, that if he would send a tender back with him he would load her with live-stock, for that the *Princess Anne* people chose that he should have it rather than the *Shirtnen*; that on the 30th of *March*, being *Saturday*, the deponent heard the said *Charles Henley* say, that he was to go round to *Currituck*, in a tender to be commanded by Lieutenant *Wright*, and would bring the people a plenty of fresh provisions in a short time; and that they had come to the following Resolution thereupon, which he read in his place, and afterwards delivered in at the Clerk's table, where the same was again twice read, and agreed to:

*Resolved*, That the said *Charles Henley* is guilty of giving intelligence to the enemies of *America* in *Virginia*, and ought to be subject to the penalties and forfeitures prescribed and inflicted by an Ordinance intituled An Ordinance for prescribing a mode of punishment for the enemies of *America* in this Colony.

A Petition of *Abraham Hite*, the younger, was presented to the Convention, and read; setting forth that, by command of the Lieutenant of the County of *Hampshire*, he acted as Commissary of Provisions for the Militia, in the Northern Department, in the late expedition against the *Indians*, from some time in *July* till *November*, in which character he contracted for provisions, received and had them transported to the proper stations, where he attended at times to see them properly stored, and was at great trouble in procuring wagons, having them appraised, and doing every incident duty therein with diligence and success; that being related to the County Lieutenant, he directed him to avoid every imputation of partiality, to charge the country with the days he was wholly employed in the business afore-

said, and no more, which amounted to twenty-six, for which he obtained a certificate, and he was allowed only five shillings per day by the Commissioners for his services, from a rule established with respect to others employed in the like service, which, so far from being an adequate satisfaction for his services, was not sufficient to have defrayed his necessary expenses, and praying such further allowance as should be judged reasonable.

*Ordered*, That the said Petition be referred to the Committee of Publick Claims; that they examine into the matter thereof, and report the same, with their opinion thereon, to the Convention.

The Convention then, according to the Order of the Day, resolved itself into a Committee on the state of the Colony; and after some time spent therein, Mr. President resumed the chair, and Mr. *Cary* reported, that the Committee had, according to order, had under their further consideration the state of the Colony, and had come to the following Resolutions thereupon; which he read in his place, and afterwards delivered in at the Clerk's table, where the same were again twice read, and agreed to:

*Resolved*, That a Board of Commissioners be appointed to superintend and direct all the Naval affairs of this Colony.

*Resolved*, That two Row-Galleys be immediately built, and employed for the defence of the Counties of *Northampton* and *Accomack*, over and above the Vessels already directed by the Committee of Safety.

*Resolved*, That proper small Vessels, for the expeditious transportation of the Troops over the several navigable Rivers, ought to be immediately provided.

*Resolved*, That proper persons be appointed to examine the Channels of the several navigable Rivers in this Colony, and report what places may be proper to erect Batteries.

*Ordered*, That Mr. *Archibald Cary*, Mr. *Travis*, Mr. *Wilson Miles Cary*, Mr. *Edmund Randolph*, Mr. *Curle*, Mr. *Blair*, Mr. *Simpson*, and Mr. *Banister*, do prepare and bring in an Ordinance pursuant to the three first Resolutions of the Committee; and that Mr. *Travis*, Mr. *Banister*, Mr. *Curle*, and Mr. *King*, be appointed Commissioners to examine accurately the Channel of *James River*, the nature of the several shoals, the distance of the nearest parts of the channels to the shores, and also the nature of these shores, whether high or low, pursuant to the fourth Resolution of the Committee; that Mr. *John Perrin*, Mr. *Stephen Bingham*, Mr. *Thomas Archer*, and Mr. *Robert Ruffin*, be appointed Commissioners for the like purposes for *York River*; Mr. *Richard Mitchell*, Mr. *Hugh Walker*, Mr. *John Gordon*, and Mr. *Rodham Lunsford*, for *Rappahannock River*; Mr. *John West*, Jun., Mr. *William Ramsay*, Mr. *Richard Conway*, and Mr. *John Augustine Washington*, for *Potomack River*; and Mr. *William Cowan*, Mr. *Anthony Holliday*, and Mr. *John King*, for *Nansemond River*.

*Resolved*, That this Convention will to-morrow again resolve itself into a Committee on the state of the Colony.

Adjourned till to-morrow, ten o'clock.

Several intercepted Letters and Papers on the subject of *Indian* affairs were laid before the Convention, read, and ordered to be referred to the Committee on the state of the Colony.

The President laid before the Convention a Letter from Major-General *Lee* to Brigadier-General *Lewis*, with several Papers enclosed; which were read, and ordered to be referred to a Committee of the whole Convention.

*Resolved*, That the Convention will immediately resolve itself into a Committee on the said Letter and Papers.

The Convention accordingly resolved itself into a Committee on the said Letter and Papers; and after some time spent therein, Mr. President resumed the chair, and Mr. *Cary* reported, that the Committee had, according to order, had under their consideration the Letter and Papers from Major-General *Lee* to Brigadier-General *Lewis*, and had come to the following Resolution thereupon; which he read in his place, and afterwards delivered in at the Clerk's table, where the same was again twice read, and agreed to:

*Resolved*, That the two Battalions of Minute-men and Militia, lately ordered to the assistance of *North-Carolina*, be called down to supply the place of such Regular forces as may be ordered to the southward.

A Petition of *Thomas Ritson*, of the Borough of *Norfolk*, was presented to the Convention, and read; setting forth, that the Brig *Molly* and cargo, stopped by Colonels *Howe* and *Woodford*, from the men-of-war, were addressed to him, and that, notwithstanding the salt was imported agreeably to the terms of the Continental Association, the commanding officer did not, as directed by a former Resolution of the Convention, contract with him for the said cargo, but only told him he would settle with him for it, and took the brig and cargo under his direction; and praying to be allowed not only a reasonable price for the cargo aforesaid, but also for the said brig, as she was destroyed in consequence of her being taken by the commanding officer; and also a letter from Brigadier-General *Howe*, on the subject thereof.

*Ordered*, That the said Petition and Letter be referred to the Committee of Publick Claims; that they examine the matter thereof, and report the same, with their opinion thereupon, to the Convention.

The Order of the Day, for the Convention to resolve itself into a Committee on the state of the Colony, being read,

*Ordered*, That the same be put off till to-morrow.

Adjourned till to-morrow, ten o'clock.

Wednesday, June 19, 1776.

A Petition of the Committee of the County of *Frederick* was presented to the Convention, and read; setting forth, that, by an Ordinance passed the 17th of *July* last, the people called *Quakers* and *Menonists* are exempted from serving in the Militia; that they have a tender regard for the conscientious scruples of every religious society, but at the same time beg leave to represent the injustice of subjecting one part of the community to the whole burden of Government, while others equally share the benefits of it; that they humbly suggest, that if, in lieu of bearing arms at general and private musters, the said *Quakers* and *Menonists* were subjected to the payment of a certain sum, to be annually assessed by the County Courts at laying the levy, and, in case the Militia should be called into actual service, they should be drafted in the same proportion as the Militia of the County, and on their refusal to serve, or to provide able-bodied men to serve in their places, respectively, that they were liable to the same fines as other Militia men, in the like cases are subject to, it would be more equal; and that they submit it whether it would not be reasonable to allow any person who should choose to contribute to the support of the publick, in lieu of attending musters, the same indulgence as to those who refuse from conscientious principles.

*Ordered*, That the said Petition be referred to the Committee of Propositions and Grievances; that they inquire into the allegations thereof, and report the same, with their opinion thereupon, to the Convention.

A Petition of *Edward Cowper* was presented to the Convention, and read; setting forth, that on the 26th of *October* last, Captain *Squires*, with a number of the enemy's armed tenders, came to anchor off the Petitioner's plantation, near the mouth of *Hampton River*; that, soon afterwards, the Captains *Lyne* and *Nicholas* went down with their Companies opposite to the tenders, and fired on them, which was returned, and an engagement ensued, and continued for some time; that afterwards, upon our troops leaving the place, the enemy landed, and set fire to your Petitioner's dwelling-house, a dairy, hen-house, and corn-house, in which were about fifty or sixty barrels of corn, which, with many other valuable articles, were all consumed; and praying such compensation for his loss as shall be thought just and reasonable.

*Ordered*, That the said Petition be referred to the Committee of Publick Claims; that they examine the matter thereof, and report the same, with their opinion thereupon, to the Convention.

Mr. *Cary*, from the Committee appointed, presented, according to order, an Ordinance for making further provision for the defence and protection of this Colony; which was read the first time, and ordered to be read a second time.

Mr. *Cary*, from the Committee appointed, presented, according to order, an Ordinance to amend an Ordinance, entitled An Ordinance for augmenting the Ninth Regiment of Regular forces, providing for the better defence of the frontiers of this Colony, and for raising six Troops of Horse; which was read the first time, and ordered to be read a second time.

Mr. *Richard Lee*, from the Committee of Publick Claims, reported, that the Committee had, according to order, had under their consideration several Petitions to them referred, and had come to the following Resolutions thereupon; which he read in his place, and afterwards delivered in at the Clerk's table, where the same were again twice read, and agreed to:

*Resolved*, That so much of the Petition of *George Moffatt* as prays to be reimbursed for a Horse therein mentioned, also an additional allowance of pay for *Andrew Erwin*, a soldier in his Company, is reasonable, and that the Petitioner ought to be reimbursed the sum of £9 for the said Horse, it appearing to this Committee that that sum was deducted out of his pay by the Paymaster for the said Horse, which he had never had possession of; and also that he ought to be allowed the further sum of 16s. 6d. for eleven days' pay of the said *Erwin*, as a soldier, which was omitted through mistake in his roll.

*Resolved*, That the residue of the said Petition, as far as it relates to an allowance for two Pack-horse drivers, be rejected, it appearing that they received soldiers' pay at that time, which this Committee think sufficient, as they had the care of only one Horse each.

*Resolved*, That the Petition of *Robert Gilmore*, *John Backley*, *Alexander Campbell*, *Thomas Cooper*, and *Jonathan Skean*, praying to be allowed their pay as Rangers in the late *Indian* expedition, is reasonable, and that they ought to be allowed as follows: *Robert Gilmore* and *Jonathan Skean* the sum of 16s. 6d. each; *John Backley*, the sum of £2 11s.; *Alexander Campbell*, the sum of £4 4s., and *Thomas Cooper*, the sum of £2 6s. 6d., for the same; it appearing to this Committee that the said Petitioners performed their duty as Rangers in the said expedition, and that their names were not entered on the rolls.

*Resolved*, That the Petition of *John Smelley* and *Joseph Cutchin*, Inspectors of Tobacco at *Smithfield* and *Fulgham's* Warehouses, praying to be reimbursed for six hogsheads of Tobacco stolen out of the said warehouses, weighing six thousand two hundred and twelve pounds net, which they have paid for at the rate of twenty shillings per centum, be rejected, it appearing to this Committee that at the time the said Tobacco was stolen the said warehouses had no doors.

On consideration of the Petition of *Christopher Calvert*, praying to be allowed for his Slave *Davy*, therein mentioned, or that he may be returned, it appears to your Committee that the said Slave was taken up by the Colony Troops on suspicion that he was attempting to escape to Lord *Danmore*; that he was sent to *Williamsburgh*, and from thence, by order of the Convention, to the Lead Mines, where he is employed in the service of the country.

*Resolved*, That as the Petitioner is to receive hire for the said Slave during the time he continues in the service of the country, the said Petition ought to be rejected.

*Resolved*, That the Petition of *Ephraim Peyton*, praying to be allowed for his Horse, which was lost in the service of the Colony in the late *Indian* expedition, is reasonable, and that the Petitioner ought to be allowed the sum of £10 for the said Horse.

*Resolved*, That the Petition of *Thomas Price*, a soldier in Captain *Lewis's* Company, who was wounded in the late engagement with the *Indians*, praying relief from the publick, is reasonable; and that the Petitioner ought to be allowed the sum of £25 for his present relief, and for his Rifle, which was lost in the engagement.

*Resolved*, That the Petition of *William Lonsdale*, a soldier in Captain *Moffatt's* Company, who was wounded in the late engagement with the *Indians*, praying relief from the publick, is reasonable; and that the Petitioner ought to be allowed the sum of £5 per annum, for four years, towards his support.

*Resolved*, That the Petition of *Michael Coulter*, a soldier in Captain *McDowell's* Company, praying an additional allowance for his services as a carpenter, is reasonable; and that the Petitioner ought to be allowed the sum of £1 16s. for the same, exclusive of what has been allowed him by the Commissioners.

On consideration of the Petition of *John Lyle*, it appears to your Committee that the Petitioner was employed by *Sampson Matthews* as a master-drover of cattle in the country's service, and purchased a considerable number for the expedition against the *Shawanese*, for which the said *Mat-*

*thers* told him he should be paid as much as any drover in the station where he was to act, which was 7s. 6d. per day; that, at the time he engaged in that business, he was a Lieutenant in Captain *McDowell's* Company, and received pay as such; that he has been allowed by the Commissioners, as master-drover, 5s. per day for forty-eight days, and 6s. per day for fourteen days, which last-mentioned time he furnished his own Horse.

*Resolved*, That the said Petition is reasonable; and that the Petitioner ought to be allowed the further sum of £7 1s. for that service, exclusive of the allowance made him by the Commissioners.

An Ordinance to amend an Ordinance entitled An Ordinance for augmenting the Ninth Regiment of Regular forces, providing for the better defence of the frontiers of this Colony, and for raising six Troops of Horse, was read a second time, and committed to a Committee of the whole Convention.

*Resolved*, That this Convention will to-morrow resolve itself into a Committee on the said Ordinance.

A Petition of sundry Natives of *Great Britain* was presented to the Convention, and read; setting forth, that they came into this Colony in the time of its peace and friendly union with *Great Britain*, to transact commercial affairs for themselves and their friends, in which business they have been employed ever since; that they acknowledge with gratitude the kind treatment they have received from the good people of this Colony, with whom they lived in the most pleasing harmony and confidence until the unhappy disputes between *Great Britain* and the Colonies convulsed the empire; since which unfortunate period, they are concerned to say, they have not in general met with that kindness and friendship they formerly experienced, but that jealousies and suspicions, altogether groundless, have prevailed to their prejudice, and have been carried so far as to have occasioned some of your Petitioners to be exiled to the City of *Williamsburgh* without a hearing, and others to be treated with coolness, and even contempt, for no reason that they know of but their being foreigners, which has greatly distressed them; that though they cannot, as *Britons*, engage in arms against their friends and countrymen, yet do they most sincerely wish peace, freedom, and happiness to *America* in general and this Colony in particular; and as their residence in this Colony creates so much uneasiness to some of the inhabitants, and as they cannot enjoy any degree of peace or tranquillity in their present situation, they pray they may be permitted to depart the Colony, and, for that purpose, to purchase and fit out a vessel, and to apply to the commander of the *British* fleet for a passport for the said vessel, that she may not be stopped or delayed on her passage; that they do most solemnly declare they never held or entertained any opinion inimical to *America*, or even had it in thought to say or do anything which might in any manner prejudice the just rights of the people, and therefore hope they will be permitted to return to receive and collect their debts and effects in this Colony as soon as peace is restored, which is an event they most ardently pray for; that these indulgences being granted, they pledge themselves to do everything in their power, as far as their little influence can extend, to promote the peace and happiness of this Colony.

*Ordered*, That the said Petition be referred to the Committee of Propositions and Grievances; that they inquire into the allegations thereof, and report the same, with their opinion thereupon, to the Convention.

The Convention proceeded to take into their consideration the Report and Resolution from the Committee of Public Claims, made on *Monday* the 3d instant, on the claims of *Joseph Cabell* and *Thomas Bachelor*, which were then ordered to lie on the table; and the same were again read, and agreed to, with an amendment, allowing the said *Joseph Cabell* £10 17s. 9d. instead of £21 15s. 6d. therein mentioned.

The Order of the Day, for the Convention to resolve itself into a Committee on the state of the Colony, being read,

*Ordered*, That the same be put off till to-morrow.

Adjourned till to-morrow, ten o'clock.

Thursday, June 20, 1776.

*Resolved*, That Mr. *William Hayward*, an officer from *South-Carolina*, be permitted to recruit soldiers in this Co-

lony, provided he does not enlist any of the Regulars, Marines, or Minute-men, already engaged here in the Continental or Colonial service; and that it be recommended to the several County Committees to afford him all possible assistance.

A Petition of sundry persons of the *Baptist* Church, in the County of *Prince William*, whose names are thereunto subscribed, was presented to the Convention, and read; setting forth, that at a time when this Colony, with the others, is contending for the civil rights of mankind against the enslaving schemes of a powerful enemy, they are persuaded the strictest unanimity is necessary among ourselves; and that every remaining cause of division may, if possible, be removed, they think it their duty to petition for the following religious privileges, which they have not yet been indulged with in this part of the world, to wit: That they be allowed to worship *God* in their own way, without interruption; that they be permitted to maintain their own Ministers, and none others; that they may be married, buried, and the like, without paying the Clergy of other denominations; that, these things granted, they will gladly unite with their brethren, and, to the utmost of their ability, promote the common cause.

*Ordered*, That the said Petition be referred to the Committee of Propositions and Grievances; that they inquire into the allegations thereof, and report the same, with their opinion thereupon, to the Convention.

*Resolved*, That the Delegates to be appointed to represent this Colony in General Congress, consist of five in number.

The Convention then, according to the Order of the Day, proceeded to the appointment of Delegates to represent this Colony in General Congress; and the Members having prepared tickets, and put the same into the ballot-box, Mr. Treasurer, Mr. *George Mason*, Mr. *Blair*, Mr. *Holt*, and Mr. *Henry Tazewell*, were appointed a Committee to examine the same, and report upon whom the majority falls; and it appearing, from the report of the Committee, that the majority were in favour of *George Wythe*, *Thomas Nelson*, *Richard Henry Lee*, *Thomas Jefferson*, and *Francis Lightfoot Lee*, Esquires;

*Resolved*, therefore, That the said *George Wythe*, *Thomas Nelson*, *Richard Henry Lee*, *Thomas Jefferson*, and *Francis Lightfoot Lee*, Esquires, be, and they are hereby, appointed Delegates to represent this Colony in General Congress for one year from the 11th of *August* next.

*Resolved*, That any three of the said Delegates be a sufficient number to represent this Colony in the said General Congress.

*Ordered*, That leave be given to bring in an Ordinance to amend an Ordinance intituled An Ordinance to provide for paying the expenses of the Delegates from this Colony to the General Congress; and that Mr. *Starke*, Mr. *Henry Lee*, and Mr. *Edmund Randolph*, do prepare and bring in the same.

*Ordered*, That Mr. *Simpson* and Mr. *Tipton* have leave to be absent from the service of this Convention for the remainder of the session.

*Resolved*, That there be a call of the Convention on *Monday* next.

The Orders of the Day, for the Convention to resolve itself into a Committee on the state of the Colony, and on the Ordinance for amending an Ordinance intituled An Ordinance for augmenting the Ninth Regiment of Regular forces, providing for the better defence of the frontiers of this Colony, and for raising six Troops of Horse, being read,

*Ordered*, That the same be put off till to-morrow.

A Representation from the Justices of the County Court of *Isle-of-Wight*, was presented to the Convention, and read; desiring to be informed whether they have power to commit and hold Courts for examination of persons who may be apprehended for criminal offences.

*Ordered*, That the said Memorial be referred to the Committee on the state of the Colony.

Adjourned till to-morrow, ten o'clock.

Friday, June 21, 1776.

Mr. *Digges*, from the Committee of Safety, to whom the case of *John Goodrich*, Jun., taken up and charged with conduct inimical to the rights of *America*, was referred, reported, that they had appointed several different days for his

examination, and had inquired for witnesses of the officers, in the neighbourhood of *Norfolk*, desiring them to have summoned such as they should be informed were acquainted with the conduct of the said *Goodrich*; but none have appeared; whereupon the Committee thought it unnecessary and unreasonable to keep him longer in suspense, and that he ought to be discharged from that accusation; but as he is under a general suspicion of being unfriendly to the interests of the Colony, the Committee are of opinion that he ought, previous to his discharge, to enter into bond, with sufficient security, in the penalty of £1,000, with condition not to give intelligence to, or in any manner aid or assist, the enemies of *America*. Which Report he read in his place, and afterwards delivered in at the Clerk's table, where the same was again twice read, and agreed to.

On a motion made, *Resolved*, That the Committee of Safety do tender to the said *John Goodrich*, Jun., the oath prescribed by this Convention to be taken by suspected persons, by their Resolution of the 27th of *May* last; and in case of his refusal to take the same, that they cause him to be disarmed, agreeably to the said Resolution.

Mr. *Digges*, from the Committee of Privileges and Elections, reported, that the Committee had, according to order, inquired into the allegations contained in a letter from *Richard Randolph*, Esq., to *Richard Adams*, Esq., bearing date the 15th of *April* last; and also the information of the said *Richard Adams* to them referred; and that it appeared to them, from the testimony of *Archibald Cary*, Esq., that, at a session of Assembly held in the year 1772, several Clerks of County Courts had neglected to send down the publick claims from the Counties, among whom was the Clerk of *Henrico*; that the deponent was ordered by the House of Burgesses to send for them, but he proposed only sending to them for the accounts, which was agreed to, and the deponent directed the Sergeant-at-Arms to hire expresses to go for those accounts, who accordingly did so; that the Sergeant (*Mr. Eppes*) having made out his account for the expenses he had been at in sending for the Clerks, gave it to the deponent, who moved the House that the amount thereof might be levied in the Book of Claims for the said *Eppes*, and that the charge, amounting to £24 5s., should be debited to the four Clerks who had failed to send down their said accounts; that, as the deponent was going out of the House with the Book of Claims, which had been reported from the Committee, the said *Richard Adams* followed him, and desired the deponent not to enter the article against the Clerk of *Henrico*, for that he would pay the said *Eppes* himself, upon which the deponent desired the said *Adams* to speak to the said *Eppes*, which he soon afterwards did, and, in the presence of the deponent, the said *Adams* promised to pay the said *Eppes* before he left town, and the said *Eppes* informed the deponent that the £3 which the said *Adams* had assumed to pay to the Clerk of *Henrico* need not be entered in the Book of Claims, and was therefore struck out of the account; upon which, an entry was made in the book, giving the said *Eppes* credit only for £21 5s., and the three other Clerks charged with the money to repay the publick, and no notice taken of the Clerk of *Henrico*; that on *Saturday* afternoon, being a few days after these transactions, the deponent went out of town, and did not return until the *Monday* morning following; that some time after the House had sat that day, the Book of Claims passed, and he was ordered to carry the same to the Council for their concurrence, and on his way up he was informed by Mr. *Hind Russell*, Clerk to the Committee of Claims, that an alteration had been made in his absence in the said book; and upon looking at it, the deponent discovered the twenty-one was altered to twenty-four pounds, and the word *Henrico* entered in the margin of the book; that from the handwriting, the deponent found the alteration had been made by *Jacob Bruce*, an assistant to *George Wythe*, Esq., Clerk of the House of Burgesses, who, on being applied to by the deponent, told him he did it by direction of the said *Richard Adams*; that the deponent knowing that no person had a right to make an entry in the book but by order of the House, inquired whether any such order had been made, and informed the House of the transaction, but did not make any motion respecting the alteration, for which he was blamed by several Members sitting near him, but he informed them he had done his duty in giving the information to the House, and they might take such steps as they thought proper.

That it also appeared from the testimony of *Richard Bland*, Esq., that several County Court Clerks having neglected to transmit to the Clerk of the House of Burgesses the list of their tithables for laying the publick levy, were sent for in custody of the Sergeant-at-Arms, among whom was the Deputy to Mr. *Thomas Adams*, Clerk of *Henrico*, at that time in *England*. The Sergeant's fees were to be levied for him in the Book of Claims, and relieved upon the delinquents, to reimburse the country. That after the Book of Claims had been reported to the House (but whether it had passed or not the deponent cannot recollect) *Archibald Cary*, Esq., Chairman to the Committee, informed the House that an alteration had been made in the Book of Claims during his absence from the House, by which the country was charged the sum of £3, due to the Sergeant as his fees, for sending for the Clerk of *Henrico*, which was not relieved upon the Clerk, as it ought to have been; and that he had reason to believe that this alteration was made by Mr. *Richard Adams*, brother to Mr. *Thomas Adams*, the Clerk; which was an offence he thought ought to be inquired into, and properly censured by the House.

That Mr. *Richard Lee*, who frequently acted as Chairman of the Committee of Claims in the absence of the said *Archibald Cary*, thereupon told the House that the said *Richard Adams* applied to him to have the Sergeant's fees due from the Clerk of *Henrico* charged in the Book of Claims, according to the usual course; that this charge had been omitted, upon his promising to pay the Sergeant for his brother before the rising of the Assembly; that the said *Richard Adams* was called home unexpectedly to a sick family, and it was inconvenient for him to pay the money at that time, whereupon the said *Richard Lee* directed the alteration to be made, but the recharging the said fees to the Clerk of *Henrico*, according to the usual course, was omitted, through mistake and want of attention.

That the deponent, in order to put an end to the debate, informed the House that he was ready to pay the money down upon the Clerk's table if required, or to pay it at any time to the Treasurer, for the said *Adams*, who, he was certain, would immediately repay it to him; upon which the House appeared perfectly satisfied, and no further notice was taken of the said information. That the deponent was always ready to have complied with his undertaking, and should certainly have performed it, had not the said *Richard Adams*, a short time after the rising of the Assembly, informed the deponent he had paid the money to the Treasurer, and that he has seen the Treasurer's receipt acknowledging such payment.

That it further appeared, from the information of *Richard Lee*, Esq., that on the *Saturday*, and after Mr. *Archibald Cary* was gone out of town, Mr. *Richard Adams* informed him that he had just received a letter from Mrs. *Adams*, acquainting him that one of his children was very ill, and he should shortly leave town; that it was inconvenient for him to pay the £3 for the Clerk of *Henrico* at that time; and as the Assembly might rise before he returned, he desired the informant, who had acted as Chairman to the Committee of Claims in the absence of the said *Archibald Cary*, to go with him to the Clerk of that Committee and have the alteration made in the Book of Claims; but the Clerk being absent, they desired *Jacob Bruce* to make the alteration, which he accordingly did.

That it also further appeared, from the information of Mr. *McDowell*, and the testimony of Mr. *Samuel Du-Val*, that they were in Mr. *Wythe's* office when Mr. *Richard Lee* and Mr. *Richard Adams* came up with the Book of Claims; and that Mr. *Lee* directed Mr. *Jacob Bruce* to make the alteration in the book, which he accordingly did.

That it also appeared, from the information of *Robert Carter Nicholas*, Esq., Treasurer, that Mr. *Richard Adams*, on the 18th of *May*, 1772, paid into his office £3, for the expenses of the Sergeant of the House of Burgesses in sending an express to the Clerk of *Henrico*.

That it also appeared, from the testimony of *Jacob Bruce*, that Mr. *Richard Lee* and Mr. *Richard Adams* came into Mr. *Wythe's* office, where he was writing; that Mr. *Lee* brought with him the Book of Claims, which he opened before the deponent, and told him to alter a figure of one into a figure of four, and enter the word "*Henrico*" in the margin of the book, which he did.

That it also further appeared, from the testimony of *Tur-*

ner Southall, that the letter from Mr. *Richard Randolph* to Mr. *Richard Adams* came enclosed in one to him for Mr. *Randolph*, for his perusal, which, after he had read, he was desired to seal and contrive by some safe hand to Mr. *Adams*, which he did; that the deponent has heard Mr. *Randolph*, in a publick company, charge Mr. *Adams* with a forgery in the Book of Claims.

That it also further appeared, from the testimony of *Thomas Prosser*, *Joseph Lewis*, *Abraham Cowley*, *Samuel Price*, *William Burton*, and *John Pope*, that they heard Mr. *Richard Randolph*, in a publick company, in the County of *Henrico*, charge Mr. *Richard Adams* with having cheated the country of £3, by a forgery in the Book of Claims, and that he could prove it by Mr. *Archibald Cary*. And that, upon the whole matter, the Committee had come to the following Resolution, which he read in his place, and afterwards delivered in at the Clerk's table, where the same was again twice read, and agreed to:

*Resolved*, That the accusations contained in the Letter of the said *Richard Randolph* against the said *Richard Adams*, are false, scandalous, and malicious.

On a motion made, *Ordered*, That the said *Richard Randolph* do pay the costs attending the said inquiry, and that the same be settled and assessed by the Committee of Publick Claims.

Mr. *Digges*, from the Committee of Safety, informed the Convention that the Committee had taken into their consideration how the Prisoners lately taken by the Captains *James* and *Richard Barron*, being two hundred and seventeen *Scotch* Highland Regulars, might be best disposed of, were of opinion that the non-commissioned officers and Cadets should be sent to some secure place in the frontiers, and there kept as prisoners of war; that the seamen be engaged to serve one in a cruiser or galley, if they shall be willing; if not, that they be disposed of with the privates; and that it will be most prudent to disperse the privates over the middle Counties, where, one in a family, they being well used and employed on such wages as they may be willing to take, may be secured, and probably reconciled to the country, at the same time considering them as prisoners of war; and had therefore ordered them to be sent, in equal numbers, to the following Counties, to wit: *Amelia, Amherst, Albemarle, Cumberland, Buckingham, Berkeley, Frederick, Sussex, Goochland, Louisa, Orange, Culpepper, Fauquier, and Loudoun*; and that it be recommended to the Committees of the said several Counties to distribute their number amongst the inhabitants respectively who may be willing to take them, and to be careful that the above purpose of the Committee respecting the said men may be complied with, and that the women, if they have husbands, may be sent with them, together with their respective children. That the officers and men in the *American* service, who were put on board the said ship when she was taken to the northward by Captain *Biddle*, ought to be engaged in the Naval service, or permitted to return to their places of residence, as they shall choose.

*Resolved*, That this Convention doth approve of the disposition of the Prisoners aforesaid, as made by the Committee of Safety.

Mr. *Richard Lee*, from the Committee of Publick Claims, reported, that the Committee had, according to order, had under their consideration several Petitions to them referred, and had come to the following Resolutions thereupon; which he read in his place, and afterwards delivered in at the Clerk's table, where the same were again twice read, and agreed to:

*Resolved*, That the Petition of *Peter Wilson*, a soldier in Captain *John Lewis's* Company, for a further allowance of pay for seventy-five days more than he was returned for in the roll, which was omitted by mistake of the said Captain, is reasonable; and that the Petitioner be allowed the sum of £5 12s. 6d. for the same.

*Resolved*, That the Petition of *James Shanks*, praying to be allowed for his services thirty-eight days as Packhorse-master on the late expedition against the *Indians*, is reasonable; and that the Petitioner be allowed the sum of £4 15s. for his services.

*Resolved*, That the Petition of *Abraham Hite*, the younger, praying an additional allowance for his services as Commissary of Provisions for the Northern Department on the late expedition against the *Indians*, is reasonable; and that the Petitioner be allowed the further sum of five shillings per

day for twenty-six days, the time he served in that office, amounting to £6 10s., exclusive of the allowance already made him by the Commissioners for those services.

*Resolved*, That the Petition of *William Talbott*, a soldier of the Militia, of *Charles-City* County, who was wounded in the arm and shoulder in an engagement with two of the enemy's tenders at *Sandy-Point*, praying to be allowed the Surgeon's account against him, for visits and dressing his wounds, is reasonable, and that the Petitioner be allowed £16 13s. 3d., the amount of the said account.

*Resolved*, That the Petition of *Edward Cowper*, praying to be allowed for the damages he sustained by means of the enemy having burnt his Houses, killed and taken away a considerable number of Cattle and other Stock, be rejected, it being no publick claim.

*Resolved*, That the Petition of *Joseph Boot*, a soldier and artificer in the service during the last war, who was wounded in several parts of his body, whereby he is rendered incapable of getting support by labour in his present declining state, and praying relief, is reasonable; and that he be allowed £5 for his present relief, and £5 per annum during his life.

*Resolved*, That the Petition of *George Beckett*, a soldier in Captain *Lee's* Company, of the Third *Virginia* Regiment, who, by an overstrain in lifting pieces of wood for the use of the said Company, received a hurt which renders him incapable of walking, and consequently of getting a livelihood by labour, and praying relief, is reasonable, and that he be allowed the sum of £5 per annum during his life towards his support.

The Convention then, according to the Order of the Day, resolved itself into a Committee on the Ordinance to amend an Ordinance intituled An Ordinance for augmenting the Ninth Regiment of Regular forces, providing for the better defence of the frontiers of this Colony, and for raising six Troops of Horse; and after some time spent therein, Mr. President resumed the chair, and Mr. *Cary* reported, that the Committee had, according to order, had under their consideration the said Ordinance, and had gone through the same, and made several amendments thereto; which he read in his place, and afterwards delivered in at the Clerk's table, where the same were again twice read, and agreed to.

Whereas divers Petitions from the Inhabitants on the Western frontiers have been presented to this Convention, complaining of exorbitant demands made on them for Lands claimed by persons pretending to derive titles from *Indian* deeds and purchases:

*Resolved*, That all persons actually settled on any of the said Lands ought to hold the same, without paying any pecuniary or other consideration whatever to any private person or persons, until the said Petitions, as well as the validity of the titles under such *Indian* deeds and purchases, shall have been considered and determined on by the Legislature of this country; and that all persons who are now actually settled on any unlocated or unappropriated Lands in *Virginia*, to which there is no other just claim, shall have the pre-emption, or preference, in the grants of such Lands.

*Resolved*, That no purchases of Lands within the chartered limits of *Virginia* shall be made, under any pretence whatever, from any *Indian* Tribe or Nation, without the approbation of the *Virginia* Legislature.

Mr. *Richard Lee*, from the Committee of Publick Claims, reported, that the Committee had, according to order, had under their consideration a claim of Captain *Joseph Haynes*, Lieutenant *Daniel Smith*, and Ensign *John Smith*, to them referred; and that it appeared to them that the said *Joseph Haynes*, in the month of *June*, 1774, received orders from Colonel *Abraham Smith*, of *Augusta*, to raise as many men as the short notice would admit, and march to the North fork of the South Branch of *Potomack River*, to protect the inhabitants of that place, who at that time were threatened with an invasion by the *Indians*; that the said *Haynes*, within six days after receiving the orders, marched with thirty men to the place aforesaid, leaving his Ensign to proceed with the remainder that were inlisted as soon as they could be convened, who two days after joined him with twelve men; that the said Colonel *Smith*, thinking these forty-two men, with the officers, would be a sufficient reinforcement for the garrison, ordered the Captain not to inlist

any more, till he should receive orders for so doing from the County Lieutenant; that the Captain applied to the County Lieutenant for permission to recruit eight men, who were then ready to enlist under him, to complete his Company, that he might be entitled to a Captain's pay, who told him not to enlist any more without further orders, and assured him that he should draw full pay as Captain, notwithstanding his Company was not complete; that the Commissioners have allowed the said *Joseph Haynes* Lieutenant's pay, the said *Daniel Smith* Ensign's pay, and the said *John Smith* Sergeant's pay, for thirty-eight days, the time they were in service on the South Branch, and the same for the number of days they served on the expedition against the *Shawanese*, which last-mentioned time there were forty-nine privates enlisted, two of whom were returned as deserters, and one as a spy, as appears by the roll; and that they had come to the following Resolutions thereupon; which he read in his place, and afterwards delivered in at the Clerk's table, where the same were again twice read, and agreed to:

*Resolved*, That the said Claimants have been already allowed by the Commissioners full pay, agreeably to law, for the time they served on the *Shawanese* expedition.

*Resolved*, That the following additional allowance be made to the said Claimants, for the thirty-eight days they were on duty on the South Branch of *Potomack River*, to wit: To the said *Joseph Haynes*, as Captain, 2s. 6d., amounting to £4 15s.; to the said *Daniel Smith*, as Lieutenant, 1s. 6d. per day, amounting to £2 17s.; and to the said *John Smith*, as Ensign, 3s. 6d. per day, amounting to £6 13s.; being the difference between the allowance made them by the Commissioners and this Committee for the said services.

Mr. *Archibald Cary*, from the Committee appointed, reported a Plan of Government for this Colony; which was read the first time, and ordered to be read a second time.

*Ordered*, That no Claim or Petition be received by the Convention after this day, before the recess.

An Ordinance to amend an Ordinance intituled An Ordinance to provide for paying the expenses of the Delegates from this Colony to the General Congress, which had been fairly transcribed, was read a third time, and the blanks therein filled up.

*Ordered*, That it be an instruction to the Committee of Propositions and Grievances, who are directed to prepare and bring in an Ordinance for amending an Ordinance intituled An Ordinance for raising and embodying a sufficient force for the defence and protection of this Colony, that they receive a clause, or clauses, to exempt the County of *Accomack* from being allotted in divisions, and drafted, pursuant to the directions of an Ordinance of the last Convention.

*Resolved*, That *Samuel Jordan*, Gentleman, be appointed a Commissioner for receiving and paying away the sum of £5,000, pursuant to a Resolution of this Convention of the

\* An Ordinance to amend an Ordinance intituled An Ordinance to provide for paying the expenses of the Delegates from this Colony to the General Congress.

Whereas, in these times of difficulty and distress, it is necessary to practise the utmost economy in the distribution of the publick money:

*Be it therefore ordained by the Delegates of VIRGINIA, now met in General Convention, and it is hereby ordained by the authority of the same*, That so much of an Ordinance entitled An Ordinance to provide for paying the expenses of the Delegates from this Colony to the General Congress as establishes an allowance to each of such Delegates of forty-five shillings for every day's attendance therein, shall, from and after the 11th day of *August* next, be repealed, to all intents and purposes.

*And be it further ordained*, That from and after the 11th day of *August* next, every Delegate who now is, or hereafter may be, appointed to represent this Colony in any General Congress, shall, for each day's attendance therein, receive the sum of thirty shillings, to be paid to the respective Delegates by the Treasurer for the time being appointed by General Convention or General Assembly, out of any publick money which may be in his hands by virtue of any Ordinance of Convention or act of General Assembly.

14th instant, in the room of *William Cabell*, Esq., who is inconveniently situated for the purpose of carrying the same into execution.

A Petition of *Samuel Prichard* was presented to the Convention, and read; setting forth, that, being possessed of eight Pounds, *Virginia* currency, contained in one bill of what is called the *James River Bank Paper*, his dwelling-house and grist-mill were consumed by fire, and the bill aforesaid destroyed therein; that he is by this misfortune reduced to great distress, and praying relief so far as respects said bill.

*Ordered*, That the said Petition be referred to the Committee of Publick Claims; that they inquire into the matter thereof, and report the same, with their opinion thereupon, to the Convention.

Adjourned till to-morrow, ten o'clock.

*Ordered*, That Mr. *Newton* be added to the Committee of Publick Claims.

Whereas gaming, at best, is but an idle amusement, when carried to excess is the parent of avarice, dissipation, profaneness, and every other passion which can debase the human mind, and is therefore forbidden by the Continental Association, as more peculiarly improper at this time, when our important struggle for liberty and freedom renders the practice of the most rigid virtue necessary to sustain us under and carry us through the conflict; that this pernicious and destructive vice may not prevail among the officers and soldiers of our Army, the morals of the youth therein preserved from corruption, and they restored, untainted, to their worthy parents, who have cheerfully spared them from domestick endearments to the assistance and protection of their country:

*Resolved, unanimously*, That it be earnestly recommended to the General or Commanding Officer of the Continental Troops in this Colony, to take such steps as to him shall appear most proper for preventing profane swearing, all manner of gaming, as well as every other vice and immorality among the officers and soldiers under his command; and that it be, and is hereby, declared to all who are or may be candidates for offices, civil or military, in the pay of this Colony, that the practice of gaming and profane swearing will ever be considered as an exclusion from all publick offices or employments.

*Ordered*, That Mr. *Starke* do deliver a copy of the foregoing Resolution to the Commanding Officer of the Continental Troops in this Colony.

An Ordinance to amend an Ordinance entitled An Ordinance for augmenting the Ninth Regiment of Regular forces, providing for the better defence of the frontiers of this Colony, and for raising six Troops of Horse, having been fairly transcribed, was read a third time, and the blanks therein filled up.

*Resolved*, That the said Ordinance do pass; and that the title thereof be, An Ordinance to supply certain defects in a former Ordinance of this Convention for raising six Troops of Horse.†

† An Ordinance to supply certain defects in a former Ordinance of this Convention for raising six Troops of Horse.

Whereas, by an Ordinance passed the present session of Convention, six Troops of Horse are directed to be raised for the further protection and defence of this Colony, which Ordinance, so far as it respects such Troops, is found defective in many instances:

For remedy whereof, *Be it ordained by the Delegates and Representatives of the several Counties and Corporations of VIRGINIA, now assembled in General Convention, and it is hereby ordained by the authority of the same*, That the commissions to the several officers appointed to command the said six Troops of Horse shall issue as follows: to a Captain, when it shall appear he hath enlisted fifteen troopers; to a Lieutenant, when it shall appear he hath enlisted twelve troopers; and to a Cornet, when it shall appear he hath enlisted nine troopers; upon their respectively producing certificates that such troopers have been reviewed according to the directions of the said Ordinance; but the commissions shall be issued in such manner as to preserve the rank of each according to the election made by this Convention.

*And be it further ordained, by the authority aforesaid*, That the pay of the said officers shall commence from the time of their appointment; and if any of the said officers shall fail to raise their number of men, according to the aforesaid proportion, on or before the last day of *August* next, it shall and may be lawful for the Committee of Safety, or others having the executive powers of Government in this Colony, to appoint any other person that they shall think proper to supply the place of the officer so failing, or to continue such officer, as appears to them the most likely to complete such troop.

*And be it further ordained*, That each trooper shall be furnished

An Ordinance making further provision for the defence and protection of this Colony, was read a second time, and ordered to be committed to a Committee of the whole Convention.

*Resolved*, That the Convention will immediately resolve itself into a Committee on the said Ordinance.

The Convention accordingly resolved itself into a Committee on the said Ordinance; and after some time spent therein, Mr. President resumed the chair, and Mr. Cary reported, that the Committee had, according to order, had under their consideration the Ordinance for making further provision for the defence and protection of this Colony, and had gone through the same, and made several amendments thereto; which he read in his place, and afterwards delivered in at the Clerk's table, where the same were again twice read, and agreed to.

*Resolved*, That the said Ordinance, together with the several Amendments, be fairly transcribed, and read a third time.

The Orders of the Day, for the Convention to resolve itself into a Committee on the Ordinance for establishing a Board of Commissioners to superintend and direct the Naval affairs of this Colony, on the state of the Colony, and for a call of the Convention, being read,

*Ordered*, That the same be put off till to-morrow.

Mr. Blair, from the Committee appointed to consider the Reports made by the Committees of *Caroline* and *Spottsylvania* Counties, respectively, in relation to divers vessels supposed to be *British* property, and as such seized by Captain Taylor, commander of an armed vessel fitted out at the charge of this Colony, reported, that the Committee had accordingly had under their consideration the said several matters; and that it appeared to them, from the several depositions taken before the said Committee of *Caroline* County, that a moiety of the Sloop *Olive* is, and at the time she was seized was, the property of a certain *Harry Lyburn*, an inhabitant of this Colony, and that the other moiety belonged to Messrs. *Dunlop & Crosse*, merchants, in *Glasgow*, but was claimed as the property of *James Dunlop*, a partner of that Company, under a purchase by him set up prior to the said seizure, as may more particularly appear by the said depositions, to which your Committee beg leave to refer.

That it further appeared, that the said *James Dunlop* is a resident of this Colony, and that, before the said purchase, he, as a partner of *Dunlop & Crosse*, owned one-sixteenth of their moiety of the *Olive*.

That it further appeared, from the report of the said Committee of *Spottsylvania* County, the papers therein referred

with the following arms and accoutrements, that is to say: a carbine with bucket and straps, a pair of horseman's pistols and holsters, a tomahawk, a spear, a good saddle well fixed with girths and surcingle, and curb bridle.

*And be it further ordained*, That instead of the Corporals, Trumpeters, and private Troopers, furnishing their own horses, arms, and accoutrements, according to the directions of the said recited Ordinance, and receiving the pay therein allowed, the said horses, arms, and accoutrements, shall be furnished at the expense of the publick, and the pay of each Corporal and Trumpeter shall be reduced to two shillings, and of each Trooper to one shilling and six pence per day, which shall commence from the time of their enlistment. And to preserve equality, as near as may be, in the kind of horses, that the price of each horse be limited to thirty pounds; and each trooper shall moreover be allowed a bounty of twenty shillings upon his enlistment to serve until the 1st day of *December*, 1778, unless he be sooner discharged by the executive powers of Government, in which case he shall receive one month's pay.

*And be it further ordained*, That there shall be allowed a Major-Commandant over the whole six troops, who shall be appointed by the General Convention or General Assembly, and be allowed the pay of ten shillings per day, to commence from the time that the whole troops shall be completed, or he shall be called into service; and that the several officers and troopers shall be allowed the like tents, rations, and forage, as are allowed to the Infantry.

*And be it further ordained*, That every Cadet who shall enter into the service, with the approbation of the Captain of the respective Troop which he is willing to join, and furnish himself with a good horse, and the arms and accoutrements herein directed, shall be allowed the pay and provisions of a private soldier, and one tent for every four Cadets.

*And be it further ordained*, That there shall be allowed a Quartermaster to every two Troops, who shall be paid five shillings per day; a rough-rider, or horse-breaker, for each Troop, who shall be discharged after the horses are properly trained, at the pay of five shillings per day; and a drummer for each, who shall be furnished with a horse and accoutrements at the publick expense, at two shillings per day, besides their rations and forage.

to, and other evidence, that the Sloops *Lark* and *Speedwell*, at the time of their being seized, were the property of Messrs. *William Cuninghame & Company*, merchants, in *Great Britain*; and that the Sloop *Susannah*, at the time of her seizure, belonged to Messrs. *Bogle, Somervell, & Company*, merchants, in *Glasgow*; that *James Robeson, William Henderson, and William Reid*, who reside in this Colony, are in some small degree concerned as partners of the said *William Cuninghame & Company*; and that *Gavin Lawson* and *Robert Gilmour*, residing in *America*, have some interest in the Sloop *Susannah*, as partners of the said *Bogle, Somervell, & Company*; but that, in case of confiscation, the five *American* owners aforesaid do not think it worth while to ascertain their respective small proportions, in order to entitle themselves to an exemption.

That it further appeared, that *James Lindsay*, as Skipper of the *Speedwell*, is entitled to credit with the said *Cuninghame & Company* for £75, being the amount of his wages; but that there is an unsettled account against him on the books of the said *Cuninghame & Company*.

That it further appeared, that the sails belonging to the Sloop *Speedwell* were lodged in Mr. *William Reid's* warehouse some time before the capture, and therefore, not being below high-water mark, were not seized nor included in the inventory returned; and that, in like manner, all the furniture of the Sloop *Olive*, except standing rigging, one anchor, and cable, had been laid up in Mr. *Dunlop's* storehouse in *Port-Royal*; only the articles contained in the said exception having been seized.

That it further appeared, that among the articles contained in the inventory of stores, &c., belonging to the Sloop *Susannah* and the Sloop *Lark*, are three Negroes, viz: *Davy* and *Ned*, belonging to the former, and *Priamus*, to the latter; and that they had come to the following Resolutions thereupon, which he read in his place, and afterwards delivered in at the Clerk's table, where the same were again twice read, and agreed to:

*Resolved*, That the pretended purchase of a moiety of the Sloop *Olive* by the aforesaid *James Dunlop*, was fraudulent and void; the same having been transacted with a view of screening the said Sloop from confiscation, under the Resolution of Congress of the 23d of *March* last.

*Resolved*, That the Sloop *Olive*, together with her standing rigging, anchor, and cable, be sold; and that the money arising from the sale, after the expenses thereof are defrayed, be divided into thirty-two parts, sixteen of which to be paid to the said *Harry Lyburn*, and one to the said *James Dunlop*; and that the remaining fifteen be subdivided into three parts, two of which to be paid to the Treasurer, for the use of this Colony, and the other to the captors.

*Resolved*, That the Sloops *Lark*, *Speedwell*, and *Susannah*, together with their tackle, apparel, and furniture, slave, and slaves, to them respectively belonging, as contained in the inventory returned thereof, be sold; and that out of the money arising from the sale the expenses thereof be first discharged; and that there be then paid to *James Lindsay* so much as shall, upon liquidating his account, appear to be the balance due to him for wages, and that two-third parts of the residue thereof be paid to the Treasurer for the use of this Colony, and the other third part to the captors.

The Plan of Government for this Colony was read a second time, and ordered to be committed to a Committee of the whole Convention.

*Resolved*, That this Convention will immediately resolve itself into a Committee on the Plan of Government for this Colony.

The Convention accordingly resolved itself into the said Committee; and after some time spent therein, Mr. President resumed the chair, and Mr. *Digges* reported that the Committee had, according to order, had under their consideration the Plan of Government for this Colony, and had made some progress therein, but not having time to go through the same, had directed him to move for leave to sit again.

*Resolved*, That this Convention will to-morrow again resolve itself into a Committee on the said Plan of Government.

The Orders of the Day, for the Convention to resolve itself into a Committee on the state of the Colony, for a call of the Convention, and for the Convention to resolve itself on

the Ordinance for appointing Commissioners to superintend and direct the Naval affairs of this Colony, being read,

*Ordered*, That the same be put off till to-morrow.

The Orders of the Day, for the Convention to resolve

\*An Ordinance to amend an Ordinance entitled An Ordinance for establishing a mode of making Tobacco Payments during the discontinuance of the Inspection Law, and for other purposes therein mentioned.

Whereas the mode for making Tobacco Payments, established by an Ordinance of the last Convention, has been found inconvenient to the inhabitants of this Colony, and renders the office of Collectors expensive, and their duty extremely difficult:

For remedy whereof, *Be it ordained by the Delegates and Representatives of the people of this Colony, now met in General Convention, and by the authority of the same*, That the several County Courts and Vestries within this Colony, where Collectors are not already employed, shall, and they are hereby, empowered and required to appoint such and so many places within their respective Counties and Parishes as to them shall appear convenient and necessary for the reception of all levies payable in tobacco, at one of which places all payments of the same shall be made by the respective debtors, on or before the last day of *August*; and the several Collectors, or some persons for them, shall constantly attend at the places so appointed, from the time of appointment until the said last day of *August*.

*And be it further ordained*, That the several persons chargeable with levies, who shall fail to make payments in tobacco at the places appointed for the reception of the same within the time above limited, shall, in lieu thereof, pay the said levies in money, at such price as shall be limited or appointed by the respective County Courts and Vestries of this Colony.

*And be it further ordained*, That so much of the said recited Ordinance as is contrary to this Ordinance, be, and the same is hereby, repealed.

itself into a Committee on the state of the Colony, and for a call of the Convention, being read,

*Ordered*, That the same be put off till to-morrow.

An Ordinance for making further provision for the defence and protection of this Colony, having been fairly transcribed, was read a third time, and the blanks therein filled up.

*Resolved*, That the said Ordinance do pass.†

Adjourned till to-morrow, nine o'clock.

†An Ordinance for making further provision for the Defence and Protection of this Colony.

Whereas it hath become expedient and necessary that further provision should be made for the support and maintenance of such Regular forces, Minute-men, and Militia, as now are, or at any time hereafter may be, occasionally employed in the defence of the frontiers, and other parts of this Colony, and of such troops as now do, or may henceforward remain, upon the Colonial establishment and pay, for the purpose of defraying the expenses of building vessels, furnishing them with seamen and marines, supplying all necessaries for the Navy, and satisfying publick claims, and the contingent charges of Government; and whereas, from the many unavoidable disbursements hitherto made out of the Treasury, the balance in the hands of the Treasurer is inadequate to the several purposes aforesaid:

*Be it therefore ordained by the Delegates and Representatives of the several Counties and Corporations within the Colony and Dominion of VIRGINIA, now met in General Convention, and it is hereby ordained by the authority of the same*, That an additional tax or duty of 1s. 3d. shall be paid for every tithable person in this Colony, to the Sheriff or Collector of the County where such person shall be inlisted, by the person inlisting the same, on or before the 10th day of *June*, 1777; and the further tax or duty of 1s. 3d. shall be paid in like manner for every such tithable person, during the six following years, on or before the said 10th day of *June*, in each respective year.

*And be it further ordained*, That an additional duty or tax of 1s. for every hundred acres of land in this Colony, and after that rate for a greater or lesser quantity, whether of patented land, or land in the County of *Fincastle* and District of *West-Augusta*, for which no patents have been obtained, the rights of the holders whereof to vote at elections of Delegates and Committee-men have been stated and allowed by an Ordinance of Convention, shall be paid on or before the 10th day of *June*, 1777, to the Sheriff or Collector of the County or District where such lands may lie, by the proprietor, or parents or guardians of infants, if resident in the County or District where such lands may be situated, or by their respective tenants, stewards, or overseers, in case such proprietor, parent or guardian, shall live in another County, to be repaid them by the proprietor, parent or guardian; and the further tax or duty of 1s. shall be paid in like manner for every such hundred acres of land, and after that rate for a greater or lesser quantity, during the six following years, on or before the said 10th day of *June*, in each respective year. *Provided, always*, That nothing herein contained shall be construed so as to alter any contract heretofore made between landlords and their tenants, whereby the payment of taxes shall have been stipulated to be made by either of them.

*And be it further ordained by the authority aforesaid*, That the said taxes shall be collected, according to the lists of tithables by act of Assembly required to be given in, and the quantities of land returned pursuant to an Ordinance entitled "An Ordinance for appointing Commissioners to settle the accounts of the Militia lately drawn out into actual service, and for making provision to pay the same, as well as the expense of raising and providing for the forces and Minute-men directed to be imbodyed for the defence of this Colony;" and the several Sheriffs or Collectors shall give bond and security, have the power of collecting, levying, and distraining for the said taxes or duties, and account for and pay the same at such time and in such manner as by the said Ordinance is directed; and, together with their securities, shall be liable to the same penalties and judgments as by the said Ordinance are prescribed in case of failure in their duty.

But forasmuch as the taxes or duties imposed by this Ordinance, being necessarily and unavoidably made payable at so distant a day, cannot answer the immediate exigencies of this Colony, for which they were imposed, *Be it therefore ordained, by the authority aforesaid*, That it shall and may be lawful for *Robert C. Nicholas*, Esq., or the Treasurer for the time being, appointed by or pursuant to an Ordinance of Convention, to issue and emit Treasury notes to satisfy the demands which shall be made upon him for the purposes aforesaid, so as the whole sum of such notes, so to be issued, shall not exceed £100,000, which several notes shall be prepared, printed, and engraved, in such form, after such method, or on such paper, as the said Treasurer shall judge most safe against counterfeits and forgeries; one thousand of which notes shall be of the value or denomination of £4, one thousand of £3, one thousand of £2, and one thousand of 20s.; all of which shall be numbered by *John Pinkney*, Gentleman, and signed by *Richard Morris* and *George Seaton*, Gentlemen; also ten thousand of the denomination of 12s. 6d., ten thousand of 10s., ten thousand of 7s. 6d., and ten thousand of 5s.; all of which shall be numbered by *John Pinkney*, Gentleman, and signed by *Richard Morris* and *George Seaton*, Gentlemen; also thirteen thousand three hundred and thirty-three of the denomination of 2s. 6d., to be numbered by *Adam Craig*, Gentleman, and signed by *John H. Norton*, Gentleman; and thirteen thousand three hundred and thirty-three of the denomination of 1s. 3d., to be numbered by *Adam Craig*, Gentleman, and signed by *John Dixon*, Gentleman; and the residue of the said £100,000 shall consist of bills or notes of the denomination of dollars, and parts of dollars, each dollar to be of the value of a *Spanish* milled dollar, and the parts of dollars of the same proportionate value, to be numbered by *John Pinkney*, *Littlebury Mason*, or *Jacob Bruce*, Gentlemen, and shall be signed as follows, to wit: All of the value of two dollars and upwards, by *Richard Morris* and *George Seaton*, and the residue by *John Carter Littlepage*, Gentleman. And *William Pierce* and *John Carter Littlepage*, Gentlemen, shall be, and are hereby, appointed to overlook the press during the time of printing the notes to be

Saturday, June 29, 1776.

An Ordinance for establishing a Board of Commissioners to superintend and direct the Naval affairs of this Colony,

issued pursuant to this Ordinance, one of whom shall constantly attend the same, and use the utmost care, attention, and diligence, that the number and amount of the said notes, according to their respective denominations aforesaid, be not exceeded, nor any fraudulent practice used by the printer, his agents, servants, or any other person; and the signers of the said notes shall, each of them, receive of the said Treasurer the sum of 7s. 6d. for every thousand notes by them signed, the numberers thereof the sum of 5s. for every thousand notes by them numbered, and the overlookers of the press the sum of £15 each, for their services.

And be it further ordained by the authority aforesaid, That if all, or any of them, the said John Pinkney, Richard Morris, George Seaton, John Hatley Norton, Adam Craig, John Dixon, Littlebury Mason, Jacob Bruce, William Pierce, and John Carter Littlepage, shall die before finishing the work to them hereby respectively assigned, or refuse to undertake or perform the same, in that case it shall and may be lawful for the Treasurer to appoint some other person or persons to sign the said notes, number them, or overlook the press, in the room of him or them so dying before the finishing the said work, or refusing to undertake or perform the same; which signing, numbering, or overlooking of the press, shall be as effectual, to all intents and purposes, and entitled to the same reward, as if such notes had been signed or numbered, or the press overlooked, by the persons herein named. And public notice of such alteration shall be given by the Treasurer in the *Virginia Gazette*, for three weeks immediately after such alteration shall take place.

And be it further ordained by the authority aforesaid, That all the Treasury notes to be issued by virtue of this Ordinance, shall be redeemable on the 1st day of January, one thousand seven hundred and eighty-four, and shall then be taken in, paid, and discharged, by the Treasurer for the time being, appointed as aforesaid, and shall be burnt and destroyed by the Committee appointed by the Ordinance before mentioned and referred to; and that the Treasurer for the time being shall pay away the same, and receive the taxes imposed for the redemption thereof, for which services, and the paying away all such other sums of money as shall from time to time be issued, receiving the taxes imposed for the redemption thereof, and performing the whole business of Treasurer, he shall be allowed and receive a salary of £700 per annum.

And be it further ordained, That all such notes, and also those issued or to be issued pursuant to the said recited Ordinance, shall be received and pass as a lawful tender in payment of any debt, duty or demand whatsoever, so long as the same shall continue in circulation. And if any person or persons within this Colony shall, during the time the said Treasury notes are to remain current as aforesaid, offer to sell, or expose to sale, any goods or chattels, lands or tenements, whatsoever, and shall deny or refuse to sell the same, or demand a greater price, unless he be paid for the same in gold or silver coin, and not in the said notes, or if any person or persons shall exchange gold or silver coin for the said bills, and demand or take any allowance for the difference of the value thereof, or shall offer to buy or sell bills of exchange at a greater or higher difference of exchange for the said Treasury bills than for gold or silver coin, or shall use any other device, means or method whatsoever, whereby the credit of the said notes may be impaired, every person so offending shall forfeit and pay after the rate of twenty-five per centum upon the value of the goods or chattels, lands or tenements, so offered or exposed to sale, or of the money so exchanged, or of the bills of exchange so bought or sold, to be recovered by the informer, to his own use, before a Justice of the Peace, where the penalty does not amount to more than 25s.; and where it shall exceed that sum, the said penalty shall be one-half to the Executive power, in trust, for the use of the Colony of Virginia and to be paid to the Treasurer for the time being, appointed as aforesaid, and the other half to the informer, and shall and may be recovered, with costs, by action of debt or information, in any court of record within this Colony.

And be it further ordained by the authority aforesaid, That if any person or persons shall forge or counterfeit, alter or erase, any such Treasury note, or shall tender in payment, by way of barter or otherwise, to any person whatsoever, or shall demand a redemption of any such note at the Treasury, knowing the same to be forged or counterfeited, altered or erased, every person so offending, if lawfully convicted thereof, shall suffer death without benefit of clergy.

And be it further ordained, That the moneys to be raised by the duties or taxes imposed by this Ordinance, shall stand, be, and remain, as a security for the redemption of the said Treasury notes so to be issued. And the Treasurer, for the time being, appointed as aforesaid, is hereby required to apply all such money as shall come to his hands, by virtue of this Ordinance, for and towards the redemption of the said Treasury notes, and to none other use, intent, or purpose, whatsoever; and the said Treasurer shall account with the Convention, or General Assembly, for the same. And if the said taxes shall prove deficient in the redemption of the said Treasury notes so to be issued, the whole estates, real and personal, of the inhabitants of this Colony, shall be, and are hereby, pledged as a security for making good such deficiency, by some future Ordinance of Convention, or act of the Legislature.

And be it further ordained, That Robert C. Nicholas, Esq., Treasurer, or the Treasurer for the time being, shall give bond, with such security as shall be approved by the Executive power, in the sum of £100,000, payable to the Supreme magistrate, or the members who form the Executive power, in trust, for the use of the publick, conditioned for his faithful accounting for and paying all such sums of money as shall be received by him from time to time by virtue of this Ordinance; and in case of the death, resignation, or disability, of the said Treasurer, the Treasurer to be appointed in his stead shall give the like security before he enters on the execution of his said office.

And be it further ordained, That in case of the death, resignation, or disability of the said Robert Carter Nicholas, Esq., to act in his said office, it shall be lawful for the Executive power, if the Convention or Legislature are not sitting, to appoint another fit and able person to be Treasurer in his room, who shall be authorized to act in all things pertaining to the said office till the meeting of the next Convention or Legislature.

\* An Ordinance for establishing a Board of Commissioners to superintend and direct the Naval Affairs of this Colony.

Whereas the Naval preparations of this Colony will be carried on with greater expedition and success if proper persons are appointed, whose business it shall be particularly to superintend and direct the same: Be it therefore ordained by the *Delegates of VIRGINIA, now met in General Convention, and it is hereby ordained by the authority of the same*, That Thomas Whiting, John Hutchings, Champion Travis, Thomas Newton, Jun., and George Webb, Esquires, be, and are hereby, appointed and declared a Board of Commissioners for the purposes hereinafter mentioned; and the said Board shall, as soon as possible, assemble at such convenient time and place as may be appointed by the person first named of the said Board, and being so assembled and having taken an oath to be administered to the member first named, by any two other members, and afterwards by him to the rest of the Board, well and faithfully to execute the duties of his or their office, shall proceed to the election of a person to preside over the Board; who shall be called First Commissioner of the Navy. And the Board shall also appoint a Clerk, and such other assistants as they may judge necessary, who for their services shall receive such salary or reward as may be judged reasonable and adequate thereto by the General Convention or Legislature. And the Board shall have power to adjourn from time to time, and to such place as they may think fit or convenient. And if any exigency should require an intermediate meeting of the Board, the First Commissioner, and in case of his absence, any other member of the Board, may convene the same, and proceed to business in the same manner as if such meeting had been holden at the time to which it was adjourned. *Provided, always*, That a majority of the Board shall have full power and authority to enter upon and execute the duties to them by this Ordinance assigned; and in case of the death, sickness, or absence of the First Commissioner, may choose any other of their members to preside *pro tempore*.

And be it further ordained by the authority aforesaid, That the business of the said Board shall be to superintend and direct the building of all vessels, whether such as are employed for the immediate annoyance of the enemy, or for expediting the transportation of troops over rivers; to manage the outfit of the same, furnish them with necessary ordnance, victualling, provisions, and naval stores; to take under their care the publick ropewalk already erected, or to erect other ropewalks and dock-yards, as occasion may require; to contract with workmen, builders, or other persons, for these purposes; to provide as large quantities of timber for ship-building as to them shall seem fit; to audit and pass all accounts of the expenditure of money, howsoever incurred in the naval department; to recommend proper persons to the Governor and Council, or the Executive power, to fill vacancies in the Navy or marines, who are to be approved or commissioned by him or them; to inform themselves of the state of the Navy, as often as possible, by requiring proper returns and reports from the officers thereof; to draw warrants upon the Treasury for the sums of money necessary for the purposes aforesaid; to keep an accurate list thereof; to cause their proceedings to be fairly recorded; to hold them in readiness to be laid before the Convention or Legislature, whenever thereto required; to remove or suspend all officers in the naval department, upon neglect of duty or misbehaviour; and generally superintend and direct all matters and things to the Navy relating. *Provided, always*, That nothing herein contained shall be construed to empower the Board to alter, or in any manner affect, any contract heretofore made by the Committee of Safety with builders or other persons, to build vessels without application to them for that purpose made by the Legislature, (in which case they shall determine upon the dimensions, form, size, and burden of the same,) to draw warrants upon the Treasury at pleasure, without having them countersigned by the Executive power, or to interfere in any manner with the jurisdiction of the Court of Admiralty.

And be it further ordained, That the Board shall forthwith provide for, and superintend the building, preparing, and outfitting of the two row-galleys directed to be built for the defence and protection of the Counties of *Northampton* and *Accomack*, and of the boats necessary for the commodious transportation of troops over the several navigable rivers.

And be it further ordained, That no member of this Board, after he shall have accepted the said office, and undertaken to perform the duties thereof, shall hold any military office whatsoever, or be capable of sitting or voting as a Member of the Legislature; and that each of the Commissioners, by this Ordinance appointed, shall receive twenty shillings for each day's attendance at, or travelling to or from the Board, in full satisfaction for his services and expenses.

† The CONSTITUTION or FORM of GOVERNMENT agreed to and resolved upon by the Delegates and Representatives of the several Counties and Corporations of VIRGINIA.

Whereas George the Third, King of Great Britain and Ireland, and Elector of Hanover, heretofore entrusted with the exercise of the kingly office in this Government, hath endeavoured to pervert the same into a detestable and insupportable tyranny, by putting his negative on laws the most wholesome and necessary for the publick good:

By denying his Governours permission to pass laws of immediate and pressing importance, unless suspended in their operation for his assent, and when so suspended, neglecting to attend to them for many years:

By refusing to pass certain other laws, unless the persons to be bene-

*Resolved*, That the Salary of the Governour of this Commonwealth be £1,000 per annum.

The Convention proceeded, by ballot, according to the Order of the Day, to the appointment of a Governour for this Commonwealth; and the Members having prepared their tickets, and put the same into the ballot-box, Mr. *Wythe*, Mr. *Curle*, Mr. *Dandridge*, and Mr. *Madison*, were appointed a Committee to examine the same, and report upon whom the majority falls; and it appearing, from their report, that the numbers stood as follows:

For <i>Patrick Henry</i> , Jun., Esq.,	- - -	60
<i>Thomas Nelson</i> , Esq.,	- - -	45
<i>John Page</i> , Esq.,	- - -	1

*Resolved, therefore*, That the said *Patrick Henry*, Jun., Esq., be Governour of this Commonwealth, to continue in that office until the end of the succeeding session of Assem-

bled by them would relinquish the inestimable right of representation in the Legislature:

By dissolving legislative assemblies repeatedly and continually, for opposing with manly firmness his invasions of the rights of the people:

When dissolved, by refusing to call others for a long space of time, thereby leaving the political system without any legislative head:

By endeavouring to prevent the population of our country, and for that purpose obstructing the laws for the naturalization of foreigners:

By keeping among us, in times of peace, standing armies and ships-of-war:

By affecting to render the military independent of, and superior to, the civil power:

By combining with others to subject us to a foreign jurisdiction, giving his assent to their pretended acts of legislation:

For quartering large bodies of armed troops among us:

For cutting off our trade with all parts of the world:

For imposing taxes on us without our consent:

For depriving us of the benefits of trial by jury:

For transporting us beyond seas to be tried for pretended offences:

For suspending our own Legislatures, and declaring themselves invested with power to legislate for us in all cases whatsoever:

By plundering our seas, ravaging our coasts, burning our towns, and destroying the lives of our people:

By inciting insurrections of our fellow-subjects with the allurements of forfeiture and confiscation:

By prompting our negroes to rise in arms against us, those very negroes whom, by an inhuman use of his negative, he hath refused us permission to exclude by law:

By endeavouring to bring on the inhabitants of our frontiers the merciless *Indian* savages, whose known rule of warfare is an undistinguished destruction of all ages, sexes, and conditions of existence:

By transporting, at this time, a large army of foreign mercenaries to complete the works of death, desolation, and tyranny, already begun with circumstances of cruelty and perfidy unworthy the head of a civilized nation:

By answering our repeated Petitions for redress with a repetition of injuries:

And, finally, by abandoning the helm of Government, and declaring us out of his allegiance and protection.

By which several acts of misrule, the Government of this country, as formerly exercised under the Crown of *Great Britain*, is TOTALLY DISSOLVED.

We, therefore, the Delegates and Representatives of the good people of *Virginia*, having maturely considered the premises, and viewing with great concern the deplorable condition to which this once happy country must be reduced, unless some regular, adequate mode of civil polity is speedily adopted, and in compliance with a recommendation of the General Congress, do ordain and declare the future form of Government of *Virginia* to be as followeth:

The Legislative, Executive, and Judiciary Departments, shall be separate and distinct, so that neither exercise the powers properly belonging to the other; nor shall any person exercise the powers of more than one of them at the same time, except that the Justices of the County Courts shall be eligible to either House of Assembly.

The Legislative shall be formed of two distinct branches, who, together, shall be a complete Legislature. They shall meet once, or oftener, every year, and shall be called the GENERAL ASSEMBLY OF VIRGINIA.

One of these shall be called the HOUSE OF DELEGATES, and consist of two Representatives to be chosen for each County, and for the District of *West-Augusta*, annually, of such men as actually reside in and are freeholders of the same, or duly qualified according to law, and also one Delegate or Representative, to be chosen annually, for the City of *Williamsburgh*, and one for the Borough of *Norfolk*, and a Representative for each of such other Cities and Boroughs as may hereafter be allowed particular representation by the Legislature; but when any City or Borough shall so decrease as that the number of persons having right of suffrage therein shall have been for the space of seven years successively less than half the number of voters in some one County in *Virginia*, such City or Borough thenceforward shall cease to send a Delegate or Representative to the Assembly.

The other shall be called the SENATE, and consist of twenty-four Members, of whom thirteen shall constitute a House to proceed on business; for whose election the different Counties shall be divided into twenty-four Districts, and each County of the respective District, at the time of the election of its Delegates, shall vote for one Senator, who is actually a resident and freeholder within the District, or duly qualified according to

bly after the last of *March* next; and that Mr. *Mason*, Mr. *Henry Lee*, Mr. *Digges*, Mr. *Blair*, and Mr. *Dandridge*, be a Committee to wait upon him, and notify such appointment.

The Convention then proceeded, by ballot, to the appointment of the Privy Council; and the Members having prepared tickets for the persons to be appointed, and put the same into the ballot box, Mr. *Wythe*, Mr. *Curle*, Mr. *Dandridge*, and Mr. *Madison*, were appointed a Committee to examine the same, and report upon whom the majority falls; and it appearing from their report, and on the question being put, that there was a majority in favour of *John Page*, *Dudley Digges*, *John Tayloe*, *John Blair*, *Benjamin Harrison* of *Berkeley*, *Bartholomew Dandridge*, *Thomas Nelson*, and *Charles Carter*, of *Shirley*, Esquires;

At the end of one year after the general election, the six Members elected by the first division shall be displaced, and the vacancies thereby occasioned, supplied from such class or division, by new election, in the manner aforesaid. This rotation shall be applied to each division, according to its number, and continued in due order annually.

The Delegates for *Virginia* to the Continental Congress shall be chosen annually, or superseded in the mean time by joint ballot of both Houses of Assembly.

The present Militia officers shall be continued, and vacancies supplied by appointment of the Governour, with the advice of the Privy Council, or recommendations from the respective County Courts; but the Governour and Council shall have a power of suspending any officer, and ordering a Court-Martial on complaint of misbehaviour or inability, or to supply vacancies of officers happening when in actual service. The Governour may embody the Militia, with the advice of the Privy Council; and, when embodied, shall alone have the direction of the Militia under the laws of the country.

"GENTLEMEN: The vote of this day appointing me Governour of this Commonwealth has been notified to me in the most polite and obliging manner, by *George Mason, Henry Lee, Dudley Digges, John Blair, and Bartholomew Dandridge, Esquires*.

"A sense of the high and unmerited honour conferred upon me by the Convention fills my heart with gratitude, which I trust my whole life will manifest. I take this earliest opportunity to express my thanks, which I wish to convey to you, gentlemen, in the strongest terms of acknowledgment.

"When I reflect that the tyranny of the *British King* and Parliament hath kindled a formidable war, now raging throughout this wide-extended Continent, and in the operations of which this Commonwealth must bear so great a part, and that, from the events of this war, the lasting happiness or misery of a great proportion of the human species will finally result; that, in order to preserve this Commonwealth from anarchy, and its attendant ruin, and to give vigour to our councils, and effect to all our measures, Government hath been necessarily assumed and new-modelled; that it is exposed to numberless hazards and perils in its infantile state; that it can never attain to maturity or ripen into firmness unless it is guarded by affectionate assiduity, and managed by great abilities; I lament my want of talents, I feel my mind filled with anxiety and uneasiness to find myself so unequal to the duties of that important station to which I am called by the favour of my fellow-citizens, at this truly critical conjuncture. The errors of my conduct shall be atoned for, so far as I am able, by unwearied endeavours to secure the freedom and happiness of our common country.

"I shall enter upon the duties of my office whenever you, gentlemen, shall be pleased to direct; relying upon the known wisdom and virtue of your honourable House to supply my defects, and to give permanency and success to that system of Government which you have formed, and which is so wisely calculated to secure equal liberty and advance human happiness.

P. HENRY, Junior."\*

\*To His Excellency PATRICK HENRY, Jun., Esq., Governour of the Commonwealth of VIRGINIA.

The humble Address of the First and Second VIRGINIA Regiments:

MAY IT PLEASE YOUR EXCELLENCY: Permit us, with the sincerest sentiments of respect and joy, to congratulate your Excellency upon your unsolicited promotion to the highest honours a grateful people can bestow.

Uninfluenced by private ambition, regardless of sordid interest, you have uniformly pursued the general good of your country, and have taught the world that an ingenuous love of the rights of mankind, an inflexible resolution, and a steady perseverance in the practice of every private and publick virtue, lead directly to preferment, and give the best title to the honours of an uncorrupted and vigorous State.

Once happy under your military command, we hope for more extensive blessings from your civil administration.

Interested, as your Excellency is, in some measure, with the support of

Mr. Treasurer, from the Committee appointed, presented, according to order, an Ordinance for amending an Ordinance for raising and embodying a sufficient force for the defence and protection of this Colony, and for other purposes therein mentioned; which was read a first time, and ordered to be read a second time.

An Ordinance for erecting Salt Works in this Colony, and for encouraging the making of Salt, having been fairly transcribed, was read a third time, and the blanks therein filled up.

*Resolved*, That the said Ordinance do pass.\*

Mr. Richard Henry Lee, from the Committee appointed, presented, according to order, an Ordinance to lay off the Colony into Districts for choice of Senators, and for ascertaining their wages; which was read the first time, and ordered to be read a second time.

*Resolved*, That Joseph Simon and John Campbell, or either of them, be allowed to receive from the Treasury the sum of £286 13s. 9d., being the sum allowed John Conolly for his pay as an officer, and other services, on giving

a young Empire, our hearts are willing, and arms ready, to maintain your authority as Chief Magistrate; happy that we have lived to see the day when freedom and equal right, established by the voice of the People, shall prevail through the land.

We are, may it please your Excellency, your Excellency's most devoted and most obedient servants.

To which his Excellency was pleased to return the following Answer:

*Gentlemen of the First and Second VIRGINIA Regiments:*

Your Address does me the highest honour. Be pleased to accept my most cordial thanks for your favourable and kind sentiments of my principles and conduct.

The high appointment to which my fellow-citizens have called me, was indeed unsolicited, unmerited. I am, therefore, under increased obligation to promote the safety, dignity, and happiness of the Commonwealth.

While the civil powers employed in establishing a system of Government, liberal, equitable, in every part of which the genius of equal liberty breathes her blessed influence, to you is assigned the glorious task of saving, by your valour, all that is dear to mankind. Go on, gentlemen, to finish the great work you have so nobly and successfully begun. Convince the tyrants again that they shall bleed, that America will bleed to her last drop, ere their wicked schemes find success.

The remembrance of my former connection with you shall be ever dear to me. I honour your profession. I revere that patriot virtue which, in your conduct, hath produced cheerful obedience, exemplary courage, and contempt of hardship and danger. Be assured, gentlemen, I shall feel the highest pleasure in embracing every opportunity to contribute to your happiness and welfare; and I trust the day will come when I shall make one of those that hail you among the triumphant deliverers of America.

I have the honour to be, gentlemen, your most obedient and very humble servant,

P. HENRY, Jun.

\*An Ordinance for erecting Salt Works in this Colony, and for encouraging the making of Salt.

Whereas, from the commodious situations of many parts of our rivers and bays next to the sea-coast, and from experiments made in this country, it is judged that large quantities of Salt may be made, as well for our own consumption as for exportation, by which the inconveniences from the want of that article would be speedily removed, and great advantages might be derived both to the trade and revenue of this country; and whereas it is thought that the most certain and expeditious method of making Salt will be by erecting proper works in the most convenient and secure places for the reception of the salt water, from which, by the operation of the sun, or otherwise, great quantities may be procured:

*Be it therefore ordained by the Delegates and Representatives of the people assembled in General Convention, and it is hereby ordained by the authority of the same*, That there be erected, with all possible despatch, in the several Districts hereinafter mentioned, two complete Salt Works, according to the best and most approved plan, that is to say: in the District between Potomack and Rappahannock Rivers, two; between Rappahannock and York, two; between York and James Rivers, two; on the south side of James River, two; and also two other works on the Eastern-Shore of this country; and there shall be appointed to the works in each District one Director or Manager, who shall immediately proceed to erect the same (and for that purpose may take the advice and assistance of any artist in that way) at the publick expense. And the said Manager or Managers shall have full power and authority, from time to time, to hire such hands, and so many of them, as he or they shall judge necessary for completing the said works in the most effectual and expeditious manner; and if the said hands cannot thus be soon and conveniently procured, he or they shall have full power to impress such and so many labourers into the service as shall be judged proper, who shall be allowed such hire as any two of three freeholders in the said District or Districts, being first sworn, may think reasonable: *Provided*, That such Manager shall not have power to impress more than one-third of the male labouring tithable slaves belonging to any person upon one plantation; and that, when the said works are completed, no Manager or Managers shall be allowed longer to impress any hands into the said service, but they shall be hired in the usual way.

*And be it further ordained by the authority aforesaid*, That the Manager or Managers hereinafter appointed, or for the time being, shall provide, from time to time, all things necessary for the said works, and report his or their proceedings therein to the Governour of this country, together with an account of the expense attending the same, when

security to refund all, or any part, of the said sum, which may appear to be due to the country from the said Conolly.

Mr. Richard Lee, from the Committee of Publick Claims, reported, that the Committee had, according to order, had under their consideration the Petition of Thomas Hughes, and had come to a Resolution thereupon; which he read in his place, and afterwards delivered in at the Clerk's table, where the same was again twice read, and agreed to:

*Resolved*, That the Petition of the said Thomas Hughes, praying to be allowed pay for his servant, who for some time acted as a soldier in the service of this country, and behaved in a spirited manner in several skirmishes with the enemy at Norfolk, but afterwards deserted, and got on board the Otter sloop-of-war, is reasonable, and that the Petitioner ought to be allowed 1s. 4d. per day for the time his said servant continued in the service, being one hundred and thirty-three days, which amounts to £8 17s. 4d.

On the question being put, that the Convention doth agree with the Committee in the said Resolution,

It passed in the negative.

*Resolved*, That the said Petition be rejected.

required; and in case of the death of any Manager, or the negligence, misconduct, or refusal to render such account, from time to time, when required of any of them, the Governour shall have full power and authority to appoint another in the room of him so dying, or to displace such Manager or Managers so neglecting, and to appoint others in his or their stead. And the Treasurer of this country shall, and he is hereby, required to advance to each of the said Managers the sum of £500, to enable him the better to prosecute the said work.

*And be it further ordained*, That the Governour of this country shall, as he may see fit, grant his warrant to the Treasurer for the payment of such sums of money as shall be required to complete the said works, and for carrying on the business of salt making. And the salt made at the said works shall be sold by the Manager or Managers, first to the inhabitants of this country, at the price of five shillings per bushel, and the money arising from such sale paid into the publick Treasury, to be disposed of as the Convention or General Assembly shall direct; and if there shall be made a greater quantity than will be sufficient for the consumption of this country, the overplus shall be disposed of to the best advantage, and the money thence arising to be paid into the publick Treasury, for the use of this country. But any sale so to be made to the inhabitants, or otherwise, shall be suspended until the next meeting of the Assembly, when report shall be made to the same, on the first day of their sitting, by the said Managers, of the quantity of salt made at each respective Salt Work, that a due proportion thereof may be allotted to the different Counties; and, in the mean time, the said Managers are authorized and required to cause the salt respectively made at the said Salt Works to be removed to and stored in places of safety. And the said Managers shall keep regular and distinct accounts of all disbursements upon the said works, and of all profits arising therefrom; and each Manager shall be allowed a Clerk, with a salary of £30 a year, and the sum of 20s. per day, until salt is made at the works, and 10s. a day and 1s. per bushel for all salt he shall make after that time, until the next meeting of Assembly or Convention, for his own services therein. And they shall, moreover, each of them, give bond, with security, for the due application of the money so advanced, and for the performance of the trust reposed in them.

*And be it further ordained*, That Richard Parker, the elder, Gentleman, shall be, and he is hereby, appointed Manager of the works in the District between Potomack and Rappahannock; Thomas Wood, Gentleman, in the District between Rappahannock and York River; David Jameson, Gentleman, in the District between York and James Rivers; John Seabrooke Wills, Gentleman, in the District on the south side of James River; and Southy Simpson, Gentleman, on the Eastern-Shore of this country.

And whereas it may contribute greatly towards procuring a speedy supply of so necessary an article to allow a bounty to private adventurers: *Be it therefore ordained by the authority aforesaid*, That there shall be allowed and paid by the Treasurer a bounty upon the several quantities of salt hereinafter mentioned, to each person producing a certificate of his having made the same within six months after the passing of this Ordinance, except Mr. James Tait, who hath already received sufficient encouragement, that is to say: for fifty bushels, the sum of 50s.; for one hundred bushels, the sum of £7 10s.; for two hundred bushels, the sum of £20; and for five hundred bushels, the sum of £62 10s. The said certificates to be granted by the Court of the County wherein such salt shall be made, on proof thereof appearing to them.

*And be it further ordained*, That the several lands whereon it shall be found necessary to erect publick Salt Works shall, previous to the erecting the same, be valued by three disinterested freeholders on oath, and the amount of such valuation, upon a certificate from the Managers of the said works, be paid by the Treasurer to the owner or owners of such lands, which shall from thenceforth be vested in the publick, to revert to the proprietor when such works shall be discontinued.

*And be it further ordained*, That all appointments and powers heretofore given to Commissioners for erecting Salt Works, by virtue of any resolutions of Convention, shall henceforth cease: *Provided*, nevertheless, That the said Managers shall, and they are hereby, authorized and required to state and settle the accounts of the said Commissioners, and to take the hands by them employed for the purposes aforesaid, and also all such materials as may have been contracted for or purchased by them on the publick account.

And that all proper encouragement may be given to the speedy and effectual supplying the country with salt: *Be it further ordained*, That a premium of £100 shall be paid by the publick to that Manager who shall make the first two thousand bushels of good salt.

Mr. *Holt*, from the Committee to whom the Petition of *Andrew Lush* was referred, reported, that the Committee had, according to order, had under their consideration the said Petition, and had agreed on a Report, and come to a Resolution thereupon; which he read in his place, and afterwards delivered in at the Clerk's table, where the same was again twice read, as follows:

It appears to your Committee, from the information of Brigadier-General *Howe*, that in the month of *December* last a boat's crew of armed men, of Lord *Dunmore's* party, came in the night up a creek near the dwelling of the Petitioner, and fired on him and his people, on which he ordered the fire to be returned, and killed one and wounded another of the enemy; and that the Petitioner's wife and son, hearing the firing, went to the door, and the enemy happening to fire at that time, wounded her in the thigh, and broke his arm, both of whom languished long under their wounds, during which time the Petitioner was obliged to employ a Doctor, and was at great expense in effecting their cure, and being deprived of the profits of his trade of a Block-maker, became greatly distressed.

*Resolved*, That the prayer of the said Petition is reasonable, and that the Petitioner ought to be allowed the sum of £45, to enable him to discharge the Doctor's bill, and other expenses incurred in effecting the cure of his said wife and son.

And the question being put, that the Convention doth agree with the Committee in the said Resolution,

It passed in the negative.

*Resolved*, That the said Petition be rejected.

*Resolved*, That the former Resolution of this Convention, for appropriating the Palace, and as many of the out-buildings as might be necessary, for the purpose of a publick Hospital, be now rescinded; and that the Committee appointed to notify to the Governour his appointment do also inform him the Convention desire he will make the same his place of residence.

*Resolved*, That this Convention will, to-morrow, proceed, by ballot, to the appointment of a Member of the Privy Council in the room of *Thomas Nelson*, Esquire, who hath declined the said appointment, on account of his age and infirmities.

*Ordered*, That Mr. *Wythe* be added to the Committee appointed to prepare and bring in an Ordinance to amend an Ordinance intituled An Ordinance for establishing a mode of punishment for the enemies of *America* in this Colony.

*Resolved*, That Mr. *Richard Henry Lee*, Mr. *George Mason*, Mr. Treasurer, and Mr. *Wythe*, be appointed a Committee to devise a proper Seal for this Commonwealth.

An Ordinance for amending an Ordinance intituled An Ordinance for raising and embodying a sufficient force for the defence and protection of this Colony, was read a second time, and ordered to be committed to a Committee of the whole Convention.

*Resolved*, That this Convention will to-morrow resolve itself into a Committee on the said Ordinance.

*Ordered*, That *Charles Washington*, *James Tutt*, *John Tenant*, and *Thomas Lomax*, Gentlemen, or any three of them, be appointed to sell, at publick auction, on six months credit, taking bond and security, the Sloop *Olive*, together with her standing rigging, anchor, and cable, the Sloops *Lark*, *Speedwell*, and *Susannah*, together with their tackle, apparel, and furnitures, slave and slaves, to them respectively belonging, as contained in the inventory thereof, which were seized by Captain *Taylor*.

The Orders of the Day, for a call of the Convention, for the Convention to resolve itself into a Committee on the state of the Colony, and on the Ordinance to enable the present Magistrates and officers to continue the administration of justice, and for settling the general mode of proceedings in criminal and other cases till the same can be more amply provided for, being read,

*Ordered*, That the same be put off till to-morrow.

Adjourned till to-morrow, nine o'clock.

Mr. *Henry Lee*, from the Committee appointed, presented, according to order, an Ordinance to amend an Ordinance

intituled An Ordinance for establishing a mode of punishment for the enemies of *America* in this Colony; which was read the first time, and ordered to be read a second time.

The Convention then, according to the Order of the Day, resolved itself into a Committee on the Ordinance to enable the present Magistrates and officers to continue the administration of justice, and for settling the general mode of proceedings in criminal and other cases; and after some time spent therein, Mr. President resumed the chair, and Mr. *Cary* reported that the Committee had, according to order, had under their consideration the said Ordinance, and had gone through the same, and made several Amendments thereto; which he read in his place, and afterwards delivered in at the Clerk's table, where the same were again twice read, and agreed to.

Mr. *Henry Lee*, from the Committee appointed to inquire into and report the cause and means of depreciating the value of the Paper Money of this country, and at what rates the goods are sold at the publick store, and also what money hath been advanced, and to whom, for the pay of the soldiers in the Regular service, and whether the same hath been actually paid to such soldiers, reported, that the Committee had had the said several matters under their consideration, and agreed upon the following Report:

It appears that sundry avaricious traders at *Philadelphia*, taking advantage of the ignorance of others as to the value

of the currency of this Colony, have made a difference between that and the Continental currency of twelve-and-a-half per centum, which the Committee are of opinion was in part owing to our currency's not being emitted in dollars; but it does not appear to them that any means have been used in this Colony to depreciate the value of our paper currency, or that any difference hath been made between that and the Continental currency. On the contrary, it appears to your Committee, from the information of *Benjamin Harrison, Jun., Esq.*, that in order to support the credit of our currency at *Philadelphia*, he had accommodated several gentlemen with bills of exchange on his correspondent there, taking only an allowance of two per centum for the trouble of negotiating the said bills. And your Committee are of opinion, that if the inhabitants of the United Colonies were fully informed of the manner of redemption of our paper currency, it would be a means of preserving the credit of the same.

That it further appeared that the goods in the publick store have been sold at the rates and in the manner set forth in the memorial of *William Aylett, Esq.*, and that the store has been conducted in such a manner as to give no just cause of complaint.

That the pay of the Continental troops in this Colony was delayed for some time by means of not sending the money for that purpose from the General Congress, and for want of proper instructions to the Paymaster when the money arrived; but these difficulties being now removed, it appears to them that the Paymaster hath advanced to the commanding officer of the several regiments the full pay of the troops to the 28th day of *May* last; but the same not being regularly paid to the men, gave rise to complaints, which in several instances were just, but since this inquiry was begun the respective balances due to the several soldiers have been actually paid off, except in a few instances, where the necessary absence of the parties concerned has prevented it; and particularly, that it appeared to them, in the course of their inquiry, that the sum of £94 14s. 5d. was due from Captain *Robert Ballard*, of the First Regiment, to sundry soldiers under his command, for their pay to the said 28th day of *May*; that a balance of £32 13s. 4½d. was due from Captain *Ballard* to the publick store, for goods which he had charged his men with; and that Captain *Ballard* had obtained sundry receipts from several soldiers in his company for sums of money which he never actually paid them; but since this discovery, Captain *Ballard* has also paid the several soldiers the balances due to them. It also appeared that Captain *Ballard* had charged *William Pearman*, a sick soldier, for board and nursing, £1 12s. 6d., which they think he ought not to have done. And it further appeared to them that Brigadier-General *Lewis* has taken proper steps to prevent complaints of this nature for the future.

*Resolved*, That this Convention doth agree with the Committee in the said Report.

Adjourned till to-morrow, nine o'clock.

Whereas it hath been found indispensably necessary to establish Government in this Colony, independent of the Crown of *Great Britain*, or any authority derived therefrom, and a plan of such Government hath been accordingly formed by the General Convention, but it will require some considerable time to compile a body of laws suited to the circumstances of the country, and it is necessary to provide some method of preserving peace and security to the community in the mean time:

Be it therefore ordained by the Representatives of the people now met in General Convention, That the several persons named in the commission of the peace in each County respectively, having in the Court of the County taken the following oath, which shall be administered to the first person named who is present by any two of the others, and then by him administered to all the others, that is to say: "I, A. B., do solemnly swear, that I will be faithful and true to the Commonwealth of *Virginia*; that I will, to the utmost of my power, support, maintain, and defend, the Constitution and Government thereof, as settled by the General Convention; and that I will faithfully execute the office of . . . . . for the County of . . . . ., and do equal right and justice to all men, to the best of my judgment, and according to law;" shall each, and every of them, have full power to execute the office of a Justice of Peace, as well within his County Court as without, in all things according to law.

And be it further ordained, That where it shall happen that there is not a sufficient number of Magistrates for holding a Court in any County already appointed, the Governour may, with the advice of the Privy Council, appoint such and so many Magistrates in such County as may be judged proper and necessary.

And whereas Courts in the District of *West-Augusta* have been hitherto held by writs of adjournment, which writs cannot now be obtained:

Be it therefore ordained, That the Justices residing in the said District, on taking the same oath aforesaid, shall have the power and authority to hold a Court within the said District, on the third *Tuesday* in every month, at such place as they may appoint, and shall exercise their office, both in Court and without, in the same manner as the Justices of the several Counties are by this Ordinance empowered to do.

Provided always, That upon complaint made to the Governour and Privy Council against any Justice of Peace now in commission, of misfeasance in office, or disaffection to the Commonwealth, it shall and may be lawful for the Governour, with advice of the Privy Council, on a full and fair hearing of both parties, to remove such Justice from his office, if they shall be of opinion that the said complaint is just and well founded.

And be it further ordained, That the Common Law of *England*, all Statutes or Acts of Parliament made in aid of the Common Law prior to the fourth year of the reign of King *James I.*, and which are of a general nature, not local to that kingdom, together with the several acts of the General Assembly of this Colony now in force, so far as the same may consist with the several Ordinances, Declarations and Resolutions of the General Convention, shall be the rule of decision, and shall be considered as in full force, until the same shall be altered by the Legislative power of this Colony.

Provided always, and be it further ordained, That all quit-rents and arrears thereof, and all duties, aids, penalties, fines, and forfeitures, heretofore made payable to the King, his heirs and successors, shall be and inure to the use of the Commonwealth; and all bonds for securing the same shall be made payable to the person or persons having the Executive power.

And be it further ordained, That all bonds to be entered into by Sheriffs, or other publick officers, and in all other cases where the same are required by law, shall be made payable to the Justices of the Court taking such bond, and, in the names of them or their successors, may be sued and prosecuted at the costs and for the benefit of the publick, or any private person or persons injured by the breach thereof, as often as there may be occasion, until the whole penalty be levied.

And be it further ordained, That all the present Sheriffs now in office under a commission from the late Governour, upon taking the oath before prescribed in the Court of their County, shall continue to act, and have all the powers and authorities of Sheriff, according to law, until the 25th day of *October* next.

*Resolved*, That this Convention will immediately resolve itself into a Committee on the said Ordinance.

The Convention accordingly resolved itself into the said Committee; and after some time spent therein, Mr. President resumed the chair, and Mr. Cary reported, that the Committee had, according to order, had under their consideration the said Ordinance, and had gone through the same, and made several Amendments thereto, which he read in his place, and afterwards delivered in at the Clerk's table, where the same were again twice read, and agreed to.

*Resolved*, That the Treasurer be at liberty to exchange the Treasury Notes emitted pursuant to the Ordinances of Convention for the old Treasury Notes with such persons as may be desirous of exchanging the same.

*Resolved*, That the Delegates of this Commonwealth to the General Congress apply to that Assembly for leave to export Provisions from hence in order to procure Salt for the people of Virginia, it being yet uncertain whether a sufficiency of that necessary article can be procured from the works erected for making it, or by the importation allowed from Bermuda, and that the Governour be desired to take the most prudent caution, with the advice of the Privy Council, for preventing any abuse of the permission, in case it be granted, either by an excess of the quantity exported, or by its falling into the hands of the enemy.

The Convention then, according to the Order of the Day, resolved itself into a Committee on the Ordinance for amending an Ordinance intituled An Ordinance for raising and imbodying a sufficient force for the defence and protection of this Colony, and for other purposes therein mentioned; and after some time spent therein, Mr. President resumed the chair, and Mr. Wythe reported, that the Committee had, according to order, had under their consideration the said Ordinance, and had gone through the same, and made several Amendments thereto, which he read in his place, and afterwards delivered in at the Clerk's table, where the same were again twice read, and agreed to.

So help me God."

Which oaths shall be administered, that to the Governour by any four of the Privy Council, and the other by the Governour, on or before the 6th day of this instant, *July*, for which purpose he is required to summon the Privy Council to attend him at *Williamsburgh*; and until that time the powers of the Committee of Safety, according to the ordinances of Convention, shall continue, and no longer.

#### THE OATH OF A SENATOR AND DELEGATE.

"I, A. B., do solemnly promise and swear that I will be faithful and true to the Commonwealth of *Virginia*; that I will well and truly demean myself as a Senator [or Delegate, as the case may be] of the General Assembly to which I have been elected, in all things appertaining to the duties of the same, according to the best of my skill and judgment, and without favour, affection, or partiality. So help me God."

Which oath shall be administered by any Privy Councillor.

#### THE OATH OF THE SECRETARY, ATTORNEY-GENERAL, AND CLERK OF A COUNTY COURT.

"I, A. B., do solemnly promise and swear that I will be faithful and true to the Commonwealth of *Virginia*, and that I will well and truly demean myself in the office of Secretary [Attorney-General, or Clerk of the County Court of . . . . ., as the case may be] to which I have been appointed, in all things appertaining to the duties thereof, according to the best of my skill and judgment, and without favour, affection, or partiality. So help me God."

Which oaths shall be administered, those to the Secretary and Attorney-General by any four of the Privy Council, and the other by the Court of which the officer is Clerk.

And every Attorney-at-Law shall, before he be permitted to practise in any Court, take the following oath before such Court:

"I, A. B., do solemnly promise and swear that I will be faithful and true to the Commonwealth of *Virginia*, and that I will well and truly demean myself in the office of an Attorney-at-Law. So help me God."

And every other person heretofore required by law to take the oaths of Government now taking, instead thereof, an oath before some Court of Record, that he will be faithful and true to the Commonwealth of *Virginia*, and that he will well and truly demean himself in his office, in all things appertaining to the duties thereof, according to the best of his skill and judgment, and without favour, affection, or partiality, shall be deemed sufficiently qualified to execute his office.

And all members of Committees of Inspection and Observation shall take the like oath, which any two members of such Committees, respectively, are hereby empowered to administer.

And whereas doubts may arise concerning the powers of the Governour and Privy Council, to the great injury of the community in this time of war and publick danger: *Be it ordained*, That, superadded to the powers given to the Governour and Privy Council by the form of Government passed this Convention, the Governour, with the advice of the Privy Council, shall have and possess all the powers and authority given to the Committee of Safety by an Ordinance appointing a Committee of Safety, passed at *Richmond*, *July*, 1775, or by any resolution of Convention; and also to direct such military movements and operations as, in their judgment, shall be necessary for the safety and security of the Commonwealth: *Provided always, and be it ordained*, That the powers given by the said Ordinance and Resolutions, hereby transferred to the Governour and Council, and the authority herein also given to direct military movements and operations, shall continue no longer than until the 10th day after the meeting of the next Convention or General Assembly.

*And be it further ordained*, That *Thomas Everard* and *James Cocke*, Esquires, shall be, and they are hereby, appointed Commissioners to examine, state, and settle all publick accounts referred to them for that purpose, by the Governour and Privy Council; each of which Commissioners shall be allowed the sum of ten shillings per day for his services therein, until the end of the next meeting of the Convention or General Assembly.

like circumstances with the inhabitants of *Fincastle*, who have been permitted to vote in the election of Representatives in General Assembly, be allowed the same privileges.

A Petition of the Captains of the First and Second Regiments was presented to the Convention, and read; setting forth, that they are apprehensive an attempt is now making to destroy their right of promotion through the *Virginia* line, that those of no higher rank in the new-raised Regiments may succeed to the post of Field-Officers before them, which they conceive would be highly unjust, because the commissions of the Petitioners are of a prior date to any in the Army; because they have undergone the hardships of a severe campaign, and are more experienced, in general, than the other Regiments, and, from their past services, better entitled to promotion; because the mode under which they were appointed was more respectable than that of the appointment of the officers of the other Regiments, inasmuch as it was more difficult, and required greater credit, to procure an appointment from a District Committee than from a Committee of a County; because the subalterns in the two first Regiments were not allowed to stand candidates for commissions in the new-raised Regiments, while many who were competitors with them before District Committees are now placed over their heads, several of them as Captains; and unless the Petitioners are allowed to succeed through the line, these worthy subalterns may continue in their present stations till they see men who could not procure even an Ensigny in competition with them not only over their heads, but over the Petitioners also, and praying the Convention will represent their case to the General Congress.

*Resolved*, That it be recommended to the Delegates in General Congress that they use their endeavours that the several promotions of the Officers in the Continental Army raised in *Virginia* be made according to seniority, without regard to Regiments or Companies.

An Ordinance for amending an Ordinance intituled An Ordinance for raising and embodying a sufficient force for the defence and protection of this Colony, and for other purposes therein mentioned, having been fairly transcribed, was read a third time.

*Resolved*, That the said Ordinance do pass.\*

*Resolved*, That Brigadier-General *Lewis* be requested immediately to detach an Officer with six armed soldiers to apprehend *Benjamin Woodward*, who appears, from information upon oath, to be engaged in counterfeiting the Paper Currency of the Continent and of this country, and also *Shem Cooke*, *William Daniel*, *James Daniel*, and *Joseph Cooke*, who are suspected to be his accomplices.

\*An Ordinance for amending an Ordinance for raising and embodying a sufficient force for the defence and protection of this Colony, and for other purposes therein mentioned.

Whereas, by an Ordinance intituled "An Ordinance for raising and embodying a sufficient force for the protection and defence of this Colony," all Overseers of four tithables residing on a plantation, and all Millers, are exempted from being inlisted into the Militia of their respective Counties, which said exemption of Overseers and of Millers residing in the Counties of *Accomack* and *Northampton*, on the *Eastern-Shore*, hath been found inconvenient and unnecessary:

*Be it therefore ordained by the Delegates and Representatives of the several Counties and Corporations of VIRGINIA, in General Convention assembled, and it is hereby ordained by the authority of the same*, That all Overseers, and all Quakers and Menonists, in *Virginia*, and all Millers residing in the Counties of *Accomack* and *Northampton*, shall be inlisted into the Militia by the Commanders-in-Chief of the respective Counties, and be subject to the same rules and regulations, and liable to the same pains, penalties, and forfeitures, as the rest of the Militia; and the said Overseers, Quakers and Menonists, shall be immediately allotted to the several divisions of Militia in their respective Counties, in the manner prescribed by a former Ordinance respecting the division of the Militia in this Colony, except in the Counties of *Accomack* and *Northampton*; but the said Quakers and Menonists shall not be obliged to attend general or private musters.

*And be it further ordained*, That where it shall be necessary to call on duty the Militia of any Colony, upon an invasion or insurrection within the same, or any County adjoining, the commanding officer shall have full power and authority to order into service such part of the Militia of his said County as to him shall seem necessary, and shall also call in the divisions, or any part thereof, according to allotment; and the Militia first called on duty shall be discharged as soon as the divisions called in shall be ready to perform the service required of such division. And where any soldier of the Militia shall fail to appear at musters through sickness, the Captain or other commanding officer of such Company present shall and may hear any evidence offered on behalf of such person failing to attend, and admit the excuse, if to him it shall seem just, and for that purpose is hereby empowered to administer an oath to any witness who shall appear before him to prove such sickness.

And where any Minute Company hath heretofore been completed, and hath been reduced by inlistments into regular service, if the Captain hath

*Ordered*, That leave be given to bring in an Ordinance making it felony to counterfeit the Continental Paper Currency; and that Mr. *Richard Henry Lee* do prepare and bring in the same.

*Resolved*, That *Thomas Everard*, Esq., be appointed a Judge of the Court of Admiralty, in the room of *James Hubbard*, who hath declined the said appointment.

Mr. *Richard Henry Lee* presented according to order, an Ordinance making it felony to counterfeit the Continental Paper Currency; which was read the first time, and ordered to be read a second time.

The Convention proceeded to the consideration of the state of Claims reported from the Committee of Publick Claims on *Tuesday* last, and ordered to lie on the table; and the same was again read, and several other Claims added thereto.

*Resolved*, That the said Claims are reasonable; and that the respective Claimants be allowed by the publick for the same.

An Ordinance making it felony to counterfeit the Continental Paper Currency was read a second time, and ordered to be fairly transcribed, and read a third time.

*Resolved*, That the following sentences in the Morning and Evening Service shall be omitted: "O Lord! save the King. And mercifully hear us when we call upon thee."

That the 15th, 16th, 17th, and 18th sentences in the Litany, for the King's Majesty and the Royal Family, &c., shall be omitted.

That the two Prayers for the King's Majesty and the Royal Family, in the Morning and Evening Service, shall be omitted.

That the Prayers in the Communion Service which acknowledge the authority of the King, and so much of the Prayer for the Church militant as declares the same authority, shall be omitted, and this alteration made in one of the above Prayers in the Communion Service: "Almighty and Everlasting God, we are taught by thy Holy Word that the hearts of all rulers are in thy governance, and that thou dost dispose and turn them as it seemeth best to thy godly wisdom, we humbly beseech thee so to dispose and govern the hearts of all the magistrates of this Commonwealth, that in all their thoughts, words, and works, they may evermore seek thy honour and glory, and study to preserve thy people committed to their charge, in wealth, peace, and godliness. Grant this, O merciful Father, for thy dear Son's sake, *Jesus Christ*, our Lord. Amen."

That the following Prayer shall be used, instead of the

thirty-two men remaining in his Company, he shall go into the training duty, and receive pay in the same manner as if his said Company was actually complete; and where any Minute Company hath not been raised pursuant to the directions of a former Ordinance of Convention, and shall not be raised within two months from the passing of this Ordinance, the men inlisted shall return into, serve in the Militia, and be allotted, as is directed in the case of Overseers.

And whereas, by the said Ordinance, it is further ordered, that there shall be a private muster of the several Companies of each County once a fortnight, which, from experience, is found burdensome: *Be it therefore further ordained by the authority aforesaid*, That there shall be a private muster of the several Companies in each County or Corporation once in four weeks, and no oftener.

And forasmuch as the Minute Company in the City of *Williamsburgh*, by the frequent inlistments of the privates into the Regular service, is reduced to so small a number that the same cannot be again completed: *Be it therefore ordained by the authority aforesaid*, That the remaining Minute-men in the said City shall be discharged, and from that service return to be inlisted with the Militia thereof.

And whereas, by the said recited Ordinance, the Court of Hustings, in the City of *Williamsburgh*, is to have jurisdiction and to adjudge all penalties to be inflicted under the same on the Militia officers and soldiers in the said city, either for neglect of duty or misbehaviour, and it is represented to this Convention that it is difficult and inconvenient to hold such Courts: For remedy whereof, *Be it therefore ordained*, That Courts-Martial for punishing delinquents of the Militia in the said city shall be held by the Field-Officers and Captains therein, and not by the Court of Hustings.

And forasmuch as the mode of drafting the Militia, and arranging them into divisions, as the said recited Ordinance requires, hath been found inconvenient in the Counties of *Accomack* and *Northampton*, *Be it therefore ordained*, That drafts of the Militia of the said Counties of *Accomack* and *Northampton*, when necessary, shall be made in the manner directed by the last act of General Assembly for making provision against invasions and insurrections.

*And be it further ordained*, That so much of the recited Ordinance, together with so much of the Ordinance intituled "An Ordinance for raising an additional number of forces for the defence and protection of the Colony of *Virginia*, and for other purposes therein mentioned," as comes within the purview of this Ordinance, shall be, and the same is hereby, repealed.

Prayer for the King's Majesty, in the Morning and Evening service: "O Lord, our Heavenly Father, high and mighty King of Kings, Lord of Lords, the only Ruler of the Universe, who dost from thy throne behold all the dwellers upon earth, most heartily we beseech thee with thy favour to behold the Magistrates of this Commonwealth, and so replenish them with the grace of thy Holy Spirit, that they may always incline to thy will, and walk in thy way; endure them plenteously with heavenly gifts; strengthen them, that they may vanquish and overcome all their enemies, and finally, after this life, they may obtain everlasting joy and felicity, through *Jesus Christ* our Lord. Amen."

In the 20th sentence of the Litany use these words: "That it may please thee to endue the Magistrates of this Commonwealth with grace, wisdom, and understanding."

In the succeeding one use these words: "That it may please thee to bless and keep them, giving them grace to execute justice, and to maintain truth."

Let every other sentence of the Litany be retained, without any alteration, except the above sentences recited.

*Resolved*, That the Plan of Government for this country, and the Ordinance to arrange the Counties in Districts for electing Senators, and to ascertain their wages, be published in the respective Parish Churches and Meeting-Houses, for two *Sundays* successively, immediately after divine service.

An Ordinance making it felony to counterfeit the Continental Paper Currency, having been fairly transcribed, was read a third time.

*Resolved*, That the said Ordinance do pass; and that the title thereof be, An Ordinance making it felony to counterfeit the Continental Paper Currency, and for other purposes therein mentioned.\*

Mr. *George Mason*, from the Committee appointed to devise a proper Seal for this Commonwealth, reported, that the

Committee had accordingly prepared the following device thereof; which he read in his place, and afterwards delivered in at the Clerk's table, where the same was again twice read, and agreed to.

TO BE ENGRAVED ON THE GREAT SEAL.

VIRTUS, the genius of the Commonwealth, dressed like an *Amazon*, resting on a spear with one hand, and holding a sword in the other, and treading on TYRANNY, represented by a man prostrate, a crown fallen from his head, a broken chain in his left hand, and a scourge in his right.

In the exergon, the word VIRGINIA over the head of VIRTUS; and underneath the words *Sic semper tyrannis*.

On the reverse, a groupe.

LIBERTAS, with her wand and *pileus*.

On one side of her, CERES, with the *cornucopia* in one hand, and an ear of wheat in the other.

On the other side ÆTERNITAS, with the globe and phoenix.

In the exergon, these words:

*Deus nobis hæc otia fecit.*

*Resolved*, That *George Wythe* and *John Page*, Esquires, be desired to superintend the engraving the said Seal, and to take care that the same be properly executed.

Adjourned till the first *Monday* in *October* next, then to meet in the City of *Williamsburgh*; but, in case of necessity, at such other place as the Governour, with the advice of the Privy Council, shall appoint.

\*An Ordinance making it Felony to Counterfeit the Continental Paper Currency, and for other purposes therein mentioned.

Be it ordained by the Delegates of the several Counties and Corporations in this Colony, assembled in Convention, That if any person shall counterfeit, aid or abet in counterfeiting, the Continental Bills of Credit in this Colony, or the paper money of any of the United Colonies, or shall counterfeit, aid or abet in counterfeiting, or making base coin, or who shall pass any such in payment, knowing the same to be counterfeit or base, every such person shall, on legal conviction, suffer death, without benefit of clergy.

*Ordered*, That his resignation be accepted.

*Resolved*, That the following Order do issue to Colonel *Nathaniel Heard*, of the First Battalion of *Middlesex* County :

“ The Provincial Congress of *New-Jersey*, reposing great confidence in your zeal and prudence, have thought fit to entrust to your care the execution of the enclosed Resolves. It is the desire of Congress that this necessary business be conducted with all the delicacy and tenderness which the nature of the business can possibly admit. For this end you will find among the papers the form of a written parole, in which there is left a blank space for you to fill up at the choice of Mr. *Franklin*, with the name of *Princeton*, *Bordentown*, or his own farm at *Rancocus*. When he shall have signed the parole, the Congress will rely upon his honour for the faithful performance of his engagements ; but should he refuse to sign the parole, you are desired to put him under strong guard, and keep him in close custody, until the further order of this Congress. Whatever expense may be necessary for this service will be cheerfully defrayed by the Congress. We refer to your discretion what means to use for that purpose ; and you have full power and authority to take to your aid whatever force you may require.”

A Letter from Colonel *Heard*, of the 17th instant, read, and is in the words following, to wit:

"To *SAMUEL TUCKER, Esq.*, President of the Provincial Congress at *BURLINGTON*, per express.

"SIR: Agreeably to an order and resolve of the Provincial Congress, lately sent me, I this morning, with Major *Deare*, went to Governour *Franklin*, and desired him to comply with the order of Congress, and sign the parole sent me, which he absolutely refused to do, and forbade me, at my peril, to carry the order into execution. We then left the Governour's house, and ordered a company of Militia, which were in readiness to attend, and have placed a guard of about sixty men at and around his house. I expect he will persist in refusing to comply, and therefore send this per express, and beg the further directions of the Congress respecting this matter as soon as possible, by return of the bearer, and shall act accordingly.

"I am, in great haste, sir, your most humble servant,

"NATHANIEL HEARD.

"Amboy, June 17, 1776."

*Ordered, unanimously*, That a copy of the following

Letter be signed by the President, and sent to Colonel *Heard*:

SIR: It is the desire of Congress, that you immediately bring *William Franklin*, Esquire, to this place, under such guard as you may think sufficient.

*Ordered, unanimously*, That a copy of the following Letter be signed by the President, and sent to the Honourable *John Hancock*, Esquire, President of the Continental Congress:

SIR: Our Colony has of late been alarmed with sundry attempts of disaffected persons to create disturbances. The Proclamation of Mr. *Franklin*, our late Governour, for calling together the Assembly, is one of these which we have thought deserving the most serious attention. Enclosed we have sent a copy of certain resolves, which we have thought necessary to pass on the occasion, together with a copy of our instructions to Colonel *Heard*.

We this minute received by express from Colonel *Heard*, a letter, of which the enclosed is a copy. We have ordered down to this place Mr. *Franklin* under guard; and now beg leave to submit to the consideration of the Congress, whether it would not be for the general good of the United Colonies, that Mr. *Franklin* should be removed to some other Colony: Congress will easily conceive the reasons of this application; as Mr. *Franklin*, we presume, would be capable of doing less mischief in *Connecticut* or *Pennsylvania* than in *New-Jersey*. Whatever advice Congress may think proper to give us, we shall be glad to receive; and would further intimate, that the countenance and approbation of the Continental Congress would satisfy some persons, who might otherwise be disposed to blame us.

The enclosed printed papers will show what steps we have taken with respect to the Militia.

*Ordered*, That *Cornelius Blanchard* be Brigade-Major for the Eastern Division of *New-Jersey*, and be commissioned accordingly.

*Ordered*, That the Commissioners immediately purchase one or more Ammunition-Wagons for the use of each of the Artillery Companies of this Colony.

*Resolved*, That it be referred to the County Committee of *Sussex*, to take order with the persons who have been charged with behaving in a disorderly manner in that County; and that they be empowered to punish the delinquents according as the case may require, not exceeding fine and imprisonment.

*Resolved*, That the Affidavits transmitted to this Congress by the President of the Provincial Congress of *New-York*, respecting a supposed defection in the County of *Bergen*, be transmitted to the Committee of that County; and that they be directed immediately to examine strictly into the truth of the case, and report their Proceedings to this Congress as speedily as possible.

Whereas some doubts have arisen whether the late Ordinance of the Provincial Congress, directing a bounty of one shilling a pound to be paid for all merchantable Saltpetre manufactured in this Province, should be allowed on any Saltpetre unless in those cases where the same was purchased by the respective Committees: For removing which doubts,

*Resolved*, That the aforesaid bounty be paid for all Saltpetre manufactured in this Colony, upon the proof and under the limitations in the said Ordinance directed, whether the same be sold in this or any other Colony.

"Extract from the Minutes:

Met according to adjournment.

The Certificate of Election for Members of Congress for the County of *Burlington*; read, allowed, and filed.

A Petition from sundry Inhabitants of the Township of *Morris*, in the County of *Morris*, praying that all officers in civil Government may be annually elected by the people; that the fees of all officers may be as low as possible, &c.; was read, and ordered a second reading.

*Ordered*, That the President write to General *Livingston*, and inform him that it is the desire of Congress that he would take the command of the Militia destined for *New-York*.

The honourable the Continental Congress having resolved "That letters be written to the Conventions of *New-Jersey* and *New-York*, and to the Assembly of *Connecticut*, recommending to them to authorize the Commander-in-Chief in the Colony of *New-York* to call to the assistance of that Colony, when necessity shall require it, such of the Militia of those Colonies as may be necessary, and to afford him such other assistance as the situation of affairs may require; and that it be further recommended to the Convention of *New-York* to empower the said Commander-in-Chief to impress carriages and water-craft, when necessary, for the public service; and also to remove ships and other vessels in *Hudson's* and the *East Rivers*, for the purpose of securing them from the enemy."

This Congress, sensible of the importance of securing *New-York* against the attempts of the enemy to cut off the communication between the Eastern and Southern Colonies; and although they have directed the immediate raising of five Battalions to join the Continental Army for that purpose; yet, as it is impossible to ascertain the number of the enemy, they are of opinion that, in the present uncertain state of publick affairs, the inhabitants of this Province ought, in cases of extraordinary danger, to give all the occasional assistance

in their power, especially as the fate of *America* may perhaps depend upon the issue of this summer's campaign :

Do *Resolve*, That in case the Commander-in-Chief of the Continental forces at *New-York*, upon the arrival of *British* troops, shall stand in need of the aid of the Militia of this Colony, that he be authorized to call for the same, by applying to one of the Brigadiers-General or the Colonels of Militia. And the said Militia, upon such request, are desired immediately to march to the defence of the parts invaded, or threatened with an immediate invasion. And all such of the Militia as, upon the requisition of the Commander-in-Chief, shall march to the defence of any place in danger, shall be entitled to the same pay and subsistence as are allowed to the Continental forces, and shall not be detained in such service more than one month from the time of their marching. This Congress, from experience of the zeal and alacrity of the inhabitants of this Colony to step forward for the defence of *America* on all former occasions, are persuaded that this request from their Representatives, arising from pure necessity, will be most cheerfully complied with, and the honour and safety of the Colony thereby maintained.

*Ordered*, That a copy of the above Resolution be transmitted to General *Washington*; and that the same be published in the newspapers.

*Ordered, unanimously*, That Doctor *Melancthon Freeman* be appointed Surgeon, and Mr. *Benjamin Stockton* Surgeon's Mate, to the Battalion directed to be raised in the Counties of *Middlesex* and *Monmouth*.

A Petition from *John Reynolds* and *George Riche*, Paper-makers in *Germantown, Pennsylvania*, setting forth, that they designed to carry on their trade in this Colony, and praying that this Congress would encourage the same; read, and ordered a second reading.

A Petition from sundry Inhabitants of the County of *Burlington*, setting forth, that great expense will necessarily attend recruiting the men directed to be raised by an Ordinance of the 14th instant; and praying that the men may be subsisted and paid from the time of enlistment; read, and ordered a second reading.

*William Franklin*, Esq., late Governour of this Province, having been brought before this Congress, pursuant to an order for that purpose, to be examined touching such parts of his conduct as were deemed inimical to the liberties of *America*, Mr. *Franklin* refused to answer the questions put to him, denying the authority of this body, which he alleged had usurped the King's Government in this Province.

As the said *William Franklin*, by this and his former conduct, in many instances, appears to be a virulent enemy to this country, and a person that may prove dangerous; therefore, it is

*Unanimously Resolved*, That the said *William Franklin* be confined in such place and manner as the honourable Continental Congress shall direct.

*Ordered*, That the President write to the Continental Congress, enclosing the above Resolves and the questions that were put to Mr. *Franklin*.

*Resolved*, That Lieutenant-Colonel *Bowes Read* keep under safe guard the person of *William Franklin*, Esquire, until the further order of this Congress; and that the President sign an order for this purpose.

Adjourned to three o'clock, afternoon.

Met according to adjournment.

The Petition from sundry Inhabitants of *Burlington* County, setting forth, that great expense will necessarily attend the recruiting the men directed to be raised by an Ordinance of the 14th instant; and praying that the men may be subsisted and paid from the time of enlistment, was read a second time, and referred to Mr. *Dick*, Mr. *Ellis*, and Mr. *Symmes*.

Pursuant to the Order of the Day, the Congress went into the consideration of the propriety of forming a Government, &c.

Memorial of Colonel *Stephen Hunt*, setting forth that

several difficulties have arisen in raising the new levies, &c.; read, and ordered a second reading.

The Congress took under consideration the Memorial of Colonel *Hunt*; and also the Report of the Committee to whom was referred the Petition from *Burlington County*, &c.; and after some time spent therein, came to the following determination:

Whereas, by a late Ordinance of this Congress, for the raising of three thousand three hundred of the Militia to reinforce the Army at *New-York*, no provision was made for the subsistence of the said Militia from the time of inlistment to the time of marching; and whereas it is highly reasonable that some provision should be made therefor:

It is therefore Resolved, That every commissioned Officer be allowed at the rate of fifteen shillings a week for his subsistence from the time he begins to recruit to the time he begins to march to the place of general rendezvous; and that every non-commissioned Officer and Private be allowed at the rate of seven shillings and six pence a week for his subsistence, computing from the time of his inlistment to the time of his marching for the place of destination or general rendezvous.

Whereas by a regulation of the late Congress the several Committees in this Colony were authorized and directed to disarm all the non-Associators and persons notoriously disaffected within their bounds; and whereas it appears that the said regulation hath not been carried into effect in some parts of the Colony, and it being absolutely necessary, in the present dangerous state of publick affairs, when arms are much wanted for the publick defence, that it should be instantly executed:

It is therefore *Directed and Resolved*, That the several Colonels in this Colony do, without delay, proceed to disarm all such persons within their Districts whose religious principles will not permit them to bear arms; and likewise all such as have hitherto refused and still do refuse to bear arms; that the arms so taken be appraised by some indifferent person or persons; that the said Colonels give vouchers for the same, and that the appraisement and receipt be left in the hands of the person disarmed.

The Congress resumed the consideration of the Report of the Committee of the Whole; which, after sundry amendments, was agreed to.

On the question, Whether the draft of the Constitution,\* formed on the Report of the Committee of the Whole, be

\* *Constitution of New-Jersey, passed July 2, 1776.*

Whereas all the constitutional authority ever possessed by the Kings of *Great Britain* over these Colonies or their other dominions was, by compact, derived from the People, and held of them for the common interest of the whole society:—allegiance and protection are, in the nature of things, reciprocal ties, each equally depending upon the other, and liable to be dissolved by the others being refused or withdrawn: And whereas *George the Third*, King of *Great Britain*, has refused protection to the good people of these Colonies, and, by assenting to sundry acts of the *British* Parliament, attempted to subject them to the absolute dominion of that body, and has also made war upon them in the most cruel and unnatural manner, for no other cause than asserting their just rights; all civil authority under him is necessarily at an end, and a dissolution of Government in each Colony has consequently taken place:

And whereas, in the present deplorable situation of these Colonies, exposed to the fury of a cruel and relentless enemy, some form of Government is absolutely necessary, not only for the preservation of good order, but also the more effectually to unite the people, and enable them to exert their whole force in their own necessary defence; and as the honourable the Continental Congress, the supreme council of the *American* Colonies, has advised such of the Colonies as have not yet gone into the measure to adopt for themselves respectively such Government as shall best conduce to their own happiness and safety, and the well-being of *America* in general: We, the Representatives of the Colony of *New-Jersey*, having been elected by all the Counties in the freest manner, and in Congress assembled, have, after mature deliberation, agreed upon a set of Charter Rights and the form of a Constitution, in manner following, viz:

I. That the Government of this Province shall be vested in a Governor, Legislative Council, and General Assembly.

II. That the said Legislative Council and Assembly shall be chosen for the first time on the second *Tuesday* of *August* next, the Members whereof shall be the same in number and qualifications as is hereinafter mentioned, and shall be and remain vested with all the powers and authority to be held by any future Legislative Council and Assembly of this Colony until the second *Tuesday* in *October*, which will be in the year of our Lord one thousand seven hundred and seventy-seven.

III. That on the said second *Tuesday* in *October*, yearly and every year forever, (with the privilege of adjourning from day to day, as occasion may require,) the Counties shall severally choose one person to be a Member of the Legislative Council of this Colony, who shall be, and have been for one whole year next before the election, an inhabitant and freeholder in the County in which he is chosen, and worth at least £1,000, Proclamation money, of real and personal estate within the same County; that, at the same time, each County shall also choose three Members of Assembly, provided that no person shall be entitled to a seat in the said Assembly, unless he be, and have been for one whole year next before the election, an inhabitant of the County he is to represent, and worth £500, Proclamation money, in real and personal estate in the same County; that on the second *Tuesday* next after the day of election the Council and Assembly shall separately meet, and that the consent of both Houses shall be necessary to every law, provided that seven shall be a quorum of the Council for doing business, and that no law shall pass unless there be a majority of all the Representatives of each body personally present and agreeing thereto: *Provided, always*, That if a majority of the Representatives of this Province, in Council and General Assembly convened, shall at any time or times hereafter judge it equitable and proper to add to or diminish the number or proportion of the Members of the Assembly for any County or Counties in this Colony, then and in such case the same may, on the principles of more equal

VI. That the Council shall also have power to prepare bills to pass into laws, and have other like powers as the Assembly, and in all respects be a free and independent branch of the Legislature of this Colony, save only that they shall not prepare or alter any money bill, which shall be the privilege of the Assembly; that the Council shall from time to time be convened by the Governor or Vice-President, but must be convened at all times when the Assembly sits, for which purpose the Speaker of the House of Assembly shall always, immediately after an adjournment, give notice to the Governor or Vice-President of the time and place to which the House is adjourned.

VII. That the Council and Assembly jointly, at their first meeting after each annual election, shall, by a majority of votes, elect some fit person within the Colony to be a Governor for one year, who shall be constant President of the Council, and having a casting vote in their proceedings; and that the Council themselves shall choose a Vice-President, who shall act as such in the absence of the Governor.

VIII. That the Governor, or, in his absence, the Vice-President of the Council, shall have the supreme executive power, be Chancellor of the Colony, and act as Captain-General and Commander-in-Chief of all the Militia and other military force in this Colony; and that any three or more of the Council, shall at all times be a Privy Council, to advise the Governor in all cases where he may find it necessary to consult them, and that the Governor be Ordinary or Surrogate General.

IX. That the Governor and Council (seven whereof shall be a quorum) be the Court of Appeals in the last resort in all causes of law as heretofore; and that they possess the power of granting pardons to criminals after condemnation in all cases of treason, felony, or other offences.

X. That Captains and all other inferior officers of the Militia shall be chosen by the Companies in the respective Counties, but Field and General Officers by the Council and Assembly.

XI. That the Council and Assembly shall have power to make the Great Seal of this Colony, which shall be kept by the Governor, or, in his absence, by the Vice-President of the Council, to be used by them as occasion may require, and it shall be called the Great Seal of the Colony of *New-Jersey*.

XII. That the Judges of the Supreme Court shall continue in office for seven years, the Judges of the Inferior Court of Common Pleas in the several Counties, Justices of the Peace, Clerks of the Supreme Court, Clerks of the Inferior Courts of Common Pleas and Quarter-Sessions, the Attorney-General and Provincial Secretary, shall continue in office for five years, and the Provincial Treasurer shall continue in office for one year, and that they shall be severally appointed by the Council and Assembly in manner aforesaid, and commissioned by the Governor, or, in his absence, by the Vice-President of the Council: *Provided, always*, That the said officers severally shall be capable of being reappointed at

It is therefore unanimously *Resolved*, That Colonel *Charles Read*, Lieutenant-Colonel *Samuel Forman*, and Major *Joseph Haight*, do take two hundred of the Militia of *Burlington* County and two hundred of the Militia of *Monmouth*, and proceed, without delay, in order to quell the aforesaid insurrection, and to disarm and take prisoners whomsoever they shall find assembled with intent to oppose the friends of *American* freedom; which prisoners so taken they shall forthwith bring before this Congress, and the said officers are empowered to take such measures as they shall think necessary for this service.

Adjourned to three o'clock, afternoon.

MADAM: I am ordered by Congress to acquaint you, and through you the other ladies of *Amboy*, that their Petition, in favour of Dr. *John Lawrence*, has been received and considered.

Could any application have procured a greater indulgence to Dr. *Lawrence*, you may be assured yours could not have failed of success. But, unhappily, Madam, we are placed in such a situation, that motives of commiseration to individuals must give place to the safety of the publick.

As Dr. *Lawrence*, therefore, has fallen under the suspicion of our Generals, we are under the necessity of abiding by the steps which are taken; and are, &c.

On the question, whether *William Ellis*, Esq., or *Elijah Hand*, Esq., be Major of the Battalion of Militia to be raised

\*An Ordinance for punishing Treason and Counterfeiting.—Passed JULY 18, 1776.

Whereas it is necessary, in these times of danger, that crimes should receive their due punishment; and the safety of the people more especially requires that all persons who shall be found so wicked as to desire the destruction of good government, or to aid and assist the avowed enemies of the State, be punished with death:

Therefore be it resolved and ordained by this Convention, and it is resolved and ordained by the authority of the same, That all persons abiding within this State of *New-Jersey*, and deriving protection from the laws thereof, do owe allegiance to the Government of this State as of late established on the authority of the people, and are to be deemed as members of this State; and that all persons passing through, visiting, or making a temporary stay in this State, being entitled to the protection of the law during such passage, visitation, or temporary stay, during the same time owe allegiance to this Government.

And be it further resolved and ordained, That all and every person or persons, members of, or owing allegiance to this Government, as before described, who, from and after the date hereof, shall levy war against this State within the same, or be adherent to the King of *Great Britain*, or others the enemies of this State within the same, or to the enemies of the *United States of North America*, giving to him or them aid or comfort, shall be adjudged guilty of high treason, and suffer the pains and penalties thereof, in like manner as by the ancient laws of this State he or they should have suffered in cases of high-treason.

And be it further resolved and ordained, That all and every person or persons, who, from and after the date hereof, shall be found guilty of reviling the Government of this State as by this Convention established, or of other seditious speeches or practices, shall be punished in like manner as by the former laws of this State such person or persons might or ought to have been punished for such seditious speeches and practices against the Government then in being.

And be it further resolved and ordained, That all and every person or persons, who, from and after the date hereof, shall be found guilty of counterfeiting or altering the Continental Bills of Credit, the Bills of Credit issued by the late Provincial Congress of this State, or the Assemblies, Conventions, or Congresses, of any of the *United States of North America*, or uttering the same knowing them to be counterfeit or altered, shall be adjudged felons, and be punished with death, in like manner as persons found guilty of counterfeiting or knowingly altering the former Bills of Credit of this State might or should have been.

Provided always, That no person or persons shall suffer death or other pains or penalties for any the offences aforesaid, until he or they shall have been first found guilty of the same offence or offences whereof he or they shall be charged and accused in a due course of law, and by the verdict of a jury.

Provided also, That nothing in this Ordinance contained shall be construed to divest any Committee of the power they now possess of examining and committing any offenders, so that they do not proceed to the infliction of punishments for any the offences in this Ordinance contained, but leave the same to be determined in due course of law in manner aforesaid.

*Ordered*, That *Mr. Barnes* immediately attend this House.

*Mr. Barnes* appeared before this House, and, in answer to the above charge, informed the Convention that he declines acting as Sheriff under the authority of the people, and is willing to be superseded. Wherefore,

The Committee of *Burlington* County having called before them *Drury Wake, Esq.*, on a charge of his being inimical to the liberties of this country; and having made adjudication thereof, the said *Drury Wake* refused to abide thereby, and appealed to this Convention; the Committee made report of their proceedings; which being read in the presence of the said *Wake*, and proof being given concerning the same,

*Ordered*, That the said *Drury Wake, Esq.*, be committed to the common Jail of *Salem*, the keeper whereof is hereby

\* *An Ordinance for detaching two thousand of the Militia.—Passed JULY 18, 1776.*

Whereas the honourable Continental Congress have resolved, "That General *Washington* be desired to call to his assistance two thousand of the men who have marched into *New-Jersey* to form the Flying-Camp, and that the Convention of *New-Jersey* be requested immediately to supply their places with an equal number of the Militia of that State:" And whereas the situation of *New-York*, the vicinity of *New-Jersey* to the enemy, and, above all, the arrival of Lord *Howe*, who, it is probable, will speedily make some decisive movement, render it absolutely necessary that the most immediate and effectual steps be taken to guard against the incursions of the *British* Troops, and to strengthen the Army of the *United States*:

*Resolved, therefore, unanimously*, That two thousand of the Militia of this State be immediately detached to supply the place of the like number taken from the Flying-Camp in *New-Jersey*, and ordered to *New-York*.

*Resolved*, That said two thousand Militia compose four Battalions, consisting of thirty Companies of sixty-four non-commissioned officers and privates, under the command of a Brigadier-General.

*Resolved*, That the said Militia continue in service for the space of one calendar month, computing from the time of their joining the Flying-Camp, unless sooner discharged; that they have the same Pay, Rations, and allowance, as the Brigade under General *Heard* are entitled to receive from the Continental Congress, computing from the time of their marching to the place of destination; and that they conform in all instances to the regulations which are or shall be made for the government of said forces.

*Resolved*, That the said Battalions shall be formed as follows: One Battalion to consist of two Companies from the County of *Bergen*, three Companies from the County of *Essex*, and two Companies from the County of *Morris*.

One Battalion to consist of two Companies from the County of *Somerset*, two Companies from the County of *Sussex*, and four Companies from the County of *Hunterdon*.

One Battalion to consist of three Companies from the County of *Middlesex*, three Companies from the County of *Monmouth*, (whereof Captain *Stillwell's* Company is to be one,) and two Companies from the County of *Salem*.

One Battalion to consist of three Companies from the County of *Burlington*, three Companies from the County of *Gloucester*, and one Company from the County of *Cumberland*.

And, in order that proper Officers may be immediately appointed,

*Resolved*, That the Field-Officers, with the Captains and Subalterns in each County, do forthwith assemble, and agree upon one Captain, one Lieutenant, and one Ensign, for each Company, to be raised in their respective Counties; and that the Field-Officers appointed to the command of each Battalion do appoint an Adjutant and Quartermaster for the Battalion.

*Resolved*, That each man come equipped with a good Musket with a

commanded to receive him into his custody, and keep him in close confinement until the further order of this Convention, or future Legislature of this State.

*Ordered*, That Colonel *Joseph Borden* be directed to employ some officer of the Militia, with such Guard as may be necessary, to deliver *Drury Wake, Esq.*, together with the order of this Convention for his commitment, to the keeper of the common Jail of *Salem*.

Whereas *Drury Wake, Esq.*, appeared before the County Committee of *Burlington*, on a charge of his being inimical to the liberties of this country; which Committee, after hearing proofs and allegations, made an adjudication on said charge, and the aforesaid *Drury Wake* appealed from the adjudication of the said Committee to this Convention:

*Resolved, therefore*, That the said *Drury Wake* pay all the costs arising on the above prosecution, including the expense of taking him to the Jail of *Salem*, to be taxed by the County Committee of *Burlington*.

*Mr. William Smith* appeared before the Convention upon a charge exhibited against him by the Committee of *Woodbridge*; and after hearing and considering the several matters alleged and proved relative to the said charge, this House are of opinion that no offence appears to have been made good against him, and do therefore discharge him from all further attendance on this House, or on said Committee, unless some new charge be made appear by which he shall be found guilty of some offence against the State.

*Ordered*, That *Ebenezer Foster, Esq.*, have leave, on his parole, and security in the sum of £1,000, to remove to the publick house of *Mr. White*, in *Barnard's-Town*, in the County of *Somerset*, and not to go more than six miles from thence, unless with leave of this Convention, or the future Legislature of this State.

Adjourned to three o'clock, afternoon.

Met pursuant to adjournment.

*Mr. Conrad Hendricks* was brought before this Convention upon a charge transmitted against him by the Committee of the Provincial Congress of *New-York*; and after hearing and considering the several matters alleged against him, this House are of opinion that no offence has been proved against him, and do therefore discharge him from all further attend-

Bayonet, (if the latter can be procured,) a Tomahawk, a Cartouch-box, Blanket, Canteen, and Knapsack.

*Resolved*, That the Colonels of said Battalions be directed to make return as soon as possible to this Convention, or to the Brigadier-General, to be by him laid before the Convention, of the number of men which turned out in each County of this State in the Battalions aforesaid.

*Resolved*, That the four Battalions above directed to be raised form one Brigade.

*Resolved*, That the following officers be appointed to the command of the respective Battalions, viz: For the Battalion to be raised in *Bergen, Essex, and Morris*, *Edward Thomas* Colonel, *Ellis Cook* Lieutenant-Colonel, *Maurice Goatscius* Major; for the Battalion to be raised in the Counties of *Somerset, Sussex, and Hunterdon*, *Mark Thompson* Colonel, *Abraham Bonnet* Lieutenant-Colonel, and *Enos Kelsey* Major; for the Battalion to be raised in the Counties of *Middlesex, Monmouth, and Salem*, *George Taylor* Colonel, *Whitton Cripps* Lieutenant-Colonel, and *John Duychinck* Major; and for the Battalion to be raised in the Counties of *Burlington, Gloucester, and Cumberland*, *Charles Read* Colonel, *Josiah Hillman* Lieutenant-Colonel, and *William Ellis* Major.

*Resolved*, That any of the said two thousand Militia, while in service, be at liberty to enlist in the Brigade under the command of General *Heard*, and on such enlistment, shall be entitled to the bounty of three pounds, agreeable to the late Ordinance of Congress.

And whereas Camp-kettles are extremely scarce, and indeed impossible to be procured:

*Resolved*, That it be recommended to the said Militia to bring with them a sufficient number of Kettles; and for this purpose it is further recommended, that every Company be divided into lots, six men in a lot, and that each lot furnish itself with a Kettle. And if said Kettles, or any of them, should happen to be taken by the enemy, or endamaged or destroyed in the service, this State will make the owners full compensation for such injury or loss.

The zeal, alacrity, and spirit, which the inhabitants of *New-Jersey* have manifested during the present most important contest for freedom, is a happy presage, as well as the strongest assurance, that this requisition of their Representatives will be carried into instant execution; and the rather so, as the Brigade now directed to be raised is particularly destined to guard this State. We flatter ourselves that it is almost useless to recommend the utmost despatch, as the enemy is at hand, and the danger pressing and great. The vicinity of a mortal foe, whose avowed design is to reduce us to the most abject state of vassalage, is surely a call sufficient for freemen. Our brethren of *Pennsylvania* pour out in thousands: may *New-Jersey* keep the illustrious example in view, and evince to the world that the Militia of this State are equally zealous in the glorious cause of *American* freedom! Remember, the hour is approaching which will, in all human probability, decide the fate of *America*—which will either ensure your title to the rank of freemen, or debase you to the lowest class of slaves. Life, liberty, and property, all await the issue of the present struggle. Arise, then, and exert yourselves!

\*An Ordinance for detaching one-half of the Militia.—Passed August 11, 1776.

The Convention viewing with serious concern the present alarming situation of this and their sister States, that on a prudent use of the present moment depend their lives, their liberty, and happiness, think it their indispensable duty to put the Militia on such a footing that their whole force may be most advantageously exerted, and to call out the one-half into immediate service, to be relieved by the other monthly:

*Be it therefore resolved, ordained, and directed*, That all able-bodied men, without exception, in this State, between the ages of sixteen and fifty, be immediately enrolled by the Captains of the Militia in whose Districts they live, into their several Companies, and be called, and deemed to be, in construction of this Ordinance, the Militia of this State, and to be in that Regiment to which the Company they are enrolled in belongs; and that the said Militia be formed into two divisions, in manner following, to wit: Orders shall be immediately issued by the Brigadiers-General to the several Colonels or Commanding Officers of every regiment and battalion within this State, to call together without delay all that are directed as aforesaid to be enrolled in their several Companies; and in those regiments or battalions where one-half will not turn out volunteers to serve in the first division, that the divisions be determined by lot.

That the first division be immediately equipped with arms and every necessary accoutrement that can be obtained, and four days' provision, and march with all despatch to join the Flying-Camp in this State. And to the end that the several divisions may be properly formed and officered, it is hereby directed, That the battalions of the first division shall be formed as follows, to wit: one battalion from the regiments or battalions whereof *Philip Van Cortland* and *Edward Thomas, Esquires*, are Colonels; another battalion from the regiment whereof *Theunis Dey, Esq.*, is Colonel; another battalion from the battalions whereof *Jacob Ford* and *Jacob Drake, Esquires*, are Colonels; another battalion from the two regiments and one battalion whereof *Mark Thompson, Ephraim Martin, John Cleave Symmes, Esquires*, are Colonels; another battalion from the two battalions whereof *Stephen Hunt* and *Abraham Quick, Esquires*, are Colonels; another battalion from the battalions whereof *George Taylor, David Brearley, Daniel Hendrickson, Esquires*, are Colonels; another battalion from the battalions whereof *Jonathan Deare, Esq.*, is Lieutenant-Colonel, and *John Neilson* and *John Duyckinck, Esquires*, are Colonels; another battalion from the battalions whereof *Isaac Smith* and *David Chambers, Esqs.*, are Colonels; another battalion from the battalions whereof *Joseph Beavers* and *John Mehelm, Esqs.*, are Colonels; another battalion from the battalions whereof *Joseph Borden* and *Charles Read, Esquires*, are Colonels; another battalion from the battalions whereof *Joseph Ellis* and *Richard Somers, Esquires*, are Colonels, and *Samuel Tonkin, Esquire*, is Lieutenant-Colonel; another battalion from the battalions whereof *Samuel Dick* and *John Holme, Esquires*, are Colonels; and another battalion from the battalions whereof *Silas Newcomb* and *David Potter, Esquires*, are Colonels.

That the Field and other officers of every two regiments or battalions from whence by division a battalion is to be formed as aforesaid, meet together as soon as possible; and the officers to command each division shall be determined as follows: one of the regiments or battalions shall furnish a Colonel, the other a Lieutenant-Colonel, and so alternately the Majors and other officers; and if it cannot readily be agreed by the said officers which regiment or battalion shall furnish the Colonel, or other Field-Officer for the first division, the same shall be determined by lot; and whosoever there are a greater number of Companies in one than in the other of the said regiments or battalions from whence one is to be formed as aforesaid, if the Captains and Subalterns in that regiment or battalion containing the greatest number of Companies do not agree among themselves who shall serve in the first division, the same shall be determined by lot.

That in the County where there is but one regiment, either the Colonel and one of the Majors, or the Lieutenant-Colonel and the other Major, go out with the first division; and if not agreed on among themselves which of them shall go in the first division, the same shall be determined by lot; and whosoever a battalion is to be formed out of three regiments or battalions, the Field-Officers shall go out in rotation.

That the battalions for the second division shall be formed in like manner as those of the first division, to wit: each of the remaining half parts of such regiments or battalions out of which a battalion is above directed to be formed for the first division, shall form a battalion for the second division.

That the first division shall continue in service for and during the term of one month, to be computed from the time of joining the Flying-Camp; and then, unless sooner discharged, to be relieved by the second division, and so alternately every month, until orders to the contrary shall be issued by the Legislature, the Commander-in-Chief, or one of the Brigadiers-General of this State.

That to the end that every man of the first division may be completely equipped as far as possible, the several Colonels or Commanding Officers of each regiment or battalion of the Militia are hereby directed to take from the Militia of the second division of their respective regiments or battalions a sufficient number of their best arms, and equip those of the first division, giving receipts and taking just appraisements; and when relieved by the second division, those of the first shall redeliver the same to them; and also such numbers of their own arms as shall be needed to be taken, and appraised in the manner aforesaid; and the same arms so at any time lent or taken, if lost or damaged in the service, shall be made good by this State.

That every private shall and may have the liberty of timely providing an able-bodied man to serve in his stead, to be approved by the Captain of the Company in which he is to serve.

That every officer refusing to serve in his turn shall be cashiered and reduced into the ranks, and shall be fined in manner following: a Colonel £20; a Lieutenant-Colonel £15; a Major £12; a Captain £8; a

And to prevent a misconstruction of this Resolve, It is hereby declared, That Commissaries or other persons supplying the Army with Provisions, Stores, &c., are not intended to be included in said Resolve, so as to receive any private benefit from the same.

The Convention met.

Lieutenant, Ensign, or Adjutant, £6; a non-commissioned officer £3; and every private refusing to serve in his turn as aforesaid shall be fined £3.

That the pay of the officers and privates, to be computed from the time of their marching to join the Flying-Camp, shall be, in all respects, the same as those in the Continental service.

And whereas the principles of equity and humanity require that a proper compensation and provision be made for the families of all such as may be killed or wounded in the service; the Convention pledge the faith of this State that an adequate provision for the purpose aforesaid shall be made in such manner as that an equitable share of the burden shall fall upon those who do not go out with one or other of said divisions on their tour of service; it being clearly the opinion of the Convention that the fines above-mentioned to be paid by those who do not go out, being but a small share of property, are not equivalent, nor can, with any degree of reason, be put in competition with the risk of lives and limbs of those who go into the service; and also upon persons of property above the age of fifty, who are neither required to do duty nor pay any fine.

In this interesting situation—viewing, on the one hand, an active, inveterate, and implacable enemy, increasing fast in strength, daily receiving large reinforcements, and industriously preparing to strike some decisive blow; on the other, a considerable part of the inhabitants supinely slumbering on the brink of ruin, and moved with affecting apprehensions, the Convention think it incumbent upon them to warn their constituents of the impending danger. On you, our friends and brethren, it depends, this day, to determine, whether you, your wives, your children, and millions of your descendants, yet unborn, shall wear the galling, the ignominious yoke of slavery; or nobly inherit the generous, the inestimable blessings of freedom. The alternative is before you—can you hesitate in your choice? can you doubt which to prefer? Say!—will you be slaves? Will you toil and labour and glean together a little property, merely that it may be at the disposal of a relentless and rapacious conqueror? Will you, of choice, become hewers of wood and drawers of water? Impossible! You cannot be so amazingly degenerate as to lick the hand that is raised to shed your blood! Nature and Nature's God have made you free! Liberty is the birthright of *Americans*! the gift is of Heaven! and the instant it is forced from you, you take leave of everything valuable on earth. Your happiness or misery, virtuous independence or indignant servitude, hang trembling in the balance. Happily, we know we can anticipate your virtuous choice. With confident satisfaction we are assured that not a moment will delay your important decision—that you cannot feel hesitation, whether you will tamely and degenerately bend your necks to the irretrievable wretchedness of slavery—or, by your instant and animated exertions, enjoy the fair inheritance of Heaven-born freedom, and transmit it unimpaired to your posterity.

*Resolved*, That the Fines payable by those who have been or shall be enrolled in consequence of the late Ordinance of this Convention, passed the 11th of this instant, be appropriated to such publick use as the future Legislature of this State shall direct; and that the Fines payable by those formerly enrolled be appropriated as is directed by the Resolves of this Convention, bearing date the 3d of this instant.

*Resolved*, That the Captains shall respectively be accountable for the amount of the Fines levied in pursuance of the Ordinance aforesaid of the 11th instant, to the future Legislature, or to such person or persons as they shall nominate and appoint.

Therefore, *Resolved*, That all persons who shall hereafter be aggrieved by such excessive distresses be entitled to recover damages in like manner as for excessive distresses at common law.

*Resolved*, That leave be granted to discharge him.

The Congress, agreeable to the Order of the Day, resolved itself into a Committee of the whole Congress, to take into their further consideration the Report of the Committee on the Eastern Department, the Resolves from the Officers and Petition from the Committee of Privates of the Military Association of the City and Liberties of *Philadelphia*; and after some time spent thereon, the President resumed the chair, and Mr. *Harrison* reported, that the Committee of the whole Congress have had under their further consideration the matters referred to them, and have come to sundry Resolutions; but that not having yet finished, they desired him to move for leave to sit again.

The Resolutions reported from the Committee of the whole Congress being read, were agreed to, as follows:

*Resolved*, That an additional Major-General and Brigadier-General be appointed in the Continental Army.

That General *Washington* be directed to order a Major-General forthwith to take the command in the Eastern Department, and also that he order a Brigadier-General on that service.

*Resolved*, That the election of the Major-General and Brigadier-General be postponed till to-morrow.

The Congress took into consideration the draft of the Preamble brought in by the Committee, which was agreed to, as follows:

Whereas his *Britannick* Majesty, in conjunction with the Lords and Commons of *Great Britain*, has, by a late Act of Parliament, excluded the inhabitants of these United Colonies from the protection of his Crown; and whereas no answer whatever to the humble Petition of the Colonies for redress of grievances and reconciliation with *Great Britain*, has been or is likely to be given, but the whole force of that Kingdom, aided by foreign mercenaries, is to be exerted for the destruction of the good people of these Colonies; and whereas it appears absolutely irreconcilable to reason and good conscience for the people of these Colonies now to take the oaths and affirmations necessary for the support of any Government under the Crown of *Great Britain*, and it is necessary that the exercise of every kind of authority under the said Crown should be totally suppressed, and all the powers of government exerted under the authority of the people of the Colonies, for the preservation of internal peace, virtue, and good order, as well as for the defence of their lives, liberties, and properties, against the hostile invasions and cruel depredations of their enemies: Therefore, resolved, &c.

*Ordered*, That the said Preamble, with the Resolution passed the 10th instant, be published.

*Resolved*, That the Secret Committee be directed to sell to *Edward Keasby* one hundred pounds of Powder, for the use of the inhabitants of *Salem County*, in *New-Jersey*.

One of the 10th, from Major-General *Schuyler*, and one, without date, from General *Washington*, enclosing a Letter to him from Dr. *Stringer*.

*Resolved*, That the Congress will, as soon as possible, compensate for that disappointment to him, by some promotion in their service.

The Congress then proceeded to the election of a Major-General and Brigadier-General in the Continental Army; and, the ballots being taken and examined,

*Horatio Gates*, Esq., was elected Major-General;

The additional Members chosen: Mr. *R. Morris*, Mr. *Duane*, Mr. *R. H. Lee*, Mr. *Rutledge*, and Mr. *R. R. Livingston*.

The Committee to whom was referred the consideration of General *Lee's* Letters of the 19th of *April* and 7th of *May*, brought in their Report, which was agreed to. Whereupon,

*Resolved*, That General *Lee's* scheme of sending through the Colony of *Virginia* to purchase Rifles be, and is, approved.

That, as the Colony of *Virginia* is intersected with many navigable Rivers, six Gallies be built for the protection of the Troops in their transportation across the said Rivers, at the Continental expense, on as cheap terms as the business for which they are intended will admit of; that such other defence of the Rivers and Bays as shall be requisite for the Colony, be at the particular charge of the inhabitants thereof; and that General *Lee*, or the Commanding Officer in *Virginia*, transmit to Congress, as early as possible, an account of the expense which shall be incurred in consequence of this Resolution.

That General *Lee*, or the Commanding Officer in *Virginia*,

\* Report of the Committee on a Letter from General *WASHINGTON*, of the 11th *MAY*, a Letter from General *SCHUYLER*, of the 3d *MAY*, and one from Captain *ROBERTSON*, of the 9th *MAY*, with other papers referred to.

The Committee to whom were referred a Letter from General *Washington*, of the 11th of *May* instant, a Letter from General *Schuyler*, of the 3d of *May*, and one from Captain *Daniel Robertson*, of the Royal Highland Emigrant Regiment, of the 9th of *May*, beg leave to report, that having considered the said Letters, with their enclosures and other papers therein referred to, they came to the following Resolutions, viz:

*Resolved*, That it is the opinion of this Committee that General *Washington* be authorized to fill up vacancies in the Army by issuing commissions to such officers, under the rank of the Field-Officers, as he shall think proper persons to supply the vacancy, he informing the Congress once every month of such appointments, which shall be deemed good and valid, unless disapproved of by Congress, on such information; and that blank Commissions be sent to the General for that purpose.

*Resolved*, That it is the opinion of this Committee that Lieutenant-Colonel *Burbeck* be dismissed from the Continental service.

*Resolved*, That it is the opinion of this Committee that it would be a great saving to the United Colonies, and prevent many inconveniences resulting from the present manner of keeping and providing for Prisoners, to have a Commissary for Prisoners appointed for each of three Departments to superintend and take the direction and supplying of such Prisoners as have already fallen, or may hereafter fall, into our hands during the course of the war, as nearly conformable as the circumstances of this country will admit of, to the custom of all other civilized nations.

*Resolved*, That it is the opinion of this Committee that there be raised for the service of the United Colonies one Battalion of *Germans*.

That Prisoners made from the enemy by Continental Arms, be not exchanged by any authority but the Continental Congress.

be directed to set on foot the raising of two Companies of Carpenters, to consist of House and Ship builders.

That General *Lee* be permitted to order Rations and Forage for such Volunteers of Horse, not exceeding five hundred, as shall think proper to attend the service of their country in the Continental Army, agreeable to General *Lee's* request and proposal.

That Captain *Dohicky Arundel's* journey to *Virginia* be at his own, not Continental, expense.

That the pay of the Deputy Engineers be raised to 30 Dollars a month, and that they be allowed rations for themselves, and forage for their horses, when in camp, or necessarily absent upon Continental duty.

That a Continental Hospital be established in *Virginia*, and a Director to the same immediately appointed by Congress.

That the scheme of adding two Subalterns and forty Privates to the Company of Artillery, be adopted.

That the circumstances of affairs in the Middle and Eastern Department will not admit of Mr. *Smith* being sent to General *Lee*.

That *Thomas Bullitt, Esq.*, the Deputy Adjutant-General in *Virginia*, be advanced to the rank of Colonel.

That from the uncertainty of the enemy's design, and the number of Regiments already sent into *Canada*, it will be inexpedient, at present, to order any of the Troops raised in *Pennsylvania*, or the Colonies to the eastward thereof, to the Southern Department; nor can Congress, at present, supply such Troops as are raised in *Virginia* with Fire-Arms; but that General *Lee's* application on this subject be attended to so soon as an importation, sufficiently considerable, will admit of his being supplied; and that he be assured the Congress will co-operate and aid him with their power, to render effectual his laudable endeavours to establish the rights and liberties of the good people of this Continent.

The Congress then proceeded to the election of a Director of the Hospital in *Virginia*; and the ballots being taken, *William Rickman* was elected.

*Resolved*, That the Hospital in *Virginia* be on the same establishment, and the pay of the Officers thereof the same, as the Hospital established in the Eastern Department.

That two Surgeons, one Apothecary, six Mates, one Clerk, one Storekeeper, and a Nurse to every ten sick, with Labourers occasionally, when necessary, be allowed to the Hospital in *Virginia*.

That the Director be empowered to nominate the Surgeons and Apothecary.

That the Mates be appointed by the Surgeons, and that the number of the Mates be diminished as circumstances will admit; for which reason the pay is fixed by the day, that they may only receive pay for actual service.

*Resolved*, That it be recommended to the Convention of *Virginia* to raise a Battalion of Riflemen on the same terms as the other Battalions raised in that Colony; to be taken into the pay of the Continent, when armed and mustered.

*Resolved*, That General *Washington* be directed, if the service will permit, to station a Battalion at *Amboy*.

A Petition from *Joseph Trumbull*, Commissary-General, was presented to Congress, and read.\*

\*Petition of JOSEPH TRUMBULL. Read MAY 18. Referred to the Committee on the Treasury.

To the Honourable the Continental Congress, now convened in the City of PHILADELPHIA:

The Memorial of *Joseph Trumbull* humbly sheweth: That in *July* last your Honours were pleased to appoint him Commissary-General of Stores and Provisions for the Army raised and paid by the United Colonies, and annexed to said office the pay of eighty dollars per month. That he undertook said office, and has acted therein to the present time, and has exerted all his abilities to execute his trust with care and fidelity, and for the best benefit of the Colonies. That he has found it necessary to employ a large number of persons under him in the business of his said office, who are justly entitled to pay adequate to their respective services. That he has not made any agreement or stipulation with them for wages. That, by order of General *Washington*, in the month of *January* last he made out a list of the persons so employed, which is now lying before your Honours, waiting your determination thereon. And that he conceives the allowance of pay annexed to said office is by no means adequate to the importance, risk, and fatigue of said office, for himself and those employed by him; and therefore prays your Honours to take the same into consideration, and grant and allow to him, and those employed by him, such compensation for their services as to your Honours shall appear just and reasonable; and he, as in duty bound, shall ever pray.

JOSEPH TRUMBULL.

"Instructions to ARCHIBALD BULLOCK, JOHN HOUSTON, LYMAN HALL, BUTTON GWINNETT, and GEORGE WALTON, Esquires, and to such of them who shall repair to, and join the Congress at, PHILADELPHIA:

"GENTLEMEN: Our remote situation from both the seat of power and arms, keeps us so very ignorant of the counsels and ultimate designs of the Congress, and of the transactions in the field, that we shall decline giving any particular instructions, other than strongly to recommend it to you that you never lose sight of the peculiar situation of the Province you are appointed to represent: The *Indians*, both south and northwardly, upon our backs; the fortified town of *St. Augustine* made a continual rendezvous for soldiers in our very neighbourhood, together with our blacks and Tories with us. Let these weighty truths be the powerful arguments for support. At the same time we also recommend it to you always to keep in view the general utility, remembering that the great and righteous cause in which we

are engaged is not Provincial, but Continental. We, therefore, Gentlemen, shall rely upon your patriotism, abilities, firmness, and integrity, to propose, join, and concur, in all such measures as you shall think calculated for the common good, and to oppose such as shall appear destructive.

\* Report of the Committee on the regulating the price of Salt.

The Committee to whom was referred the regulation of the price of Salt, are humbly of opinion:

That some persons possessed of large quantities of Salt, imported before the late restrictions on our trade, have taken an undue advantage of the recommendation of Congress to the several Committees of Observation and Inspection to desist from any further regulation of the prices of merchandise, by demanding an extravagant price for that necessary article.

That, though regulations of that nature tend to discourage commerce and increase the scarcity which they were designed to remove, yet that the same is not applicable to Salt, unless it is sold so high as to be very burdensome to the poor, as it can only be imported in large vessels, the risk of which is extremely great.

That in order to remedy this inconvenience without burdening trade, it will be proper to fix the price of Salt now in the country, or hereafter to be imported or manufactured, when sold at the place into which the same is imported, or at which it is manufactured, at two-thirds of a dollar per bushel; if sold at any other, at the same price, with the addition of so much as will defray the charges of transportation.

That a bounty should be given by this Congress of one-third of a dollar per bushel upon all such Salt as shall be imported into or manufactured within either of these Colonies within one year from the date hereof; that the same should be paid by the Continental Treasurer to any person or persons who shall produce to him a certificate from the Convention, Assembly, or Committee of Safety, of the Province in which Salt shall have been manufactured, or into which the same shall have been imported, that the said certificate contains the name of the manufacturer, or importer, the quantity manufactured or imported at the time in which the same was applied for.

A. Two to one.

A. *Massachusetts* 4,500, *Connecticut* 2,000, *New-Hampshire* 1,000, *New-York* 1,500, *Indians* 1,000; total 10,000.

Q. What number of the enemy may it be supposed will attack *New-York*?

A. Twelve thousand five hundred. And as the Continental force now at *New-York* for the defence of that place, and the communication with *Albany*, does not exceed ten thousand men, therefore, upon the question, What are the proportions to be furnished by the different Provinces out of the Militia for the defence of *New-York*, &c.?

A. *Massachusetts* 2,000, *Connecticut* 5,500, *New-York* 3,000, *New-Jersey* 3,300, two Battalions *Pennsylvania* establishment 1,200; total 15,000.

Q. What force is necessary for protection of the four *New-England* Provinces?

A. Unanimously approved of.

Q. How many should the Flying-Camp consist of?

A. Ten thousand men.

Q. From whence and in what proportions are the troops to come that are to form the Flying-Camp?

A. From *Pennsylvania* 6,000, *Maryland* 3,400, lower Counties 600; total 10,000.

Q. Is the present establishment sufficient for the Southern Colonies?

A. The present force is sufficient, except in *South-Carolina* and *Georgia*, where it appears to this Committee that an additional force is necessary.

Q. For how long a time is the Militia to be engaged?

A. To the 1st of *December*, unless sooner discharged by Congress.

Q. When is the Militia pay to commence?

A. From the day of their marching from home; and they are to be allowed one penny a mile, lawful money, in lieu of rations, for travelling expenses, and one day's pay for every twenty miles between home and the general rendezvous, going and returning.

The Committee are of opinion that an animated address be published, to impress the minds of the people with the necessity of their now stepping forward to save their country, their freedom, and property.

That it be earnestly recommended to the Assemblies, Conventions, and Committees of Safety in the United Colonies, to fall upon the most effectual means of removing the stocks, grain, and meal, from such parts of their respective Provinces as are invaded, or are in imminent danger of being invaded by the enemy.

It is the opinion of this Committee that two Provincial Brigadiers-General be employed in the *Canada* Department—one from *Massachusetts*, and one from *Connecticut*. That four Provincial Brigadiers-General be employed in the *New-York* Department—one from *Massachusetts*, one from *Connecticut*, one from *New-York*, and one from *New-Jersey*.

It is also the opinion of this Committee that three Brigadiers-General be employed for the Flying-Camp—two from *Pennsylvania*, and one from *Maryland*; that the said Brigadiers-General be appointed by the respective Colonies above-mentioned.

Your Committee further recommend that the Departments of Commissary-General, Quartermaster-General, Adjutant-General, &c., be under one head, to whom all Returns and Reports are to be made.

That the Commander-in-Chief be authorized to form and fix such Magazines of Provisions and Military Stores as he may judge necessary.

That the General be authorized to direct the building as many Fire-Rafts and Gallies as may be necessary and suitable for the immediate defence of the Post at *New-York* and *Hudson's River*.

To *David Lenox*, for his expenses going to *New-York* as an escort of Money, the sum of 62 68-90 Dollars;

To *Robert Erwin*, for wagonage of Gunpowder to the City of *New-York*, the sum of 414 Dollars.

Ordered, That the said Accounts be paid.

The said Committee further reported, that Captain *John Lowden* had laid before them an account of the expenditure of money paid into his hands, for the purpose of raising a Company of Riflemen, amounting to the sum of 582 7-90 Dollars.

Transporting baggage from *Northumberland* to *Reading*, 40 Dollars.

Amount of divers articles ordered to be charged to Captain *Lowden*, which now appear to be Continental charges, 50 3-90 Dollars.

The Congress took into consideration the Report of the Committee on the mode of regulating the price of Salt, and thereupon came to the following Resolution:

Whereas it hath been represented to Congress that avaricious, ill-designing men, have taken the advantage of the resolve of Congress passed the 30th of *April*, for withdrawing from the Committees of Inspection the power of regulating the price of goods, to extort from the people a most exorbitant price for Salt:

Resolved, That it be recommended to the Committees of Observation and Inspection in the United Colonies so to regulate the price of Salt as to prevent unreasonable exactions on the part of the seller, having due regard to the difficulty and risk of importation, subject, however, to such regulations as have been, or shall hereafter be, made by the Legislatures of the respective Colonies.

The Committee to whom the Letter from *Joseph Woodward*, Chairman of the Committee of the *New-Hampshire Grants*, was referred, and who were directed to hear the persons mentioned in the said Letter, brought in their Report; which was read.\*

\*Report of a Committee on the Letter from *JOSEPH WOODWARD*, of the *NEW-HAMPSHIRE GRANTS*, and the Petition of the Inhabitants of said GRANTS.

The Committee to whom the Petition, Address, and Remonstrance, of the persons inhabiting that part of *America* which is commonly called and known by the name of the *New-Hampshire Grants* was referred, have examined the matter thereof, and come to the following Resolution thereupon:

Resolved, That it is the opinion of this Committee that it be recommended to the Petitioners, for the present, to submit to the Government of *New-York*, and contribute their assistance, with their countrymen, in the contest between *Great Britain* and the United Colonies; but that such submission ought not to prejudice the right of them or others to the lands in controversy, or any part of them, nor be construed to affirm or admit the jurisdiction of *New-York* in and over that country; and when the present troubles are at an end, the final determination of their right may be mutually referred to proper judges.

IN CONGRESS, June 4.—Resolved, That *Heman Allen* have leave to withdraw the Petition.

He represents that he had left behind some papers necessary to support the allegation therein contained.

*NEW-HAMPSHIRE GRANTS*, January 17, 1776.

We beg leave, with submission, humbly to communicate to your Honours, by our trusty and well-beloved friends, Lieutenant *James Bracknage*, Captain *Heman Allen*, and Dr. *Jonas Fay*, a state of that district of land commonly called and known by the name of the *New-Hampshire Grants*, who are appointed by the Representatives of the several Townships on said *Grants*, in General Convention assembled this day, and pray your Honours to receive them as persons legally chosen, and to whom said Representatives have reposed the trust and management of preferring a remonstrance of the situation of the state of the *Grants* aforesaid; and

The Committee to whom it was referred to consider of an adequate reward for the person who brought the late intelligence from *England*, brought in their Report.

Whereupon, Resolved, That he receive his pay, being a soldier in Captain *Morgan's* Company of Riflemen, to be continued from the time of his captivity until the 15th day of *June* next, and a gratuity of 100 Dollars.

should your Honours see meet to give, to receive your Honours' advice thereon, which we shall always acquiesce in; and the favour will ever be gratefully acknowledged by, gentlemen, your most obedient, very humble servant,

*JOSEPH WOODWARD*, Chairman.

To the Hon. *John Hancock*, Esq., President of the Honourable Continental Congress, now convened at *Philadelphia*.

To the Honourable *JOHN HANCOCK*, Esq., President of the Honourable Continental Congress, now assembled at *PHILADELPHIA*.

The humble Petition, Address, and Remonstrance, of that part of *AMERICA* being situate south of *CANADA* line, west of *CONNECTICUT* RIVER, north of the *MASSACHUSETTS*-BAY, and east from a twenty mile line from *HUDSON* RIVER, commonly called and known by the name of the *NEW-HAMPSHIRE GRANTS*, humbly sheweth:

That your Honours' Petitioners being fully sensible and deeply affected with the very alarming situation in which the United Colonies are involved by means of a designing Ministry, who have flagrantly used, and still are using, their utmost efforts to bring the inhabitants of the very extensive Continent of *America* into a base and servile subjection to arbitrary power, contrary to all the most sacred ties of obligation, by covenants, and the well-known Constitution by which the *British* Empire ought to be governed, your Petitioners, (not to be prolix or waste time,) when the whole Continent are in so disagreeable a situation, would, however, beg leave to remonstrate, in as short terms as possible, the very peculiar situation in which your Petitioners have for a series of years been exercised, and are still struggling. Perhaps your Honours, or at least some of you, are not unacquainted, that at the conclusion of the last war the above described premises, which your Petitioners now inhabit, were deemed and reputed to be in the Province of *New-Hampshire*, and consequently within the jurisdiction of the same. Whereupon applications were freely made to *Benning Wentworth*, Esquire, then Governour of the Province of *New-Hampshire*, who, with the advice of his Council, granted, under the great seal of said Province, to your Honours' Petitioners a large number of Townships, of the contents of six miles square each. In consequence of which, a great number of your Petitioners, who were men of considerable substance, disposed of their interest in their native places, and with their numerous families proceeded many of them two hundred miles, encountering many dangers, fatigues, and great hardships, to inhabit a desolate wilderness, which is now become a well-settled frontier to three Governments. This was not all our trouble, for soon after the commencement of those settlements the monopolizing land-traders of *New-York*, being apprised that the Province of *New-Hampshire* had granted the said lands, and that settlements were actually making, did present a petition (as we have often heard and verily believe) in your Petitioners' names, praying that the same lands granted by *New-Hampshire* might be annexed to the Province of *New-York*, on account of its local and other circumstances, for the benefit of the inhabitants. Your Petitioners not being apprised of the intrigue in this case, were mute; therefore, as no objection was made why the prayer of the Petition should not be granted, his Majesty was pleased, with advice of Council, on the 4th day of *July*, 1764, to grant the same. Immediately after, the land-traders of *New-York* petitioned the then Governour of that Province for grants of land, some parts of which had been previously granted to your Petitioners by the Governour and Council of *New-Hampshire*. The dispute then became serious. Your Petitioners then petitioned his Majesty for relief in the premises. His Majesty was pleased to appoint a Committee, who reported to his Majesty in the premises, and his Majesty was pleased to pass Order in the following words:

"At a Court of *St. James*, 24th day of *July*, 1767. Present:

"The King's Most Excellent Majesty.

"Archbishop of <i>Canterbury</i> ,	Earl of <i>Litchfield</i> ,
"Lord Chancellor,	Earl of <i>Bristol</i> ,
"Duke of <i>Queensborough</i> ,	Earl of <i>Shelburn</i> ,
"Duke of <i>Ancaster</i> ,	Viscount <i>Falmouth</i> ,
"Lord Chamberlain,	Viscount <i>Barrington</i> ,
"Viscount <i>Clarke</i> ,	Mr. Secretary <i>Conway</i> ,
"Bishop of <i>London</i> ,	<i>Hans Stanley</i> , Esq.

"His Majesty taking the said Report into consideration, was pleased, with the advice of his Privy Council, to approve thereof, and doth hereby strictly charge, require, and command, that the Governour or Commander-in-Chief of his Majesty's Province of *New-York* for the time being do not, upon pain of his Majesty's highest displeasure, presume to make any grant whatsoever of any part of the lands described in the said Report until his Majesty's further pleasure should be known concerning the same.

"*WILLIAM SHARP*."

A true copy attested: *GEORGE BANYAR*, Deputy Secretary.

The many intervening and unhappy disputes which have since happened between those land-traders of *New-York* and your Petitioners would take up too much time, under the present situation of publick affairs, to recite, as Lieutenant *James Bracknage*, Captain *Heman Allen*, and Dr. *Jonas Fay*, whom we have appointed to present this to your Honours, will be furnished therewith, should they find your Honours' admittance, and such particulars be thought necessary. Let it suffice here only to mention that the oppressions from those overgrown land-traders of *New-York* were so grievous, that your Petitioners were again induced, at a great expense, to petition his Majesty. In consequence of which, a Committee was appointed, and made a report in favour of your Petitioners, which is too prolix to be inserted here. We are called on this moment by the Committee of Safety for the County of *Albany* to suppress a dangerous insurrection in *Tryon* County. Upwards of ninety soldiers were on their march within twelve hours after receiving the news, all the

A Petition from Captain *Heman Allen* was presented to Congress, and read.

An extract of a Letter from a gentleman in *Bermuda*, dated the 26th *April*, and continued to the 1st *May*, 1776, to a gentleman in *Philadelphia*, was presented to Congress, and read.

*Resolved*, That it be referred to the Committee appointed to examine the most proper Posts to be fortified.

*Resolved*, That six of the heaviest Cannon at *Newport*, and fourteen of the heaviest Cannon at *New-London*, belonging to the Continent, be transported to *Philadelphia* as soon as possible.

That copies of the above Resolution be transmitted to the Governours of *Rhode-Island* and *Connecticut*.

The Congress then took into consideration the Report of the Committee appointed to confer with his Excellency General *Washington*, Major-General *Gates*, and Brigadier-General *Mifflin*; and after some debate,

*Resolved*, That it be referred to a Committee of the whole Congress.

The Congress then resolved itself into a Committee of the Whole, to take into consideration the Report of the Committee of Conference; and after some time spent thereon, the President resumed the chair, and Mr. *Harrison* reported, that the Committee have taken into consideration the matter referred to them, and have come to a Resolution thereon, but not having had time to go through the whole, desired him to move for leave to sit again.

The Resolution reported from the Committee of the whole Congress being read, was agreed to, as follows:

*Resolved*, That the General be authorized to direct the building as many Fire-Rafts, Row-Galleys, Armed Boats,

inhabitants of one town inhabited by your Petitioners, and all furnished with arms, ammunition, accoutrements, and provisions, &c. Again we are alarmed by express from General *Wooster*, commanding at *Montreal*, with the disagreeable news of the unfortunate attack on *Quebeck*, (unfortunate, indeed, to lose so brave a Commander,) requiring our immediate assistance by troops. In consequence of which, a considerable number immediately marched for *Quebeck*, and more are daily following their example. Yet while we, your Petitioners, are thus earnestly engaged, we beg leave to say we are entirely willing to do all in our power in the general cause under the Continental Congress, and have been ever since the taking of *Ticonderoga*, &c., in which your Petitioners were principally active, under the command of Colonel *Ethan Allen*, but are not willing to put ourselves under the honourable Provincial Congress of *New-York* in such a manner as might in future be detrimental to our private property, as the oath to be administered to those who are or shall be entrusted with commissions from said Congress and the association agreed upon by the same authority, together with some particular restrictions and orders for regulating the Militia of said Province, if conformed to by the inhabitants of said *New-Hampshire Grants*, will, as we apprehend, be detrimental to your Petitioners in the determination of the dispute now subsisting between said inhabitants and certain claimants under said Province of *New-York*, and that your Petitioners' ardent desire of exerting themselves in the present struggle for freedom may not be restrained, and that we might engage in the glorious cause without fear of giving our opponents any advantage in the said land dispute now subsisting, which we would wish should lie dormant until a general restoration of tranquillity shall allow us the opportunity for an equitable decision of the same. One other reason that much hinders our joining hand and hand with *New-York* Government in the general cause is, they will not own us in our property, but, on the contrary, the Judges of the Supreme Court for said Province have expressly declared the charters of our lands, deeds, &c., to be null and void. Therefore we, your Honours' humble Petitioners, most earnestly pray your Honours to take our case into your wise consideration, and order that for the future your Petitioners shall do duty in the Continental service, if required, as inhabitants of said *New-Hampshire Grants*, and not as inhabitants of the Province of *New-York*, or subject to the limitations, restrictions, or regulations, of the Militia of said Province, and that commissions, as your Honours shall judge meet, be granted accordingly.

And, as in duty bound, your Honours' Petitioners shall ever pray.

At a meeting of the Representatives of the different Towns on the *New-Hampshire Grants*, legally warned and convened at the house of *Cephas Kent*, Inn-holder, in *Dorset*, on the 16th day of *January*, 1776, Captain *Joseph Woodward* Chairman, Doctor *Jonas Fay* Clerk. This meeting, after due consideration, agreed to prefer to the honourable Continental Congress an humble Petition, setting forth the peculiar circumstances of this part of the country. Accordingly a Committee was appointed to draw up the same, who drew up the foregoing, and reported to the House in the evening. The Clerk read the same in his place, and afterwards delivered it in at the table.

The House adjourned till to-morrow morning, nine o'clock.

Whereas the Congress, on the 4th day of *November* last, resolved that, for the defence of *South-Carolina*, there be kept up in that Colony, at the Continental expense, three Battalions of Foot—each Battalion to consist of the same number of men and officers, to be upon the same pay, and under the same regulations, as the Continental Army; and, on the 25th day of *March* last, resolved, that the Convention, or Council of Safety of *South-Carolina*, be permitted to raise and embody two other Battalions, and that they be on the pay, and at the expense of the Continent, as soon as they shall be armed fit for service, and accordingly mustered: And whereas the Convention of *South-Carolina*, on the 22d day of *February* last, ordered that their Council of Safety return the thanks of that Colony to the Continental Congress for their attention to its security; that they state the peculiar circumstances and the heavy expenses which have been and will be incurred by that Colony in the measures necessary for its defence; and that they request the Continental Congress to allow that Colony so much money as the expenses

*\* Doctor MORGAN'S Memorial.*

MR. PRESIDENT: I am to acquaint this honourable House that the late augmentation of the forces already raised and to be raised for the defence of *North-America*, which are ordered for *New-York*, *Boston*, and *Canada*, and the information I have received that the supplying of all the Hospital stores which may be required for these departments will depend on me, put me under the necessity of applying to Congress for such instructions on this head as may enable me to understand what further duties are required from me in the discharge of this important trust; to ascertain a little more accurately the nature and extent of my commission; and to allow me such further assistance as shall be deemed adequate to the expectations of this honourable House in the discharge of my office.

Already have I had orders drawn upon me from *Canada* for very large supplies of medicines, without any tolerable information of the state of the Army, or number of sick and wounded, or in what manner the Congress have hitherto directed provision for that purpose; nor do I know the number of Surgeons allotted for that district, who they are, what subordination they are under, or, finally, who is to direct the management of the Hospitals which it may be thought necessary to establish in *Canada* or at *Boston*.

The number of Hospital Surgeons and Mates now in employ at *New-York* (though sufficient for the care of the sick at present) may, and it appears to me very probable will, be found unequal to the task of attending all the sick and wounded that may require their aid, increased in proportion to the present augmentation of the Army, should we, as it is looked for, have a vigorous and active campaign there; and I can easily foresee that a great number of both may be sent from *Canada* for the greater conveniences in taking care of them. Add to this, I have never received any instructions from the Congress relative to the supply of Regimental Surgeons; and as the Commander-in-Chief refers all matters requiring new appointments, or the discharge of duties not ascertained, to the determination of Congress, I now request I may be instructed in my duties towards Regimental Surgeons, and whether they are any how subject to any regulations that may be devised for the government of the Hospital, and the good of the service.

I compute that there are not less than three or four score Regimental Surgeons and Mates who were in commission at *Cambridge*, and yet they were destitute (as such) of every article essentially necessary for the care of sick and wounded, (which I mention not as a fault, but a misfortune,) yet presumed they had a right to draw upon the General Hospital for every store they thought proper for the sick under their care. Though I had no instructions that would authorize my compliance, and though I knew it to be contrary to every known establishment of the like nature, yet I had it not in my power to demand from them any report of the

of three Battalions, upon the Continental establishment, would amount to for one year, and to give Continental rank to the Officers of the three Regiments raised in *June*, and of the Regiment of Artillery raised in *November*, from the dates of their respective Commissions, or at least from the 4th day of *November*, when they resolved to allow that Colony three Battalions: And whereas the Delegates from that Colony in Congress have represented the peculiar circumstances and heavy expenses of that Colony, and that the Troops raised in it were enlisted for three years, upon a different establishment of pay, and under different articles of war, so as to render it inconvenient to place them, in all respects, upon the Continental establishment: Therefore,

*Resolved*, That the Battalion of Artillery, and the two Battalions of Foot, raised in *South-Carolina*, and kept up in that Colony for the defence of the same, be considered as Continental forces, and allowed the same pay, rations, and disbursements, as other forces on the Continental establishment.

That the two Battalions under the command of Colonels *Gadsden* and *Moultrie*, be allowed all the advantages of the Continental establishment, from the 4th day of *November* last, and the Regiment of Artillery from the time when the same was ordered to be raised by the Provincial Congress, or the Convention of *South-Carolina*.

That the two Battalions of Riflemen, raised in and for the defence of the said Colony, be considered as Continental Troops from the 25th day of *March* last, and be entitled to all the advantages of the same.

That all the above-mentioned Troops be liable to the Articles for the government of the forces in the said Colony.

That the said forces be continued on the Continental establishment until the expiration of their enlistment, unless they shall be sooner disbanded by Congress.

That not more than one-third of the effective men of the above-mentioned forces be ordered out of the said Colony, without the express order of Congress, or the consent of the President of that Colony.

*Resolved*, That Mr. *Heyward* and Mr. *Hall* be added to the Committee for providing Medicines.

*Resolved*, That Mr. *Rodgers* be appointed a Member of the Marine Committee.

*Resolved*, That a Commissioner be appointed to settle in *Canada* the debts due on Certificates given by Officers to the *Canadians* for Carriages and other services, and to settle the Accounts for such goods as may have been seized,

number or state of the sick, so as to be a judge of the propriety of granting or refusing what they might demand. And such a door was once opened to them of extracting every kind of expensive store from the General Hospital, that had I not wholly shut that door against them, it is impossible to form any idea to what an amazing extent the expenses of the General Hospital would amount; but the Commissary-General has often informed me, that had it not been stopped, the expenses of the sick would equal that of all the well soldiers of the whole Army.

Without orders, I have always allowed them every supply of medical articles which they drew for, and which it was in my power to procure. Happily for the service, on the surrender of *Boston* to the *American* arms I was put in possession of a large stock of medicine and Hospital furniture, bedding and blankets; and by the dint of unwearied application conveyed them to *New-York* at no great charge to the publick. From this store I have already ordered near forty regimental chests, and supplied the wants of the Hospital; but I have to lament that this stock is now unassorted, and that I am in great want of capital medicines. This want must daily increase in my present situation.

The time is critical; very illy can my presence from the Army be dispensed with. I have the General's positive orders to return within a few days, and my own inclination, as well as sense of duty, concur to hasten my return. But bound to remain in one place, without assistants to collect medical and Hospital stores and chirurgical instruments, (which is more difficult from the great scarcity,) I am compelled to solicit an immediate supply from Congress; and likewise that, in case of action, old linen, &c., may be furnished with speed, in addition to what I have been able of myself to collect.

Not to be too troublesome, or to take up too much of the precious time of this honourable House, I will only add, that all the weight of taking care of the sick and wounded naturally falls on the Hospital Surgeons and Mates, and that the Regimental Surgeons and Mates are comparatively of little use till they are placed in some subordination; and as their pay is increased, the Mates of the Hospitals appear very desirous to remove into regiments till a better regulation takes place; and, that I conceive that to answer the purposes of a General Hospital, without greatly increasing the expense, if not now, yet hereafter, some small stoppages must be made somehow on the men's pay; and that to conduct all these matters to a happy issue, the Congress will think it highly expedient to appoint a Committee to confer with me, and to whom I can make the affairs of my department known, for the sake of a complete regulation of it; which is humbly submitted to the consideration of this honourable House.

June 18, 1776.

through necessity, for the use of the Army; that it be given in instruction to him to attend particularly to the case of Mr. *Bernard*; and that, in settling the certified debts, he state carefully the names of all those who have given Certificates, the nature of the service, and the time when performed, and return the whole, when settled and stated, to the Committee of the Treasury, to be by them examined and discharged.

That *Thursday* next be assigned for electing said Commissioner.

*Resolved*, That no man in these Colonies, charged with being a Tory, or unfriendly to the cause of *American* liberty, be injured in his person or property, or in any manner whatever disturbed, unless the proceeding against him be founded on an order of this Congress, or the Assembly, Convention, Council or Committee of Safety of the Colony, or Committee of Inspection and Observation of the District wherein he resides: *Provided*, That this Resolution shall not prevent the apprehending any person found in the commission of some act destructive of *American* liberty, or justly suspected of a design to commit such act and intending to escape, and bringing such person before proper authority for examination and trial.

Information being given that some of the Officers who were Prisoners at *Lebanon*, in the Colony of *Pennsylvania*, have, in violation of the parole by them given and subscribed, made their escape,

*Resolved*, That it be referred to the Board of War and Ordnance to consider what steps are necessary to be taken on the occasion.

The several matters to this day referred, being postponed, Adjourned to ten o'clock, to-morrow.

SIR: Being just arrived from *Canada*, after a most fatiguing campaign, take this method of applying to the honourable the Continental Congress. If the manner of application is not in form, beg, sir, you will excuse it.

I was born, and have now a family, in this city; but with the hope of gaining a support for a future day, and having a very great prospect before me, I went to *Quebeck*, and there set up and followed my business, which is hat making, and found it answered beyond my expectation. I engrossed the good will of the inhabitants in general for near two years, until those unhappy disturbances commenced, at which time I frequently, and with some warmth, expressed myself for the glorious cause for which we are now contending, but was taken up and confined in Jail for thirty-seven days upon suspicion of supplying General *Arnold* with arms and ammunition; for the space of which time, they gave me three common loaves of bread, and no other subsistence save water; at the expiration of which time I was released, and ordered to leave town the next day, leaving all I was worth in the world behind me, and deprived of bringing my books or anything but my clothes along with me. I left *Quebeck* on the morning of the 5th of *December*, and joined the brave, though unfortunate, General *Montgomery*, as a volunteer. That gentleman, a few days after, was pleased to appoint me Conductor of Military Stores, with great assurances of future good offices; but by that gentleman's unfortunate fall, I have been neglected.

At the storming of *Quebeck* I had the honour to lead General *Arnold's* party as a guide, but was unfortunately wounded at the taking of the first battery, and was brought off and continued in the Army before

A Letter from the Commissioners for *Indian Affairs* in the Southern Department, with sundry papers enclosed, was laid before Congress, and read.

The Board of War and Ordnance, to whom the paragraph of a Letter from the General was referred, brought in their Report, which was taken into consideration. Whereupon,

*Resolved*, That six Companies of Riflemen, in addition to the three Companies now at *New-York*, be raised, and the whole regimented; and that a Commission be granted to Captain *Stephenson* to be Colonel of the said Regiment of Riflemen which is to be enlisted for three years, unless sooner discharged by Congress; the men to be allowed a bounty of ten Dollars; and that the eldest *Moses Rawlings*, from *Maryland*, lately of the Rifle Companies, be Lieutenant-Colonel, and the Captain of the other Company, *Otho Holland Williams*, Major of the said Regiment.

That four Companies of Riflemen, for the said Regiment, be raised in *Virginia*, and two in *Maryland*, the pay of the men to commence from the time they shall be armed and mustered; their Arms to be appraised by the Committee of the County, and paid for by the United Colonies.

That General *Washington* be directed forthwith to send to this Congress a complete list of all the vacancies in the Army, and the names of such Officers as he can recommend for filling them.

Matlack*;

To *Rachel Hewen*, the sum of 5 30-90 Dollars, for nursing and boarding two Soldiers of the Continental Army;

That there be repaid to *Robert Moore* the sum of 7 Dollars, which was stopped out of his pay by Captain *M. Smith*, the same having been by him expended for Provisions, when he was left sick by his Company in *Canada*.

Ordered, That the said Accounts be paid.

*Quebeck* all the winter, until the 6th of *May*, when the whole Army retreated to *Point Deschambault*, from thence to *Sorel*. I there got permission of General *Arnold* to return to *Philadelphia*, with assurances of that gentleman's friendship; but through hurry and neglect I declined getting his recommendation, but trust there are gentlemen in this city who will give me the character of a soldier and a gentleman.

I beg, sir, you will lay my situation before the honourable Congress, and in whatever station they are pleased to appoint me, I hope I shall act with honour to my country, and to the satisfaction of that honourable body. Your laying my unfortunate situation before that honourable Board, will do me great honour, and greatly oblige, sir, your Honour's most obedient, most humble servant,  
WILLIAM HOLTON.

#### A DECLARATION

BY THE

REPRESENTATIVES OF THE UNITED STATES OF AMERICA,  
IN GENERAL CONGRESS ASSEMBLED.

When, in the course of human Events, it becomes necessary for one People to dissolve the political bands which have connected them with another, and to assume among the Powers of the Earth the separate and equal Station to which the Laws of Nature and of Nature's God entitle them, a decent Respect to the Opinions of Mankind requires that they should declare the causes which impel them to the Separation.

We hold these Truths to be self-evident, that all Men are created Equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty, and the Pursuit of Happiness—That to secure these Rights, Governments are instituted among men, deriving their just Powers from the Consent of the Governed, that whenever any Form of Government becomes destructive of these Ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its Foundations on such Principles, and organizing its Powers in such Form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient Causes; and accordingly all Experience hath shewn, that Mankind are more disposed to suffer, while Evils are sufferable, than to right themselves by abolishing the Forms to which they are accustomed. But when a long train of Abuses and Usurpations, pursuing invariably the same Object, evinces a Design to reduce them under absolute Despotism, it is their Right, it is their Duty, to throw off such Government, and to provide new Guards for their future Security. Such has been the patient Sufferance of these Colonies; and such is now the Necessity which constrains them to alter their former Systems of Government. The history of the present King of *Great Britain* is a history of repeated Injuries and Usurpations, all having in direct object the establishment of an absolute Tyranny over these States. To prove this, let Facts be submitted to a candid World.

He has refused his assent to Laws the most wholesome and necessary for the publick Good.

He has forbidden his Governours to pass Laws of immediate and pressing Importance, unless suspended in their Operation till his Assent should be obtained; and when so suspended, he has utterly neglected to attend to them.

He has refused to pass other Laws for the accommodation of large Districts of People, unless those People would relinquish the Right of Representation in the Legislature, a Right inestimable to them, and formidable to Tyrants only.

He has called together Legislative Bodies at places unusual, uncomfortable, and distant from the depository of their publick Records, for the sole purpose of fatiguing them into compliance with his measures.

He has dissolved Representative Houses repeatedly, for opposing with manly firmness his invasions on the rights of the People.

He has refused for a long time, after such Dissolutions, to cause others to be elected; whereby the Legislative Powers, incapable of annihilation, have returned to the People

at large for their exercise; the State remaining in the mean time exposed to all the dangers of Invasion from without, and Convulsions within.

He has endeavoured to prevent the Population of these States; for that purpose obstructing the Laws for Naturalization of Foreigners; refusing to pass others to encourage their migrations hither, and raising the conditions of new appropriations of Lands.

He has obstructed the Administration of Justice, by refusing his assent to Laws for establishing Judiciary Powers.

He has made Judges dependent on his Will alone for the tenure of their Offices, and the amount and payment of their Salaries.

He has erected a multitude of new Offices, and sent hither swarms of Officers to harass our People, and eat out their substance.

He has kept among us, in times of Peace, Standing Armies, without the consent of our Legislatures.

He has affected to render the Military independent of and superior to the Civil Power.

He has combined with others to subject us to a Jurisdiction foreign to our Constitution, and unacknowledged by our Laws; giving his assent to their Acts of pretended Legislation:

For quartering large bodies of Armed Troops among us:

For protecting them, by a mock Trial, from Punishment for any Murders which they should commit on the Inhabitants of these States:

For cutting off our Trade with all parts of the World:

For imposing Taxes on us without our consent:

For depriving us, in many cases, of the benefits of Trial by Jury:

For transporting us beyond Seas to be tried for pretended offences:

For abolishing the free system of *English* Laws in a neighbouring Province, establishing therein an arbitrary Government, and enlarging its Boundaries, so as to render it at once an example and fit instrument for introducing the same absolute rule into these Colonies:

For taking away our Charters, abolishing our most valuable Laws, and altering fundamentally the Forms of our Governments:

For suspending our own Legislatures, and declaring themselves invested with power to legislate for us in all cases whatsoever.

He has abdicated Government here, by declaring us out of his protection, and waging war against us.

He has plundered our Seas, ravaged our Coasts, burnt our Towns, and destroyed the Lives of our People.

He is, at this time, transporting large Armies of foreign Mercenaries to complete the works of Death, Desolation, and Tyranny, already begun with circumstances of cruelty and perfidy scarcely paralleled in the most barbarous Ages, and totally unworthy the Head of a civilized Nation.

He has constrained our fellow-citizens taken captive on the high seas to bear arms against their country, to become the executioners of their friends and brethren, or to fall themselves by their hands.

He has excited domestick Insurrections amongst us, and has endeavoured to bring on the inhabitants of our Frontiers, the merciless *Indian* Savages, whose known rule of warfare is an undistinguished destruction of all ages, sexes, and conditions.

In every stage of these Oppressions we have petitioned for redress in the most humble terms: our repeated Petitions have been answered only by repeated Injury. A Prince, whose character is thus marked by every act which may define a Tyrant, is unfit to be the Ruler of a free People.

Nor have we been wanting in attentions to our *British* brethren. We have warned them, from time to time, of attempts by their Legislature to extend an unwarrantable Jurisdiction over us. We have reminded them of the circumstances of our emigration and settlement here. We have appealed to their native justice and magnanimity, and we have conjured them by the ties of our common kindred to disavow these usurpations, which would inevitably interrupt our connections and correspondence. They, too, have been deaf to the voice of justice and of consanguinity. We must, therefore, acquiesce in the necessity which denounces our separation, and hold them, as we hold the rest of mankind, Enemies in war, in peace, friends.

We, therefore, the Representatives of the UNITED STATES OF AMERICA, in GENERAL CONGRESS Assembled, appealing to the Supreme Judge of the World for the Rectitude of our Intentions, do, in the Name, and by the Authority of the good People of these Colonies, solemnly Publish and Declare, That these United Colonies are, and of Right ought to be, FREE AND INDEPENDENT STATES; that they are absolved from all Allegiance to the *British* Crown, and that all political Connection between them and the State of *Great Britain* is, and ought to be, totally dissolved; and that as FREE AND INDEPENDENT STATES, they have full power to levy War, conclude Peace, contract Alliances, establish Commerce, and to do all other Acts and Things which INDEPENDENT STATES may of right do. And for the support of this Declaration, with a firm Reliance on the Protection of divine Providence, we mutually pledge to each other our Lives, our Fortunes, and our sacred Honour.

*Ordered*, That the Declaration be authenticated and printed.

That the Committee appointed to prepare the Declaration superintend and correct the press.

*Resolved*, That copies of the Declaration be sent to the several Assemblies, Conventions, and Committees or Councils of Safety, and to the several Commanding Officers of the Continental Troops; that it be proclaimed in each of the *United States*, and at the head of the Army.

*Ordered*, That Mr. *Morris* and Mr. *Hewes* determine the hire of Mr. *Walker's* Vessel, which was employed by Commodore *Hopkins* in the service of the Continent.

A Letter from General *Washington*, dated *New-York*, July 3d, was laid before Congress, and read:

*Resolved*, That the Delegates of *New-York*, *New-Jersey*, and *Pennsylvania*, be a Committee to confer with the Committee of Safety of *Pennsylvania*, and the Committee of Inspection and Observation for the City and Liberties of *Philadelphia*, and the Field-Officers of the Battalions of the said City and Liberties, on the best means of defending the Colonies of *New-Jersey* and *Pennsylvania*; and that they be empowered to send expresses where necessary.

That the Secret Committee be instructed to order the Flints

belonging to the Continent, and now at *Rhode-Island*, to be sent to the General at *New-York*.

*Resolved*, That Mr. *Wisner* be empowered to send a man, at the publick expense, to *Orange County*, for a sample of Flint-Stone.

The Congress proceeded to the appointment of two Commissioners for *Indian Affairs* in the Middle Department; and, the ballots being taken, *Jasper Yates* and *John Montgomery*, Esquires, were elected.

*Ordered*, That Dr. *Franklin* and Mr. *Wilson* inform the above-named gentlemen of their appointment, and desire them to attend the treaty with the *Indians* at *Pittsburgh*, on the day appointed; and, also, to appoint some persons to procure goods necessary for the *Indians*.

*Resolved*, That to-morrow be assigned for filling up the vacancies in the Committee for *Indian Affairs*.

*Resolved*, That the President be empowered to employ another Private Secretary.

*Resolved*, That the Board of War be empowered to employ such a number of persons as they shall find necessary, to manufacture Flints for the Continent; and, for this purpose, to apply to the respective Assemblies, Conventions, and Councils or Committees of Safety of the *United American States*, or Committees of Inspection of the Counties and Towns thereunto belonging, for the names and places of abode of persons skilled in the manufactory aforesaid, and of the places, in their respective States, where the best Flint-Stones are to be obtained, with samples of the same.

*Resolved*, That an Order for 3 Dollars and 54-90ths, be drawn on the Treasurers, in favour of the Express who brought the Despatches from *Trenton*.

*Resolved*, That Dr. *Franklin*, Mr. *J. Adams*, and Mr. *Jefferson*, be a Committee to prepare a device for a Seal for the *United States of America*.

*Resolved*, That the Secret Committee be directed to sell twenty-five pounds of Powder to *John Garrison*, of *North-Carolina*.

Adjourned to nine o'clock, to-morrow.
